ARCHITECTS' CERTIFICATE.

Gertrude E. Comfort has filed her
 Certificate of Architecture for San
 Francisco County. Filed Oct. 30, 1916

OCTOBER BUILDING PERMITS.

More than one million dollars was
 expended in building construction for
 the month of October, according to a
 report issued by the Board of Public
 Works. These figures being secured
 from the number of Building Permits
 issued by that Department. In all, 542
 permits were granted; 379 of these be-
 ing for alterations to standing struc-
 tures.

The following report is complete, as
 issued by the Department:

Class	No. of Bldgs	Cost
"B"	1	\$ 47,500
"C"	18	290,752
Frames	137	168,854
Alterations	379	156,121
Harbor Buildings	1	69,044
Public Buildings	6	27,893
Total	542	\$1,010,164

ARCHITECTS' CERTIFICATE.

Nov. 3, 1916—Oliver Everett has filed
 his Certificate of Architecture for
 San Francisco County.

MARIN, CONTRA COSTA AND SONOMA COUNTIES

SUBWAY WALKS, ETC.—Cost as follows. Richmond, Contra Costa Co., Cal. Engineer, City Engineer, Richmond. Owners, City of Richmond. Plans for three proposed pedestrian walks through the Macdonald avenue subway at Sixteenth street have been submitted to the Council by the City Engineer. The cost of installing any one of the three walks and widening and paving the subway will be \$19,000. The plans call for either a walk to the north of the subway or one to the south of it. The grade of the walks will be approximately 10 per cent. At the suggestion of the Council the Engineer was instructed to place the plans before the Railroad Commission and the railroad officials relative to certain reinforcements which will have to be placed under the railroad tracks.

BRIDGES.—Reinforced concrete, \$12,500. San Anselmo, Marin Co., Cal. Engineer, City Engineer, San Anselmo. Owners, City of San Anselmo. The following bids were received by the City Trustees for the construction of the Lansdale bridge: C. B. Cowden (bridge complete according to plans), \$13,170. For extra excavation if more were necessary than specified in the prepared plans, \$8 per cubic yard. Macrae & Layaz, for the job \$13,225 with \$5 per cubic yard for extra excavation if necessary. J. D. Hannah, \$14,495 for the job complete. W. C. Duncan & Co., \$14,563 for the job and \$8 per cubic yard for extra excavation. L. A. Hinson, \$12,973 for the job and \$3.50 per cubic yard for extra excavation. All bids were rejected as being too high.

SCHOOLS.—1 story, frame and concrete, \$14,000. Napa, Napa Co., Cal. Architect, L. M. Turton, Napa. Owners, Cameros School District. Will contain one room. Concrete walls. Exterior covered with cement plaster. Plans being prepared.

LOUR MILLS.—Steel and concrete, \$200,000. Vallejo, Solano Co., Cal. Engineer, Maurice Couchot, 110 Sutter street, S. F. Owners, Sperry Flour Co. Work will consist of a new mill building and a warehouse. Further mention will be made of this work as the plans progress.

Contracts Awarded

STREET IMPROVEMENT — \$806.26. Napa, Napa Co., Cal. Engineer, City Engineer, Napa. Owners, City of Napa. Contractor, George E. Errington, East Third street, Napa. Contract price, \$806.26.

chitect, none. Owners, Fryc & Co. Loca-
tion, First avenue and Pike, covering
an area of 110 by 120 feet. Plans com-
plete and work to be done by Day
Labor.

AMERICAN REPRESENTATIVES FOR AMERICAN HOUSES.

BUENOS AIRES, Argentina.—The fact
that during the past year British,
French, Belgian, American, and Ger-
man chambers of commerce have been
organized in Buenos Aires indicates a
tendency on the part of the represen-
tatives of various countries to line up
under their respective merchant flags
in the keen struggle for commerce that
is to take place from now on, and
especially after the termination of the
European war. American exporters and
manufacturers should arrange more
and more for the sale of their products
in this and other foreign markets
through loyal American citizens in-
fluenced and stimulated by considera-
tions of patriotism. This should not be
difficult, in view of the number of
American commission houses already
established in this country, either as
head offices here or as branches of
parent concerns in the United States.
**Energetic and Experienced Americans
in Field.**

There is in Buenos Aires a growing
number of energetic and experienced
Americans who have opened brokerage
and commission offices for import and
export goods in a great variety of lines,
and it would be advisable for our manu-
facturers and exporters to deal with
such agents. It is realized that there
are certain worthy exceptions where
cosmopolitan houses in this city are
doing a splendid trade in American
goods, side by side with similar or dif-
ferent articles imported from other
countries. This is only so because they
are cosmopolitan houses, but even in
such cases the question arises whether
solely American representatives here
would not still be preferable. It is
thought that our manufacturers and ex-
porters can not give too much attention
to this important feature of their for-
eign trade.

FIGURES RECEIVED FOR CONCRETE STACK.

Late Department of Engineering Opens Bids for Work at California School for Deaf and Blind.

(By Special Wire.)

MARTINEZ SCHOOL CONTRACT AWARDED BY BOARD.

One and Two-story Brick Veneer School Will be Built by Philbrick & Colvin of Losi.

(By Special Wire.)
MARTINEZ, Contra Costa Co., Cal., Oct. 30th, 1916. Philbrick & Colvin of Losi were awarded the contract for the one-story brick veneer school, designed by Architects Stone & Wright, Stockton. The bid for the general construction was \$38,657. A complete list of the bids received follows:

Martinez School.	
Grace & Bernieri.....	\$43,943
Philbrick & Colvin.....	38,652
R. W. Moller.....	44,750
Newson & Hemmings.....	44,397
Harvey A. Klyce.....	43,634
Canham & Mulford.....	43,889
Mathew Morton.....	45,775
L. G. Bergren & Son.....	45,972
C. N. Sanford.....	46,501

Ward & Goodwin.....	46,990
J. O. Kuykendall.....	46,982
Macrae & Layman.....	49,471

RECEIVE FIGURES FOR UNIVERSITY WORK.

Exterior Cement Finish for Permanent Chemistry Building Will be Awarded to Leonard Bosch.

Seven bids were opened by the Regents of the University of California at their meeting on November 1st for the cement exterior finish for the east wing of the permanent Chemistry Building, designed by Architect John Galen Howard, 604 Mission street. Leonard Bosch presented the low bid at \$7940 and will probably be awarded the work. Following is a complete list of the bids received:

Cement Exterior Finish.	
William Makin.....	\$12,480
C. C. Morehouse.....	11,528
Greenbank Plastering Co.....	12,225
Nie Mariale.....	16,900
James F. Smith.....	10,750
Leonard Bosch.....	7,940
Hermann Bosch.....	11,620

WATER SYSTEM SOLD.

PLACERVILLE (El Dorado Co.)—The great water system purchased several years ago by the Bea, Tovis and San Francisco-Oakland Terminal Power Company as a possible supply for San Francisco, has been sold by the Placerville Gold Mining Company to the Western States Gas and Electric Company for a consideration said to be over \$100,000. It became known upon the return of President Alexander Baring, who concluded the sale. Deeds are now being drawn.

The system includes the waters of Echo, Silver and Andrange Lakes and the South and Silver forks of the American River, and is one of the largest undeveloped systems in California.

OPPOSE GOOD ROADS SYSTEM.

NEWMAN, Cal.—Merchants of Newman have protested against the routing of the proposed good roads system and will campaign against the bond issue that is to be voted upon shortly, unless the plans provide for a north and south highway. The merchants say that the present plans do not give the west side an even break with the east side in the matter of road building.

BEAUTIFUL SAN GABRIEL RANGE.

The San Gabriel Range, one of the most conspicuous and beautiful ranges of southern California, supplies water for the irrigation of a large part of the foothill valleys. According to the United States Geological Survey, Department of the Interior, the range is a long uplifted fault block—that is, a section of the earth's crust that has been forced up—bordered on the north and south by downthrown areas. On leaving San Bernardino the traveler can view the great mountain amphitheatre, with its numerous ranges and peaks, which lies north of the east end of the San Bernardino Valley. Especially fine views may be had of San Geronimo (altitude 11,185 feet), the highest peak in southern California; San Jacinto (altitude 10,805 feet), standing like a watch tower at the north end of the great range which extends southward for hundreds of miles to the end of Lower California; and San Antonio (sometimes called Mount Baldy; altitude 10,059 feet). San Antonio Peak is the highest summit of the San Gabriel Range, but not the highest mountain in southern California, as many suppose. All three of these peaks may be embraced in a single view. (Santa Fe Guidebook, Superintendent of Documents, Washington, D. C.)

REMARKABLE DIKES OF THE SPANISH PEAKS.

The Spanish Peaks, Colorado, consists of large masses of igneous rocks which were intruded in molten condition into the sandstones and shales at the foot of the Rocky Mountains, according to the United States Geological Survey, Department of the Interior. The east peak is 12,708 feet high and the west peak 12,623 feet. They were called Wahatoya by the Indians and Los Dos Hermanos (the two brothers) by the Spanish. A remarkable feature of this intrusion is the large number of narrow dikes of igneous rocks, mostly branching from the large masses through cracks in the sedimentary strata and extending out in every direction for many miles from the foot of the peaks. At many places, owing to their hardness, they stand above the surface as narrow walls. The sandstones and shales adjoining the larger igneous masses are baked and otherwise altered by the heat of the intrusion and are considerably upturned. Behind the Spanish Peaks rise the main Rocky Mountains, here called Sangre de Cristo Range (sah-n-gray day chisto, Spanish for blood of Christ).

REMOVAL NOTICE.

THE FIBRESTONE & ROOFING CO. is now at 195 Tenth Street, corner of Howard street, San Francisco.

Get their bid before you sub-let for Tile Roofing, Slate Roofing, Felt and Gravel Roofing, Ready Roofing, Mastie Flooring Fibrestone (Magnesite Composition) Flooring.

PREPARE TO ASK FOR MORE BIDS.

HANFORD, Cal.—The County Highway Commission is preparing plans and specifications on which to base requests for bids on some of the county highway units. It is the intention of the board to again advertise for bids for the construction of the unit running north from this city to the Alcorn bridges with three miles into the Excelsior district for which no bids were received on the first advertising.

Another unit for which specifications are in preparation is that running through the Island territory west of Hardwick and north of Lemoore, known as the Browndale unit.

IMPROVED BUSINESS CONDITIONS IN VICTORIA.

Business generally in Victoria this fall is 25 to 100 per cent better than it was this time last year. This is particularly the case with dry-goods houses, men's furnishing shops, and stores that cater to women. The only stores that have experienced little or no increase are those which supply chiefly luxuries, such as jewelry.

The bank clearings of Victoria during the last several weeks have shown a steady and growing increase. For the last few weeks they have been running at about \$1,500,000 a week, which is an increase of \$200,000 to \$500,000 a week over the same period last year.

FOUR PUBLIC SAFETY HEARINGS.

The Industrial Accident Commission has arranged for four Public Safety Hearings in San Francisco, as follows: Window Cleaning Safety Orders, Monday, October 30th; Trench Construction Safety Orders, Tuesday, October 31st; Air Pressure Tank Safety Orders, Wednesday, November 1st; Electrical Utilization Safety Orders, Thursday, November 2nd. These Public Hearings will be held in Room 407 Underwood Building, 325 Market Street, San Francisco, commencing at 10 A. M. for each hearing.

Similar Public Hearings will be held in Los Angeles, as follows: Window Cleaning Safety Orders, Monday, November 13th; Trench Construction Safety Orders, Tuesday, November 14th; Air Pressure Tank Safety Orders, Wednesday, November 15th; Electrical Utilization Safety Orders, Thursday, November 16th. The Public Hearing will be held in Room 405 Union League Bldg., Los Angeles, commencing at 10 A. M. for each hearing.

Committees in San Francisco and Los Angeles have prepared these Tentative Safety Orders, excepting that the Electrical Safety Orders were written

by one general committee on which the southern part of the State had representation. Employers and employees met with delegates from the insurance companies and the Safety Department of the Industrial Accident Commission. In this way all interested had full opportunity of expressing their views.

The Tentative Window Cleaning Safety Orders cover requirements relative to construction of fastenings for use and safety belts, or other means providing for the safety of window cleaners.

There were 6 fatal window cleaning industrial injuries in 1915, 1 permanent injury and 53 temporary injuries. The total compensation for the 7 fatal and permanent injuries was \$5,559.43. Medical payments in these 7 cases amounted to \$239.50.

The Tentative Trench Construction Safety Orders give standards for sheeting, shoring and bracing trenches and define where they will be required.

There were 15 fatal trench construction industrial injuries in 1915, 9 permanent injuries and 546 temporary injuries. The total compensation paid in the 27 fatal and permanent injuries was \$6,854.56. The medical payment amounted to \$1,231.00.

The Tentative Air Pressure Tank Safety Orders provide for biennial inspection of air pressure tanks carrying over 25 pounds per square inch, together with rules designed to bring receiver pressures within safe limits and fixing these by means of limiting factors of safety. They also provide specifications governing the construction of new air tanks, their installation and equipment.

There was 1 fatal air pressure tank industrial injury in 1915, 6 permanent injuries and 343 temporary injuries. The total compensation payments in the 7 fatal and permanent injuries amounted to \$1,801.98 and the total amount expended for medical attention was \$235.20.

The Tentative Electrical Utilization Safety Orders cover safety standards for equipment, storage batteries, transformers, lighting arresters, conductors, switches, fuses, switchboards, motor and motor-driven machinery, are welding, lighting fixtures and signs, portable devices, cables and connectors, etc. The Orders were based on the electrical utilization section of the Proposed National Electrical Safety Code prepared by the U. S. Bureau of Standards.

There were 25 fatal electrical industrial injuries in 1915, 9 permanent injuries and 384 temporary injuries. Total compensation payments made in the 34 fatal and permanent injuries amounted to \$15,175.91 and medical payments in these cases amounted to \$16,629.92.

PAPER FACTORY PROJECT.

ORANGE.—Representatives of a large Eastern concern have been here looking over property with a view to establishing a manufacturing plant. The proposed establishment will consist of a cannery, a creamery and bottling works, besides a new patented proposition to convert orange pulp into paper pulp, which will be tried out.

Conditions in these two South American countries are described, and facts relating to their hardware markets are

given in the first of a series of publications from the Bureau of Foreign and Domestic Commerce, based on the recent world-wide investigation of hardware markets by the American commercial attaches. The reports have been prepared under the direction of the attaches, but the technical information was collected by specially engaged experts in each country. In addition to the written reports thousands of dollars' worth of samples were forwarded to the United States and have already been exhibited in the principal American hardware centers. They now form a part of the Bureau's permanent exhibit in New York City. This investigation is the first of a number of far-reaching, concerted studies to be undertaken by the attaché service to assist American manufacturers in capturing foreign markets.

Imports of Chile and Bolivia.

The report on Chile and Bolivia was prepared under the direction of Commercial Attaché Verne L. Havens, who has his headquarters at Santiago, Chile. During the normal year 1913-14 Chile imported a total of \$2,750,000 worth of hardware. Germany led all competitors as a source of supply with a total of \$1,487,000 worth. England was second with \$999,000 worth, and the United States was third with \$654,812 worth. It is an interesting fact that Belgium sold \$200,000 worth of hardware to Chile in 1914, a decided gain over its previous showing. In 1913 Bolivia imported hardware valued at \$2,500,000, and at that time German manufacturers easily controlled the market.

The report not only discusses general conditions in the two countries, but takes up in detail each article of hardware, describes the design most in favor, and endeavors to account for its popularity. The work is entitled "Markets for American Hardware in Chile and Bolivia," Miscellaneous Series No. 41. In all there are 190 pages, including 12 illustrations of hardware articles in common use in the countries dealt with. Copies may be had at 25 cents each from the Superintendent of Documents, Washington, D. C., or from the district offices of the Bureau of Foreign and Domestic Commerce.

STATEMENT BY JOHN FRANCIS NEYLAN.

Chairman, State Board of Control.

I am conscious of the fact that political prophecies rarely carry any weight for the reason that in the nature of things the partisan spirit of the prophet tends to color his view. Therefore, not as a prophecy but merely as an expression of individual opinion, after having covered practically every town in southern California and along the Coast and after noting reports from the northern counties, I am of the opinion that Governor Johnson will be elected United States Senator by not less than 200,000 majority.

The indicated sweep is so tremendous in those sections in which I have been that the UNANIMOUS movement seems to have caught on very readily.

The impression I have received in every single community in which I have been has been that regardless of partisan feeling the people of California

want to send to the Senate the man whom they believe to be the ablest son California has ever produced.

The vital interest of California in the Japanese immigration question which will press for solution in the next year and a half, or equally vital interest in tariff protection of industries, or interest in defense for the Pacific Coast, or interest in a national budget system as against the Pork Barrel system of making national appropriations, have all conspired to make it apparent that California must have at the Nation's Capital the ablest advocate she can send there.

The people are fully alive to the fact that Governor Johnson will go to the United States Senate probably the best equipped man who ever entered that body because of his experience during the past six years in solving all the problems which have confronted California. They realize in addition that he would command the attention of the United States Senate from the day he entered there for the reason that he is a national figure.

They realize that Hiram Johnson is not only known to every man, woman and child in California but that millions of people throughout the United States believe him to be one of the great Americans of our present political era. With such standing he has the ability to bring the problems of California to the attention not only of the United States Senate but to the attention of the entire Nation.

Californians, regardless of political affiliation, seem to realize that through Governor Johnson we have an opportunity, for the first time in the history of the Nation, to have the full weight of the Pacific Coast felt in the settlement of national affairs.

There is not the slightest doubt in my mind that Governor Johnson is going to receive a greater vote than he received in 1914 when he was re-elected by a plurality of 159,000.

LITTLE KNOWN FOREST PRODUCTS WIDELY USED.

WASHINGTON, October 23.—In addition to the ordinary uses of wood with which we are familiar, mankind is dependent upon the forest for a variety of products whose appearance does not indicate their origin, say members of the Forest Service. Numerous as these products are, and as extensive as is their use at the present time, science is constantly learning new constituents which enter into the makeup of wood and is finding new uses to which these constituents and those already known can be put. Powder for munitions or blasting, disinfectants for protection against contagious diseases, and artificial silk for clothing are among the products obtained in whole or in part from wood.

Charcoal, as everyone knows, is essential for the manufacture of black powder. All of the acetone used as a solvent in making nitro-cellulose powders is derived from acetic acid, a product of hardwood distillation. Great Britain, it is said, is dependent upon the United States for acetone used in making cordite. Black walnut is a

standard for gunstocks, and has been so much in demand for the past two years that our supply of this valuable wood has been considerably reduced and other woods, notable birch, are being substituted. From Europe comes the complaint that there is a shortage of willow for making wooden legs.

Pure wood alcohol is the only substance which can be converted commercially into formaldehyde, which is universally used for disinfection against such contagious diseases as smallpox, scarlet fever, and tuberculosis. The experts at the Forest Products Laboratory have conducted extensive experiments on the production of grain or ethyl alcohol from wood and have been successful in experimental work in raising the yield and lowering the cost of production. If this process can be put on a commercial basis, the foresters say, it will result in putting the millions of tons of coniferous sawdust and other material which is now wasted every year to a profitable use.

By converting cellulose, one of the elements of wood, into a gelatinous material, known as viscose, a wide field is opened up for the utilization of wood waste, and a new line of products, varying all the way from sausage casings to tapestry, is added to the already lengthy list. Many of the so-called "silk" socks, neckties and fancy hosiery now on the market contain artificial silk made from wood.

About nine-tenths of all paper which we use is made from wood. Besides the detailed investigations of the methods of making newsprint paper, and of the production of paper from woods hitherto unused for that purpose, which have been conducted, kraft paper, which compares favorably with the best on the market, has been produced experimentally at the Forest Products Laboratory from longleaf-pine mill-waste. This kraft paper is brown in color and is very much stronger than ordinary papers. It is used for a variety of purposes, and, cut into strips, is spun or twisted into thread which is then woven into onion and coffee bags, matting, suitcases and wall covering, similar to burlap, and furniture closely resembling that made from reeds, as well as other articles of common use.

Within the past year the Forest Products Laboratory has, by co-operating with manufacturers, succeeded in getting a dye made from mill waste of osage orange put on the market as a substitute for fustic, which we import from Jamaica and Tehuantepec.

These are only a few example of the various lines of work carried on at the Forest Products Laboratory, say the men in charge. Other activities, ranging all the way from the study of decay in wood to that of the resistance of wood to fire, are in progress, and new discoveries are constantly being made. Incidentally, the Forest Products Laboratory, at Madison, Wisconsin, was the first of its kind in the world and is probably still the best equipped. With the possible exception of Germany, no other country has done as much as the United States systematically to investigate the possibilities of its forest resources.

BOGOTA PLANS STREET IMPROVEMENTS.

It is reported that the municipality of Bogota, Colombia, is studying a project of street sanitation which involves the expenditure of about \$2,500, United States currency, for the purchase of garbage carts. The municipal government is interesting itself also in leasing a small asphalt plant, planning to use the product for the paving of those streets the residents of which will defray 50 per cent of the cost of such work in front of their respective holdings.

Correspondence regarding garbage carts should be addressed to the Administrator de Aseo Publico, Bogota, Colombia, while communications concerning street-paving machinery and implements should be sent to the Ingeniero Municipal. Both officials should be addressed in Spanish.

TEN MILES OF SHIPS USED THE PANAMA CANAL IN JULY.

In the Panama Canal Record for October 11 an interesting computation is published to show that the aggregate length of the 149 ships passing through the canal in July last was 55,905 feet, or approximately 10.2 miles. The average length of the vessels was 260.92 feet and the average draft was 20.9 feet. The vessel having the largest draft was the *Ohioan*, drawing 29.4 feet, and the vessel having the smallest draft was the *Panama Railroad barge No. 71*, which draws only 2 feet. The vessel having the greatest length were the *Siberia* and the *Korea*, each 552 feet long, and the vessel having the least length was the *Sir Francis*, 32 feet.

The first Spanish vessel to make use of the Panama Canal, states the Panama Canal Record, was the *Carlos* of Bilbao, which entered from Cristobal on September 21 in passage from Norfolk to McJillones with 3,291 tons of coal. A second Spanish ship, the *Barroto*, went through on the same routing on September 30.

UNITED STATES CIVIL SERVICE EXAMINATION.

MECHANICAL DRAFTSMAN (MALE).

Office of the Chief of Ordnance, War Department.

November 28, 1916.

The United States Civil Service Commission announces an open competitive examination for mechanical draftsmen, men only. From the results of the examination resulting from this examination certification will be made to fill vacancies as they may occur in this position in the office of the Chief of Ordnance, War Department, Washington, D. C., at entrance salaries ranging from \$1,000 to \$1,200 a year, and in positions in that office requiring similar qualifications, unless it is found to be necessary in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

Competitors will not be assembled for examination, but will be rated on the following subjects, which will have the relative weights indicated:

Subjects.	Weights.
1. General education	20
2. Technical education and experience	60
3. Practical tests rated on work submitted	20
Total	100

Persons who meet the requirements and desire this examination, should at once apply for Form 1312, stating the title of the examination desired, to the United States Civil Service Commission, Washington, D. C.; or the Secretary of the United States Civil Service Board, Post Office Bldg., San Francisco. Applications should be properly executed, excluding the medical certificate, and must be filed with the Commission at Washington, with the material required, prior to the hour of closing business on November 28, 1916.

THE LOST IDEALS.

From the Detroit Free Press.

He was a man of splendid thoughts and visions clear and true,
He loved his City and his State, he loved his country too;
With shoulders square and head erect he walked from day to day,
The best in life was what he hoped to find along the way.

Within the circle of his friends he talked of higher things,
The pride of honor and the joy that decent living brings;
The evil in the lives of men for him had little charm,
He taught his children what was good and shielded them from harm.

His views on all a citizen should be were clear and fine,
He loved his country's flag and all the stars that on it shine.
But lost were all his high ideals, to naught did they amount,
For he forgot to register, and his vote doesn't count.

CONSTRUCTION WORK ABROAD

CANADA.

[Consul W. E. Alger, Fernie, British Columbia, Oct. 19.]

New Stamp Mill at Nelson.

The establishment of a customs stamp mill at Nelson, in the Fernie consular district, now seems assured. It is the intention to build a gold stamp mill with cyanide equipment. This would be advantageous, as it would provide a means of treating ore taken out during development work which does not run high enough to justify shipment to a smelter.

CHILE.

[Ambassador Joseph H. Shea, Santiago, September 19.]

Antofagasta Port-Works Law.

The law which provides for the construction of port works at Antofagasta was promulgated in the *Diario Oficial* of September 8. The cost of the works is limited to £1,700,000 sterling (\$8,278,000), and by the act of the President of the Republic is authorized to procure the funds in one of several ways—but it is generally believed it will be necessary to contract a loan for the entire amount. The rate of interest to be paid on the loan is fixed at 6 per cent and the amortization at not to exceed 2 per cent.

The law [a translation of which will be loaned to those interested by the Bureau of Foreign and Domestic Commerce, Washington, upon referring to file No. 51325] also stipulates that bids for the works shall be asked for in Chile, Europe, and the United States within three years.

JAPAN.

[British (Government) Board of Trade Journal, Oct. 5.]

New Railways and Harbor Works in Hokkaido.

At the end of 1915 the extent of railways in the Hokkaido was 878 miles of single track and 66 miles of double track. The chief work done during the year was the opening to traffic of 7½ miles of new single track north of Shimo-ikutabara, on the line to Yubetsu, and the double-tracking of 9½ miles on the Yuhari branch line. It is intended to complete another 1½ miles of single track on the line to Wakkana and the remaining 10 miles of the line to Yubetsu. In addition, construction work will be carried out on a further 6 miles of the former of these two railways and on the first 30 miles of the track that will eventually link up Kusture with Nemuro.

Plans have been approved for a four years' program of harbor works at the port of Aomori. The plans are for two detached breakwaters, two moles, and a quay. The entire works are to cost about \$750,000, and are being undertaken by the prefectural government, aided by a subsidy from the Imperial Treasury. The absence of any protection against northerly winds has long been a source of great inconvenience at this port, as communication between ships and the shore is often dangerous and sometimes impossible in winter.

CONSTRUCTION WORK ABROAD.

HONOLULU.

Bids for three residences costing \$37,000 will be opened soon, but as the plans are not yet completed, Architects Ripley & Davis, of Honolulu, would not give out the names of the owners.

Because business has increased to such an extent during the past year Wing Wo Tai & Company plans to erect a new two-story business block with a basement on Nuanu street near King and plans for this building are now being drawn by Architects Emory & Webb, Honolulu. The building is to be constructed of stone with a plaster finish and contain all modern improvements throughout.

The bids for the Ehlers building call for the addition of another story, the extension back of the store 40 feet and a beautiful new front, making the store one of the finest in Honolulu.

PASSENGERS FROM ARGENTINA USE PANAMA CANAL.

[Panama Canal Record, Oct. 4.]

Increasing numbers of persons bound from Argentina, notably Buenos Aires, for the United States are making the voyage by way of the Panama Canal. They go to Valparaiso over the Trans-andean Railway and embark there for the Canal Zone on one of the two lines plying between Chile and the Atlantic terminus of the Canal. The voyage to Balboa takes about 15 days, and close connections are usually made on the Isthmus with ships for the United States, which are at sea from five to eight days.

Two of the steamship lines which are interested in this traffic have agencies in Argentina. The distance from Valparaiso to New York, sailing direct to and from the canal, is 4,633 nautical miles, of which 1,970 miles are on the

Atlantic. From Buenos Aires to New York direct is 5,871 miles, via Montevideo, Rio de Janeiro, Bahia, and Pernambuco, 6,004 miles. The railway journey from Buenos Aires to Valparaiso requires about a day and a half; in the winter the trains are frequently delayed by snows.

REDDING MAY BUILD NEW WATER SYSTEM.

REDDING, Cal.—The City Trustees are investigating the possibility of establishing a new city water system, the source of supply to be the waters of Brandy Creek, near Whiskytown, accompanied by H. H. Henderson, engineer for the Anderson-Cottonwood Irrigation District, they visited Brandy Creek at a point fourteen miles from Redding.

Years ago a company was formed to bring water to Redding from Brandy Creek. New York capital was interested and work was actually begun on a long tunnel. Assessment work was kept up several years in an effort to keep the project alive. Owing to the fact that the McCormick-Saeltzer and their interests had filed prior water rights, the project was finally given up.

DEPARTMENT OF THE INTERIOR.

BUREAU OF MINES.

New Publications. (List 47.—Oct., 1916) BULLETINS.

Bulletin 108. Melting aluminum pipes, by H. W. Gillett and G. M. James, 1916. 88 pp.

Bulletin 126. Abstracts of current decisions on mines and mining, reported from January to April, 1916, by J. V. Thompson. 1916. 90pp.

Bulletin 134. The use of mud-laden fluid in oil and gas wells, by J. O. Lewis and W. F. McMurray. 1916. 86 pp., 3 pls., 18 figs.

TECHNICAL PAPERS.

Technical Paper 130. Underground waste in oil and gas fields and methods of prevention by W. F. McMurray and J. O. Lewis. 1916. 28 pp., 1 pl., 8 figs.

Technical Paper 136. Safe practice at blast furnaces: a manual for foremen and men, by F. H. Wilcox. 1916. 73 pp., 1 pl., 43 figs.

Technical Paper 146. The nitration of toluene, by E. J. Hoffman. 1916. 32 pp.

Technical Paper 157. A method for measuring the viscosity of blast-furnace slag at high temperatures, by A. L. Feild. 1916. 29 pp., 7 figs.

NOTE:—Only a limited supply of these publications is available for free distribution, and applicants are asked to co-operate in insuring an equitable distribution by selecting publications that are of especial interest. Requests for all papers can not be granted. Publications should be ordered by number and title. Applications should be addressed to the Director of the Bureau of Mines, Washington, D. C.

MAKING PIPE FOR SEWER SYSTEM.

FRESNO, Cal.—Pipe is now being manufactured on the Santa Fe reservation for Fresno's new sanitary sewer system, and the first of the pipe will be laid in a few days. About 5000 feet of trenches have been dug by the Coast Construction Company, the successful bidders, near the sewer farm. Excavation and the laying of pipes will be started on a big scale soon.

Associated Catalogues.

Here is where the Architect usually files the circulars, catalogues, announcements, etc., that come to his office. He can't take care of them. There are too many of them.

the Remedy:

Associated Catalogues is a collection of catalogues of Building Materials, Building Equipment and Building Machinery available on the Pacific Coast, bound in one volume, thoroughly indexed for instant reference for Architects use.

Every Architect, Consulting Engineer and Large Corporation Purchasing Agent on the Pacific Coast will receive a copy Free. When

Size of pages, 11x14 inches.

the Architect is preparing his plans and specifications, he wants to know how to specify your goods. It's up to you, Mr. Dealer, to make it easy to specify your products.

Associated Catalogues presents the solution. Price per page \$30.00. Send for specimen pages.

TO SELECT ARCHITECT FOR AUSTRALIAN BUILDING.

A copy of the program for the international competition to select an architect for the Federal Parliament House at the new capital city of Canberra in Australia has been forwarded from Sydney by Consul General J. I. Brittain. The Government has resumed the competition, and extended the date for receiving the designs in either London or Melbourne from March 31, 1915, to January 31, 1917. The Federal Capital Director of Design and Construction is Walter Burley Griffin, whose address is Department of Home Affairs, Federal Capital Office, 81 William Street, Melbourne, Victoria. A copy of the pamphlet giving full details of the competition may be inspected at the Bureau of Foreign and Domestic Commerce or its district offices. Refer to file No. 81211.

SOUTHERN PACIFIC BUILDING PERMIT ISSUED.

Paying a fee of \$152, Contractors Lindgren & Co., Monadnock Bldg., were granted the building permit for the erection of the new Southern Pacific Building, now under construction on the south line of Market street, between Stuart and Spear streets. The estimate cost of the structure, as filed with the Board of Public Works, is \$1,000,000. A permit for the foundation was issued separately and for which a fee of \$112 was paid, the approximate cost being \$200,000. Plans for the building were designed by Architects Bliss & Faville, Balboa Bldg.

SAYS QUEER BIRD, THE ROADRUNNER, IS FRIEND NOT ENEMY OF MAN.

A slandered reputation has been redeemed. The Roadrunner, one of the queerest and most interesting of the birds of California, has now been declared by the University of California to be a friend and not an enemy of man.

This picturesque bird, which can run as fast as a horse, has in the past been accused of destroying the eggs and young of the quail. Dr. Harold C. Bryant, Economic Ornithologist of the University of California Museum of Vertebrate Zoology, tells in an illustrated paper on "Habitats and Food of the Roadrunner in California" just published by the University, how he has resumed the reputation of the roadrunner.

Eighty-four stomachs of roadrunners were collected in Southern California during eleven different months for the California Fish and Game Commission, and the contents examined by Dr. Bryant. This search, and extensive inquiry, failed to find any evidence that the roadrunner destroys the eggs of other birds. It was found that 90 per cent of the contents of these eighty-four stomachs were insects and other animal matter, and only ten per cent vegetable material, nearly all of that being fruit and seeds of the "sourberry," with some cactus seeds, grasshoppers and crickets made up 27 per cent of the food, beetles 18, and cutworms and caterpillars 7 per cent and there were lesser quantities of cicadas, ants, bees, and wasps, while scorpions made nearly four per cent of the food. Spiders, tarantulas, and centipedes too had been devoured.

It takes early two quarts of food a week to satisfy a roadrunner's appetite. Here is what Dr. Bryant found in the stomach of a single bird: two sunflower seeds and one other seed, two blades of grass, seventeen beetles of four different species, eight wireworms, twelve grasshoppers, one potato bug, nine other bugs of two species, a spider, egg-eater, a scorpion, and a lizard.

Astonishing feats of swallowing are performed by the roadrunner. It destroys more hairy caterpillars than any other California bird even the woollybear caterpillar, which few other birds will tackle. One roadrunner was found which had swallowed a horned toad an inch wide, another whose stomach contained four full-sized whiptailed lizards. One taken in Arizona contained a quarter snake twenty inches long, and a California roadrunner several young rattlesnakes. With this highly spiced diet, the roadrunner seems to need little water, thriving on the hottest deserts, and in captivity rarely drinking more than twice a week, and never taking a bath except in dust.

A thorny shrub or a cactus is the home selected by the roadrunner for its nest, and it hops nimbly from limb to limb

of a thorny bush. Husband and wife take turns covering the eggs. From three to nine eggs are laid, at intervals of several days, but incubation begins when the first eggs are laid. William L. Finley, the naturalist, a graduate of the University of California in 1902, and his wife, well known to the bird-life, describe a single nest in Arizona which contained one incubated, one egg just ready to hatch, two other eggs, grayish, black, and light, and two young roadrunners, and two young ones about ready to leave the nest.

Most of the California roadrunners dwell in desert regions, far from the homes of man. While many song-birds have a range of but a few acres, the roadrunner has a range of many miles. Bryant thinks that the roadrunners in California are comparatively few in number, and even in desert regions, where they are most abundant, do not exceed ten or twelve to the square mile. In the days in California the bird was often about the house and garden and acted as a destroyer of insects and mice, and people found it a most amusing and interesting pet.

It is to the interest of every citizen of California," concludes Dr. Bryant, "to protect carefully this most curious and interesting bird."

IMPORTS OF HARDWARE INTO FOREIGN COUNTRIES.

Statistics were recently compiled at the Bureau of Foreign and Domestic Commerce from the official returns of the respective countries, showing the imports of certain kinds of hardware into British India, Japan, China, Straits Settlements, Federated Malay States, Siam, Ceylon, and Chosen, and the principal countries of origin. These statistics can be examined at the bureau, Custom House, San Francisco, Refer to file No. 162.

OFFICERS NAMED BY THE ROAD BUILDERS.

NEW YORK—Arthur W. Dean, Chief Engineer of the Massachusetts Highways Commission, has been elected President of the American Road Builders' Association. William H. Cannel, Chief of the Bureau of Highways of Philadelphia, was elected First Vice President. Austin B. Fletcher, State Highway Engineer of California, Second Vice President; E. L. Bowers, Editor of Good Roads, Secretary, and W. W. Crosby of Baltimore, Treasurer.

MODESTO VOTERS FAVOR \$1,500,000 ROAD BONDS.

MODESTO, Cal.—Good roads bonds to the \$1,500,000 have been voted by citizens of Stanislaus county, and 126 miles of concrete roadbed will be constructed.

ADVANCE CONSTRUCTION NEWS.

SAN FRANCISCO. Apartment house, 1 story and base, frame, \$20,000. Architect, J. P. Dunn, Monmouth Bldg., S. F. Owner's name not given. Contractor, Fred L. Hansen, 609 Mission street, S. F. Contract price, \$20,000.

PORTERVILLE, TULARE CO., CAL. Apartment house, 2 story, brick, \$25,000. Architect, F. H. Gentry, Union Oil Bldg., L. A. Owner, Dr. C. E. Smith. Contractor, A. Knudsen, Marsh-Strong Bldg., L. A. Contract price, \$25,000.

BARRACKS.

LOS ANGELES, CAL. Barracks, 2 story and base, brick and concrete. Cost not stated. Architect, Theo. A. Elsen & Son, Wilcox Bldg., L. A. Owners, Non-Commissioned Officers' Volunteer League of America. Location, 23rd street between Maple and San Pedro, covering an area of 144 by 105 feet. Plans being prepared.

BONDS

COALINGA, FRESNO CO., CAL.—The bond issue for \$100,000 for the acquisition, construction and completion of the water works system, carried by a large majority. It is now up to the City Trustees to either purchase the present system, known as the Pleasant Valley Water Company, or construct a new system.

POMONA, LOS ANGELES CO., CAL.—The City Council has appointed a committee of five citizens to secure signatures to a petition for a \$200,000 bond issue for street improvements and drainage work.

MODESTO, STANISLAUS CO., CAL.—A bond issue of \$1,182,000 for construction of a county highway system, com-

prising 125 miles of concrete paved roads, has been carried.

CALIFORNIA.—A State highway bond issue of \$15,000,000 for completion of the highway system has been carried by a large majority.

YUBA CITY, SUTTER CO., CAL.—A bond issue of \$200,000 for construction of four bridges in different parts of the county has been defeated, while the issue providing \$20,000 for a county hospital building carried.

SUNNYVALE, SANTA CLARA CO., CAL.—At the last meeting of the Town Trustees an ordinance calling for a bond election for municipal improvements was given its second reading and adopted. The ordinance provides that a special election be held for the purpose of submitting to the voters, bond propositions amounting to \$20,000. This is for improvements, etc., to the water system, \$15,000; the purchase of land for municipal buildings, \$1,000; the completion of town hall, \$1,000; the construction of a fire engine and hose house, etc., \$1,000. The date of the election is November 21st.

CHOWCHILLA, MADERA CO., CAL.—The \$50,000 bond issue for a new school building carried, and an architect will be selected shortly to prepare plans for the structure.

REDDING, SHASTA CO., CAL. Several prominent business men have decided to form a \$25,000 corporation for the purpose of erecting a big brick building and operating a steam laundry. The directors are as follows: President, W. H. Bergh, Vice-President, E. J. Johnson, Secretary, Jesse W. Carter, Treasurer, D. B. Nathan; E. K. Johnson, W. H. Glover, C. C. Dakin.

YRKA, SISKIYOU CO., CAL.—The \$80,000 bond issue for a new school to replace that recently destroyed by fire, failed to carry.

MERCED, MERCED CO., CAL.—The Railroad Commission has instructed the Santa Fe Railroad to erect a new depot building at Merced.

MODESTO, STANISLAUS CO., CAL. Bids for the purchase of the \$165,000 bond issue of the Waterford Irrigation District have been received by the directors and have been taken under advisement.

VENTURA, VENTURA CO., CAL.—A San Francisco bank has purchased the \$150,000 county highway bonds, they offering a premium of \$15,975. The sale of the bonds is conditional upon the building of the road from Santa Paula to Ventura.

BRIDGES, DAMS AND HARBOR WORK

SEATTLE, WASH.—Pier, 1 story, steel and corrugated iron. Cost not stated. Engineer, Blackwell & Baker, Northern Bank Bldg., Seattle. Owners, Galbraith, Bacon Co. Location, foot of Wall street. Will cover an area of 138 by 700 feet. Plans being prepared.

VENTURA, VENTURA CO., CAL.—Bridges, 2, reinforced concrete. Cost

not stated. Engineer, County Surveyor Ventura. Owners, Ventura County. Bids will be received by the Board of Supervisors up to 2 p. m. of November 27th for the construction of two reinforced concrete bridges on Johnson road. The work involves the following quantities: 100 cubic yards concrete, 3,000 pounds reinforcing steel, 500 cubic yards earthwork, 216 linear feet guard fence, 14 feet, B. M. timber in bulk, 2 cubic yards grouted boulders, 170 pounds steel in rods and washers.

RICHMOND, CONTRA COSTA CO., CAL.—Harbor extension, \$55,000. Engineers, Hayland & Tibbets, Alaska Commercial Bldg., S. F. Owners, City of Richmond. Plans have been completed for additional work in connection with the Richmond inner harbor project, and the City Council will shortly call for bids. This work consists of a clay and rock fill of approximately 1500 feet, and suction dredger work.

CHURCHES.

Contracts Awarded

SANTA CLARA, SANTA CLARA CO., CAL.—Convent, 2 story and base, brick and frame, \$102,700. Architects, Maginnis & Walsh, Boston. Owners, Carmelite Sisters. Contractors, Larsen-Sampson Co., Crocker Bldg., S. F. Contract price, \$102,700.

COURT HOUSES.

Contracts Awarded.

SAN RAFAEL, MARIN CO., CAL.—Court house heating, \$675. Architect none. Owners, Marin County. Contractors, Jarvis Co., 275 Connecticut street, S. F. Contract price, \$675.

VAN NUYS, LOS ANGELES CO., CAL. City hall, 2 story and base, brick, \$24,100. Architect, J. J. Backus, L. A. Owners, City of Los Angeles. Contractors, The Wildey Co., Black Bldg., L. A. Contract price, \$24,000.

FACTORIES AND WAREHOUSES

EMERYVILLE, ALAMEDA CO., CAL.—Factory, 1 story, brick, \$10,000. Architects, Richardson & Burrell, Albany Bldg., Oakland. Owner, J. A. Muller. Will cover a considerable ground area. Plans complete and owner taking figures.

OAKLAND, CAL.—Machine shop, 1 story, brick, \$6,000. Architect Charles W. McCall, Central Bank Bldg., Oakland. Owner's name withheld. Location, Broadway near 29th street. Will cover an area of 15 by 120 feet. Plans being prepared.

REDDING, SHASTA CO., CAL.—Laundry, 1 story and base, reinforced concrete, \$15,000. Architect, C. C. Dakin. Redding. Owners, William H. Bergh and I. J. Johnson. Location, Placer and Railroad avenue. Will cover an area of 40 by 80 feet. Plans nearly complete and figures to be taken shortly.

LOS ANGELES, CAL.—Factory, 2 story and base, brick. Cost not stated.

Architect, Richard D. King, Van Nuys Bldg., L. A. Owners, R. W. Pridham Co. Location, North Alameda street near Naud Junction. Will cover an area of 200 by 300 feet. Plans complete and figures being taken.

FIRE HOUSES AND JAILS

SAN RAFAEL, MARIN CO., CAL.—Fire house, 1 story, frame and concrete, \$12,000. Architects, Maston & Lobet, San Rafael. Owners, City of San Rafael. Will contain apparatus room and living quarters. Plans being prepared.

FLATS

SAN FRANCISCO—Flat alterations. Cost not stated. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner, P. Kinslow. Location, 1150 Clay street. Work will consist of new entrance vestibule, marble and tile work and electric work. Plans complete and figures being taken.

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$5,000 each. Architect, none. Owner, H. C. Keenan, 300 Webster street, S. F. Location, west 18th avenue north Ana. Each building will contain two modern flats and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$5,000. Architects, Foulkes & Hildebrand, Crocker Bldg., S. F. Owner, Mrs. Nichols. Location, north Tolson between 6th and 7th streets. Will contain store on first floor and a live-room flat above. Plans complete and figures being taken.

SAN FRANCISCO—Flats, 2, 2 story and base, frame, \$6,700 each. Architect, none. Owner, W. W. Rednall, 500 Filbert street, S. F. Location, east Baker, south Filbert, covering an area of 25 by 60 feet. Each building will contain two flats of five and six rooms and basement garage. Plans complete and work to be done by Day Labor.

GOVERNMENT WORK & SUPPLIES

Portland, Ore., Mechanical Equipment.

As previously reported, the contract for installing mechanical equipment in the U. S. post office at Portland, Ore., was awarded to J. F. Shea, Portland, Ore., \$76,138. Time to complete, 22 months. In the prosecution of the work, fixtures and material manufactured by the following firms will be used: Plumbing fixtures, Federal-Huber Co.; centrifugal drainage pump, Leomans Brothers; motors for drainage pumps, Westinghouse; motor for rheostat, do; cellar drainer, Penberthy; thermostat traps, C. A. Dunham Co.; oil burning apparatus, Fess System; radiators, U. S. Radiator Corporation; air exhausting pump, Consolidated Engineering Co.; radiator valves, Kennedy; air valves for radiators, etc., C. A. Dunham Co.; air valves for fan coils, do; fan, Buffalo Forge Co.; fan motor, Westinghouse Electric & Mfg. Co.; fan motor rheostat, do; air washer, Carrier Air Conditioning Co.; air washer pump, Buffalo Steam Pump Co.; air washer pump motor rheostat, do; air valves for team mains, C. A. Dunham; exhaust fan (heating), Buffalo Forge Co.; exhaust fan motor Westinghouse; exhaust fan motor rheostat, do; cabinet and tablet, N. E. Page McKenna Co.; conduit, National Metal Molding Co.; rubber covered wire, Simplex; flush switches and switch plates, Hart &

Hegeman, plan to replace, Harvey Hubbell, Inc.; floor boxes, Steel City Electric Co.

Hilo, H. T., Benches, Etc.

The contract for installing court room benches and routing cases in the U. S. public building at Hilo, H. T., has been awarded to McGuire Cabinet Co., at \$1,206.

Transportation of Coal.

The following bids were received at the bureau of supplies and accounts, Navy Department, Washington, D. C., for the transportation of 1 to 2 cargoes of coal of about 5,000 to 7,000 tons each from Hampton Roads, Va., to the naval coal depots at Tiburon, Cal., San Diego, Cal., or the navy yard, Puget Sound, Wash.:

J. N. Weston Co., Bourse Building Philadelphia, Pa., 126,000 tons, \$6.60 to Tiburon and San Diego; \$6.90 to Puget Sound.

Hilo, H. T., Chairs.

The contract for installing 85 chairs in the U. S. public building at Hilo, H. T., has been awarded to Wollenger Mfg. Co., at \$783.30.

Drag Line Excavator.

Abstract of proposals, dragline excavator, 50 ft boom, 7½ c y bucket, caterpillar traction, spec. 351, bids opened at Denver, Colo.:

Bid 1, Bucyrus Company, South Milwaukee, Wis.

2, Lidgerwood Manufacturing Co., Chicago, Ill.

For 1 machine, 2 machines, 3 machines, or 4 machines.

Steam driven, boiler equipped for oil fuel—Bid 1, \$13,325, \$26,650, \$29,975, \$53,300; bid 2, \$16,300, \$32,500, \$18,000, \$63,600.

Steam driven, boiler equipped for semi-lignite coal—Bid 1, \$13,325, \$26,650, \$29,975, \$53,300; bid 2, \$16,300, \$32,500, \$18,000, \$63,600.

Distillate driven—Bid 1, \$15,000, \$20,000, \$15,000, \$60,000; bid 2, \$16,900, \$23,500, \$19,500, \$66,000.

Gasoline driven—Bid 1, \$14,950, \$29,900, \$14,950, \$39,800; bid 2, \$16,900, \$23,500, \$19,500, \$66,000.

Kerosene driven—Bid 1, \$15,000, \$20,000, \$15,000, \$60,000; bid 2, \$16,900, \$23,500, \$19,500, \$66,000.

1½ k. w. steam driven electric generator set—Bid 1, (A), \$215, (B), \$245; bid 2, \$325.

1½ k. w. electric generator, internal combustion driven (separate), or main engine connection with storage battery—Bid 1, (C), \$310, (D), \$150, (E), \$365, (F), \$550; bid 2, \$350.

Erecting engineer—Bid 1, \$7 per day and expenses; bid 2, \$7 per day and expenses.

SAN FRANCISCO, CAL.—The Constructing Quartermaster at Fort Mason has been instructed by the Attorney General at Washington to reject all bids received for the improvement to the Lobos Creek water supply. The Attorney General has refused to accept the title to certain lands involved in the project and which were sold to the Government by the Spring Valley Water Co. New bids will be called for when the title has been cleared.

The Angel Island rock quarry is to be put in operation with civilian labor, and about 14,000 is available for

work. The bids are complete and will be called for about Nov. 15. The contract for the road system at Fort Miles, Cal., for compactors, rollers, etc., and drills, to be used at Fort Ord, Cal., has been awarded to the Pacific Rock Drill Co. Work on the road has been started.

MODOTA, SOLANO CO., CAL.—Steel building, 2 story, reinforced concrete, \$20,000. Architect, Chester H. Allen, First National Bank Bldg., Oakland. Owners, United States Government. Will cover an area of 50 by 175 feet. Plans complete and figures being taken.

HALLS AND SOCIETY BUILDINGS.

FRESNO, FRESNO CO., CAL.—Lodge hall, 3 story and base, Class A construction, \$100,000. Architect, Carl Weiner, Philon Bldg., S. F. Owner, Scottish Rite Hall Association. Location, Merced and Van Ness avenue, covering an area of 150 by 150 feet. Preliminary plans approved. Working drawings being prepared. Work to start early in the spring.

VISALIA, TULARE CO., CAL.—Lodge hall, 3 story and base, Class C construction, \$75,000. Architects, Swartz & Swartz, Rowell Bldg., Fresno. Owners, Visalia Elks' Hall Association. Location, west Main and Locust streets. Will contain lodge rooms, social halls, library and auditorium. Plans complete, figures in and contract to be awarded shortly.

HOSPITALS

FRESNO, FRESNO CO., CAL.—Hospital alterations, frame and concrete, \$63,850. Architects, Glass & Butler, Rowell Bldg., Fresno. Owners, Fresno County. Bids were opened by the Supervisors Wednesday, November 8th, for the proposed alterations of the Fresno County Hospital. There were six bidders. The lowest bidder was Manning Bros. of Fresno, who submitted a figure of \$63,850. The Supervisors have taken the matter under advisement and it is expected that the board will announce its decision shortly. Construction will be of brick and frame. The bidders and their figures follow: Manning Bros., \$63,850; James L. Daly, \$75,000; Johnson Bros., \$74,800; Trewhitt-Shields Co., \$72,000; R. Pedersen & Co., \$69,890; Emmett Riggin, \$74,100.

SAN FRANCISCO—Hospital disinfecter. Cost not stated. Engineer, none. Owners, City and County of San Francisco. The Board of Public Works has approved specifications for a disinfecter for the northeast wing of the San Francisco Hospital, and have ordered bids received up to November 15th.

OAKLAND, CAL.—Hospital cottages, frame and concrete, \$106,000. Architect, Henry H. Meyers, Kohl Bldg., S. F. Owners, Alameda County. The Alameda County Board of Supervisors has rejected all figures for the construction of the six buildings to be erected at the Alameda County Tuberculosis Hospital near Livermore. This action was taken on the advice of the District Attorney, after the bid of W. G. Thornally had been given consideration. Thornally's bid was not the lowest received, but was considered by the Su-

pervisors to be made comprehensive than the lower figure.

Contracts Awarded.

OAKLAND, CAL.—Hospital ward and addition, 2 story, brick and concrete \$21,000. Architect, Charles Peter Weeks, Phelan Bldg., S. F. Owners, Alameda County. Contractor, R. W. Littlefield, 565 14th street, Oakland. Contract price, \$21,000.

ROTELS

ALAMEDA, ALABAMA CO., CAL.—Hotel alterations, 2 story, frame, \$5,000. Architect, none. Owner, L. M. Works, 2021 Telegraph avenue, Oakland. Location, Webster and Tunnel road. Work will consist of interior trim, painting, plastering, electric work and plumbing. Plans complete and work to be done by Day Labor.

IRRIGATION PROJECTS

SAN JOSE, SANTA CLARA CO., CAL.—Drainage district, \$12,000. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. Two bids were received by the Santa Clara County Supervisors at their last meeting for the construction of the Foxworthy Drainage District in Supervisor District No. 4. The Surveyor's estimate was \$12,000. The Raisch Improvement Co., 1198 Crocker Bldg., S. F., submitted a bid of \$11,750, and John P. Adams, 968 Martin street, San Jose, at \$11,897. The bid of the Raisch Improvement Co. was taken under advisement.

EMMETT, IDAHO. Drainage district, \$111,665. Engineer, Chief Engineer, Emmett Drainage District. Mancy Bros. of Boise, Idaho, submitted the lowest bid to the Emmett Drainage District, S. W. Nishman, Secretary, for the construction of drainage work for the district at \$111,665.

MODESTO, STANISLAUS CO., CAL.—Irrigation work. Cost not stated. Engineer, Chief Engineer, Hermann, Modesto Irrigation District. Bids will be opened on November 25th by the Board of Directors of the Modesto Irrigation District for separate proposals for each of the following described pieces of construction work, to wit: First, for the construction of a concrete lining in the main canal of the Modesto Irrigation District, beginning at the end of the concrete lined section below Upper Dominice Mill. Second, for the construction of two reinforced concrete structures in Lateral No. 3 of the Modesto Irrigation District.

MODESTO, STANISLAUS CO., CAL.—Irrigation work. Cost not stated. Engineer, Hermann, Modesto, Owners, Modesto Irrigation District. At the last meeting of the Board of Directors of the Modesto Irrigation District Chief Engineer Hermann was instructed to prepare plans and specifications for three concrete drops in Lateral No. 3.

Contracts Awarded.

MODESTO, STANISLAUS CO., CAL.—Canal lining, \$5,581.80. Engineer, Hermann, Modesto. Owners, Modesto Irrigation District. Contractor, James Wilson, Redding. Contract price, \$5,581.80.

POWER PLANTS AND WATER SYSTEMS.

SAN RAFAEL, MARIN CO., CAL.—Water tunnel, \$250,000. Engineer, A. R. Baker, 821 4th street, San Rafael.

Owners, Marin Municipal Water District. Bids will be opened on November 21st for constructing 8,700 feet of tunnel 8 feet in diameter with 6-inch concrete lining.

Contracts Awarded

SAN FRANCISCO—Copper wire, \$20,500. Engineer, City Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contractors, John A. Roehling Sons, S. F. Contract price, \$20,500.

RESIDENCES

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,500. Architect, none. Owner, P. W. Montross, 270 Anderson street, S. F. Location, southwest Maynard and Grant streets. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$5,000. Architect, none. Owner, A. R. Lapham, 511 12th avenue, S. F. Location, southeast Balboa and 11th avenue, S. F. Will contain eight rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame, \$2,900. Architect, none. Owner, E. J. Spence, 537 25th avenue, S. F. Location, east 26th avenue north Balboa. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame, \$12,500. Architect, Henry H. Gutterston, 278 Post street, S. F. Owners, St. Francis Home Building Co. Location, St. Francis Boulevard west San Fernando street. Will contain ten rooms, three baths and sleeping porch. Separate garage. Plans complete and figures being taken.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$3,000. Architect, none. Owner, J. Muldoon, 2417 Blake street, Berkeley. Location, southwest Gaskill and Aileen. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, J. Muldoon, 2417 Blake street, Berkeley. Location, southwest Gaskill and Aileen. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, J. P. Chambers, Plaza Bldg., Oakland. Location, north Brookdale west Lila. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 2, 1 story and base, frame, \$2,500. Architect, none. Owner, Justus Norris, 2828 Richmond avenue, Oakland. Location, 29th avenue and Richmond. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, E. A. Jansen, 146 Schrader street, S. F. Location, north Beverly Place east Monterey. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owners, United Home Builders, 1527 Broadway, Oakland. Location, south Portsmouth road south Wildwood. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, F. N. Fabing, 3515 13th avenue, Oakland. Location north Hampel west Park Boulevard. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, G. Taylor, 86 Pearl street, Oakland. Location northeast 15th avenue and East 17th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, N. Z. Roem, 1135 Grand avenue, Oakland. Location, south Monte Vista west Grand avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, P. M. Hanser, 840 56th street, Oakland. Location, south Spring east Adeline. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$5,000. Architects, Schirmer & Dugbee, Dalziel Bldg., Oakland. Owner, Judge William R. Geary. Location, Lakeshore avenue. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans being prepared.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, George Mohr, 2655 University avenue, Berkeley. Location, south San Carlos street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

STOCKTON, SAN JOAQUIN CO., CAL.—Residence, 2 story and base, frame, \$1,000. Architect, Ralph P. Morrell, Odd Fellows Bldg., Stockton. Owner, Jack Mayera. Location, Yosemite terrace. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

RIPON, SAN JOAQUIN CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, Ralph P. Morrell, Odd Fellows Bldg., Stockton. Owner, Mr. Leffer. Location, Ripon Ranch. Will contain five rooms, bath and sleeping porch. A tank house and mill is also included in the plans. Plans are being prepared.

SAN FRANCISCO—Residences, 1, 2 story and base, frame, \$2,500 each. Architect, A. W. Permento, 21 Belcher street, S. F. Owners, Lazar Aydukovich Co. Location, west 21st avenue north Cabrillo. Each dwelling will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 3, 2 story and base, frame, \$1,000 each. Architects, Heiman & Schwartz, Nevada Bank Bldg., S. F. Owner's name not given. Location, 29th avenue and Balboa street. Each house will contain

seven rooms, bath and basement garage. Plans complete and figures being taken.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,600. Architect, none. Owner, E. A. Janssen, Hearst Bldg., S. F. Location, north Beverly west Monterey. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owners, Hart and Bewald, 516 Mono avenue, Fresno. Location, East Fresno. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

HOLLYWOOD, LOS ANGELES CO., CAL.—Residence, 2 story and base, frame and concrete. Cost not stated. Architects, Montgomery & Montgomery, Merritt Bldg., L. A. Owner's home withheld. Will contain ten rooms, three baths and conservatory. Separate garage and servants' quarters. Plans complete and figures being taken.

SAN FRANCISCO—Residences, 2, 1 story and base, frame, \$3,000 each. Architects, Antonovich & Harris, 29 Montgomery street, S. F. Owners, E. P. Antonovich and Harvey E. Harris. Location, 40th avenue near Geary. Each dwelling will contain six rooms and bath. Separate garages. Plans being prepared and work to be done by Day Labor.

SCHOOLS

BERKELEY, ALAMEDA CO., CAL.—School, 1 and 2 story, frame and concrete. Cost not stated. Architect, William C. Hays, First National Bank Bldg., S. F. Owners, Pacific Unitarian School. Location, Dana and Alston Way. Preliminary plans revised. Funds in the amount of \$15,000 available for construction, but bids not to be called for until additional funds have been secured.

BERKELEY, ALAMEDA CO., CAL.—Student building, 4 story and base, Class A construction. Cost not stated. Architect, John Galen Howard, 601 Mission street, S. F. Owners, Regents of the University of California. Will contain 25,000 square feet of floor space. Plans complete and work to be started in February.

LAS VEGAS, NEV.—School, 1 story, brick, \$36,000. Architects, C. Lewis Wilson Co., Black Bldg., L. A. Owners, Clark County Board of Education. Will contain four class rooms, gymnasium and an auditorium. Plans being prepared.

ASTORIA, ORE.—School, 2 story and base, brick and concrete, \$100,000. Architects, Whitehouse & Foulhoux, Board of Trade Bldg., Portland. Owners, City of Astoria. Will contain 12 class rooms, auditorium, library and departments of domestic science and manual training. Plans complete and figures being taken.

ALAMEDA, ALAMEDA CO., CAL.—School, 2 story and base, brick and concrete, \$60,000. Architects, Cunningham & Politeo, First National Bank Bldg., S. F. Owners, City of Alameda. A large number of figures were received on November 7th for the construction of this building, and all have been taken under advisement. A complete list of the bids will be found

under the heading of Bids opened in this issue.

RICHMOND, CONTRA COSTA CO., CAL.—School addition, 2 story, brick, \$29,000. Architect, James T. Naylor, 916 Macdonald avenue, Richmond. Owners, City of Richmond. Bids will be opened on December 14th for in addition to the Union High School. Plans can be secured from the architect.

COLUSA, COLUSA CO., CAL.—School, 2 story and base, brick and concrete, \$60,000. Architect, W. H. Weeks, 75 Post street, S. F. Owners, City of Colusa. Working drawings have been completed and bids will be called for as soon as bonds can be sold.

Contracts Awarded.

WATSONVILLE, SANTA CRUZ CO., CAL.—School, 2 story and base, brick and concrete, \$75,191. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Watsonville Union High School District. Contractor, Robert Frost, 26th and Howard streets, S. F. General construction, \$75,191. Turner Co., 272 N. Main street, S. F., plumbing, \$5,000. Heating, ventilating and program clocks taken under advisement. A complete list of these bids will be found under the heading of Bids opened in this issue.

SEWERS, STREET WORK & WATER SYSTEMS

DALY CITY, SAN MATEO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Daly City. Owners, Daly City. Bids will be opened on November 27th at 8 p. m. for street improvements authorized under the following resolutions: That Alpha avenue, Beta avenue, Como avenue, Lake avenue and Gambetta avenue be graded between the property lines and from the east line of Mission road to the east boundary line of Vista Grande Tract No. 2 and Vista Grande Tract No. 2; also Mission road be graded between the east curb line and the east property line thereof, and from a line 115.31 feet south of the south line of Gambetta avenue, produced, to a line 205.75 feet north from the north line of Alpha avenue.

Also that a 1-inch, vitrified, salt-glazed, ironstone pipe lateral sewer, 1½" cement concrete sidewalks, and combined cement concrete gutters 41 inches wide, and armored concrete curbs be constructed, and as asphaltic concrete pavement consisting of a 4-inch cement concrete base and 1½-inch asphaltic concrete surface be constructed in the roadway, etc.

OAKLAND, CAL.—Sewer construction. Cost not stated. Engineer, County Surveyor, Oakland. Owners, Alameda County. Bids will be opened on November 27th for the construction of a storm sewer along Spruce street, Rose street and Walnut street in Ocean View Road District and the city of Berkeley.

LODI, SAN JOAQUIN CO., CAL.—Sewer pipe. Cost not stated. Engineer, City Engineer, Lodi. Owners, City of Lodi. Bids for furnishing 7,000 feet of salt-glazed, vitrified pipe were received by the City Trustees at their last meeting from the following firms: Gladding-McBean Co., Crocker Bldg., S. F.; John W. Hieb of Lodi, and the Capital Sewer Pipe Works of Sacramento. The bid of Hieb and the Sacramento firm were the same and the award of

the best quality was made to Crocker Bldg., S. F. The City Engineer, Lodi, has advised that the best quality was made to Crocker Bldg., S. F. The City Engineer, Lodi, has advised that the best quality was made to Crocker Bldg., S. F. The City Engineer, Lodi, has advised that the best quality was made to Crocker Bldg., S. F.

ENGINEER, CITY ENGINEER, Lodi.—The Engineer estimates the work at \$10,000, and the low bid was one from the firm of Whitlock & Co. of \$9,411. The other bids were by W. S. George, \$13,094.28; M. Blumenkrantz, \$9,411; Chambers & Healey, \$11,267.10. Four bids from within miles South and West was but one bid received. Chambers & Healey submitted a figure of \$9,411.90. The estimate of the City Engineer was \$28,579.92. For the installation of a pumping station at Yosemite Lake, L. F. Youdl submitted a bid of \$1,800. The Farbanks-Morse firm of San Francisco, submitted five bids, based on various plans, and ranging from \$5,005 to \$6,200. All bids were taken under advisement.

YUBA CITY, YUBA CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, L. M. Bruce, Yuba City. Owners, Yuba City. Bids will be opened on November 17th for the construction of storm sewers as follows: About 1,250 feet of 10-inch, 50 feet of 8-inch, 50 feet of 6-inch with suitable appurtenances. Also for the construction of one block of macadamized street on Phumas street from the south line of Bridge street to the north line of B street.

MARTINEZ, CONTRA COSTA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Arnold, Martinez. Owners, City of Martinez. Bids will be opened on November 24th for street improvements authorized under the following resolution: That cement sidewalks be constructed on both sides of Escobar street, between the easterly line of Pine street, in the town of Martinez, easterly to the westerly line of that portion of Escobar street.

SAN RAFAEL, MARIN CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. At the last meeting of the San Rafael City Council, Baker & Martin, who accepted the contract to macadamize West End avenue, West street, East street, Jessup street and Hart street, sent a resolution from their attorney asking the Council to rescind the motion granting them the contract for the improvement on said streets, on the ground that the proposition was irregular. The Council investigated the matter and rescinded the contract. The mistake appearing was unavoidable as the City Attorney had attended to the legal matters all right, but in some manner the resolution of street work included a notice to erect a concrete wall.

Contracts Awarded.

SAN FRANCISCO—Street improvement. Cost as follows. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The improvement of Railroad avenue, from Ingerson avenue to the easterly line of San Bruno avenue, by the construction of granite curbs, a basalt block pavement on a concrete foundation and by the construction of basalt block gutters on the roadway thereof.

AWARDED TO G. M. McGILVER & Co., Philan Bldg., S. F., for \$44,546.58.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That Crocker avenue from Leland Stanford avenue to Will avenue, be improved by constructing 8 and 10-inch, vitrified, ironstone pipe sewer. That Rudin avenue be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from the center line of Crocker avenue to a point 200 feet westerly therefrom. That the street between Rudin avenue and Will avenue, known as Tempest avenue, be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from the center line of Crocker avenue to a point 70 feet westerly from the center line of Stillson avenue. That Will avenue be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from the center line of Crocker avenue to a point 420 feet westerly therefrom. That Stillson avenue, in the city of Sacramento, be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from the sewer in place on Leland Stanford avenue to Tempest avenue; constructing seven concrete manholes complete with cast iron curbs and covers; placing 73 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and three 6-inch, vitrified, ironstone Y branches on 10-inch pipe sewer. Awarded to J. W. Terrell, 1111 24th street, Sacramento.

That the alley between First avenue and Second avenue, from Freeport road to 24th street, in West Curtis Oaks, be improved by constructing an 8-inch, vitrified, ironstone pipe sewer, constructing two concrete manholes; placing 58 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer, and doing all necessary excavating and backfilling of trenches. Awarded to Joe Lawrence, Broderick, Cal.

That the alley between Second avenue and Third avenue, in Curtis Oaks, from Fair Oaks street to Lower Stockton road, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, two concrete manholes; placing twenty 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and doing all necessary excavating and backfilling of trenches. Awarded to J. W. Terrell, 1111 24th street, Sacramento.

That E street, from 23rd street to 25th street, be improved by grading the space between the property line and curb, constructing concrete sidewalks 6 feet in width and 3½ inches thick. Awarded to A. Olson, 2724 1st avenue, Sacramento.

The City Commissioners have awarded a contract to the McGilivray Construction Co., 517 Capitol National Bank Building, Sacramento, for the following work: That the alley between R and S streets, from Third street, be improved by constructing two concrete catch basins complete; reconstructing one concrete manhole; placing fourteen linear feet of 6-inch, vitrified, ironstone sewer pipe drain; grading the alley and constructing thereon an asphaltic macadam pavement 5 inches thick.

FRESNO, FRESNO CO., CAL.—Electrifier system, \$9,575. Engineer, City

Engineer, Fresno. Owners, City of Fresno. Contractors, Lewis Electric Co., 1916 Fresno street, Fresno. Contract price, \$9,575.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, City Hall, S. F. Owners, City and County of San Francisco. Contracts for street work have been awarded as follows: The improvement of Mangels avenue, from Hamburg street to Genesee street, by the construction of concrete curbs, five brick catch basins, 10-inch, vitrified, salt-glazed, ironstone pipe culverts, an 8-inch, vitrified, salt-glazed, ironstone pipe sewer, a 14-foot central strip of vitrified brick pavement, a basalt block pavement on sand with gravel filler and basalt block gutters and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway therefrom. Awarded to The Federal Construction Co., 323 Sharon Bldg., for \$5,257.12.

The improvement of 47th avenue, between Lincoln Way and Irving street, by the construction of concrete curbs, artificial stone sidewalks 6 feet wide and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway therefrom. Awarded to Owen McHugh, 304 Russ Bldg., S. F., for \$8,048.

The improvement of Elsie street, between Gose avenue and Esmeralda avenue, by grading and by the construction of concrete curbs. Awarded to The Tibbitts-Pacific Co., 16 California St., S. F., for \$7,382.50.

DELANO, KERN CO., CAL.—Sidewalk construction. Cost not stated. Engineer, City Engineer, Delano. Owners, City of Delano. Contractor, Lynn S. Atkinson, Los Angeles. Contract covers the construction of five miles of concrete sidewalks.

FOWLER, FRESNO CO., CAL.—Highway work, \$8,100. Engineer, City Engineer, Fowler. Owners, City of Fowler. Contractors, Corfield & Davis, Bakersfield. Contract price, \$8,100.

FRESNO, FRESNO CO., CAL.—Cement. Cost as follows. Engineer, County Surveyor, Fresno. Owners, Fresno County. Contractors, Fowler Lumber Co., Fowler. Contract price, 1,890 barrels at \$2.81 per barrel.

LOS ANGELES, CAL.—Street improvements, \$19,812.97. Engineer, City Engineer, L. A. Owners, City of Los Angeles. Contractors, California-Arizona Construction Co., 1700 East Washington street, L. A. Contract price, \$19,812.97.

STORES AND OFFICES

HILLSBOROUGH, SAN MATEO CO., CAL.—Telephone exchange, 1 story, concrete, \$10,000. Architects, Howard & White, Lick Bldg., S. F. Owners, Pacific Telephone and Telegraph Co. Will contain main office, operating room and private office. Plans complete and figures being taken.

Contracts Awarded.

BAKERSFIELD, KERN CO., CAL.—Offices, 1 story, brick. Cost not stated. Architect, Thomas R. Wiseman, Producers' Bank Bldg., Bakersfield. Owner, S. L. Mack. Contractors, Currie & Dulger, Bakersfield. Contract price, \$10,000.

SEALED PROPOSALS

PROPOSALS FOR Q. M. SUPPLIES.

SAN FRANCISCO Q. M. SCHEDULE 116.—Office of the Depot Quartermaster, U. S. Army, Fort Mason, San Francisco, Cal.—Sealed proposals will be received until **November 23, 1916**, under schedule 116 for furnishing 200 pounds asbestos, 12 tube brushes, 36 barrels, 135 iron rivets, 1,300 silver spoons, 300 calendars, stands, 100 pounds tacks and 3,500 towels. For further information address JOHN T. KNIGHT, colonel, quartermaster corps, depot quartermaster.

PROPOSALS FOR NEEDLE VALVES.

NEEDLE VALVES.—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Denver, Colo., until **2 o'clock p. m., December 12, 1916**, for furnishing needle valves for the north tunnel of the Roosevelt Dam, Salt River project, Arizona. For particulars address the Civil Station, Reclamation Service, Washington, D. C., or Denver, Colo. MORRIS BIEN, acting director.

PROPOSALS FOR TIMBER WHARF.

TIMBER WHARF.—Office of the quartermaster, U. S. Army, Fort Morgan, Ala.—Sealed proposals will be received here until **November 17, 1916**, at **6 p. m.** for the construction of a timber wharf. For further information address Lieutenant P. E. GROSS, coast artillery corps, assistant quartermaster.

PROPOSALS FOR HEATING.

HEATING.—Treasury Department, office of the Supervising Architect, Washington, D. C.—Sealed proposals will be opened in this office at **3 p. m., November 24, 1916**, for a new system of conduit and wiring and a new heating system in the United States assay office at Boise, Idaho, in accordance with drawings and specification, copies of which may be had at this office or at the office of the custodian, Boise, Idaho, in the discretion of the supervising architect. JAMES A. WETMORE, acting supervising architect.

PROPOSALS FOR CRANE.

CRANE.—Sealed proposals indorsed indorsed "Proposals for Locomotive Crane" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m., November 2, 1916**, and then and there publicly opened, for a locomotive crane of 20 gross tons capacity at the naval station, Pearl Harbor, T. H. Plan and specification can be obtained on application to the bureau or to the commandant of station of the name named. P. R. HAIRIS, chief of bureau.

PROPOSALS FOR LEVEE WORK.

LEVEE WORK.—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received at the office of the United States Reclamation Service, Mills Building, El Paso, Tex., until **2 o'clock p. m., November 22, 1916**, for canal excavation involving 155,600 cubic yards and levee construction involving 29,600 cubic yards. For particulars address United States Reclamation Service, El Paso, Tex.; Denver, Colo., or Washington, D. C. MORRIS BIEN, acting director.

PROPOSALS FOR SEWER WORK.

SEWER.—Fort Worden, Wash.—Sealed proposals, in triplicate, for constructing outlet at Fort Flagler, Wash., will be received here until **November 17, 1916**, and then publicly opened. Information upon application to constructing quartermaster.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until **November 13, 1916**, for dredging at the naval coal depot (California City Point), Tiburon, Cal. Plans and specifications may be obtained on application to the Bureau of Yards and Docks, or to the commandant of the navy yard, Mare Island, Cal.

PROPOSALS FOR BUILDING.

BUILDING—Treasury Department, U. S. Coast Guard, Washington, D. C.—Sealed proposals will be received at this office until **2 o'clock p. m. of Monday, December 4, 1916**, and then publicly opened, for constructing a Coast Guard station and accessories on the Siuslaw River, Ore. Specifications and drawings can be obtained on application to the superintendent, thirtieth district, Coast Guard, San Francisco, Cal., or to this office. E. P. BERTHOLF, captain commandant.

DREDGING—Sealed proposals indorsed "Proposals for Dredging" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **10 o'clock a. m. November 13, 1916**, and then publicly opened, for dredging at the naval coal depot (California City Point), Tiburon, Cal. Plans and specifications can be obtained on application to the bureau or to the commandant of the navy yard, Mare Island, Cal. E. R. HARRIS, chief of bureau.

CONFERENCE OF FIRE TESTS OF WALLS AND PARTITIONS.

A conference has been held at the United States Bureau of Standards by representatives of various technical associations for the purpose of drawing up a comprehensive program of fire tests for building walls and partitions. Those who participated gave their attention to metal-lath-and-plaster, stucco, gypsum, hollow tile, brick, and concrete partitions and walls.

Many important details governing these tests were considered, such as types and dimensions of partitions to be tested, the temperature to which the partitions are to be exposed, the time of exposure to fire, the water test to which the heated partitions should be subjected, etc.

Participating in the conference were representatives of the American Institute of Architects, the American Society for Testing Materials, the National Board of Fire Underwriters, the Associated Metal Lath Manufacturers, the Gypsum Industries Association, the National Brick Manufacturers Association, the Association of American Portland Cement Manufacturers, and the Fire Underwriters' Laboratories. Other associations represented on the advisory committee for these tests are: The American Concrete Institute, the National Fire Protection Association, and the National Lime Manufacturers Association.

The fire tests outlined by the committee in co-operation with the representatives of the Bureau of Standards are to be carried out with the panel furnace recently installed by the bureau. It is the largest and most complete plant for such work ever built. It is confidently believed by the committee that these fire tests will have an important bearing on all fire-resistive building construction.

HOO-HOO LUNCHEON FOR NOV. 16.

The first of a series of get-together Hoo-hoo luncheons (Dutch treat) will be held at the Hotel Oakland, Oakland, Cal., on Friday, November 16, 1916, at 12:15 P. M., sharp.

The inducements are: (1) a good luncheon; (2) the pleasure of meeting old comrades and making new friends; (3) the joy of helping keep California in the front rank of Hoo-Hoo and making 1917 a banner year for the Order.

Bring a friend, who is eligible to membership, if you wish.

Forget dull care for just one hour.

Don't let your sunny nature sour.

Forget the redwood, fir and pine.

And come on in, the water's fine.

Fraternally yours,

G. A. BUELL, V. S.

Central District of California.

A TRIBUTE TO BUTTLATH.

The following endorsement of Butt-lath by Architect G. Albert Lansburgh speaks mightily well for this product. Here is what he says:

San Francisco, October 18th, 1916.
Pacific Portland Cement Co., Consolidated.
Attention of Butt-lath Department, Pacific Building.
San Francisco, California.
Gentlemen:

As one of the first users of Butt-lath in this part of the country I am gratified to state that the results have been more than satisfactory, and I am very glad that the so-called chancers all the enemies of Butt-lath told me I was taking, have proven quite a successful fable. I am continuing to use Butt-lath, and have just let the contract for a considerable amount of this material to be employed in the Mt. Zion Clinic. You can refer anyone to me with impunity, and I will be very glad to do what I can for the furtherance of this material.

Yours very respectfully,

G. ALBERT LANSBURGH

AUSTRALIAN MARKETS FOR AMERICAN HARDWARE.

The Australian demand for high-grade hardware favors the sale of American products of that class, according to a report prepared by Commercial Attache William C. Downs, and published by the Bureau of Foreign and Domestic Commerce. The writer lays particular stress upon the size of the hardware market in Australia, in proportion to the population, and upon the fact that it is one of the few markets in the world where hardware other than English and American has never been an important factor.

Mr. Downs states that Japanese rivalry has developed during the present war. In explanation of the present conditions he says:

The exclusion of many makes of European goods from the Australian markets and other eastern countries has stimulated the Japanese to great activity in an endeavor to capture the trade thus thrown open. Whether it will be able to develop its production of tools and general hardware of the cheaper classes to a point that will satisfy the British tastes and requirements of Australia remains to be seen, but it is to be expected that a certain amount of trade will go to Japan. While this new competition may not seriously affect American trade in articles already well introduced, it may tend to limit expansion in the sale of

new goods not hitherto exported in quantity from the United States. "As yet known as 'tools of trade' or purchased in large quantities from America despite a natural preference for British product, and even during normal times American trade in this line showed a tendency to increase. In 1909 American sales of such tools amounted to 10 per cent of the total, while in 1913 the proportion was 45 per cent. In most lines, however, England kept the cream of the business. Close attention to details of the trade and increased activity at this time will accomplish much, the report states.

The report for Australia is the second of a series which is to cover the hardware markets of the whole world. The work is done by hardware experts in each country under the direction of the American commercial attaches. In addition to advice as to credit terms, packing, systems of conducting trade, etc., each line of hardware is taken up and fully discussed. "Australian Markets for American Hardware," Miscellaneous Series No. 12, contains 105 pages, and may be purchased for the nominal sum of 10 cents from the Superintendent of Documents, Washington, D. C., or from the district offices of the Bureau of Foreign and Domestic Commerce.

**WIZARD MFG. CO.
HAS NEW HANGER.**

Newly Patented Door Hanger Promises to Be Big Feature In Co.'s Export Business.

The Wizard Manufacturing Co., 147 New Montgomery St., has just marketed a new patent parlor door hanger of an original and extremely simple design, which they call The Common Sense Door Hanger. Manager M. Claussen tells us that his company has found by actual practice that this door hanger so far excels the ordinary hanger now on the market, that they have fitted up a portion of their factory specially for the manufacture of the hangers and have commenced the manufacture of them in such huge quantities that they will be able to establish agencies for their distribution throughout the entire United States. The company, which has representatives in South America, Java, China and several in Europe, and intend to go strongly after the export business. Mr. Claussen reports they expect to be as successful with the export of the door hanger as they are with the other articles they manufacture.

This hanger is fitted to the door without any plate or screws whatsoever on top of the door. It being simply necessary to bore a 5/8-inch hole through the corner of the door and drop in the bolt-like end of the hanger. It is surely simple enough and easy to install. A particular feature of this hanger is the convenience of adjusting it, should it ever become necessary after the doors are in operation.

An illustration of the new hanger appears in the advertisement of The Wizard Mfg. Co. in this issue.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO

GOVERNMENT WORK—The Constructing Quartermaster at Fort Mason has been instructed by the Attorney General at Washington to reject all bids received for the improvements to the Lobos Creek water supply. The Attorney General has refused to accept the title to certain lands involved in the project, and which were sold to the Government by the Spring Valley Water Co. New bids will be called for when the title has been cleared.

The Angel Island rock quarry is to be put in operation with civilian labor, and about \$14,000 is available for wages and the installation of a new belt conveyor at the bunkers.

Plans are complete and bids will shortly be called for changes to be made in the road system at Fort Miley.

A contract for compressors, receivers and rock drills to be used at the Fort Baker Tunnel has been awarded to the Dennis Rock Drill Co. Work on the tunnel has been started.

NOTE:—Bond reads W Van Ness Ave
50 N Post.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not FOUR WHEEL DRIVE.

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps ON the road and OUT of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

“Every Owner a Booster”

OAKLAND AND ALAMEDA COUNTY

RESIDENCE—1 story and base, frame, \$3,000. Oakland, Cal. Architect, none. Owner, J. Muldoon, 2117 Blake street, Berkeley. Location, west Gaskill and Aileen. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,500. Oakland, Cal. Architect, none. Owner, J. Muldoon, 2117 Blake street, Berkeley. Location, south-west Gaskill and Aileen. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, J. F. Chambers, Plaza Bldg., Oakland. Location, north Brookdale west Lila. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, Justus Norris, 2828 Richmond avenue, Oakland. Location, 29th avenue and Richmond. Each dwelling will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect, none. Owner, E. A. Jansen, 146 Schrader street, S. E. Location, north Beverly Place east Monterey. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owners, United Home Builders, 1527 Broadway, Oakland. Location, south Portsmouth road south Wildwood. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, P. N. Fabing, 3515 13th avenue, Oakland. Location, north Hampel west Park Boulevard. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, G. Taylor, 36 Pearl street, Oakland. Location, northeast 15th avenue and East 17th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, H. Z. Roem, 1135 Grand avenue, Oakland. Location, south Monte Vista west Grand avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,500. Oakland, Cal. Architect, none. Owner, P. N. Hanser, 840 56th street, Oakland. Location, south Spring east Adeline. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$5,000. Oakland, Cal. Architect, Schirmer & Bugbee, Dalziel Bldg., Oakland. Owner, Judge William R. Geary. Location, Lakeshore avenue. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans being prepared.

RESIDENCE—1 story and base, frame, \$2,500. Piedmont, Alameda Co., Cal. Architect, none. Owner, George Mohr, 2655 University avenue, Berkeley. Location, south San Carlos street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOL—2 story and base, brick and concrete, \$60,000. Alameda, Alameda Co., Cal. Architects, Cunningham & Politeo, First National Bank Bldg., S. F. Owners, City of Alameda. A large number of figures were received on November 7th for the construction of this building, and all have been taken under advisement. A complete list of the bids will be found under the heading of Oakland and Alameda County in this issue.

SEWER CONSTRUCTION—Cost not stated. Oakland, Cal. Engineer, County Surveyor, Oakland Owners, Alameda County. Bids will be opened on November 27th for the construction of a storm sewer along Spruce street, Rose street and Walnut street, in Ocean View, Road District, and the city of Berkeley.

FACTORY—1 story, brick, \$10,000. Emeryville, Alameda Co., Cal. Architects, Richardson & Burrell, Albany Bldg., Oakland. Owner, J. A. Miller. Will cover a considerable ground area. Plans complete and owner taking figures.

MACHINE SHOP—1 story, brick, \$16,000. Oakland, Cal. Architect, Charles W. McCall, Central Bank Bldg., Oakland. Owner's name withheld. Location, Broadway near 29th street. Will cover an area of 45 by 120 feet. Plans being prepared.

HOSPITAL COTTAGES—Frame and concrete, \$106,000. Oakland, Cal. Architect, Henry H. Meyers, Kold Bldg., S. F. Owners, Alameda County. The Alameda County Board of Supervisors has rejected all figures for the construction of the six buildings to be erected at the Alameda County Tuberculosis Hospital near Livermore. This action was taken on the advice of the District Attorney, after the bid of W. G. Thornally had been given consideration. Thornally's bid was not the lowest received, but was considered by the Supervisors to be more comprehensive than the lower figure.

HOTEL ALTERATIONS—2 story, frame, \$5,000. Alameda, Alameda Co., Cal. Architect, none. Owner, L. M. Works, 3621 Telegraph avenue, Oakland. Location, Webster and Tunnel road. Work will consist of interior trim, painting, plastering, electric work and plumbing. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$2,000. Berkeley, Alameda Co., Cal. Architect, none. Owner, E. A. Jansen, Hearst Bldg., S. E. Location, north Beverly east Monterey. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOL—1 and 2 story, frame and concrete. Cost not stated. Berkeley, Alameda Co., Cal. Architect, William C. Hays, First National Bank Bldg.,

S. F. Owners, Pacific Unitarian School, Mission, Dana and Allston Way. Preliminary plans revised. Funds in the amount of \$15,000 available for construction, but bids not to be called for until additional funds have been secured.

DEPENDENT BUILDING—4 story and base, Class A construction. Cost not stated. Berkeley, Alameda Co., Cal. Architect, John Galen Howard, 604 Mission street, S. F. Owners, Regents of the University of California. Will contain 2,000 square feet of floor space. Plans complete and work to be started in February.

Contracts Awarded

HOSPITAL WARD AND ADDITION—1 story, brick and concrete, \$21,000. Oakland, Cal. Architect, Charles Peter Works, Phelan Bldg., S. F. Owners, Alameda County. Contractor, R. W. Littlefield, 555 14th street, Oakland. Contract price, \$21,000.

SAN JOSE AND THE SANTA CLARA VALLEY

STREET IMPROVEMENTS—Cost not
stated. Daly City, San Mateo Co., Cal.
Engineer, City Engineer Daly City.
Owners, Daly City. Bids will be opened
on November 27th at 8 p. m. for
street improvements authorized under
the following resolutions: That Alpha
avenue, Beta avenue, Como avenue,
Lake avenue and Gambetta avenue be
graded between the property lines and
from the east line of Mission road to
the east boundary line of Vista Grande
Tract No. 2 and Vista Grande Tract
No. 3; also Mission road be graded be-
tween the east curb line and the east
property line thereof, and from a line
115.31 south of the south line of Gam-
betta avenue, produced, to a line 305.-
75' north from the north line of Alpha
avenue.

Also that a 4-inch, vitrified, salt-
glazed ironstone pipe lateral sewer,
with Y cement concrete sidewalks, and
combined cement concrete gutters 14
inches wide and armored concrete
curbs be constructed, and an asphaltic
concrete pavement consisting of a 4-
inch cement concrete base and 1½-inch
asphaltic concrete surface be con-
structed in the roadway, etc.

MARIN, CONTRA COSTA AND SONOMA COUNTIES

FIRE HOUSE—1 story, frame and concrete, \$12,000. San Rafael, Marin Co., Cal. Architects, Maston & Lobel, San Rafael. Owners, City of San Rafael. Will contain apparatus room and living quarters. Plans being prepared.

STORAGE BUILDING—2 story, reinforced concrete, \$20,000. Benicia, Solano Co., Cal. Architect, Chester H. Miller, First National Bank Bldg., Oakland. Owners, United States Government. Will cover an area of 50 by 150 feet. Plans complete and figures being taken.

WATER TUNNEL—\$250,000. San Rafael, Marin Co., Cal. Engineer, A. R. Baker, 824 4th street, San Rafael. Owners, Marin Municipal Water District. Bids will be opened on November 21st for constructing 5,700 feet of tunnel 8 feet in diameter with 6-inch concrete lining.

SCHOOL—2 story and base, brick and concrete, \$60,000. Colusa, Colusa Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, City of Colusa. Working drawings have been completed and bids will be called for as soon as bonds can be sold.

SCHOOL ADDITION—2 story, brick, \$20,000. Richmond, Contra Costa Co., Cal. Architect, James T. Narebitt, 910 McDonald avenue, Richmond. Owners, City of Richmond. Bids will be opened on December 4th for an addition to the Union High School. Plans can be secured from the architect.

STREET IMPROVEMENTS—Cost not stated. San Rafael, Marin Co., Cal. Engineer, City Engineer, San Rafael. Owners, City of San Rafael. At the last meeting of the San Rafael City Council, Baker & Martin, who accepted the contract to macadamize West End avenue, West street, East street, Jessup street and Hart street, sent a resolution from their attorney asking the Council to rescind the motion granting them the contract for the improvement on said streets, on the ground that the proposition was irregular. The Council investigated the matter and rescinded the contract. The mistake appearing was unavoidable as the City Attorney had attended to the legal matters all right, but in some manner the resolution of street work included a notice to erect a concrete wall.

STREET IMPROVEMENTS—Cost not stated. Martinez, Contra Costa Co., Cal. Engineer, City Engineer, Arnold, Martinez. Owners, City of Martinez. Bids will be opened on November 24th for

street improvements authorized under the following resolution: That cement sidewalks be constructed on both sides of Escobar street between the easterly line of Pine street of the town of Martinez, easterly to the westerly line of that portion of Escobar street.

HARBOR EXTENSION—\$55,000. Richmond, Contra Costa Co., Cal. Engineers, Hayland & Tibbets, Alaska Commercial Bldg., S. F. Owners, City of Richmond. Plans have been completed for additional work in connection with the Richmond inner harbor project and the City Council will shortly call for bids. This work consists of a clay and rock fill of approximately 1500 feet and suction dredger work.

Contracts Awarded

COURT HOUSE HEATING—\$675. San Rafael, Marin Co., Cal. Architect, none. Owners, Marin County. Contractors, Jarvis Co., 275 Connecticut street, S. F. Contract price, \$675.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That Crocker avenue from Leland Stanford avenue to Willi avenue, be improved by constructing 8 and 10-inch, vitrified ironstone pipe sewer. That Rudin avenue be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from the center line of Crocker avenue to a point 200 feet westerly therefrom, known as Tempest avenue, be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from the center line of Crocker avenue to a point 70 feet westerly from the center line of Stillson avenue. That Willi avenue be improved by constructing an 8-inch, vitrified, ironstone pipe sewer from the center line of Crocker avenue to a point 420 feet westerly therefrom. That Stillson avenue, in the city of Sacramento, be

improved by constructing an 8-inch, vitrified ironstone pipe sewer from the center line in place on Leland Stanford avenue to Tempest avenue; constructing two concrete manholes complete with manhole curbs and covers; placing 72 inch vitrified, ironstone Y branches on each pipe sewer and 3 6 inch, vitrified ironstone Y branches on 10-inch pipe sewer. Awarded to J. W. Terrell, 1111 29th street, Sacramento.

That the alley between First avenue and Second avenue, from Freeport road to 24th street, in West Curtis Oak, be improved by constructing an 8-inch, vitrified, ironstone pipe sewer; constructing two concrete manholes; placing 58 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer, and doing all necessary excavating and backfilling of trenches. Awarded to Joe Lawrence Broderick, Cal.

That the alley between Second avenue and Third avenue, in Curtis Oaks, from Fairbanks street to the Lower Stockton road, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, two concrete manholes, placing 20 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and doing all necessary excavating and backfilling of trenches. Awarded to J. W. Terrell, 1111 29th street, Sacramento.

That F street, from 23rd street to 24th street be improved by grading the space between the property line and curb, constructing concrete sidewalks 6 feet in width and 3½ inches thick. Awarded to A. Olson, 2721 First avenue, Sacramento.

The City Commissioners have awarded a contract to the McCallilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento, for the following work: That the alley between R and S streets, from Third street, be improved by constructing two concrete curb basins complete, reconstructing one concrete manhole, placing fourteen linear feet of 6-inch, vitrified, ironstone sewer pipe drain; grading the alley and constructing thereon an asphaltic macadam pavement five inches thick.

RESIDENCE—2 story and base, frame, \$1,000. Stockton, San Joaquin Co., Cal. Architect, Ralph P. Morrell, Odd Fellows' Bldg., Stockton. Owner, Jack Mayers. Location, Yosemite Terrace. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

RESIDENCE—1 story and base, frame, \$2,000. Ripon, San Joaquin Co., Cal. Architect, Ralph P. Morrell, Odd Fellows' Bldg., Stockton. Owner, Mr. Leffer. Location, Ripon Ranch. Will contain five rooms, bath and sleeping porch. A tank house and mill is also included in the plans. Plans are being prepared.

SEWER PIPE Cost not stated. Lodi, San Joaquin Co., Cal. Engineer, City Engineer, Lodi. Owners, City of Lodi. Bids for furnishing 7,000 feet of salt-glazed, vitrified pipe were received by the City Trustees at their last meeting from the following firms: Gladding-McBean Co., Crocker Bldg., S. E.; John W. Hieb of Lodi, and the Capital Sewer Pipe Works of Sacramento. The bid of Hieb and the Sacramento firm were the same and the award of contract will be made to the firm submitting the best quality of material.

SEWER CONSTRUCTION, PUMPING STATION, ETC—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer,

City Engineer, Stockton. Owners, City of Stockton. The City Council at its last meeting opened the following bids: For a concrete storm sewer 22 inches in diameter from 5th and McKinley avenue at the McDougald Canal. The City Engineer estimated the work at \$8,596.10, and the lowest bid came from the firm of Whitlock & Gorrell, \$9,244.40. The other bids were by W. S. Gauze, \$13,094.28; M. Blumerkranz, \$10,671; Chambers & Heafey, \$14,363.10. For a cast iron siphon under Smith Canal there was but one bid received. Chambers & Heafey submitted a figure of \$6,314.90. The estimate of the City Engineer was \$2,859.92. For the installation of a pumping station at Yosemite Lake, L. F. Youldad submitted a bid of \$4,800. The Fairbanks-Morse firm of San Francisco submitted five bids based on various plans and ranging from \$5,065 to \$6,200. All bids were taken under advisement.

SEWER CONSTRUCTION—Cost not stated. Yuba City, Sutter Co., Cal. Engineer, City Engineer L. M. Bruce, Yuba City. Owners, Yuba City. Bids will be opened on November 17th for the construction of storm sewers as follows: About 1,250 feet of 16-inch; 80 feet of 8-inch, 50 feet of 6-inch, with suitable appurtenances. Also for the construction of one block macadamized street on Plumas street, from the south line of Bridge street to the north line of E street.

APARTMENT HOUSE 2 story and base, frame, \$9,000. Sacramento, Cal. Architect, Alex Willoner, 243 L street, Sacramento. Owner, W. H. McMorry. Location, 17th and I streets. Will contain eight apartments of one room and small buffet kitchen. Plans being prepared.

LAUNDRY—1 story and base, reinforced concrete, \$15,000. Redding, Shasta Co., Cal. Architect, C. O. Dakin. Redding. Owners, William H. Bergh and I. J. Johnson. Location, Placer and Railroad avenue. Will cover an area of 40 by 80 feet. Plans nearly complete and figures to be taken shortly.

AMERICAN LEADERSHIP IN WORLD TRADE.

The opportunity to become the leading commercial nation of the world now faces the United States, and the means by which that position may be attained, were discussed last evening by Dr. E. E. Pratt, chief of the Bureau of Foreign and Domestic Commerce in an address before the American Manufacturers' Export Association at its annual banquet in New York. He expressed perfect confidence in the ability of American manufacturer and exporters to hold their own in the trade struggle after the war.

Dr. Pratt took up the question of the possibility of competition from European goods in this struggle, and stated that something of the future might be seen by studying the past. Many facts which might be cited, he said, seemed to prove conclusively that wages and interest in Europe would increase considerably in the years following the war. "If this be true," he said, "then the whole level of prices in Europe will be higher." He spoke at some length upon the recent economic conference in Paris as bearing in an important way on the commercial relations of the United States with the belligerent countries. In the course of that discussion he said:

"This conference dealt at length and in some detail with economic conditions which the various nations wish to bring about at the close of the war. If such an alliance actually comes into existence, there is no doubt that a similar alliance will be found among those powers now on the other side. We anticipate, therefore, two general economic groups in Europe building up barriers against the nations now opposed to them. This would leave the neutral nations of the world, and especially the United States, in a peculiar position. We would probably not receive the most favorable treatment from either side, nor am I inclined to believe that we would suffer from any special discrimination. It is unlikely that any of the nations of Europe will willingly handicap themselves by depriving themselves of the raw materials, the machinery, the labor-saving devices, and the capital which they will need immediately after the war and which they will be able to obtain only from the United States. However, these economic alliances and their possible effect upon the future trade of the United States must be seriously considered."

Important Measures Necessary to Maintain Position.

He said that the United States must undertake several important measures if it was to maintain its present prominent position in the commercial world. There were certain things for the Government to do, and other things for manufacturers and exporters to do. He emphasized as the first and perhaps most important point the necessity of getting a new point of view on the tariff. "It is not sufficient," he said, "that we should have a protective tariff, a tariff for revenue only, or free trade. We should look upon the tariff as an aid in building up trade. We should certainly not look upon the tariff as a barrier to trade. We would, it seems to me, be seriously hampering our future as one of the great industrial and commercial powers of the world if we set up the tariff merely as

a barrier to trade. It is our duty to say to the world, which has been accustomed to such a policy, that we are now going to have a tariff which is not a barrier to trade, but a tariff which is a help to trade. The tariff is a help to trade in the sense that it is a help to the States as a whole. What we need is a tariff which will enable us to have the maximum amount of international trade. Protection for such a consideration of the tariff has been met with in creating the tariff commission. Dr. Pratt continued:

"A subject closely related to the tariff is that of commercial treaties. We have been backward in this matter in negotiating commercial treaties with the principal nations of the world. We should not, however, be too hasty in deciding on this subject. We should remember at any time that we, the United States, have the best trade treaty that any nation ever had with the country which is undoubtedly our best potential market. And we hear and carry on the business community. I have examined the files of our business publications, and I find the matter received only scant and passing notice. I believe I am correct in saying that such a trade treaty with Russia could not be broken today, and that it would not have been broken if our business community had appreciated the everlasting harm it would do to our commercial relations with Russia. As soon as the nations of Europe are able to give this matter attention, we should be prepared to negotiate commercial treaties. Here again the tariff commission has been given certain specific duties."

"One very important step in the development of our foreign trade remains to be taken. I refer to the passage of a measure which will permit our manufacturers to combine for the purpose of developing foreign trade. This will put our manufacturers on a basis similar to that of the manufacturers and exporters of other countries, and will enable us perhaps more than any other one thing to meet effectively the growing centralization of economic resources in Europe."

NEW NATIONAL MONUMENT IN ALASKA.

WASHINGTON, D. C., Nov. 4.—As a result of recommendations made by the Secretary of Agriculture, the "Old Kasaan National Monument," consisting of 35 acres within the Tongass National Forest, Alaska, has just been created by Presidential proclamation. The tract embraces the well known abandoned Haida Indian village of Old Kasaan, situated on Prince of Wales Island in southeastern Alaska, about thirty miles west of the city of Ketchikan.

The village was abandoned by the Indians about ten years ago. Among the relics which remain there are about fifty Indian totem poles, five or six of which are classed as exceedingly good specimens. In the deserted village there are also eight large, square buildings which were originally constructed according to the peculiar plan of the Haida Indians, and which, it is stated

by those best qualified to know, represent the best specimens of Haida architecture that now exist. The largest of these buildings is approximately 40 by 60 feet in size and is made entirely of round and carved timbers. There also remain a number of Indian graves with the typical small grave house erected by the Alaskan Indians.

"Kassan" is said to be the Indian word which means "a pretty town," and all reports agree that the village was well named. The fact that the village was occupied by the Indians for many years explains the local name, "Old" Kassan, by which it is widely known.

Since the village was abandoned by the Indians the buildings have been rapidly falling into a state of dilapidation and decay, and a certain amount of vandalism by tourists and souvenir hunters renders some form of protection essential. An examination of the area was made jointly by representatives of the Forest Service and of the Interior Department, and reports strongly urging the establishment of a National Monument were approved by the Secretaries of both Departments. The Smithsonian Institution strongly endorsed the proposition for the establishment of a National Monument. The new National Monument will be protected and administered by the Forest Service, as is the case with all monuments located within the National Forests.

BUILD HUGE WATER TANK.

MERCED, Cal.—The Crocker-Huffman Land Company of Merced will shortly install a 300,000 gallon water tank at its headquarters. The tank is said to be the largest ever built in this State, the next largest being one of 200,000 gallons at Stockton. The tank will be used to supply domestic water to the residents on the company's land.

PREPARING PLANS FOR SPRINKLING SYSTEM.

HANFORD, Cal.—Architect A. Merrill Bowser, of Glass, Butler & Bowser, Fresno, is preparing plans for a sprinkling system for the Hanford postoffice grounds. Bids will be called shortly. Other contracts to be let at the same time are grass seed, shrubbery and other features for improving the grounds. The latter work is being planned by the Treasury Department.

PORK PACKING PLANT PLANNED FOR FRESNO.

FRESNO, Cal.—A packer allied with one of the large beef and pork packing companies, in Fresno this week, has looked the San Joaquin Valley over and decided that a \$150,000 plant would pay in Fresno. He conferred with J. B. Lewis, president of the San Joaquin Valley Stockyards Association and Lewis and A. C. Cranor, secretary of the association, decided to call a meeting of the executive committee. Notices were sent out calling the meeting at the Fresno Chamber of Commerce at 2 o'clock on the afternoon of Tuesday, November 14.

At this time the packer will talk over a tentative proposition. Members of the committee include Mr. Lewis, D. C. Sample and Geo. Shipp,

Fresno; A. L. Sayre, Madera; Geo. A. Smith, Corcoran; Joe Biddle, Wm. Feinstein, Hanford; C. L. Adams, Riverdale; S. O. Walker, Visalia; C. P. Avonall, Fowler; John Cerini, Riverdale and A. C. Cranor.

The Packer is at present withholding his identity from all but members of the committee, but he is said to have strong backing and to be ready for business. Options have been secured on lots near the south part of Fresno, it is said. If the packing house is built, it is believed that it will be in operation in less than a year.

PORTERVILLE TO GET BIG REDUCTION MILL.

PORTERVILLE, Cal.—Articles of incorporation have been filed by the Magnesite Refractories Company to be capitalized at \$200,000, for the construction of a reduction plant here and the manufacture of all classes of magnesite products. The company is headed by Charles B. Stetson of San Francisco, a well known merchant of that city, and named with him as organizing directors are J. L. Michell, merchant, of Porterville, and F. J. Shuhl, an attorney here. Financially interested are other San Franciscans and Harry Doyle and E. J. Heinor, who were active in the development of the mining properties of the Magnesite Mining Company.

It is stated that all of the capital stock of the company has been paid in and that work will be started at once on the construction of the plant. The probable location of the reduction works has not been given out.

CALIFORNIA LAUREL FAVORED.

Much has been said recently by the local press about California Laurel and the unusual demand for this wood. It is a fact that California Laurel is fast supplanting the use of the more expensive Hardwoods such as Birch, which costs (f. o. b. San Francisco) from 30% to 50% more than Laurel. The fact that California Laurel can be finished to show the same, or better results than Birch and costs so much less money, makes this Hardwood more popular than ever and the demand is growing fast day by day.

One feature of the present Hardwood situation is the quantity of Genezero lumber on the market. Some of the finest buildings in San Francisco have used this wood for their interior trim. It has always been used extensively in homes and it is one of the best cabinet woods on the market. Genezero (sometimes called Jenisero, or Peruvian Mahogany) is much lower in price than most similar woods, and compares in that respect to Quarter Sawn Oak. At present there is probably among the different yards 500,000 feet of Dry Genezero in fine condition for use. When finished natural, Genezero gives the soft neutral brown tones so much desired at the present time, and the existence of such a large stock of thoroughly seasoned lumber in the market should make this wood a most desirable one.

Lumber men all over the country have always been used extensively in increase in business after the cessation of European hostilities. In fact, the United States Federal Trade Commission has taken up the matter of

handling this European trade and is seeking competent men to be sent to Europe to investigate the different markets, and the best manner of handling the trade which everyone expects will come in a large volume after the war. This, of course, will have a direct bearing on the domestic hardwood market, and undoubtedly cause a rise in prices.

Before the war the export of American Hardwood such as Oak, Ash, Hickory, Walnut, Gum, etc., to Great Britain, France, Germany and Italy, was enormous. The trade was entirely destroyed. Great Britain put an embargo on the importation of cabinet woods. The market was therefore disturbed at the opening of the war but has gradually adjusted itself. The resumption of European exports, however, will undoubtedly have a most stimulating effect upon the trade.

A remarkable point in the hardwood situation is the reversion of demand from the soft foreign imported Oaks to our American domestic Oak which is, as a matter of fact, superior in every way to all the other Oaks in the world. Architects and Builders are everywhere recognizing that our American wood is the best to use on account of its durability, liveliness of tone, lasting and wearing qualities. The good old fashioned Oak of our ancestors is still supreme today.

WHITE BROTHERS.

November 1st, 1916.

SACRAMENTO BOND BONDS WILL BRING BIG PREMIUM.

SACRAMENTO—If the Supervisors can sell the \$1,750,000 worth of road bonds recently voted by Sacramento County before December 15, they will bring a higher premium than \$70,000. This was a statement made to the Supervisors by J. C. Havey, who argued that the bonds be sold at the earliest possible date in order to reap the benefits of the good bond market. The \$70,000 premium was estimated by George W. Peltier several days ago, but Havey says the market is in better condition now than it has been for a long time. He urged the immediate sale of the bonds. The report of the bond experts as to the validity of the bond issue was received and filed by the Supervisors. They will receive bids for the printing of the bonds on November 15. In the meantime, the County Commission will start the preliminary surveys so as not to delay matters. The Supervisors will pay the money for this work and it will be paid in the same manner as the expenses of the highway commission have been paid by the Supervisors.

BIG STEEL PROFITS.

PITTSBURGH—The annual report of the crucible steel company of America issued here, showed that the company earned net profits of \$13,223,663 after paying dividends of \$2,125,000 on the preferred stock and charging off \$1,915,346 for depreciation and other fixed charges. The \$25,000,000 common stock therefore earned slightly in excess of \$50 a share. The balance sheet shows an unappropriated surplus of \$9,543,666. The company has 4,390 holders of the preferred shares and 1,531 of common shares.

AWARD CONTRACT FOR WATSONVILLE SCHOOL.

Robert Trost of San Francisco Awarded Contract For High School Designed by Architect W. H. Weeks.

WATSONVILLE, SANTA CRUZ CO., CAL., Nov. 8, 1916.—Bids opened by the Watsonville Board of Education for the construction of a two-story and basement brick and concrete school show Robert Trost, 26th and Howard streets, San Francisco, low on the general construction at \$75,191 and he was awarded the contract. The Turner Co., 272 Natoma street, San Francisco, was awarded the contract for the plumbing on their bid of \$5,190. J. W. Bender, Monadnock Bldg., San Francisco, was awarded the contract for the roofing at \$781.

Bids for the heating and ventilating and program clocks are to be considered at another meeting.

Architect W. H. Weeks, 55 Post St., San Francisco, prepared the plans.

General Construction.

Robert Trost	\$75,191
Masow & Morrison	\$1,941
Ward & Goodwin	95,290

ALAMEDA SCHOOL BOARD RECEIVES FIGURES.

Many Figures for Construction of Lincoln School on Revised Plans.

ALAMEDA, ALAMEDA CO., CAL.—Nov. 7.—Bids were opened at last night's meeting of the Board of Education for the construction of the Lincoln School, a two-story and basement Class "C" structure, designed by Architects Cunningham & Poltice, First National Bank Bldg., San Francisco.

The work was segregated in the following departments: (1) Excavating and concrete; (2) brick, granite cast iron and steel work; (3) carpenter work, roofing, hardware, and galvanized iron work; (4) plumbing, gas fitting and marble; (5) electric work; (6) lathing and plastering; (7) heating and ventilating; (8) painting. Following is a complete list of the bids:

Department No. 1.

Powell Bros. Const. Co.	\$ 3,498
Edwall & Alfano	3,939

Department No. 2.	
Mealey & Collins	\$22,000
Chas. B. Hadley	22,400
White & Glover	21,500

Department No. 3.	
Christensen Bros.	\$20,687
J. Wenderling	22,800
M. P. Mortensen	21,850
Delaney & Randlett	21,000

Department No. 4.	
Scott Co.	\$ 4,500
Alex. Coleman	4,000
James H. Pinkerton	4,500
Frederick W. Snook Co.	4,189
J. E. O'Mara	4,019
J. B. Kruz (check not certified) ..	4,750
Thos. A. Canton	3,719

Department No. 5.	
Butte Eng. & Elect. Co.	\$ 3,100

Department No. 6.	
Nick Muriale	\$ 5,000
McGuire & Co.	6,611
William Makin	6,729
T. D. Sexton	6,928
Geo. Dixon	6,500

Department No. 7.	
W. Morgan & Co.	\$ 6,245
J. C. Hurley & Co.	5,000
Ideal Heating & Eng. Co.	5,110

Department No. 8.	
L. J. Neal	\$ 2,074
A. Zelinsky	2,098
Mayer, Walk & Co.	2,200

Several bidders combined the various departments of the work as follows:	
C. L. Wold Co. 1 to 8	\$72,200
Carnahan & Mulford 1 to 8	65,561
Harvey A. Klyce 1 to 8	72,820
R. W. Littlefield 1 to 8	69,250
R. W. Littlefield 1, 2, 3, 6, 7, 8	64,750
R. W. Littlefield 1, 2, 3, 6	62,450
R. W. Littlefield 1, 2, 3, 6	66,250
R. W. Littlefield 1, 2, 3, 6	49,450
R. W. Littlefield 1, 2, 3, 6, 8	59,250

City Bids Opened.

The San Francisco Board of Public Works have received the following bids for the extension of the Municipal Water System:	
Atlas Heating & Ventilating Co.	\$1,050
Bos & O'Brien	889
H. P. Broderick	560

FIGURES OPENED FOR FRESNO SCHOOL ANNEX.

All Bids For Two-story Annex to Union High School Taken under Advice—by Fresno Board.

FRESNO, Fresno Co., Cal. Nov. 11th, 1916.—A number of figures were received at last night's meeting of the Board of Education for the construction of the two-story brick and concrete addition to the Fresno High School from plans prepared by Architects Coates & Traver, Rowell Bldg. Six bids were received. All figures were taken under advisement. Following is a complete list of the bids received:

General Construction.

Edwards & Wiley Co., Los Angeles	\$55,000
J. L. Daly, Fresno	18,600
R. Pedersen	55,250
E. Riggin	51,000
Manning Bros.	51,580
Louis Cereghino & Son, S. F.	50,992

Heating and Ventilating.	
Hurley Co., S. F.	\$8,705
Sheet Metal Work	7,333
Sheet Metal Work	8,132

FIGURES OPENED FOR AGNEW STATE WORK.

Grace & Bernierl Present Lowest Bid For Open Air Ward to be Erected at Agnew.

By Special Order
SACRAMENTO, CAL., Nov. 13th, 1916
A number of bids were opened by the State Board of Engineering for the construction of a one-story concrete and frame open air cottage which is to be erected at the State Asylum at Agnew, Santa Clara County. Plans were prepared by State Architect Geo. B. McDougall, Sacramento. All bids were taken under advisement.

Open Air Ward.

Grace & Bernierl	\$22,081
L. G. Bergren & Son	23,472
Anderson & Ringrose	23,825
Lou. Cereghino & Son	24,300
Fred Warden	25,465
R. W. Littlefield	25,951
George W. Borton & Son	26,972
P. F. Reilly	27,550
Stockholm & Allyn	27,577
Pringle-Dunn & Co.	28,293
Ward & Goodwin	29,990

STATE CORPORATION DEPARTMENT

Upon application of Sequoyah Hills Company, the certificate authorizing it to sell \$100,000 bonds has been revoked by Commissioner of Corporations H. L. Carnahan. The company has financed its operations consisting of the development and sale of a tract in Oakland near the Sequoyah Country Club property through a direct mortgage loan.

Commissioner Carnahan has issued permits to the following companies:

San Elijo Land Company, San Diego—To issue 97 shares to T. A. Rife, C. O. Richards, R. E. L. Blankenship in exchange for real property.

Glendale Masonic Building Association—To sell 300 shares at par, \$10 per share, net to the company.

Motion Picture Electric and Equipment Corporation, Los Angeles—To sell 10 shares to Franklin Ritchie at par, \$100 per share, net to the company.

Bean Spray Pump Co., San Jose—Supplemental authority to sell the remaining 299 shares of its preferred stock to net the company not less than par, \$100 per share, proceeds to be used for reduction of current indebtedness.

Globe Grain & Milling Company, Los Angeles—To sell 16,142 shares at a price not less than par, \$100 per share, net to the company.

Honey Rock Mining Company, Los Angeles—To sell 100 shares at \$15 per share, net to the company and to issue 51 shares to C. C. Cronch, M. R. Enkle, C. J. Wiley and H. G. Bittleston, in exchange for the property, services and cash. With the proceeds, the company proposes to mine and ship a carload of ore and to build a road to its claim which is situated in the Bellville mining district, San Bernardino County.

The Napa Valley Creamery Company—To sell 10,000 shares to Spencer C.

Ashlin at 74c per 100 lbs. to the company.

Pacific Hauling Contractor, Los Angeles—To sell 50 shares to Andrew Peacock and 1 share to Clarence E. Burt and Geo. W. Dryer, at par, \$100 per share, net to the company.

DIXON IRRIGATION PLANS WILL COST OVER MILLION.

DIXON—A meeting was held here recently to consider data regarding irrigation and comparative costs and figures from this and other irrigated sections of the State. It seems feasible, and the time opportune, says will be taken for the formation of the Dixon Irrigation District, the object of which will be to supply cheap and more abundant water than is now had under the pumping plant plan. H. Loveland R. W. Hamley and H. A. Whitney, engineers, have made surveys of examinations of dam sites and reservoirs. They report three possible reservoir and dam sites: Devil's Gate and Guerne, and one which they discovered, on which there has been no State or National report. The Guerne site could be developed at a cost of about \$500,000. This would impound 150,000 acre-feet of water, sufficient for irrigating 25,000 acres of land, at an extended construction cost of about \$20 an acre. This site is in Lake County, 17 miles northwest of Winters. The Devil's Gate project would begin about 12 miles west of Winters' where a dam would be built at one of the most natural sites in the State. A 150-foot dam would back the water over the Berryessa Valley to the Napa bridge, this side of Monticello. The cost of this project, including dam and purchase of land, is estimated at \$700,000. This project would irrigate 36,000 acres. As the proposed district embraces about 56,000 acres, the development of both sites will be considered, but construction of only one will be started, the other coming when there is need of it. The cost of both projects is estimated at \$1,100,000.

SHIP BUILDING FIRM FORMED.

SEATTLE, Wn.—Edgar Ames, president of Seattle General Contract Co., Vice President of the State Bank of Seattle, President of Puget Sound Dredging Co., and Treasurer of Northwestern Expanded Metal Co., of Chicago, announces the formation of another large shipbuilding company with contracts for three steel ships and plans for construction of dry dock of 7,000 tons capacity. Company will be known as Ames Shipbuilding & Dry Dock Co. and will have working capital of \$500,000. Associated with Mr. Ames are J. W. Paterson, David Hollywood, John Wilson, Geo. W. Alben, former U. S. District Judge Geo. Donworth and former U. S. District Attorney Elmer Todd.

CEMENT MEN INDICTED.

Sixteen Coast Manufacturers Charged With Violating Sherman Act.

PORTLAND, Ore.—William G. Henshaw and Tyler Henshaw, president and vice president, respectively of the Riverside Cement Company of Riverside, Cal., and San Francisco, were two of sixteen Pacific Coast cement manufacturers indicated here by the Fed-

eral Grand Jury October 27th, and charged with conducting a trust in violation of the Sherman act, it became known when the indictment was made public.

All the defendants are reputed wealthy.—Exchange.

PRESS NOTICE.

One of the largest of the Mikado type of freight locomotives is being mounted on the locomotive testing laboratory of the Engineering Experiment Station, University of Illinois, for an extended series of tests.

The Railway Engineering Experiment Station has entered into a co-operative arrangement with the International Railway Fuel Association, and the United States Bureau of Mines to conduct tests with various sizes and grades of coal used for fuel. The Baltimore and Ohio railroad has loaned one of its newest freight locomotives for the purpose. This huge locomotive weighs, with its tender, a total of 461,000 pounds. The testing laboratory is designed to permit the locomotive to be operated at any desired speed and at any power output under the same conditions as prevail in practice, while its performance is recorded by means of automatic equipment for measuring tractive effort, water consumption, fuel consumption, smoke production, and other factors which will enter into the investigations.

The Baltimore and Ohio Mikado type of freight locomotive has eight driving wheels, each carrying a load of 28,000 pounds, two pony truck wheels and two trailer truck wheels. It carries a steam pressure of 190 pounds per square inch, has a fire-box 7 feet wide, and 10 feet long, is 55 feet long, and delivers a pull or tractive effort of 34,500 pounds at its draw-bar.

Samples of coal to be used will be taken from Illinois mines and will be graded according to present commercial sizes ranging from the so-called slack and run-of-mine up to the commonly used "3 x 6 lump." Later, it is contemplated, tests will be made with a coal ground to an impalpable powder or flour which will be injected into the fire-box by means of a specially designed blower. Tests will be made with both hand firing and automatic stoker firing.

It is the expectation that these tests will establish information which will enable a railway to determine how much it can afford to pay for the different grades and sizes of coal, and which grades and sizes will produce the best results under given operating conditions.

The ultimate purposes of tests of this character which the University of Illinois is carrying on in many lines of activity is to provide the basis for the fuller and more economical utilization of public resources. In these locomotive tests it is thought that the incidental benefits which may come to the public in the possible decrease of the smoke nuisance may alone justify the extensive work involved.

The tests will be conducted under the direction of E. C. Schmidt, head of the Department of Railway Engineering and will be in the immediate charge of J. M. Snodgrass, Assistant Professor

of Railway Mechanical Engineering, and O. S. Beyer, First Assistant in the Engineering Experiment Station.

(Photograph of the Locomotive will be supplied on request.)

W. F. M. GOSS, Director,
Urbana, Ill.

AMERICAN TRADE WITH AUSTRALIA

"American business men should get the point of view of the Australian merchant," says Commercial Attache Philip B. Kennedy, in a book he has prepared with the object of offering suggestions to those in this country who seek increased trade in the markets of Australia. Particular attention, he says, should be paid to correspondence, because of the time required for mail to be carried between the two countries, and the differing taste in regard to the character of the letters that may be written.

The report by Mr. Kennedy is published by the Bureau of Foreign and Domestic Commerce. It is devoted exclusively to the details of carrying on trade already secured, as is indicated by the following list of chapters: Packing, Insurance, Documents required, Forwarding documents, The Australian tariff, Dutiable values, Trade description, Proof of origin, Financing of letters of credit, Financing of export commission houses, Financing of draft against documents, Quotations of prices, Postage, parcels post, and express, Correspondence, Traveling representatives, Taxation.

Mr. Kennedy states that as it takes about two months to get a reply from Australia, it is necessary to tell the whole story on each occasion. An experienced Sydney importer urges his American correspondents to write him always as if he knew nothing. The typical American sales letter which "has a punch" is not suitable for the Australian trade. The managing director of what is probably the largest business in Australia is quoted as stating that more harm is done by such letters than by any other one thing. The report calls attention to the absurdity of allowing tactlessness and petty unreasonableness to bring about misunderstanding between peoples having so much in common as Australians and Americans.

The report is entitled "Exporting to Australia," Miscellaneous Series No. 45. It contains 29 pages, and may be purchased from the Superintendent of Documents, Washington, D. C., for the nominal sum of 5 cents.

MARKET SOUGHT FOR TROPICAL WOODS.

A Venezuelan business man informs an American consul that he is in a position to offer large quantities of cedar, manogany, divi-divi, Brazil wood, and other native woods. He also wishes to learn if there is a market in the United States for crude pyroligne acid and, if so, the price in New York and the proper method of packing. The inquirer's address can be obtained at the Bureau of Foreign and Domestic Commerce or its district or co-operative offices by referring to file No. 80958.

W. P. MAY BUILD FEEDER FROM PORTOLA.

PORTOLA, Cal.—Prospects are bright according to mining men associated with strong financial interests, for the building of a railroad from Portola to the Walker mining field.

It is stated the Western Pacific may extend the Boca and Loyalton Grizzly Creek branch into the district, and there is also a possibility that the Feather River Lumber Company may continue its road to tap the rich mineral section. The Northern California and Oregon is also credited with a desire to exploit the Walker field.

At the Walker copper mine about 150 men are now employed and the flotation plant is handling 100 tons of ore daily. It was recently announced the capacity of the plant would be increased next spring, and the mine placed in shape for a heavy output. Several other properties in the district are attracting interest.

PLASTER COMPANY TO BUILD PLANT

PORTERVILLE, Cal.—Edward Duree, of the Rex Plaster Company, is here from Los Angeles and is looking over the district with a view to the location of the company's mill in this city. Heretofore the company's plants have been manufactured in Los Angeles. Their mill there was recently badly damaged by fire. A large proportion of their magnesite has since been contracted from this district, and it is probable that the plant will be reconstructed here.

The Rex people have closed a lease with the Lindsay Mining Company for a tract of land situated near Magnesite station, suitable for a plant site, indicating that the project is being very seriously considered.

BUILDING TOTALS SINCE FIRE.

The following report has been compiled in the Building Bureau of the Department of Public Works, showing the number, classification and value of building for which permits have been issued since the fire:

Class	No of Bldgs.	Amount
"A"	211	\$ 36,207,417
"B"	221	16,061,228
"C"	3161	88,772,859

MILLIONS WILL BE PUT IN IRRIGATION DAM IN MADERA.

MADERA, Cal.—Definite steps for the early construction of the \$4,000,000 irrigation project in Madera county, were taken when the irrigation bureau announced that Engineer Frank Clare would begin a preliminary survey next week to ascertain the cost of the proposed system. Ten thousand dollars are to be raised here at once to defray the expenses of the preliminary work.

After the preliminary surveys have been made and tentative locations for the dam and reservoirs have been chosen, the bureau will set to work to obtain the consent of a majority of the holders of title to the land within the proposed district to consent to its formation, and to petition the supervisors to call an election that the proposition may be voted on. It was stated that the Miller & Lux corporation, holder of much land within the limits of the proposed district, is in favor of its formation and that there will be no trouble in getting the supervisors to call an election.

It is the plan of the bureau to conserve the surplus waters of the San Joaquin river and of other Sierra Nevada streams, for irrigating the lands within the proposed district. This conservation will be accomplished by means of a dam and reservoir.

The project will involve the expenditure of several million dollars and when consummated will be the greatest work ever accomplished in the history of this county, and is expected not only to triple the population of Madera within a short time, but to add millions of dollars to the value of the Madera county lands.

VIRGINIA GREATEST SOAPSTONE STATE.

In the production of soapstone the United States ranks first among all countries, and Virginia produces about 20 times as much as the four other producing States — Maryland, North Carolina, Rhode Island, and Vermont. The waste from breakage in quarrying, sawing into slabs, manufacturing, and final transportation is so great as to render success in the industry a matter of skillful manipulation. The value of the stone is in large measure proportionate to the work done upon it. In the rough it is valued at \$2 or less a ton, but when sawed into slabs its value is increased to about \$15, and when made into laundry tubs it may attain a value of about \$30 a ton. The production of soapstone and tale in the United States is steadily increasing, according to the United States Geological Survey, Department of the Interior. In 1900 it was 27,943 short tons, in 1910 it was 150,716 tons, and in 1915 it was 186,891 short tons.

REMOVAL NOTICE.

THE WESTERN VACUUM SUPPLY CO. have moved to 1125 Market Street, Room 202.

Associated Catalogues.

CONSTRUCTION WORK ABROAD.

HONOLULU.

Contract Awarded for Nurses' Home.

The Pacific Engineering Company has been awarded the contract to build the nurses' dormitory at the Children's Hospital. Its bid was \$24,987, and, according to the agreement, the building will be finished within five and a half months.

The structure is to be entirely of concrete and modern in every respect. A feature of the building is a large sleeping porch on the second floor at the rear, where all the nurses will sleep, using their rooms only for the purpose of dressing.

HONOLULU.

To Start Sewer System at Schofield.

Officers of the quartermaster's department, Hawaiian department, state that plans are practically completed for calling for bids on the big sewer system at Schofield Barracks, which will mean an expenditure of practically \$40,000. Plans for the system have been under way for seven years, but not until a few weeks ago was an appropriation set aside for the work.

Bids are also to be called for soon on material for 18 officers' quarters, four field officers' quarters and five ready-made houses. Rock crushers and planing mills for the work of construction about to begin under the recent appropriation will be erected as soon as bids have been received and considered.

BUILDING OPERATIONS FOR OCTOBER.

It would be easy to give good reason for a decline in building operations for the month of October. Prominently among them would be the steadily rising prices for building material. Pre-election uncertainties and precautions due to the foreign outlook might be included. But construction work in October ignored all restrictive influences. It makes the best showing for many months.

The official reports of building operations in 117 of the principal cities of the United States for October, as received by the American Contractor, Chicago, The California Development Board and The Daily Pacific Builder, total \$86,710,766, as compared with \$63,929,479 for October last year. The October statement this year also shows a decided increase over the statement of the preceding month, which was \$72,975,432. From whatever comparison made the report seems highly favorable.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$20,000. Architect, W. A. Harman, 17 States street, S. E. Owner, L. B. Hays, 274 25th avenue, S. E. Location, southeast Lake and 20th avenue, covering an area of 32½ by 38 feet. Will contain nine apartments of three and four rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Apartment house, 3 story and base. Class C construction, \$25,000. Architect, W. G. Lind, 46 Kearny street, S. E. Owners, Menley & Collins. Location, southwest Powell and Washington streets. Plans complete and work to be done by Day Labor.

SEATTLE, WASH.—Apartment house, 1 story and base, brick and steel, \$70,000. Architect, R. Hamilton Rowe, Northern Bank Bldg., Seattle. Owners, Securities Construction Co., Securities Bldg., Seattle. Location, 4th avenue and Bell street. Will contain 15 apartments of two, three and four rooms. Plans complete and figures being taken.

Contracts Awarded.

SAN FRANCISCO—Apartment house, 1 story and base, brick and steel, \$25,000. Architects, Fabb & Knoll, Hearst Bldg., S. E. Owner, John Schroder. Contractors: Brick work, Hogberg & Ludwig; plumbing, E. V. Leacy; heating and ventilating, Atlas Heating and Ventilating Co.; sheet metal work, The Western Furnace and Conice Co.; electric work, The American Electric and Engineering Co.; structural iron and fire escapes, L. Schaffer Co.; excavating and concrete work, Camp & Carillon; carpentry being done by owner.

VALLEJO, SOLANO CO., CAL.—Apartment house, 3 story and base, frame, \$6,500. Architect none. Owner, Harry Handley, Vallejo. Contractors, George H. Hoyt Co., Berkeley. Contract price, \$6,500.

ROADS

TRACY, SAN JOAQUIN CO., CAL.—Election held by land owners of the West Side Irrigation District carried by a large majority. The election will provide funds of \$25,000 which will finance the construction of canals, pipe lines and pumping stations. W. G. Hunter, engineer for the district, estimates that the pumps will be able to supply the 11,300 acres of the district at all times. The West Side District extends eight miles by two and in general lies between Gehany Ferry and Banta.

KLAMATH FALLS, ORE.—This city has voted in favor of amending the city charter to authorize and empower the Council to buy, build, equip, maintain and operate railways and to fund indebtedness to carry out any one or more of said powers by issuing bonds to an aggregate amount of \$200,000. The bonds are for the purpose of as-

sisting Robert E. Strahorn in the construction of the California, Oregon and Eastern Railroad.

Lakeview also voted in favor of the project and will contribute \$20,000 for purchasing terminals and rights of way in and adjacent to the town of Lakeview.

EL CENTRO, IMPERIAL CO., CAL.—The First National Bank, purchaser of the \$12,000 El Centro grammar school bonds, has notified the Supervisors that the bonds could not be accepted owing to the fact that they cannot approve the proceedings.

BAKERSFIELD, KERN CO., CAL.—Kern County will sell \$500,000 worth of highway bonds early in December. This is the last block of bonds that the county will sell. The proceeds will be used to complete the 350 miles of highway system which it was voted to construct in 1913.

SEATTLE, WASH.—An election has been called for December 2nd to vote bonds of \$150,000 for the construction of a belt line railroad along the waterfront.

NEWPORT BEACH, ORANGE CO., CAL.—Bonds of \$100,000 have been voted and will be offered for sale shortly. The proceeds of the sale will be used for harbor improvements.

HANFORD, KINGS CO., CAL.—The City Trustees have decided to call a bond election for \$20,000 for the purpose of providing funds for the extension of the city fire mains.

SANTA ANA, ORANGE CO., CAL.—The corner of Tenth and Main streets has been purchased by the directors of the First Church of Christ, Scientist, and a new church building will be erected. The site covers an area of 125 by 250 feet. No plans for the building have been drawn.

SACRAMENTO, CAL.—That the \$15,000,000 State highway bonds voted by the people of California will find a ready market is indicated by the number of inquiries already received by State Treasurer Richardson and Secretary of State Jordan from prospective bond buyers.

LEXINGTON, SOLANO CO., CAL.—Local landholders have begun soliciting farmers to sign up petitions to the County Supervisors for the organization of an irrigation district.

The probability is that instead of attempting organization of a 55,000-acre district, efforts will be confined to a district embracing 25,000 acres, and either the sites of Genoe or Devil's flat in the hills west of Winters developed as a reservoir.

WOODLAND, YOLO CO., CAL.—At a recent meeting of the Farm and Town Club, a \$1,250,000 bond election was suggested by H. L. Huston, Woodland attorney, for a lateral system of high ways in Yolo County.

SACRAMENTO, CAL.—Sacramento will be asked to vote between \$1,500,000 and \$6,000,000 bonds for a filtered water system, schools and municipal auditorium next April, according to a state-

ment made public today by Thos. Coulter, Commissioner of Public Works.

Coulter favors the election on three propositions being held on three successive days in April or soon thereafter. The auditorium, it is thought will cost \$600,000, \$2,000,000 for additional school facilities and \$2,750,000 for the water system.

BRAWLEY, IMPERIAL CO., CAL.—A special election will be called by City Trustees to vote a \$17,000 bond issue for improving the city water system, including the construction of additional concrete basin and a sewer.

WILLOWS, GLENN CO., CAL.—November 9th has been fixed as the date of election for the purpose of determining whether the proposed Prillon-Codora-GleNN Irrigation District shall be organized.

The same date has been fixed for election with regard to the Jacinto District.

MODESTO, STANISLAUS CO., CAL.—Orders for advertisement for bids the \$1,182,000 county highway bonds issue voted November 7th and for \$135,000 bond issue of the Modesto High School District voted a month ago were made by the County Board of Supervisors at their last regular meeting. Bids for these bonds will be opened at the next regular meeting of the Board in December.

BRIDGES, DAMS AND HARBOUR WORK

HANFORD, KINGS CO., CAL.—Trestle, etc. Cost not stated. Engineer, County Surveyor, Hanford. Owns Kings County. Bids will be opened December 5th for the construction of three pile trestle highway bridges on Cross Creek and its branches, located west and northwest of Corcoran, Kings County.

HANFORD, KINGS CO., CAL.—Bridges reinforced concrete. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. At the meeting of the County Supervisors plans and specifications prepared by the County Engineer for a bridge on Cross Creek northwest of Corcoran were approved and the County Clerk instructed to advertise for bids up to December 5th. Further information and plans may be had from the County Clerk.

RICHMOND, CONTRA COSTA CO., CAL.—Sea wall, etc., \$55,000. Engineers, Haviland & Tibbitts, Alameda Commercial Bldg., S. E. Owners, C. of Richmond. Bids will be opened November 27th at 8 p. m. for the construction of a sea wall of clay in Richmond inner harbor.

SAN ANDREAS, CALAVERAS CO., CAL.—Bridge fill, etc., \$985. Engineer, County Surveyor, San Andreas. Owns Calaveras County. Only one bid received by the County Supervisors the filling of the approaches to a concrete bridge between the towns

road flat and West Point. The bid was that of A. G. Roberts and George Porteous for \$985. The bid was received, and the work ordered under the Day Labor system.

VENTURA, VENTURA CO., CAL.—Bids, reinforced concrete. Cost not stated. Engineer, County Surveyor, Ventura. Owners, Ventura County. Bids will be opened on December 5th at 11 a. m. for the construction of a steel canyon bridge on Foothill No. 1, three miles from Hainesiding, Ventura County. The work consists of a 20-foot bridge, consisting of one rubble masonry abutment with a 20-foot deck and all the necessary fill, guard fence, gutter drains,

SAN LUIS OBISPO, SAN LUIS OBISPO CO., CAL.—Bids, reinforced concrete. Cost as stated. Engineer, County Surveyor, San Luis Obispo. Owners, San Luis Obispo County. All bids received by the County Supervisors for construction of a bridge on the technique School road have been received. The bids were as follows: J. M. Maino, \$3,415; W. L. Gillham and J. M. Maino, \$2,926; Midland Bridge Co. of San City, Mo., \$5,300.

SAN RAFAEL, MARIN CO., CAL.—Bids, reinforced concrete. Cost not stated. Engineer, County Surveyor, San Rafael. Owners, Marin County. Bids will be opened on December 5th at 10 a. m. for clearing, regrading and ditching that portion of the county road known as the Pt. Reyes Station and shall road, lying in Road District No. 1, a distance of four and seven-tenths miles, and for the construction concrete bridges, culverts and pavements.

MERCED, MERCED CO., CAL.—Bids, reinforced concrete. Cost not stated. Engineer, County Surveyor, Merced. Owners, Merced County. At last meeting of the County Board Supervisors County Surveyor Cowell instructed to prepare plans and specifications for a concrete bridge on Los Banos-Hungry Hollow road, also for a bridge on the Dugan

MERCED, MERCED CO., CAL.—Bids, reinforced concrete. Cost as stated. Engineer, County Surveyor, Merced. Owners, Merced County. At last meeting of the Merced County Supervisors bids were opened for the construction of Drainage Districts Nos. 2 and 3, and there were two bidders each. The Board laid all the bids over for further consideration before awarding contracts. According to the submitted and the overhead charge will have to be added the costs of Districts will aggregate about \$110,000. District No. 1 will cost about \$35,000 and District No. 2 about \$75,000. Work on awarding contracts will be begun at the next meeting.

SALIA, TULARE CO., CAL.—Bids, reinforced concrete. Cost not stated. Engineer, County Surveyor, Salia. Owners, Tulare County. Bids will be opened on December 5th at 2 p. m. for the construction of a reinforced concrete bridge over Deer Creek, near center of section 21, township 23, north range east, M. D. R. and M. line of the State highway, to be known as "Tulare County Bridge No. 1."

SALIA, TULARE CO., CAL.—Bids, reinforced concrete. Cost not stated. Engineer, County Surveyor,

Vladimir. Owner, Tulare County. Bids will be received by the Board of Supervisors up to December 5th for the construction of an 80-foot concrete bridge at Earlham over the Deer River.

Contracts Awarded.

MERCED, MERCED CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, Merced. Owners, Merced County. Contracts for the construction of reinforced concrete bridges to be constructed on county roads were awarded at the last meeting of the County Supervisors as follows: Bridge No. 17, Middle road, over San Luis Creek, W. H. McElroy, Merced, \$5,260; bridge No. 18, Baxter road, over Dutchman Creek, W. H. McElroy \$1,136; bridge No. 19, Pate road, over Mariposa Creek, Parlier & Green, Bakersfield, \$1,487; bridge No. 20, State Highway south of Merced, W. H. McElroy, \$1,310; bridge No. 21, Cox Ferry road, over Canal Creek, Halverson & Gorda, Merced, \$1,260.

EUREKA, HUMBOLDT CO., CAL.—Bridges, 2, timber structures. \$1,650. Engineer, County Surveyor, Eureka. Owners Humboldt County. Contractor, John Hamilton, Eureka. Contract price, \$1,650.

WILLOWS, GLENN CO., CAL.—Bridges, reinforced concrete. Cost as follows. Engineer, County Surveyor, Willows. Owners, Glenn County. Contractor, W. R. Zimmert, 119 North Tehama street, Willows. The Mason bridge will cost \$2,850, the Lechenmeyer, \$2,750, and the Hiram West, \$1,900. Work will be started immediately.

RED BLUFF, TEHAMA CO., CAL.—Bridges, reinforced concrete and timber. Cost as follows. Engineer, County Surveyor, Red Bluff. Owners, Tehama County. At the last meeting of the Tehama County Supervisors a contract was awarded to J. A. Witter for the building of the Oak Creek bridge. The contract price was \$7,773. City Engineer, City Hall, S. F. Owners, City and County of San Francisco. The Blanchard-Brown Co., 650 Market St., submitted the lowest bid to the Board of Public Works for the improvement of Phelan avenue between Ocean and Judson at \$19,263.40. There were five other bidders on the work.

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Richmond. Owners, City of Richmond. The following improvements authorized by the following resolution: "That the street, from Pennsylvania avenue to its northern termination, be graded to its full width to the official lines and grades, paved with water-cured macadam, surfaced, guttered, and curbed with cement concrete."

BAKERSFIELD, KERN CO., CAL.—Highway construction, \$50,151.75. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Robert Shorer & Co., 630 Pacific Electric Bldg., L. A., submitted the lowest bid to the Kern County Supervisors for the construction of the Bakersfield-Mojave road. Their bid was \$50,151.75. After consideration the matter of awarding the contract was referred to the contract committee for report.

BAKERSFIELD, KERN CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on December 6th at 10 a. m. for grading, paving, and construction of culverts on division 7, section 3 Bakersfield-Taft road, being that portion lying between the Western Water Company's pumping plant and the end of the pavement near Moser's half-way house, length five and three-quarters miles.

MODESTO, STANISLAUS CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Modesto. Owners, City of Modesto. Resolutions of intention for the paving of three blocks on 16th street, between H St. and Needham avenue, have been passed by the City Council, the Board adopting the plans and specifications prepared by City Engineer George Freitas. The Engineer was further instructed to prepare plans for the paving of that portion of 7th street, between the highway section and the Tuolumne bridge.

STOCKTON, SAN JOAQUIN CO., CAL.—Sewer construction, \$967.70. Engineer, City Engineer, Stockton. Owners, City of Stockton. The City Council received only one bid for the construction of a concrete storm sewer which will discharge in Yosemite Lake on the center line of Orange street, produced. The bid was that of W. S. Gause, 15 Park Way, Oakland, at \$967.70, which is 50 per cent above the City Engineers' estimate. The bid was taken under advisement.

MARYSVILLE, YUBA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Marysville. Owners, City of Marysville. Plans and specifications for macadamizing 3,000 feet of roadway, beginning at the Simmyer Slough bridge, one mile north of town, have been accepted by the Supervisors. An order to advertise for bids was issued. The probable cost of the road was not given.

COLUSA, CALIF. CO., CAL.—Furnishing cement. Cost not stated. Engineer, County Surveyor, Colusa. Owners, Colusa County. Bids received by the Colusa County Supervisors for furnishing the county with cement have been rejected. Bids were received from the following firms: Henry Howell Lame and Cement Co., The Diamond Match Co., The Pacific Portland Cement Co., and Colusa Lumber Co.

EUREKA, HUMBOLDT CO., CAL.—Sewers. Cost not stated. Engineer, City Engineer, Eureka. Owners, City of Eureka. Plans and specifications were ordered prepared at the meeting of the Eureka City Council for new sewers on L street between Bahue and Sonoma, in alley south of Harris street between D and E streets, and in C street between Grothe and Henderson.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on November 28th at 11 a. m. for street work authorized under the following resolution: That the alley first north of California Boulevard, in Elmhurst, in the city of Sacramento, be removed from Helyer avenue to Elmhurst avenue by excavating a trench and constructing therein 8, 10, and 12-inch, vitrified, ironstone pipe sewers.

That Marshall avenue, near California Boulevard in Elmhurst in the city of Sacramento, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer.

That Monterey avenue, near California Boulevard, in Elmhurst, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer, backfilling the trench constructing eight concrete manholes complete, one 6-inch, vitrified, ironstone flusher branch complete; placing fourteen 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer; placing fourteen 6-inch, vitrified, ironstone Y branches on 10-inch pipe sewer.

That portions of 25th street be improved by grading the space between the property line and curb and constructing concrete sidewalks.

That the alley between Stanley avenue and Cluness avenue, and that the alley between Cluness avenue and Bird-sall avenue, and that the alley between Bird-sall avenue and Hartley avenue, and that the alley between Hartley avenue and McFarland avenue, in Wright & Kimbrough Tract No. 24, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, five concrete manholes complete, placing 36 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and doing all necessary excavating and backfilling of trenches.

That the easement granted to the city of Sacramento for the purpose of constructing therein a sewer on the southerly three feet of lot Nos. 145 to 173 inclusive, between 3rd avenue and 4th avenue, in West Curtis Oaks Addition, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, four concrete manholes complete, placing one flusher branch complete, placing 60 6-inch, vitrified, ironstone Y branches on 8-inch, vitrified ironstone pipe sewer, and backfilling the trench.

That the alley between Carmelo avenue and Maunilla avenue be improved by excavating a trench and constructing an 8-inch, vitrified, ironstone pipe sewer, two concrete manholes complete, placing 21 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and backfilling the trench.

That the three alleys between 2nd avenue and 3rd avenue, in West Curtis Oaks, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer from the north line of 3rd avenue to a point 7 feet north from the south line of 2nd avenue, in each of the following named alleys: The alley first west of 22nd avenue, the alley between 22nd avenue and 23rd avenue, and the alley between 23rd avenue and 24th avenue, etc. Constructing six concrete manholes complete; placing 65 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer; placing two 6-inch, vitrified, ironstone flusher branches complete; replacing 150 square feet of oil macadam pavement; doing all necessary excavating and backfilling of trenches and leaving streets and alleys in their original condition.

That the alley first south of 4th avenue in West Curtis Oaks Addition be improved by excavating a trench and constructing therein an 8-inch, vitrified ironstone pipe sewer; constructing five concrete manholes complete; placing 33 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and backfilling the trench.

That Central avenue in Oak Grove be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer; constructing one concrete manhole complete, and backfilling the trench.

HANFORD, KINGS CO., CAL.—Street paving. \$200,000. Engineer, Edward Lynch, Glendale. Owners, City of Hanford. Approximately sixty blocks of this city will be paved at a cost of \$200,000, according to a decision reached by the Hanford City Trustees at their last meeting. The paving will be of the bituminous type on a concrete base. The Trustees agreed that Dooty and Irwin street should be paved from 8th street, where the paving now ends, to the county road. Harris and Redington streets are to be paved from Sixth to Florida street. Seventh, Ninth and Tenth streets are to be paved to the Santa Fe Railroad.

SAN RAFAEL, MARIN CO., CAL.—Road improvements. Cost not stated. Engineer, County Surveyor, San Rafael. Owners, Marin County. Bids will be opened on December 5th at 10 a. m. for clearing, regrading and ditching that portion of the Fairfax and Bolinas Bay road from the summit of Bolinas Ridge to the head of Bolinas Bay, a distance of four and six-tenths miles, in Road District No. 3, Marin County; and for the construction of culverts and paving thereon.

SANTA CRUZ, SANTA CRUZ CO., CAL.—Street improvements. \$50,600.72. Engineer, City Engineer, Santa Cruz. Owners, City of Santa Cruz. The City Council has instructed the City Clerk to advertise for bids for a considerable amount of street improvement, the estimated cost of which is \$50,600.72, and bids for the work will be opened on November 28th. The improvement provides for permanent paving on King

street from Mission to Ray street, and on Miles, Peyton and Laurel streets. The district is to be sewered, a 6-inch pipe on King street and 4-inch laterals on the other three streets. Sidewalks are to be built where needed, parkways on a portion of King street, necessary curbing and gutters and a concrete waterway along a portion of King street.

BAKERSFIELD, KERN CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. Bids will be opened on November 27th for street improvements authorized under the following resolution: That 21st street between I street and L street, be paved with cement concrete pavement and that curbs and gutters of like material be constructed thereon.

HANFORD, KINGS CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Hanford. Owners, Kings County. Bids will be advertised for soon for the construction of the highway unit running north to Alcorn Bridges with three miles into the Excelsior District for which no bids were received on the first advertising, also the unit running through the island territory west of Hardwick and north of Lemoore, known as the Brownlake unit. The County Highway Commission is preparing plans and specifications for this work.

BAKERSFIELD, KERN CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. Bids will be opened on November 27th at 5:30 p. m. for the construction of a 6-inch sewer of vitrified, salt-glazed sewer pipe along the center line of the alley east of L street near 24th street, also on L street near 28th street, also in the first alley east of L street near Bellevue avenue, also in the first alley east of K street near 28th street, also to construct manholes, lampholes and Y's for house connections as shown on plans therefor on file in the Engineer's office.

MARYSVILLE, YUBA CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Marysville. Owners, Yuba County. County Surveyor Crook has been instructed by the Supervisors to prepare plans and specifications for the reconstruction of the Marysville-Oroville road through District 19 on modern ideas. Crook will also prepare plans for a drainage system in the Hallwood Irrigation District and adjacent territory to prevent further flooding of the county roads from water escaping from the rice fields of that section.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on November 29th for street improvements authorized under the following resolutions: That a vitrified pipe sewer, having an internal diameter of 8 inches, be constructed along Mayhelle avenue, between points distant thereon, respectively, 525.5 feet and 825.5 feet northeast from the northeast line of Bayo street. Also that a vitrified pipe lamphole with a top of brick and cast iron be constructed at the northeast end of said sewer; also that Y branches, each having a 5-inch opening, be constructed on said sewer so as to pro-

side one such branch for each 40-foot lot and fractional lot remaining into which the abutting property frontage is capable of being divided.

VENTURA, VENTURA CO., CAL.—Street paving. Cost not stated. Engineer, County Surveyor, Ventura. Owners, Ventura County. Sealed bids will be received by the Clerk of the Board of Supervisors until 2:30 p. m. December 5, 1916, for the paving of Costas, a Crosse, Montalvo, Sateioy and Sespe bridges. The work consists of 1800 square feet of paving with asphalt concrete (Warrenite). Plans and specifications are on file in the office of the Clerk of the Board of Supervisors and in the office of the County Surveyor. J. J. McCloskey is the Clerk.

SANTA ANA, ORANGE CO., CAL.—Street improvements. Cost not stated. Engineer, County Surveyor, Santa Ana. Owners, Orange County. Bids will be received by the Board of Supervisors up to 2 p. m. of December 6th for constructing 2.53 miles of 18-foot wide concrete pavement between Brea and Linda, in accordance with plans and specifications, obtainable from the County Surveyor upon deposit of \$3. to be returned. Certified check for 5 per cent required. W. B. Williams is the County Clerk.

Contracts Awarded

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, San Francisco. Owners, City of San Francisco. The following street improvements have been awarded by the Board of Public Works: The improvement of Tennessee street between Sunnyside avenue and coast avenue by the construction of concrete curbs, a 7-foot strip of vitrified brick pavement adjacent to the center line, and by the construction of an asphalt pavement on the remainder of the roadway. Awarded to the Federal Construction Co., 323 Sharon Bldg., for \$144.93.

The improvement of the crossing on 10th and De Haro streets by the construction of a 12-inch, vitrified, salt-glazed, ironstone pipe sewer, three brick catch basins with 16-inch, vitrified salt-glazed ironstone pipe culverts, concrete curbs, artificial stone sidewalks, and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface. Awarded to Clarence B. Eaton, 67 11th street, for \$2,170.

The improvement of Clement street between 15th and 16th avenues by the construction of artificial stone sidewalks of the full official width where not already constructed at least twelve 162 feet wide. Awarded to A. O. Field, 165 20th avenue, for \$55.83.

The Board of Public Works has awarded a contract to Karl Ehrhart, 60 Market street, for the construction of the Glen Park sewer on his bid of \$500.

OAKLAND, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Oakland. Owners, City of Oakland. The Oakland City Council has awarded a contract to M. D. Camar, 1044 91st avenue, Oakland, for the following work: That a sewer, having an internal diameter of 8 inches be constructed on 76th avenue near East 11th street; also that a brick manhole with cast iron top and a lamp hole with top of brick and cast iron, and Y

branches, having 5-inch opening, be constructed. Said sewer, Y branches, and lamp hole, excepting the top thereof shall be constructed of vitrified sewer pipe. A contract was also awarded the Hutchinson Co., 13th and Franklin streets, Oakland, for the following work: For the grading, curbing with redwood, guttering with concrete gutters two feet wide, and paving with oil macadam 3 1/2 ft. from the south line of East 8th to the northeast line of Elmwood avenue.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The City Commissioners have awarded a contract to Clark & Henry Construction Co., for the following work: That J street, from the west line of Ashby avenue to the east line of Apioy avenue, be improved by constructing concrete curb; concrete gutter, placing cast iron gutter drains with 6-inch vitrified, ironstone sewer pipe elbows attached, 6 and 8-inch, vitrified, ironstone sewer pipe drains; reconstructing existing concrete manhole grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic wearing surface 1 1/2 inches thick; filling in behind the curbs with earth for a distance of 8 feet.

STOCKTON, SAN JOAQUIN CO., CAL.—Storm water sewer. Cost not stated. Engineer, City Engineer, Stockton. Owners, City of Stockton. The Stockton City Council has passed a resolution awarding the contract for the construction of storm sewers from the intersection of Fifth street and McKinley avenue to the McDonald Canal to W. P. & Gorrill, Mondnock Bldg., S. F., they submitting the low bid for the work.

SAN FRANCISCO—Street improvements. Cost as follows. Engineer, City Engineer, S. F. Owners, City and County of San Francisco. Contracts for street improvements have been awarded as follows: The improvement of Church street, from 18th street to 19th street, by the construction of granite curbs, artificial stone sidewalks, and a vitrified brick pavement on the roadway thereof. Awarded to Peter McHugh, 2908 Clay street, for \$7,055.08.

The improvement of 31th avenue, between Balboa street and Fulton street, by the construction of concrete curbs; a basalt header block pavement on a concrete foundation on both sides of each rail of the Municipal Railroad, said basalt header blocks to be furnished by the city, by the construction of six brick catch basins, with cast iron frames, gratings and traps, and 16-inch, vitrified, salt-glazed, ironstone pipe culverts; and by the construction of artificial stone sidewalks, a 14-foot central strip of vitrified brick pavement on a concrete foundation between Balboa and Cabrillo streets, and between Cabrillo street and a line 200 feet southerly therefrom, and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and of a 2-inch asphaltic wearing surface on the remainder of the roadway thereof. Awarded to Owen McHugh, 201 Russ Bldg., for \$15,170.10.

BERKELEY, ALAMEDA CO., CAL.—Sewer construction. Cost not stated.

Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Contractor, J. J. Henry, 779 McKinley avenue, Berkeley. Contract price, not stated.

SAN JOAQUIN, SAN JOAQUIN CO., CAL.—Sewer construction. \$2,826. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractor, Chambers & Brown, Union Bldg., Oakland. Contract price, \$2,826.

THE GEORGE H. SAN MATHEO CO., CAL.—Sewer sewer. \$3,310. Engineer, City Engineer, Hillsborough. Hillsborough, S. F. Owner, Town of Hillsborough. Contractor, Tishon Bros., 1010 Broadway street, S. F. Contract price, \$3,310.

VENTURA, VENTURA CO., CAL.—Highway construction, \$29,319. Engineer, County Surveyor, Ventura. Owners, Ventura County. Contractors, Baldwin Burns Co., Van Ness Bldg., S. F. A contract price, \$29,319.

SACRAMENTO, CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Street improvement contracts have been awarded under the following resolutions: That Carnegie avenue, from Pierpont road to the easterly line of the Western Pacific Railroad Company's right of way, be improved by constructing concrete curb, concrete gutter, 6-inch, vitrified ironstone sewer pipe drains; 8-inch, vitrified, ironstone sewer pipe drains, two concrete manholes complete, placing two cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; filling in behind the curbs with earth, constructing concrete sidewalks, grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1 1/2 inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento.

That the alley between G and H streets be improved by reconstructing one concrete catch basin with sump complete, with cast iron curb and cover, placing 5 linear feet of 6-inch vitrified, ironstone sewer pipe; grading the alley and constructing thereon an asphaltic pavement consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1 1/2 inches thick. Awarded to The McGilivray Construction Co., 717 Capitol National Bank Bldg., Sacramento.

That the alley between G and H streets, from 13th to 14th streets, be improved by constructing one concrete catch basin with sump complete, placing 5 linear feet of 6-inch, vitrified, ironstone sewer pipe; grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic macadam foundation 3 inches thick and a sheet asphalt wearing surface 1 1/2 inches thick. Awarded to A. Teichert & Son, Ochsner Bldg., Sacramento.

SEALED PROPOSALS.

NOTICE TO LUMBER DEALERS.

Office of the State Purchasing Department, Harbor Commission Branch, Ferry Building, San Francisco, California, November 2, 1916.

SEALED PROPOSALS or bids will be received at this office or prior to 10 o'clock A. M., on Saturday, November 18th, 1916, for the furnishing and delivering of rough lumber as the Board of State Harbor Commissioners may order for use on the various structures on the Water Front of the City and County of San Francisco for twelve (12) consecutive months, commencing with the 7th day of December, 1916, according to the specifications prepared therefor by the Chief Engineer of the Board and adopted by the Board October 25th, 1916, and on file in this office, to which special reference is hereby made. The lumber will be graded in accordance with the rules of the Pacific Coast Manufacturers' Lumber Association, as printed in their Domestic Pacific Lumber Inspection Bureau Standard Schedule of Prices, Dimensions, Grading, Rules, etc., of Douglas Fir, etc. (Commonly known as Puget Sound or Oregon Pine), adopted May, 1912, except that no hemlock will be accepted.

No bid will be received unless it is made on a special blank form furnished from this office and is accompanied by a certified check for the amount of One Thousand (\$1000.00) Dollars, payable

to the order of the Secretary of the Board, conditioned that if the proposal is accepted, and the contract awarded, and if the bidder shall fail or neglect to execute a contract and give the bond required within Six (6) days after the award is made, in that case said sum mentioned in said check shall be deemed liquidated damages for such failure and neglect and shall be paid into the San Francisco Harbor Improvement Fund.

The bond required of successful bidder will be Ten Thousand (\$10,000.00) Dollars, and conditions for the faithful performance by the Contractor of all the terms and conditions of said contract according to the true intent and meaning thereof, and the satisfaction of said Board, and said bond shall also be effective as provided in an act approved May 1, 1911, for the protection of material-men, mechanics and laborers.

Bids will not be considered by the State Purchasing Agent unless delivered to the Purchasing Agent in the office, Ferry Building, San Francisco, at or prior to 10 o'clock A. M., on Saturday, November 18th, 1916.

Bids will be publicly opened at 11 o'clock A. M., Saturday, November 18th in the Board Room of the State Harbor Commission, Ferry Building, San Francisco, Cal.

The State Purchasing Agent reserves the right to reject any or all bids if deemed for the best interest of the State.

Bidders are invited to be present at the opening of the bids.

Bidders are requested to mark envelopes containing bid "Bid for Lumber."

W. G. McMILLIN,
State Purchasing Agent.

CALL FOR BIDS ON FENCING.

SANTA BARBARA, CAL.—Bids will be received by the Board of Supervisors up to 10 A. M. of December 4, for fencing the state highway through the lands of Mrs. J. J. Stinson on the Third Road District, also separate bids for fencing the Harris Station-Lompoc road, through the lands of Lawrence Harris et al, in the Fifth Road District. Specifications are on file at the office of the clerk, and may be obtained from the county surveyor upon deposit of \$10 for each set. Certified check for 10% with each bid required. C. A. HUNT is the clerk.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps **ON the road and OUT of the repair shop.**

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

“Every Owner a Booster”

Four Wheel Drive Truck Co.

Telephone Market 334 343 Golden Gate Ave. San Francisco

**Branches: Los Angeles, Bakersfield, Fresno, Santa Rosa, Coalinga, Fullerton, Paisley, Or.;

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

HIGHWAY CONSTRUCTION \$70,154.75. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Robert Sherer & Co., 650 Pacific Electric Bldg., L. A., submitted the lowest bid to the Kern County Supervisors for the construction of the Bakersfield-Mojave road. Their bid was \$70,154.75. After consideration the matter of awarding the contract was referred to the contract committee for report.

HIGHWAY CONSTRUCTION Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Bids will be opened on December 5th at 10 a. m. for grading, paving, and construction of culverts on division 7, section 2, Bakersfield-Taft road, being that portion lying between the Western Water Company's pumping plant and the end of the pavement near Mosher's half-way house; length five and three-quarters miles.

STREET PAVING—Cost not stated. Modesto, Stanislaus Co., Cal. Engineer, City Engineer, Modesto. Owners, City of Modesto. Resolutions of intention for the paving of three blocks on 16th street, between H street and Needham avenue, have been passed by the City Council, the Board adopting the plans and specifications prepared by City Engineer George Freitag. The Engineer was further instructed to prepare plans for the paving of that portion of 7th street between the highway section and the Tuolumne bridge.

PILE TRETTLE, ETC—Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford. Owners, Kings County. Bids will be opened on December 5th for the construction of three pile trestle highway bridges over Cross Creek and its branches, located west and northwest of Corcoran, county of Kings.

BRIDGE—Reinforced concrete. Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford. Owners, Kings County. At the last meeting of the County Supervisors plans and specifications prepared by the County Engineer for a bridge over Cross Creek northwest of Corcoran, were approved and the County Clerk was instructed to advertise for bids up to December 5th. Further information and plans may be had from the County Clerk.

BRIDGES—Reinforced concrete. Cost not stated. Merced, Merced Co., Cal. Engineer, County Surveyor, Merced. Owners, Merced County. At the last meeting of the County Board of Super-

visors the County Surveyor's plan is intended to prepare plans and specifications for a concrete bridge on the Los Banos-Hungry H. road and a concrete bridge for a bridge on the Dugan road.

BRIDGES—Reinforced concrete. Cost follows. Merced, Merced Co., Cal. Engineer, County Surveyor, Merced. Owners, Merced County. At the last meeting of the Merced County Supervisors bids were opened for the construction of Drainage Districts Nos. 1 and 2, and there were two bidders on each. The Board laid off the bids over for further consideration before awarding contracts. According to the bids submitted and the overhead charge that will have to be added the costs of the districts will aggregate about \$100,000. District No. 1 will cost about \$75,000 and District No. 2 about \$75,000. Action on awarding contracts will be taken at the next meeting.

BRIDGE—Reinforced concrete. Cost not stated. Visalia, Tulare Co., Cal. Engineer, County Surveyor, Visalia. Owners, Tulare County. Bids will be opened on December 5th at 2 p. m. for the construction of a reinforced concrete bridge over Deer Creek, near the center of section 21, township 23, south, range east, M. D. R. and M., on the line of the State highway, to be known as "Tulare County Bridge No. 1."

BRIDGE—Reinforced concrete. Cost not stated. Visalia, Tulare Co., Cal. Engineer, County Surveyor, Visalia. Owners, Tulare County. Bids will be received by the Board of Supervisors up to December 5th for the construction of an 80-foot concrete bridge at Earlham over the Tule River.

STREET IMPROVEMENTS—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. Bids will be opened on November 2th for street improvements authorized under the following resolution: That 21st street, between I street and L street, be paved with cement concrete pavement, and that curbs and gutters of like material be constructed thereon.

HIGHWAY CONSTRUCTION—Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford. Owners, Kings County. Bids will be advertised for soon for the construction of the highway unit running north to Alcorn bridges with three miles into the Exedior District for which no bids were received on the first advertising; also the unit running through the island territory west of Hardwick and north of Lemoore, known as the Broadwater unit. The County Highway Commission is preparing plans and specifications for this work.

SEWER CONSTRUCTION—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. Bids will be opened on November 27th at 5:30 p. m. for the construction of a 6-inch sewer of vitrified, salt-glazed sewer pipe along the center line of the first alley east of L street, near 24th street; also on L street, near 25th street; also on the first alley east of L street, near Polkville avenue; also in the first alley east of K street, near 24th street; and Y's for house connections as shown on plans therefor on file in the Engineer's office.

SANITARIUM—2 story and base, reinforced concrete, \$75,000. Fresno,

Fresno Co., Cal. Architects: J. E. Kraft & Sons, Phelan Bldg., Fresno. Owners, Burnett Sanitarium Co., Station, S street near Fresno. Bids received have been approved by the board and bids will be called for shortly.

LIBRARY—1 story, reinforced concrete. Cost as follows: J. E. Standish Co., Cal. Architects, Fresno. not given. Owners, Standish Co. The two lowest bids received from Standish County Supervisors, for the construction of the proposed Carnegie Library building at Oakdale have been taken under advisement. Five propositions were submitted to the bidders, the variations being in amount of furniture and work valued at \$10. On the inclusive proposition and on the one with the least amount of furniture, sidewalks, etc., the two bids retained were: Knapp, \$7,650 and \$7,100; Voorhees, \$7,793 and \$7,250.

POST OFFICE—2 story and base, concrete and brick. Cost not stated. Bakersfield, Kern Co., Cal. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids will be advertised for between December 1 and 15 for the erection of the new Federal building and post office at the corner of 18th and G streets. The new building will be similar to the one at Berkeley.

SCHOOL GYMNASIUM—1 story, frame, \$2,000. Hanford, Kings Co., Cal. Architects, Glass, Butler & Bowser, Republican Bldg., Fresno. Owners, City of Hanford. All bids received were in excess of the amount available and were rejected. New bids will be called.

STREET PAVING, \$6,000. Hanford, Kings Co., Cal. Engineer, Edward Lynch, Glendale. Owners, City of Hanford. Approximately sixty blocks of this city will be paved at a cost of \$200,000, according to a decision reached by the Hanford City Trustees at their last meeting. The paving will be of the bituminous type on a concrete base. The Trustees agreed that Dooty and Tenth streets should be paved from 8th street, where the paving now ends, to the county road. Harris and Redington streets are to be paved from 6th to Florida street. Seventh, Ninth and Tenth streets are to be paved to the Santa Fe Railroad.

Contracts Awarded.

SCHOOL—2 story, concrete, brick and concrete, \$18,100. Fresno, Fresno Co., Cal. Architects, Glass & Traver, Rowell Bldg., Fresno. Owners, City of Fresno. Contractor, James L. Daly, Griffith-McKenzie Bldg., Fresno. Contract price, \$18,100.

SCHOOL—1 story and base, reinforced concrete, \$6,867. Los Molinos Tehama Co., Cal. Architects, Chester Cole, Waterland Bldg., Chico. Owners, Los Molinos School District. Contractor, W. Pearce, Almond. Contract price, \$6,867.

BRIDGES—Reinforced concrete. Cost as follows: Merced, Merced Co., Cal. Engineer, County Surveyor. Merced Owners, Merced County. Contractor for the construction of five reinforced concrete bridges to be constructed on county roads were awarded at the last meeting of the county supervisors as follows: Bridge No. 47, Middle road, over San Luis Creek, W. H. McElroy, Merced, \$5,360; bridge No. 18, Baxter road, over Dutchman Creek, W. H. McElroy, \$1,530; bridge No. 19, Pate road,

over Marinosa Creek, Parlier & Green, Bakersfield, \$1,187; bridge No. 50, State Highway south of Merced, W. H. McElroy, \$1,120; bridge No. 19, Pate road, over Canal Creek, Halverson & Jordan, Merced, \$1,260.

METAL FURNITURE—\$1,148.75. Merced, Merced Co., Cal. Architect, none. Owners, Merced County. Contractor, General Fireproofing Co., 444 Market street, S. E. Contract price, \$1,148.75.

JAILS—2, 1 story, reinforced concrete. Cost not stated. Bakersfield, Kern Co., Cal. Architect's name not given. Owners, Kern County. Contractors, Ferguson & Rogers, Bakersfield. Contract price not stated.

RECORDED **ACCEPTED**
Nov. 16, 1916—LOTS 10 AND 11 BLK 9 Central Addition, Fresno. Mae B Smith to whom it may concern.
Nov. 16, 1916

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA

SEWER CONSTRUCTION—\$967.70. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. The City Council received only one bid for the construction of a concrete storm sewer which will discharge in Yosemite Lake on the center line of Orange street, produced. The bid was that of W. S. Gause, 15 Park Way, Oakland, at \$967.70, which is 50 per cent above the City Engineer's estimate. The bid was taken under advisement.

BRIDGE FILL, ETC.—\$385. San Andreas, Calaveras Co., Cal. Engineer, County Surveyor, San Andreas. Owners, Calaveras County. Only one bid was received by the County Supervisors for the filling of the approaches to the concrete bridge between the towns of Railroad Flat and West Point. The bid was that of A. G. Roberts and George J. Porteous for \$385. The bid was rejected, and the work ordered done under the Day Labor system.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Bids will be opened on November 24th at 11 a. m. for street work authorized under the following resolutions: That the alley first north of California Boulevard, in Elmhurst, in the city of Sacramento, be improved from Helvetia avenue to Elmhurst avenue, by excavating a trench and constructing therein 8, 10, and 12-inch, vitrified ironstone pipe sewers.

That Marshall avenue, near California Boulevard, in Elmhurst in the city of Sacramento, be improved by excavating a trench and constructing therein an 8-inch, vitrified ironstone pipe sewer.

That Monterey avenue, near California Boulevard, in Elmhurst, be improved by excavating a trench and constructing therein an 8-inch, vitrified ironstone pipe sewer, backfilling the trenches; constructing eight concrete manholes complete; one 6-inch, vitrified, ironstone flusher branch complete; placing fourteen 6-inch, vitrified, ironstone Y branches in 8-inch pipe sewer; placing fourteen 6-inch, vitrified ironstone Y branches on 10-inch pipe sewer.

That portions of 24th street be improved by grading the space between the property line and curb and constructing concrete sidewalks.

That the alley between Stanley avenue and Cluiness avenue, and that the alley between Cluiness avenue and Bird-sall avenue, and that the alley between Bird-sall avenue and Hartley avenue, and that the alley between Hartley avenue and McFarland avenue, in Wright & Kimbrough Tract No. 21, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, five concrete manholes complete; placing 56 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer, and

doing all necessary excavating and backfilling of trenches.

That the easement granted to the city of Sacramento for the purpose of constructing therein a sewer on the southerly three feet of lot Nos. 115 to 173, inclusive, between 3rd avenue and 4th avenue, in West Curtis Oaks Addition, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; four concrete manholes complete; placing one flusher branch complete; placing 60 6-inch, vitrified, ironstone Y branches on 8-inch, vitrified ironstone pipe sewer, and backfilling the trench.

That the alley between Camino avenue and Manzanilla avenue be improved by excavating a trench and constructing an 8-inch, vitrified, ironstone pipe sewer; two concrete manholes complete; placing 21 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and backfilling the trench.

That the three alleys between 2nd avenue and 3rd avenue in West Curtis Oaks be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer from the north line of 3rd avenue to a point 7 feet north from the south line of 2nd avenue, in each of the following named alleys: The alley first west of 22nd avenue; the alley between 22nd avenue and 23rd avenue, and the alley between 23rd avenue and 24th avenue, etc. Constructing six concrete manholes complete; placing 66 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer; placing two 6-inch, vitrified, ironstone flusher branches complete; replacing 450 square feet of oil macadam pavement, doing all necessary excavating and backfilling of trenches and leaving streets and alleys in their original condition.

That the alley first south of 4th avenue in West Curtis Oaks Addition be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer; constructing five concrete manholes complete, placing 33 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer, and backfilling the trench.

That Central avenue in Oak Grove be improved by excavating a trench and constructing therein an 8-inch, vitrified ironstone pipe sewer; constructing one concrete manhole complete, and backfilling the trench.

STREET IMPROVEMENT—Cost not stated. Marysville, Yuba Co., Cal. Engineer, City Engineer, Marysville. Owners, City of Marysville. Plans and specifications for macadamizing 3,000 feet of roadway beginning at the Simmerly Slough bridge, one mile north of town, have been accepted by the Supervisors. An order to advertise for bids was issued. The probable cost of the road was not given.

FURNISHING CEMENT—Cost not given. Colusa, Colusa Co., Cal. Engineer, County Surveyor, Colusa. Owners, Colusa County. Bids received by the Colusa County Supervisor for furnishing the county with cement have been rejected. Bids were received from the following firms: Hopy, Cowell Lime and Cement Company, the Diamond Match Co., the Pacific Portland Cement Company, Colusa Lumber Co.

SEWERS—Cost not stated. Eureka, Humboldt Co., Cal. Engineer, City Engineer, Eureka. Owners, Humboldt County. Plans and specifications were ordered prepared at the meeting of the

Eureka City Council for new sewers on L street between Bulme and Sonoma, in alley south of Harris street between D and E streets, and in C street between Grotto and Henderson.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. The City Commissioners have awarded a contract to Clark & Henry Construction Co. for the following work: That J street, from the west line of Ashby avenue to the east line of Apricot avenue be improved by constructing concrete curb, concrete gutter; placing cast iron gutter drains with 6-inch, vitrified, ironstone sewer pipe elbows attached; 6 and 8-inch, vitrified, ironstone sewer pipe drains; reconstructing existing concrete manhole; grading the roadway and constructing thereon an asphaltic concrete pavement consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic wearing surface 1½ inches thick, and filling in behind the curbs with earth for a distance of 3 feet.

STORM WATER SEWER—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. The Stockton City Council has passed a resolution awarding the contract for the construction of storm sewers from the intersection of Fifth street and McKinley avenue to the McDonald Canal to Whitlock & Gorill, Monahock Bldg., S. F., they submitting the low bid for the work.

HIGHWAY IMPROVEMENT—Cost not stated. Marysville, Yuba Co., Cal. Engineer, County Surveyor, Marysville. Owners, Yuba County. County Surveyor Crook has been instructed by the Supervisors to prepare plans and specifications for the reconstruction of the Marysville-Oroville road through District 19 on modern ideas. Crook will also prepare plans for a drainage system in the Hallwood Irrigation District and adjacent territory to prevent further flooding of the county roads from water escaping from the rice rice fields of that section.

RESIDENCE—1 story and base, frame, \$1,000. Sacramento, Cal. Architect, none. Owner, Just Martin, 5620 Manzanilla street, Sacramento. Location, Elmhurst. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SCHOOL—1 story and base, frame, \$18,000. Marysville, Yuba Co., Cal. Architect, Julia Morcin, Merchants' Exchange Bldg., S. F. Owners, Marysville School District 1. C. Evans, Marysville, submitted the lowest bid for this work and will be awarded the contract. His bid was \$20,529, but some deductions will bring it down to \$18,000, the amount available.

Contracts Awarded.

SEWER CONSTRUCTION—\$2,826. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractors, Chambers & Herley, Bacon Bldg., Oakland. Contract price, \$2,826.

LEHIGH—Reinforced concrete. Cost as stated. San Luis Obispo, San Luis Obispo Co., Cal. Engineer, County Surveyor, San Luis Obispo, Owners, San Luis Obispo County. All bids received by the County Supervisors for the construction of a bridge on the Polytechnic School road have been rejected. The bids were as follows: Theo. M. Maino, \$3,115; W. L. Gilham & Sons, \$2,926; Midland Bridge Co. of Kansas City Mo., \$5,200.

STREET PAVING—Cost not stated. Ventura, Ventura Co., Cal. Engineer, County Surveyor, Ventura, Owners, Ventura County. Sealed bids will be received by the Clerk of the Board of Supervisors until 2:30 p. m. December 5, 1914, for the paving of Castias, La Crosse, Montalvo, Satecy and Soso bridges. The work consists of 4,000 square feet of paving with asphalt concrete (Warrentite). Plans and specifications are on file in the office of the Clerk of the Board of Supervisors and in the office of the County Surveyor J. H. McCloskey is the Clerk.

Contracts Awarded.

HOSPITAL COTTAGE—1 story, frame and concrete, \$26,736. Patton, San Bernardino Co., Cal. Architect, State Architect George B. McDonald, Sacramento, Owners, State of California. Contractors, Cheemer Mfg. Co., Riverside. Contract price, \$26,736.

HIGHWAY CONSTRUCTION—\$29,349. Ventura, Ventura Co., Cal. Engineer, County Surveyor, Ventura, Owners, Ventura County. Contractors, Brashear-Burns Co., Van Nuys Bldg. L. A. Contract price, \$29,349.

PORTLAND AND OREGON

STORES AND LOFTS—2 story and base, mill construction, \$26,000. Portland, Ore. Architects, Houghtaling & Dougan, Henry Bldg., Portland, Owners, Rodney and Burnside Contractors, Trenchell & Pardins, Builders' Exchange, Portland. Contract price, \$26,000.

SEATTLE AND WASHINGTON

APARTMENT HOUSE—2 story and base, brick and steel, \$76,000. Seattle, Wash. Architect, R. Hamilton Rowe, Northern Bank Bldg. Seattle, Owners, Securities Construction Co., Securities Bldg., Seattle. Location, 1th avenue and Bell street. Will contain 15 apartments of two, three and four rooms. Plans complete and figures being taken.

POST OFFICE—2 story and base, brick and stone. Cost as follows. Wenatchee, Wash. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids opened by the Treasury Department for the construction of the U. S. post office at Wenatchee resulted as follows: First figures, limestone, second figures, sandstone: Pacific States Construction Co., \$99,763, \$101,323. Welch Bros. & Hanniman, \$86,333, \$89,777. Olson & Johnson, \$85,695, \$87,195. W. D. Lovell, \$81,483, \$81,183. Hendrickson & Co., \$79,698, \$86,798. W. H. Maxa-Bell, \$95,800, \$97,700. T. E. Young, \$87,000, \$87,000. John Wallin, \$78,997, \$80,521. Puget Sound B. & D. Co., \$84,100, \$87,300. Sound Construction Co., \$79,631, \$81,631. T. E. Young, John Wallin and the Puget Sound Bridge and Dredging Co., also bid \$88,000, \$80,200 and \$88,900 on Wilkeson Sandstone, respectively. John

Wallin, 576 South 1st street, Tacoma, is apparently the low bidder.

MARKET—1 story and base, brick, \$6,000. Seattle, Wash. Architect, H. Eichelinger, Seattle, Owners, Flyke & Co. Contractor, Martin Schuchle, 9136 7th avenue, South Seattle. Contract price, \$10,000.

FIGURES OPENED FOR BENICIA STORE HOUSE.

R. S. K. MacMillen Presents Lowest Figures for Government Job at Benicia Arsenal.

Bids were opened at the Benicia Arsenal Tuesday morning for the construction of a two-story reinforced concrete storage building, designed by Architect Chester H. Miller, Oakland. R. S. K. MacMillen, 153 Duncan street, San Francisco, presented the lowest figures at \$21,600 for the building and a framework, and \$19,270 for the building without the framework. Following is a complete list of the bids:

Store House, Benicia.

Guthrie Bros.	\$25,292	\$23,380
Trevia & Pasquabetti	22,900
W. N. Concoman Co.	25,416	23,996
D. Munson	27,587	26,333
Munroe & Laxay	25,990	24,441
Grace & Bernieri	23,495	21,715
Pringle-Dunn & Co.	26,295	24,775
L. G. Berger & Son	24,272	22,922
R. S. K. MacMillen	21,600	19,270

RECEIVE FIGURES FOR MELROSE SCHOOL HOUSE.

All Bids Referred to Legal Department And Award of Contract to be Made at Monday's Meeting.

The following figures were opened by Trustees of the Melrose Heights School District on Monday night for the construction of a two-story frame addition, designed by Architect John J. Donovan, Perry Bldg., Oakland. All bids were referred to the legal department and another meeting of the Trustees will be held on Monday next at which the contract will be awarded. Following is a complete list of the bids received:

Melrose Heights School Addition.

Bidder	No. 1	No. 2	No. 3
Schubel, Hostrow, Ser & Pedergift	\$12,602	\$1,174	\$1,605
Peter M. Schmidt	12,950	1,500	1,900
W. T. Thornally	13,285	1,326	1,700
G. S. Armstrong	11,949	1,250	1,709
F. T. Eganand	12,570	1,087	1,654
Robert Glaze	12,835	2,310	1,990
R. W. Littlefield	12,765	1,250	1,750

CHINESE RAILWAY EXTENSION.

The contract, between the Chinese Government and American interests for the building of more than 1000 miles of railway is the second large scheme of railway extension entered upon during the present year in China, after a two years' suspension of activity brought about by the war. There are now 6,467 miles of railway in operation, with 2200 miles under construction, though "construction" has made very little progress in the last two years. Altogether, the Government's railway program calls

for 14,000 miles. The first, which 6000 miles will be ready for the state of the international market period. "China soon will be a distributor among all the world." Since 1913 contracts provide for 11,000 miles of railway under construction, and 100 miles under completion, and several hundred miles of Shantung under planning up to the Japanese extension of 1114 miles in South-east Manchuria, 500 miles of Russian line in North Manchuria. The first contract was made in March. The railway short for the Chinese Government is not railway in the strict sense of a profit more than \$800,000 receipts of a profit more than \$700,000. New York Evening Post.

INCREASING CALIFORNIA EXPORTS TO CENTRAL AMERICA.

How the factory owners of California may largely increase the exports of their goods to countries on the west coast of the Central American republics, showing the natural advantages that would help factory owners of this State to secure the business of those countries which is now beginning to go to eastern states manufacturers, will be told at the luncheon meeting of the Home Industry League of California, on Thursday, November 16, at the Palace Hotel. The general public is invited by the League to be present.

The speaker will be the Hon. C. A. Harp, who has just returned to his Oakland home after an extensive business visit to those countries, and who will deliver the talk under the auspices of the Foreign Trade division of the United States government department of commerce.

Mr. Harp will show how big a business there is available in those places today for California builders of small boats, gasoline and kerosene engines, and makers of the accessories; how a second Singapore is going up rapidly, on account of the Panama Canal, on the peninsula of Osa, and how California manufacturers can grasp the opportunity of establishing supply depots there.

The imminent decision to build a new trans-continental canal, through Nicaragua, to accommodate the overflow of business through the Panama Canal, will also be explained by Mr. Harp, who will illustrate his talk with newly-taken pictures of the principal places and industries concerned.

WESTERN TOUR OF PROMINENT LUMBER MANUFACTURERS.

CHICAGO, Ill., Nov. 5.—Formal announcement has been made of the detailed plans for the western tour of prominent eastern lumber manufacturers, under the auspices of the National Lumber Manufacturers Association. The trip will be by directors or the national association to Washington, Oregon and California, and is intended to receive suggestions for the improvement of present plans for the national campaign for the promotion of the use of lumber, both through educational channels and by magazine and newspaper publicity. All of those making the trip are manufacturers who have learned from experience the value of newspaper advertising.

It has long been felt that the coast

manufacturer's suggestion that it provide valuable suggestions for the trip. It is his experience on best means of promoting the use of wood, and the trip of the eastern director of the association is with the two objects in view. These suggestions and of the trip are recommended what is already in the reconstruction.

The schedule of the trip follows:
Spokane, Monday and Tuesday, Nov. 17 and 18.

Seattle, Wednesday and Thursday, Nov. 19 and 20.

Tacoma, Friday and Saturday, Nov. 17 and 18.

Portland, Monday and Tuesday, Nov. 20 and 21.

San Francisco, Thursday and Friday, Nov. 23 and 24.

The first day of each day's stay in a city will be devoted to conferences, the second day to completion of these conferences and to the inspection of logging and manufacturing in each locality. It is expected that some of the western lumbermen may make the trip from Spokane to San Francisco with the easterners, or at least make part of the trip.

The number in the party is not as yet definitely known. It is certain that President R. H. Bowman of New Orleans, of the national association will head the party. With him will be C. S. Keith, of Kansas City, president of the Southern Pine Association; R. B. Goodman, Goodman, Wis., head of the promotion bureau of the hemlock manufacturers, whose efforts resulted in a \$25,000 annual appropriation for the advertising of that wood in three northern states; and A. R. Turnbull, president of the North Carolina Pine Association, which is also doing much to promote the sale of lumber in the east. Mr. Bowman was the pioneer in lumber advertising, having promoted the first big lumber campaign, that for cypress. Mr. Keith was a leader in the movement for advertising southern pine, and the success of newspaper advertising will be only one of the phases to be discussed by these gentlemen when they visit the west.

Several other directors of the national association have tentatively promised to make the trip, but have not as yet been able to definitely arrange their personal affairs to make the trip.

NEW LOS ANGELES FACTORIES.

LOS ANGELES—Twelve new industries were established in Los Angeles during September, according to the monthly report of the industrial bureau of the Chamber of Commerce. The new industries are: Aeroplane factory, artificial flowers, tancy cakes, auto supplies, ironing boards, caskets, boiler compound, wall and closet beds, bed products, mops, wrenches, riding bits and spurs. In addition to the foregoing Industrial Commissioner A. W. Kinney visited 42 manufacturing concerns; interviews were held at the bureau with 249 individuals who were furnished with industrial information and 17 factory prospects were taken under consideration.

BOX FACTORY PLANNED.

EUREKA, Cal.—A new industry for Eureka, which may in time prove one

of the large manufacturing establishments, and which has the financial backing of local men, is the box factory and moulding mill which will within a short time commence operations in the building known as the Eureka Mechanical Shop on Washington street.

The capitalization of the firm is not known although it is understood to be considerable. The president of the new company is W. T. Crane, the secretary, P. McKenzie, and the manager, J. E. Shields, formerly of the Cottrell Moulding Mill. Other men interested in the factory are Samuel Frederick, shingle manufacturer; W. A. Hepler and A. Tomlinson.

Much of the machinery now in the mechanical shop will be utilized for the moulding mill and machinery to be used in the manufacture of boxes is expected soon.

For the manufacture of boxes it will be necessary to have spruce lumber brought here. The firm expects a shipment of 200,000 feet of spruce from the north within a short time. This is taken to mean that it will be but a matter of a few weeks until operations are actually commenced.

It is understood that with the commencement of operations about 18 or 20 men will be employed. Later, however, this force is expected to be considerably larger.

PLANS FILED FOR STATE BUILDING.

At noon yesterday forty sets of competitive plans had been filed at Sacramento for the new State Building to be erected in the Civic Center. The time for receiving plans closed Wednesday night at midnight. Probably at least ten more sets of plans will be received.

SCARCITY OF ELECTRIC MATERIALS REPORTED.

Owing to the scarcity of electric materials, applications for electrical inspection filed with the Department of Electricity have fallen off considerably the past few days.

Many contractors complain of the shortage of number 12 and 6 wire while others speak of the lack of bushings. The Superintendent of Wiring of the Gas & Electric Appliance Co. states that they know of no scarcity although the price has somewhat advanced, and with the exception of number 6 wire they have no difficulty in filling their orders.

Yesterday, Nov. 21 5 P. M. 24 wiring applications were filed with the Department as against 1 fixture applications.

HOVES NO LONGER COMPLETE WITHOUT GARAGES.

Fifty years ago nearly every gentleman who could afford a horse had one, and outside of congested centers there was a stable in connection with most residences. Society is returning by another time with a different vehicle to that same state of mind, and real estate developers and investors must take that fact into their calculations. Even if a buyer does not wish to keep a car, he will be wise if he looks ahead to the time when he may possibly wish to

dispose of his property quickly, for the public taste in this direction is certain to extend and continue indefinitely, because the automobile combines both utility and pleasure, the same as the horse. The automobile, in a word, has become a fixed and permanent part of the home life. Nearly every man who thinks of having a house of his own includes a garage in his thoughts. The city planner or landscape architect who does not make a place for it in his scheme is behind the times.—Improvement Bulletin.

SALVAGE OF SUNKEN SHIPS.

RIO DE JANEIRO, Brazil.—Interest has been aroused here in technical circles by a recent lecture at the Club de Engenharia (Engineers' Club) of Rio de Janeiro, by Dr. Sylvio Pellico Portella, concerning his invention for the salvage of sunken ships. It is claimed by him that the invention is applicable to ships sunk at almost any depth, so long as divers are able to reach them, and that it is effective in putting a wreck about, no matter what its position on the sea floor.

The invention consists of a tender of special model, which is equipped with floats of waterproof material. These are neatly folded, but later when inflated with air they assume all sorts of shapes—parallelepipeds, spheres, cylinders, etc. They are carried down by divers and attached to various portions of the sunken vessel, both within and without, still retaining their connection by means of hose with the tender ship. When all are properly fastened in place they are inflated by air pressure from above, like the tires of an automobile. As they swell they are said to gradually displace the water within and about the wreck, and it is said that by their own buoyancy they float it to the surface.

The claim is made that the invention had two trials in Paris.

INCREASED SALES OF AMERICAN HARDWARE IN PERU.

Conditions produced by the European war have been particularly favorable to American hardware manufacturers in the markets of Peru. Their position there has been considerably strengthened, even in the face of curtailed purchases during the war period. The United States already occupied a favorable position, for in the normal year 1913 Peru's imports of that class of goods were valued at \$2,617,007, and of the total amount this country furnished \$1,040,749 worth. England's share was \$852,557, and that of Germany was \$479,964. These were the nearest rivals.

A report on sales of American hardware in this South American country has been published by the Bureau of Foreign and Domestic Commerce as the third of a series on the hardware markets of the world. It emphasizes the fact that the excellent reputation for quality previously established for our hardware has greatly assisted American manufacturers and exporters in the Peruvian field since the war started.

This third report in the series, like the first two, is concerned with the general conditions governing the hardware trade and with the practical details concerning the sale of each particular article of hardware. Among the chapters are: Extent to which

Cardage, Road, Good factors affecting American trade, features of good that win favor, System of conducting trade, Methods of entering markets, Packing, Credit information, Usual method of financing, list and 15 chapters on particular lines of hardware, such as artisans' tool and supplies, mining tools, agricultural hardware, cutlery, builders' hardware, and self hardware.

"Peruvian Markets for American Hardware," Miscellaneous Series No. 29, contains 61 pages, and may be purchased for 10 cents from the Superintendent of Documents, Washington, D. C., or from the district offices of the Bureau of Foreign and Domestic Commerce.

PERUVIAN STEAMSHIP LINE OPENS OFFICE IN COLON.

COLON, Panama, Oct. 20.—The Peruvian Steamship Co. (Compañia Peruana de Vapores y Dique de Caliao) has established its own agency on the Isthmus of Panama, with its head office in Colon, where communications should be addressed to the general agent of this company. It has opened an office also in the city of Panama. The Peruvian Line maintains a service between Cristobal, Canal Zone, and West Coast ports as far south as Caliao, with sailings each way about once a week.

ARCHITECTURAL FEATURES IN DESIGN.

Engineers in this country should exert more influence in the development of architecturally pleasing effects in the design of structures than they have done in the past. Frequently the pressure brought to bear upon them by owners or officials of corporations and municipalities who control the design of engineering construction and insist upon mere utility and, sometimes, upon lowest first cost, is hard to resist. It is encouraging to note cases in which this pressure has been successfully resisted and overcome. Engineering work should not be wholly utilitarian. In all cases where natural surroundings require it, where the consistent development of a great architectural plan is possible, or where the presence of appreciative observers is probable, the element of general architectural appearance should be given consideration. We are still far behind European engineers in this respect. Surely the great natural wealth of this country can be better applied in this direction than we have yet succeeded in applying it. —Engineering Record

BUSINESS HOMES IN AMERICAN SAMOA.

Commercial Agent E. G. Babbitt has forwarded from San Francisco a list of general stores in Pago Pago, Leone, and Manua's American Samoa, that was furnished him by the governor of that territory. This list may be had by interested manufacturers and exporters upon application to the Bureau of Foreign and Domestic Commerce or its district and co-operative offices. Refer to file No. 164.

FOREST FIRE SEASON ENDS IN WEST AND BEGINS IN EAST.

WASHINGTON.—Although final figures are not yet available, reports received by the Forest Service indicate that the forest fire season in the West and North is practically at an end. At the same time, say the officials, the fall fire season is just beginning on the National Forests in the Southern Appalachians.

The difference in the occurrence of the fire seasons, it is explained, is caused by the difference in the character of the forests and of the climate in the two regions. In the North and West the forests are composed almost entirely of conifers and are located at comparatively high altitudes or high latitudes. The greatest fire danger in these regions, the foresters say, occurs during the late spring and summer months, when the rainfall is light. During the rest of the year, there is, as a rule, enough rain and snow to prevent fires from starting. On some of the forests in southern California, however, the fall rains are sometimes late in coming and the fire-fighting organization must often remain on duty until late in November.

In the Southern Appalachians, however, the situation is practically reversed. The forest is largely composed of hardwoods and the heaviest rainfall occurs in the spring and summer and about two months in late winter. As a result, there are two distinct fire seasons. The first of these occurs in the fall, when there is usually little rain and the ground is covered with the dry fallen leaves, which are very inflammable. The fall fire season lasts until about December 15, when the winter rains set in. In the later winter months, the woods dry out and in February or March the spring season begins, and continues until the spring rains come or the trees and plants put out new leaves and become too green to burn readily.

A fire in the spring is much more disastrous than at any other time of the

year according to the foresters. The new shoots on the trees are very tender and easily injured, and if a fire occurs after the "sap starts," it usually kills all the young trees and many of the older ones in the forest. While timber is always damaged by a fall fire, unless the fire is severe many trees will put out new growth in the following spring.

In the West, it is reported, snow has fallen in many localities and the Forest rangers are taking up other duties and are enjoying the let-up in the arduous work of fire fighting. The rangers in the East, on the other hand, are making their final plans for the coming season and are starting their patrol.

SIAMESE HARDWOODS.

In Siam the rose-woods are worked more particularly from the regions lying northeast and east of Bangkok and are exported in the form of roughly trimmed round logs, the average size of which is 12 to 24 inches in circumference and 80 to 120 inches in length. The rosewood forests have been heavily overexploited, and as the Siamese government is now taking measures to protect this wood by requiring workers to take out permits and by fixing a minimum girth at which it may be felled, restriction in general output is likely to ensue. The ebony woods are found to the west of Bangkok in the district of Kanburi, Petchaburi, and to the south toward the Malay peninsula. They also are exported in the form of roughly trimmed logs 12 to 20 inches in circumference and 50 to 120 inches in length.

The exploitation of these woods is not a regular industry in Siam, but forms one of the desultory occupations of the people when they are not engaged in rice growing. The wood is bought by Chinese, who are either middlemen or agents of Bangkok Chinese firms, and, as it will not float, it is brought to Bangkok by boat or by train. It is sold by weight, the unit for export being usually 100 piculs

Two Fine Building Lots, N. Cragmont Berkeley for Sale.

New homes being erected on all sides. Both lots 40 feet front and varying depths of 140 to 200 feet. Street work and sidewalks done. Gas and electricity to lot line.

Address C. F. E., care this office.

These lots command an unobstructed panoramic view of Oakland, Berkeley and San Francisco Bay. Convenient to cars.

Letter Heads, Envelopes, Etc., neatly printed.

Builder Printing Co.

Tel. Douglas 2372

(about 6 tons), and the average price in Bangkok ranges from £2.16s (\$109.50) to £37.10s (\$182.50) for rosewoods and about £22.10s per piculs for ebonyes. The ebonyes are apparently more uniform in quality than the rosewoods. None of these woods appear to be dealt with in Bangkok in the sawn form.—The Timberman.

SAFEGUARDS IN BUILDINGS.

The man who intends to build will not take heed of the man who has had an unfortunate experience in building, because he feels that he is shrewd enough to look after his own interests and safeguard his own rights, notwithstanding the fact that he is engaging for the time being in a business enterprise that is totally foreign to him. If he sets out to buy a five-cent loaf of bread he gets a loaf of bread for 5 cents. If he sets out to build a residence for \$25,000 there are no good reasons why he should not be able to do it for that amount. He should definitely know two things—first, exactly what he is going to get for the price he expects to pay and, second, the outside limit of cost for the completed structure. To demand these safeguards is perfectly fair and natural, for in every phase of business today, except building, one knows just what the cost of any specified piece of work will be.—Noble Foster Heggson in Countryside Magazine.

SACRAMENTO BUILDING TOTALS.

SACRAMENTO, Cal.—The report of William B. Rohl, City Building Inspector, for the month of October, 1916, shows an increase of twenty-one per cent in building activity over the same month of the preceding year. During the month just passed 160 permits were issued calling for an expenditure of \$120,162 in new and reconstructed buildings as against 120 permits and an aggregate of \$99,277 as the expenditure for October, 1915.

ENGINEERING WORKS SOLD.

OAKLAND, Cal.—The Gorham Engineering works, located near the Park street bridge, in East Oakland, has been purchased by the Skandia-Pacific Oil Engine Company. The net price is approximately \$100,000. The deal was closed recently, and it is understood the plant will be greatly enlarged to take care of the present orders, and for the future building of the celebrated Skandia-Son Diesel engines, the exclusive American rights for which are held by this concern.

The larger owners of the new concern are J. Hyerdahl Hansen of San Francisco, and J. Lindhorst, president of the Pioneer Mining Company of Alaska, and head of the Scandinavian bank of Seattle. The new concern holds contracts to the extent of \$500,000 for engines.

The Gorham concern, which established this industry, was incorporated in 1912 for \$50,000 and the assets are worth \$150,000. W. P. Gorham a resident of Alameda, is the president, and his son, W. B. Gorham, has been resident manager. The new company is incorporated in Nevada for \$1,000,000.

Associated Catalogues.

Here the Architect usually finds the blueprints, catalogues, announcements, etc., that come to his office. He can't take care of them. There are too many of them.

the Remedy:

Associated Catalogues is a collection of catalogues of Building Materials, Building Equipment and Building Machinery available on the Pacific Coast, bound in one volume, thoroughly indexed for instant reference for Architects use.

Every Architect, Consulting Engineer and Large Corporation Purchasing Agent on the Pacific Coast will receive a copy Free. When

Size of pages, 11x14 inches.

the Architect is preparing his plans and specifications, he wants to know how to specify your goods. It's up to you, Mr. Dealer, to make it easy to specify your products.

Associated Catalogues presents the solution. Price per page \$30.00.

Contract Awarded for Nurses' Home.

The Pacific Engineering Company has been awarded the contract to build the nurses' dormitory at the Children's Hospital. Its bid was \$21,987, and, according to the agreement, the building will be finished within five and a half months.

The structure is to be entirely of concrete and modern in every respect. A feature of the building is a large sleeping porch on the second floor at the rear, where all the nurses will sleep, using their rooms only for the purpose of dressing.

HONOLULU.

To Start Sewer System at Schofield.

Officers of the quartermaster's department, Hawaiian department, state that plans are practically completed for calling for bids on the big sewer system at Schofield Barracks, which will mean an expenditure of practically \$40,000. Plans for the system have been under way for seven years, but not until a few weeks ago was an appropriation set aside for the work.

Bids are also to be called for soon on material for 18 officers' quarters, four field officers' quarters and five ready-made houses. Rock crushers and planing mills for the work of construction about to begin under the recent appropriation will be erected as soon as bids have been received and considered.

Representatives of National Lumber Manufacturers In San Francisco.

Looking to closer relations between allied interests in the Lumber trade from forest to consumer, a party of representatives of various Lumber Associations consisting of Mr. R. H. Bowman, President, The National Lumber Manufacturers Association, New Orleans, La.; Mr. C. S. Keith, President Southern Pine Association, Kansas City, Mo.; Mr. F. E. Weyerhaeuser, Northern Pine Association, St. Paul, Minn.; Mr. R. E. Goodman, Head of the Hemlock Promotion Campaign of the Northern States, Goodman, Wis., and Mr. A. R. Turnbull, President North Carolina Pine Association, Norfolk, Va., are to be in San Francisco today.

In order to meet and discuss matters that all might better understand the aims and purpose of this great movement, a meeting of all the various lumber interests will be held at the Palace Hotel today at 12:30 o'clock.

The meeting will be preceded by a luncheon and the afternoon devoted to business talks.

In discussing some phases of the lumber industry Mr. M. A. Harris, of the Van Arsdale-Harris Lumber Co., said to a representative of the "Builder," "that the Lumber Interest of the whole United States must take notice that whether we like it or not, the day is here in which the lumbermen must keep closely in touch with congress and the various departments at Washington. If we wait in each case until something injurious to our interests has occurred, we will have little or no chance to rectify mistakes. If we co-operate fully and freely with the Washington officials at all times, the chances are very much less that detrimental measures and policies will be adopted without our having a chance to give them consideration. This has been strikingly exemplified in the developments of recent months."

Co-operation, not only with other manufacturers, but with the governmental authorities as well, was thus advocated by President R. H. Bowman, of New Orleans, of the National Lumber Manufacturers before western lumbermen in Portland recently. With other eastern and southern lumbermen, leaders in the lumber manufacturing regions east of the Rockies, he came west to ask for suggestions from western manufacturers for the carrying forward of the new national plan for the promotion of the lumber industry, through advertising and special work toward giving better service to the consumers, of the nation's forest products, and to tell the success of the work already done.

Following a preliminary investigation covering a year, the Interstate Commerce Commission last July held in Chicago a general hearing upon the entire question of the classification of forest products, throughout the United States. Briefs by counsels will be filed with Commission during November. It is expected that oral arguments will be made in December, and a final decision announced by the Commission some time in 1917.

"For the first time in history, every branch of the lumber manufacturing industry presented a unanimous front upon a traffic question, and there is no question but that the outcome of the case will be much more favorable to the industry than if it had been handled without the direction and assistance of the National Lumber Manufacturers Association.

"The lumber industry has presented its first big case to the Federal Trade Commission also through the National Association and its decision, which may now be expected any time, should set a precedent for dealing with all industries founded upon natural resources. If the commission finds, as the overwhelming evidence will compel it to find, that there is no 'Trust' detrimental to the consumer among the lumber manufacturers, but that on the contrary both the industry and the public and the forests of the future have suffered from the results of cut-throat competition in the manufacture and sale of lumber, and that only through legalized co-operation can the rational use and conservation of our timber resources be brought about, a new policy of tremendous value and importance will have been instituted by the government.

"The Federal Trade Commission, the Forest Service and the Bureau of Foreign and Domestic Commerce are working together to solve problems in the production and distribution of lumber. The Bureau of Foreign and Domestic Commerce has not sufficient funds, so it is proposed that in co-operation with the National Lumber Manufacturers Association, six men be sent to Europe as soon as possible to furnish prompt and reliable information upon the character and extent and demand for American lumber immediately after the close of the war. The bulk of the money for this investigation will have to be furnished by the lumbermen, if it is made, but there is no question that the lumbermen should rise to this opportunity to extend their business."

The following Committee has charge of today's meeting:

A. A. BAXTER,
M. A. HARRIS,
OTIS JOHNSON,
E. A. BLOCKLINGER,
L. H. PIERSON,
E. A. SELFRIDGE, JR.,
Committee

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO—Apartment house, 6 story and base, steel and brick, \$125,000. San Francisco Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. BONDS

TERRA BELLA, TEHAMA CO., CAL.—The directors of the Terra Bella Irrigation District have sold the \$2,500,000 bond issue and a contract for constructing the system of canals, ditches, etc., has been let to a San Francisco contractor.

WATERFORD, STANISLAUS CO., CAL.—The Waterford Irrigation District has sold the \$165,000 bond issue to the Union Savings Bank of Modesto. A contract for a portion of the proposed work to be financed by the sale of the bonds has been let.

COLUSA, COLUSA CO., CAL.—The \$85,000 grammar school bond issue carried. A new building will be erected. **CHOWCHILLA, MADERA CO., CAL.**—An election has been called for December 6th to vote bonds of \$50,000 for the erection of a new school. No architect to design plans for the proposed structure to be erected has been selected.

REDWOOD CITY, SAN MATEO CO., CAL.—Bonds of \$15,000 have been voted by the West Union School District and a new school building will be erected from the sale of the bonds.

SUNNYVALE, SANTA CLARA CO., CAL.—The election held to vote bonds for municipal improvements carried as follows: \$15,000 for the water system; \$4,000 for the municipal buildings; \$7,000 for the town hall, and \$4,000 for the fire department.

SAN DIEGO, SAN DIEGO CO., CAL.—Bonds of \$682,000 for the construction of a concrete dam at Lower Otay have been voted and from plans prepared by M. M. O'Shaughnessy, San Francisco City Engineer, the work will be placed under way on the sale of the bonds.

The \$50,000 issue for the construction of bridges over the San Diego River failed to receive the necessary majority.

EAGLE ROCK, LOS ANGELES CO., CAL.—Bonds of \$75,000 have been voted for the purchase of a private water system.

SAN JACINTO, RIVERSIDE CO., CAL.—Bonds of \$25,000 were voted last week for sewer and street improvements.

SAN DIMAS, LOS ANGELES CO., CAL.—County Flood Control Engineer J. W. Reagan has prepared preliminary plans for a dam 125 feet high and 265 feet long, with 15-foot roadway on top, to impound about 2,400 acre-feet of water, to be constructed in San Dimas Canyon, costing about \$275,000. The work will be done under the proposed \$2,600,000 bond issue.

MARIPOSA, MARIPOSA CO., CAL.—Bonds of \$12,000 have been voted to provide for the erection of a new school building.

RIVERSIDE, RIVERSIDE CO., CAL.—A bond issue of \$750,000 has been requested for park improvements.

HANFORD, KINGS CO., CAL.—Plans progressing for a \$200,000 bond issue for street improvements. Edward Lynch of Glendale has been selected as engineer to prepare plans for the work.

OCEAN BEACH, LOS ANGELES CO., CAL.—Bonds of \$12,000 have been voted for ocean front improvements.

RED PLUM, TEHAMA CO., CAL.—The Tehama County Grand Jury has recommended that a bond issue of \$150,000 be called to provide funds for the construction of a new County Court House.

Owner, W. J. Keenan, Masonic and

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not FOUR WHEEL DRIVE.

On the F-W-D Truck every wheel is a **Driving Wheel**. The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. So the **F-W-D** lasts years longer. The **F-W-D** eliminates minor and major breakdowns that lose time and minimize your profits. The **F-W-D** keeps ON the road and OUT of the repair shop.

The **F-W-D** saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

OAKLAND AND ALAMEDA COUNTY

STREET IMPROVEMENTS — Cost not stated. Berkeley, Alameda Co., Cal. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on December 5th for street work authorized under the following resolutions: That the roadway of University avenue, from West street to Third street, be graded, concrete curbs and gutters be constructed, a cast iron and concrete culvert with cast iron manhole and granite header blocks; the roadway be paved with asphaltic wearing surface 2 inches thick, laid on a concrete foundation 6 inches thick.

That the roadway of University avenue, from a line 100 feet westerly from and parallel to the western line of Grove street, west to the south extension of the center line of West St., be graded; concrete curbs and gutters constructed; a cast iron and concrete culvert, with two cast iron manholes and two granite header blocks; a vitrified pipe sewer be constructed in Grant street, from University avenue to the storm sewer in Addison street; a reinforced concrete catch basin be constructed and the roadway be paved with asphaltic wearing surface 2 inches thick laid on a concrete foundation 6 inches thick.

APARTMENT HOUSE — 2 story and base, brick veneer, \$50,000. Oakland, Cal. Architect, M. I. Diggins Syndicate Bldg., Oakland. Owner, E. B. Becker. Location, west Oak street north 11th. Will contain a large number of two, three and four room apartments. Plans complete and owner taking subfigures.

RESIDENCES — 2, 2 story and base, frame, \$5,000 each. Oakland, Cal. Architect none. Owners, Blake Bros., Oakland Bank of Savings, Oakland. Location, west Acacia south Brookside. Each house will contain seven rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 2 story and base, frame, \$5,000. Oakland, Cal. Architect, none. Owner, H. C. Pfanz, 320 Forest street, Oakland. Location, east Miles avenue north Hudson. Will contain eight rooms two baths and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 2 story and base, frame, \$1,500. Berkeley, Alameda Co., Cal. Architect, none. Owner, C. F. Sabelman, 1130 Monterey avenue, Berkeley. Location, west Monterey north Hopkins. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,000. Oakland Cal. Architect, none. Owner, Glenn R. Bell, 1565 Franklin street, Oakland Location, south 40th east Grove. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,000. Oakland Cal. Architect, none. Owner, A. D. Darling, 2264 East 12th street, Oakland. Location, north east East 23rd street and 23rd avenue. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE — 1 story and base, frame, \$2,000. Oakland, Cal. Architect, none. Owner, C. S. Nichols, 2568 Baker street, Berkeley. Location, west 66th

avenue south Arthur. Will contain six rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES — 2, 1 story and base, frame \$2,600 each. Alameda, Alameda Co., Cal. Architect, none. Owner, G. H. Noble, 2226 Central avenue, Alameda. Location, 2205 and 2207 Pacific avenue. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCES — 2, 1 story and base, frame, \$3,500 each. Oakland, Cal. Architect, E. W. Cannon, Central Bank Bldg., Oakland. Owner's name withheld. Location, Lakewood Park. Each house will contain six rooms, bath and sleeping porch. Plans complete and figures being taken.

RESIDENCE — 1 story and base, frame, \$4,000. Piedmont, Alameda Co., Cal. Architect, none. Owner, Dr. W. J. McCracken, 1327 Broadway, Oakland Location, Lakewood Park. Will contain seven rooms, bath and sleeping porch and separate garage. Plans complete.

RESIDENCE — 1 story and base, frame, \$1,500. Berkeley, Alameda Co., Cal. Architect, none. Owner, Charles A. Werner, 2116 10th street, Berkeley. Location, west Wallace south Mabel. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

FACTORY — 4 story and base, brick. Cost not stated. Oakland, Cal. Engineer's name not given. Owners, California Cotton Mills, Cotton and Railroad avenue, Oakland. Location, Cotton and Railroad avenues, covering an area of 250 by 150 feet. Plans are being prepared and owners will let all contracts. Work to be started within three or four weeks.

HOSPITAL, COTTAGES — 6, 1 story, concrete and frame, \$100,000. Oakland, Cal. Architect, Henry H. Meyers, Kohl Bldg., S. F. Owners, Alameda County. Revised figures are now being called for on the construction of the six cottages to be erected at the Alameda County Tubercular Hospital. Bids will be opened on December 4th.

SCHOOL—2 story and base. Class C construction, \$45,000. Chowchilla, Madera Co., Cal. Architect, Ernest J. Kump, Bowell Bldg., Fresno. Owners, Chowchilla High School District. Will contain six class rooms and an auditorium. Plans are being prepared.

BRIDGE—Reinforced concrete. Cost not stated. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford. Owners, Kings County. At the last meeting of the Kings County Supervisors the board instructed Surveyor Duffield to prepare plans and specifications for a concrete bridge to span the canal of the Lemoore Canal and Irrigation Company one-half mile west of Hardwick.

At the same meeting the Supervisors instructed County Surveyor Duffield to prepare plans and specifications for a cement bridge to be constructed over the west branch of the Last Chance canal four miles west of this city.

ROAD ROLLER—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. All bids received by the Kern County Board of Supervisors for furnishing a gasoline road roller were rejected as being too high. It is probable that the roller will be purchased in the open market.

IRRIGATION WORK—Cost not stated. Waterford, Stanislaus Co., Cal. Engineer, Chief Engineer, Waterford Irrigation District. Owners, Waterford Irrigation District. Bids will be opened on December 19th at 10 a. m. for constructing portions of main canals of the Waterford Irrigation District. Proposals will be received on two separate sections of the work, which shall be known and described as follows, to wit: Section 1—Which is those portions of the upper main canal of the Waterford Irrigation District lying between Engineer's Station 0 plus 00 and 50 plus 50, and Engineer's Station 86 plus 00 and 200 plus 00, comprising

in all the excavation of approximately 45,000 cubic yards of open excavation. Section 2—Which is that portion of the upper main canal of the Waterford Irrigation District lying between Engineer's Station 55 plus 50 and 16 plus 00, comprising in all the excavation of approximately 2,200 linear feet of 8-foot diameter tunnel and 9,800 cubic yards of portal excavation.

STREET IMPROVEMENTS—Cost not stated. Fresno, Fresno Co., Cal. Engineer, City Engineer Fresno. Owners, City of Fresno. The City Council has awarded contracts to Thompson Bros., 1514 H street, Fresno, for the following work: That the alley in block 90 from the northwest line of Tuolumne street to the southeast line of Stanislaus street, be graded and curbed with redwood curbing, and paved with a pavement consisting of a cement concrete base 4 inches thick and a bitulithic wearing surface 2 inches thick. Also that First street, from Illinois avenue to Tulare avenue, be graded, curbed and macadamized, concrete gutters 2 foot wide and 7 inches thick shall be built for each gutter of the street, of the same kind of concrete as specified for curbs, and the top of said gutters shall be 8 inches below top of curbs; also that one 21-inch by 6-inch corrugated iron culvert, No. 12 gauge, shall be laid with 1-inch concrete base and connecting gutter entrances across First street in the north gutter line of Iowa avenue, for \$1,755.

RESIDENCE—2 story and base, frame, \$3,200. Fresno, Fresno Co., Cal. Architect, none. Owner, Hans P. Anderson, Fresno. Location, Alta Vista Tract. Will contain six rooms, bath, sleeping porch and a garage. Plans complete and work to be done by Day Labor.

JAIL—2 story and base. Class A construction, \$45,000. Visalia, Tulare Co., Cal. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Tulare County. Will contain sheriff's office and jail quarters. Plans complete and figures being taken. Bids close December 15th.

DRAINAGE SYSTEMS—\$32,000 and \$65,000. Merced, Merced Co., Cal. Engineer, County Surveyor, Merced. Owners, Livingston and Atwater Drainage Districts. Contractors, Shattuck-Edinger Co., Marsh-Strong Bldg., L. A. and 5 West Richmond avenue, Richmond. Contract price, Livingston District, \$32,000 and Atwater District, \$65,000.

IRRIGATION CANAL—\$26,000. Waterford, Stanislaus Co., Cal. Engineer, Chief Engineer, Waterford. Owners, Waterford Irrigation District. Contractors, G. W. Price Co., 33 Stevenson street, S. F. Contract price, \$26,000.

IRRIGATION WORK—Cost not stated. Modesto, Stanislaus Co., Cal. Engineer, Chief Engineer Herrmann, Modesto. Owners, Modesto Irrigation District. Bids will be received until December 5th at 10 a. m. for the construction of three reinforced concrete structures in Lateral No. 4 of the Modesto Irrigation District.

BRIDGE—Timber construction. Cost not stated. Merced, Merced Co., Cal. Engineer, County Surveyor, Merced. Owners, Merced County. Bids will be opened on December 5th for the construction of a wooden bridge on concrete abutments and piers over Black Rascal creek on the McKee road in

Road District No. 1, to be known as Bridge No. 53.

CORR HOUSE FURNITURE—Cost not stated. Merced, Merced Co., Cal. Architect, none. Owners, Merced County. Bids will be opened on December 5th for furnishing metal furniture for various offices in the county court.

IRRIGATION PROJECT—\$276,619.10. Terra Bella, Tulare Co., Cal. Engineer, Stephen E. Kieffer, Mechanics Institute Bldg., S. F. Owners, Terra Bella Irrigation District. The contract for the construction of the first unit of the Terra Bella Irrigation District has been awarded to W. A. Kramer, Idaho Bldg., S. F., he being the low bidder at \$276,619.10, which is below the estimate of Chief Engineer Stephen E. Kieffer. There were five bids for the construction work. No. 1 for all steel pipe in distributing and collecting systems. No. 2 for all wood pipe in distributing and collecting systems. No. 3 for steel pipe in distributing system and reinforced concrete in collecting system. On these arrangements the bids worked out as follows: Shattuck-Edinger Co., \$417,385.95, \$121,359.27, 3 incomplete. C. C. Moore & Co., \$392,504.01, \$102,679.92, \$352,713.00. W. A. Kramer, \$291,112.46, \$407,681.95, \$276,619.10. James Kennedy, \$411,257.85, \$105,961.10, 3 incomplete. Rogers Bros. Co., \$111,195.25, \$110,380.55, \$141,920.85.

LIBRARY—1 story and base, brick. Cost not stated. Oakdale, Stanislaus Co., Cal. Architect, Hugh Y. Davis, 1045 Weldon avenue, Fresno. Owners, Stanislaus County. Bids will be received on December 12th at 2 p. m. for a branch county library. Plans can be secured from the County Clerk.

SCHOOL—1 story and base. Class C construction, \$33,000. Modesto, Stanislaus Co., Cal. Architects, De Romer & Hewitt, Title Insurance Bldg., L. A. Owners, City of Modesto. Location, Washington and I streets. Revised plans for this work have been completed and new figures are now being called. Bids will be opened on December 19th.

SCHOOL—1, 2 story and 2, 1 story, brick and concrete, \$150,000. Merced, Merced Co., Cal. Architects, Allison & Allison, Hibernian Bldg., L. A. Owners, Merced Union High School District. These architects have just been selected to prepare plans and details of construction and designs have not been fully determined.

Twedy Bros.....	298,750
J. D. Hannah.....	350,550
Blake Bros. & Co.....	395,000
Potter Bros. (Bid not complete)	

ENGINEER QUILTS JOB.

H. H. Henderson Leaves Anderson-Cottonwood Irrigation Project Work; Successors Named.

ANDERSON (Shasta Co., Cal.)—H. H. Henderson, Engineer-in-Chief for the Anderson-Cottonwood Irrigation District, has tendered his resignation. The vacancy has been filled by the appointment of Thomas H. Means, of San Francisco, as consulting engineer, and E. R. Davis, also of San Francisco, as supervising engineer.

Henderson says he is obliged to testify as an expert in a very important water case in the San Joa-

quin Valley and that this made his resignation imperative.

At Henderson's request the Directors two weeks ago engaged engineers to go over the work and see how much would be needed to complete the system in addition to the \$480,000 realized from the sale of bonds. The Directors engaged Thomas H. Means and E. R. Davis, who are now soon to be placed in charge of the whole system. Means is an expert irrigationist. Davis is a civil engineer who has been in the Reclamation service.

The report of Davis and Means on the probable cost of completing the system will be made to the Directors, it is expected, inside of a month, and then the district will know how much more money will have to be raised.

In connection with the district's system costing more than was at first estimated, it is to be remembered that 2,600 more acres have been taken in, or will be taken in, and that twenty-nine more miles of laterals and canals that at first estimated, have been constructed.

IMPORT 10,000 NEGRO WORKERS FOR ROADS.

The vast amount of road improvement that is being accomplished in New Jersey has forced the importation of negro labor from the south. Munitions and other work have taken most of the available labor, and it is said that more than 10,000 southern negroes have been brought north in the past few months, many of these going into New Jersey.

AMERICAN ROAD BUILDERS' ASSOCIATION.

The Fourteenth Annual Convention of the American Road Builders' Association will be held in Mechanics Building, Boston, Mass., during the week beginning February 5, 1917. The program, which is in course of preparation, will include papers and discussions on subjects connected with road and bridge building and street paving by the foremost authorities of the United States and Canada.

AGENTS' COMMISSIONS IN NEW ZEALAND.

The following extract from a letter received from an Auckland manufacturers' agent and importer at whose request a "Trade Opportunity" was published in Commerce Reports last June gives a fair idea of the conditions under which New Zealand business houses expect to represent American interests in this field:

As to results from the "Trade Opportunity" transmitted in my behalf, nothing definite has been arranged so far, but I am in receipt of several communications to which I have replied and from which it is likely some business connections will be established as soon as one point is adjusted. This relates to commissions, which I want paid to me on all business done by the firms I represent, whether I directly send in the order or not. Many of my clients here have been accustomed to place their orders through brokers, and business that is really the result of my work thus reach the American manufacturer through a broker instead of through me. If the United States firm has no New Zealand customers when I accept the agency, then I feel that all results here should be credited to me.

This matter of commissions on all business done in New Zealand is quite important, especially where the representatives are supposed to cover the

whole Dominion—which can be done very easily since New Zealand is only about the size of California. It can readily be understood how discouraging it is for a firm to work up business in New Zealand and go to con-

siderable expense to introduce a line of goods, and then have importers here correspond direct with the American manufacturer in the hope of getting the merchandise at a lower price, thus leaving the agent out in the cold.

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

White Brothers

Fifth & Brannan Sts.

San Francisco

of Canada, but now ascertained to have twelve votes in the electoral college, was very close and might also go to Wilson. California, too, a roof garden built by New York at vast expense to play golf in the winter, was doing its ungrateful best to nullify the election—doing it even after New York had flashed the news out there that New York had decided it.

New York could hardly believe it. It was not until it had consulted the leading standard school textbooks that it was convinced there were any such states with such strange looking names as stared at it from the newspapers, and it was not until it had consulted its leading legal minds including the one it had picked for Attorney General in the new Cabinet—that it was convinced those states had any representation in the electoral college.

But now that New York has had its eyes opened to the advantages of education its thirst for knowledge may lead it to take down the geography and history from the shelf and really apply itself. It will be surprised to learn the extent of the country outside its own borders and that there are states so far west of Buffalo that their people can walk about in the safe and bright sunlight hours after New York's summer have begun to shoot up the all night cafes.

CITY REDUCES PRICE OF COAL.

TERRA HAUTE.—The city of Terre Haute, through Mayor Gosson, entered the retail coal business recently and greatly reduced the cost to the consumer. Residents of the city through the municipal market were able to buy Indiana coal at \$2.75 a ton. Dealers were asking \$6 a ton for the same grade of coal. Mayor Gosson has leased a mine and hired 200 teams to haul the coal to the city.

ELECTRICAL WEEK PLANS BEING MADE.

OAKLAND, Cal.—Various electrical interests of the city are combining to make "electrical week" in Oakland the greatest advertising campaign that has ever been launched by any affiliated organizations. Luncheons are being held every Saturday noon at the Hotel Oakland by electrical men identified with the Oakland chamber of commerce, upon which occasions plans are formulated for "electrical week." The East Bay Cities Electrical Trades Association is lending its support to the movement.

RAILWAY IMPROVEMENTS IN GUATEMALA.

GUATEMALA CITY.—One of the most important railway improvements in many years in Guatemala will be realized and made effective January 1, 1917 when the International Railway of Central America will begin freight and passenger service on its newly located 12-mile line leading from Puerto Barrios to Managua, where connection will be made with the company's existing line to Guatemala City. The operation of the newly located line will mean the utilization of the big tunnel that cuts the high grade at Corozo Hill, 7 miles from Puerto Barrios, thus reducing the gradient from nearly 5 per cent to nine-tenths of 1 per cent. The

reduced grade will enable the road to put into effect an improved passenger schedule, and at the same time will increase the drawing capacity of the engines and permit betterments in the freight service.

The tunnel was conceived and located years ago by Mr. Bullfinch, an American engineer, now deceased, and was brought to completion by another American, Mr. A. Clark, as general manager of the International. It is 773 feet in length, 16 feet in width, and 18½ feet in height. Owing to the porous nature of the soil the work presented peculiar engineering difficulties. This is the third tunnel to be built on the Puerto Barrios-Guatemala City line, the road having at this time two tunnels in operation within a distance of 20 miles from Guatemala City.

New Line to Mexican Border.

The International Railways of Central America has also projected a line to run southeasterly from Santa Maria to Santa Ana in Salvador. It is stated that when this and other lines in Central America, projected or under construction, are completed, a direct through route will be afforded between Vera Cruz, Mexico, and Panama and Colon, extending along the western portion of Central America through the five Republics of Guatemala, Salvador, Honduras, Nicaragua, and Costa Rica.

GREATER YUMA RECLAMATION.

YUMA, Ariz.—New plans are being made to unite Yuma and Imperial valleys in one reclamation service project, create a great storage dam and reservoir at Yuma with dam bulwarks to include Prison Hill, Yuma and Indian Hill, in California; spillway for waters to Mexican lands that would create vast electric energy and provide for power for pumping waters to mesa land and also for commercial purposes. The proposed project is estimated to cost from \$20,000,000 to \$25,000,000.

SACRAMENTO HIGHWAY.

SACRAMENTO, Cal.—Actual work on the Sacramento County highway system, for which the people voted \$1,750,000 bonds on October 3rd, has been started with the preliminary survey on Greenback Lane, leading from the Auburn Boulevard to Folsom. Survey work also started on the Lower Stockton road at Franklin. About December 15th it is expected that the bonds will be sold; on January 2nd, the money will probably be in the treasury. Contracts will be awarded immediately after.

MADERA IRRIGATION.

MADERA, Cal.—An agreement has been reached between the Miller & Lux corporation and the proposed irrigation district by which a sum of \$10,000 is to be raised by popular subscription and the preliminary survey necessary before the project can be organized shall be made. The survey will embrace the dam site on the San Joaquin and different reservoir sites with estimated cost. It was definitely stated at a meeting of the water bureau that it assures the proposed district enough flood water to irrigate 275,000 acres during the season when water is needed.

BIG STEEL ROLLING MILL IS PROBABLY FOR SEATTLE.

SEATTLE, Wash. Reports from Portland indicate that that city has "swallowed" the fact that it hasn't a "triangle hold" on a proposed \$1,000,000 rolling mill the Northwest Steel Co. is contemplating erecting in the Northwest with the chances that the huge project may slip somewhere and come to Seattle. It has been known in this city for some time that such a move was contemplated but has not been given publicity as it was thought best to let a sleeping dog lie but as Portland is now aroused it is up to Seattle to make a last supreme effort to secure the large industry. J. R. Bowles, president of the company, would not commit himself any more than admit that Seattle was after the project.

TRAVEL PICTURES OF MANY LANDS TO BE SENT OUT BY UNIVERSITY.

To aid school children and grown-ups also to play the game of "magic carpet"—that is, to go traveling all over the world while staying comfortably at home—the University of California is going to send any school or club stereopticon slides from a remarkable collection illustrating travel all over the face of the earth. Any school, woman's club, or other organization can have the use of fifty of these slides for two days by sending to the University Extension Division two dollars and agreeing to pay the cost of expressage from and to Berkeley. With each set of slides goes a written lecture which may be read aloud by someone as the slides are displayed.

The University Extension Division has just added to this travel-picture collection thirty-two new sets of stereopticon slides, each set containing about fifty separate slides. There is a group of slides for each of the following subjects: A Travel Tour of the United States; Alaska; the United States National Parks; the Panama Canal; the Philippines and the Hawaiian Islands; a Travel Tour of Canada; Mexico; Central America; South America; A Travel Tour of the British Isles; Travels in France and Monaco; Spain; Holland; Belgium; Denmark; Norway and Sweden; Germany; Switzerland; Italy; Austria-Hungary; Roumania, Bulgaria, and Turkey; Russia; Greece; Palestine and Syria; India; Japan; China; Egypt; the Panama-Pacific International Exposition; Early American History; Civil War History; Recent Historical Events; Physics; Mechanics; and Physics Electricity.

DO THE "RED BEDS" OF WYOMING CONTAIN POTASH SALTS?

The Embar formation of Wyoming is known chiefly for its extensive phosphate beds, which are supposed to have been derived in some manner from animal remains. The rocks contain abundant fossils, many of which are phosphatic, and all of which prove that the Embar beds of western Wyoming were deposited in the sea. Recent study of the eastward extension of the Embar formation in Wyoming shows that along the east margin of this ancient sea, or throughout the high mountain region, the climate

was probably more acid than that of any part of Wyoming today. By long evaporation beds of gypsum were deposited at some places in arms of this sea to a thickness as great as 100 feet. It is a question of practical importance whether beds of salt, and perhaps of potash salt, may also have been deposited in this formation and whether they may now be found below the surface. The United States Geological Survey, Department of the Interior, urges that oil men, in drilling through the Chugwater and Embury red beds in Wyoming collect samples of drillings and of brines and submit them to the Survey for examination as to their possible potash content.

A paper by D. Dale Condit, describing the relations of the Embury and Chugwater formations in central Wyoming, and designated Professional Paper 98-O, may be obtained on application to the Director of the U. S. Geological Survey.

ROOSEVELT EXPRESSES HIS VIEWS ON MILITARY TRAINING.

"Sagamore Hill,"

November 15, 1916.

Lt. Gen. S. B. M. Young, U.S.A., Retired, President, Ass'n. for National Service, Metropolitan Park Building, Washington, D. C.

My dear General Young:

I most cordially and emphatically approve your efforts, as President of the Association for National Service, to secure the passage of a law making it obligatory upon every male American citizen between the ages of 18 and 21 to serve 6 months or a year—as the case may demand—in the field with the colors.

I believe no one should be allowed to vote who has not thus served—politicians and professional pacifists are out of place in a free republic.

There should be education towards military training along the lines followed in Australia, Argentina, Switzerland and Japan.

No man is fit to be a freeman unless he has fitted himself to fight efficiently for his freedom.

With all good wishes, I am
Your fellow-American.
(SIGNED) THEODORE ROOSEVELT.

STANISLAUS OFFERS HIGHWAY BONDS.

MODESTO, Cal.—Stanislaus county is now advertising a bond issue of \$1,452,000 voted at the last election for highway purposes. Bids will be opened at the December meeting of the Board of Supervisors. In the meantime, three crews of men are at work surveying the country roads so that the work preliminary to letting contracts may be rushed.

CAPITALIST BEGGING IN SAN FRANCISCO.

A capitalist from the East has been in San Francisco for nearly a week, seeking an opportunity to invest at least \$10,000 in real ready money, in some California industry, but up to noon yesterday had failed to find a firm which wants to use his money. This announcement was made by Executive Secretary Charles R. Thornburn at the luncheon-meeting of the Home Industry League of California, held

yesterday at the Palace Hotel. Several other capitalists have written to the League from Eastern cities asking for information about California factories which could use their capital in expanding their businesses, all of them making the proviso that the business accepting their money must be prepared to allow them to take some active part in the firm's activities.

"The gentleman with the \$10,000 and more cash, who has been here for a week," stated Secretary Thornburn, "has already advertised in all the morning papers of the city, including the commercial papers, and has applied to the League for help in finding a money-needing firm simply because California have no need for ready cash in their factory owners who read newspapers business. The name and address of the money people will be given responsible people upon application to the League headquarters in the New Call Building."

R. C. Jones, of the Van Arsdale-Harris Lumber Co., made announcement that the U. S. Navy Department, is buying great quantities of California lumber in San Francisco, for shipment to eastern navy-yards, and is paying 250 per cent more for the freight on the lumber than the price of the lumber itself. Grayson Dutton, of the Fireman's Fund Insurance Co., states that while \$5,000,000 is paid out by California, in fire insurance annually, only \$750,000 remains in California, the remainder going to New York and to Europe. W. R. Fites, of the Ink Ribbon Co., of San Francisco, announced that although his factory was started here only five years ago, in the face of calamity howlers, the company was already a surprising success, 60% of its ribbons going East.

WATERFORD SELLS BONDS.

WATERFORD, Cal.—The Waterford irrigation district has just disposed of \$100,000 worth of bonds. The bonds were sold at 97 per cent plus accrued interest. The district recently voted to issue bonds to the value of \$465,000 for the purpose of improving and enlarging the water system.

A NEW GLASS FIRM.

J. B. Crowe, for many years with the California Plate & Window Glass Co., W. P. Fuller & Co., also Whittier-Coburn & Co., has established himself in business at 1572-1574 Turk street at Fillmore street, where he has a complete line of glass of all kinds and sizes.

Mr. Crowe is so well known in the building line that his success is assured. Any job entrusted to him will be carefully attended to.

SAN FRANCISCO IS ASSISTANT STATE ENGINEER.

SACRAMENTO, Cal.—The appointment of W. S. Curtis of San Francisco as Assistant State Engineer at a salary of \$3,000 per year has been approved by the Advisory Board of the State Department of Engineering. The selection was made by State Engineer W. F. McClure from a list of three applicants certified by the State Civil Service Commission.

Curtis, who is a former railroad engineer, will commence work as soon as a \$10,000 bond required has been approved by Governor Johnson.

PLAN HIGHWAY SYSTEM FOR TULARE.

VISALIA, Cal.—Plans for the construction of a highway system through Tulare county are now being prepared. It is proposed to make a main road through the country touching Dinuha and Visalia. The road would also extend to the Kern county line down the East side. Cross laterals to bring every part of the country in touch with the rest of the county will also be constructed.

PLAN SUBMERGED DAM FOR WATER SYSTEM.

COALINGA, Cal.—Engineer F. B. Dessery, who was employed by the citizens' committee to draw up the plans for a water system prior to the bond election, when \$100,000 was voted for a municipal waterworks system, has been engaged by the city trustees to make soundings and borings in Warthan canyon, where it is proposed to sink a submerged dam and secure a water supply for the city. Dessery now has a crew of engineers working in the canyon about nine miles from the city, and it is hoped to have the site for the dam located in a few days as promising indications have already been found. The engineers propose to run the water by gravity from the outlet in the submerged dam to a point about a mile and a half from town, where an immense reservoir will be located, and as this point is several hundred feet above the city, no pumps will be required to deliver the water to the city, under a good pressure.

TULARE TO BUILD HIGHWAY BRIDGES.

VISALIA, Cal.—The last eight bridges over the state highway route in Tulare county will be advertised within the next month, it is believed, by the supervisors. Plans are now being prepared for some of these, and the others are to be rushed in view of the fact that construction on the remaining portion of the highway in Tulare county will likely be started by spring. In the neighborhood of \$25,000 is to be spent on these bridges, all of which are located in Supervisor Singleton's district, and run from Tipton south to the county line.

Tulare county, it is said, has built more bridges in number during the past year than any other county in the state, though the amounts expended have not been as high, due to the fact that many of the bridges were small concrete ditch coverings.

AMERICAN BANK IN VALPARAISO.

VALPARAISO, Chile.—El Mercurio of Valparaiso, in its morning edition of October 4, 1916, announces the opening of the Valparaiso branch of the National City Bank of New York on October 3, 1916.

The cash capital of the branch is stated as \$1,000,000. The manager is quoted as stating that the bank will engage in general banking operations, with special attention to facilitating

trade between Chile and the United States. It will also compile trade and credit information, trade opportunities, etc., for the benefit of its customers in the United States and Chile.

THREE-MINUTE TALKS ON CHRISTMAS BUSINESS.

Thirty prominent business men of San Francisco and Bay cities will each deliver a three-minute talk at the luncheon meeting of the Home Industry League of California, to be held at the Palace Hotel on Thursday, November 23d. The subject of each talk will be "What Our Firm is Doing to Make the Christmas Shopping of 1916 the Most Prosperous of all Holiday Seasons in the History of San Francisco and the Bay Cities." A spirited meeting is assured, since each speaker will be expected to tell why the line of goods which each one manufactures ought to be given the preference by people who desire to confine their selection of holiday gifts this year to articles "Made in California." Definite plans will be decided on at this meeting as to how the League will carry on its crusade for its "Make it a Home Industry Christmas" propaganda. It is believed by the League officials that this year the people of California will spend their \$15,000,000 of Christmas money for goods made and sold within the boundaries of the State, thus assuring few unemployed people on the streets of the cities during the coming winter, with a minimum number of the cold-weather burglaries.

NEW JAIL FOR TULARE COUNTY.

VISALIA, Cal.—Plans and specifications are completed for the new county jail that is proposed to be built at Visalia. Bids have been called for and will be opened next month. The new jail will cost about \$15,000 and will be similar to that at Bakersfield.

OAKDALE RICE YIELD HEAVY.

OAKDALE, Cal.—The rice yield in the Oakdale district has been unusually heavy this year, the average being 80 sacks per acre. The total crop for the district will probably be about 40,000 sacks. Next season the acreage will be considerably increased.

TO MAKE IT A HOME INDUSTRY CHRISTMAS.

A determined effort is now being made by the Home Industry League of California to have spent during the present holiday season with the merchants of the State, the \$15,000,000 which the League estimates has, in years gone by, been sent to merchants and manufacturers east of the Rockies for the annual stock of Christmas gifts. The mail order houses of Chicago and New York are the special foes the League will combat in its present crusade for a "Make it a Home Industry Christmas."

Executive Secretary Chas. B. Thorburn is sending out communications to the 25,000 active and associate members of the Home Industry League of California, urging them to induce all merchants and manufacturers whom they know or can reach personally to insert in all their holiday advertising the catch-phrase "Make it a Home Industry

Christmas." Business people who have not advertised in the past will be urged by the League's influence to do at least the minimum amount of advertising in their local newspaper, and to use this catch phrase in the space thus contract for.

"And by the same token," says Home Industry Christmas, "declared Mr. Thorburn, recently, 'the League does not mean that the entire population of this State should purchase its Christmas goods in San Francisco only. The Home Industry League of California stands for 'Buy your goods at home' and by 'home' we mean the town or community in which the purchaser resides. The League bends all its energies to showing the residents of this State why it is to their own individual advantage to buy everything possible in their own home town, getting same from the California city next nearest the home town if the local merchant cannot supply them; but in any event not sending the money outside of the State."

USE OF DIATOMACEOUS EARTH.

Diatomaceous earth, which is made up of remains of minute aquatic plants, is a light earthy material resembling chalk or clay. The hardness, the minute size, and the angular shape of its grains make it an excellent metal-polishing agent, and heretofore it has been largely used as an abrasive in the form of polishing powders and scouring soaps. Of late, however, according to the United States Geological Survey, Department of the Interior, the uses of diatomaceous earth have been considerably extended. It is used by sugar refiners for filtering or clarifying; as an insulating packing material for safes, steam pipes, and boilers; and as a fire-proof building material. In the United States it is used in the manufacture of records for talking machines. In Europe it has been used in preparing artificial fertilizers and in the manufacture of water glass, cements, artificial stone, paper, sealing wax, fireworks, paper-mache, and other articles. A total of 4,535 tons of diatomaceous earth was produced and sold in the United States in 1915.

The municipality of San Salvador has contracted a loan of \$133,000 pesos (about \$56,700) to be used in building a new market place of reinforced cement.

The Fink & Schneider Company has received the contract for the remodeling of the Banking room fixture for the First National Bank of Vallejo. J. M. Tutin of Napa is the Architect.

PLANS FOR SUGAR FACTORY TAKING SHAPE.

MANTECA, Cal.—Matters in regard to the \$2,000,000 Spreckels sugar factory are fast taking shape and by the time another week rolls around details will probably be definitely settled.

In the past week officials of the company have been in the vicinity of Manteca looking over the different sites and have practically settled on one within a very short distance of Manteca, but at the present time are not ready to give it out. A great deal depends on the bringing in of another

road. A line has been assured the sugar company, but the matter of rights-of-way has not been settled.

General Manager F. E. Sullivan of the company has left for the East to purchase the necessary machinery for the new factory. In order to have the factory ready to handle the 1917 crop it is necessary that contracts with the machinery builders be signed up by the 1st of December. His first stop will be at Cleveland, Ohio. In the meantime the local details will be worked out.

IRRIGATION WORK PLANNED.

SAN DIMAS, Los Angeles Co., Cal.—Surveys for a \$1,000,000 irrigation project have been started by a San Dimas company, which has applied to the state water commission for permission to appropriate 2000 second feet of water in San Dimas canyon tributary to the San Gabriel river. It was planned to construct an arched concrete diversion dam 130 feet high to form a reservoir with a storage capacity of about 17,000 acre feet. This will be located in the Puddingstone canyon district. The cost of the dam and reservoir is estimated at about \$350,000. There will also be a canal four miles long, a tunnel 6000 feet long through the mountains separating San Dimas and San Gabriel canyons and a pipe line or flume from the mouth of the tunnel to the reservoir. The irrigating will be done in the vicinity of Baldwin park and Covina.

THE ROMAN PAINT CO. SECURES "THE MASTER BUILDERS CO." LINE.

The Roman Paint Co. 55 Montgomery street, San Francisco, has been appointed Sales Agents for "The Master Builders Co." of Cleveland, Ohio.

When Con Roman goes after anything he always gets it.

MILLION DOLLAR BOND ISSUED FOR LONG BEACH.

LONG BEACH, Cal.—In an effort to solve the chief problems confronting Long Beach at the present time, one of the biggest building projects ever launched in a Southern California beach city will soon be placed before the electorate in the form of a million dollar bond issue to cover the cost of erecting a steel and concrete five-story building to serve a three-fold purpose, that of an auditorium, civic center and city hall, and entrance to a proposed new 2000-foot concrete pleasure pier. The old skating rink site at the foot of Locust avenue has been selected as a tentative site for the proposed building.

CITIES ACTIVE IN ENFORCING MILK LAW.

Many cities have secured the approval of their dairy inspection departments from the State Dairy Bureau. Some of these include San Francisco, San Diego, Santa Barbara, Pasadena, Long Beach, Redlands, San Mateo, Palo Alto, Santa Monica, Eagle Rock, Beverly Hills, Burbank, Los Angeles and Glendale. Other cities are filing applications for such approval, and the Dairy Bureau is making inspections as rapidly as possible.

Under the rules for the enforcement

of the new milk law, every city, county, or city and county may secure the approval of the Bureau if they meet the required standards. The Bureau requires a sufficient force of inspectors in every city, and sufficient laboratory facilities to enforce the act, or at least an arrangement for the performance of bacteriological work, before approval is given. Without such an approved inspection department, citizens are unable to receive the protection given to them by those provisions of the new state law which deal with the inspection and grading of milk.

The California State Board of Health is co-operating with the Dairy Bureau and with the State Veterinarian in the enforcement of the new milk law, and although this act has been in effect only since the first of October, rapid progress has been made, inspiring better methods of milk production upon the part of the dairyman, and everyone else engaged in handling this most important food product.

The United States Geological Survey, Department of the Interior, now has available for distribution its annual statement on Iron Ore, Pig Iron, and Steel in 1915.

A PLEA FOR A CENTRAL ORGANIZATION.

Chamber of Commerce Endorsed.

At an informal meeting of a large number of the most prominent men in the building business of San Francisco and vicinity the following resolution was adopted by a unanimous vote, viz:

RESOLVED, That the assembled Material Dealers and Contractors, as patriotic and law-abiding citizens of San Francisco, heartily endorse the action of the Chamber of Commerce as expressed through its Law and Order Committee, and pledge their individual and collective support in bringing about industrial freedom and Law and Order in our city.

The expansion and development of this City and its industries, upon which the ultimate success of all business depends, rests largely upon the individual and collective determination of its citizens to abate those conditions which have retarded its growth, and to prevent their recurrence in the future.

The building business with its connected industries is a very important factor in San Francisco's commercial life, but, largely as a result of ruinous competition, destructive policies and the unreasonable restrictions and demands of its employees, it is in a very unsatisfactory condition, and will so remain unless a concerted effort is made to remove the causes which have brought about this deplorable condition.

A strong and permanent organization among the various crafts, will stabilize the entire industry and will act as an effectual check on the individual employer who would exploit his fellow member or the workman, as well as the union which demands that which is unfair, unjust and unreasonable.

Such an organization is sadly needed in this City. We are confronted with two organizations where there should only be one. These two organizations pulling in different directions are getting no where. A permanent central organization is the only solution.

COMPULSORY MILITARY SERVICE INTERCOLLEGIATE DEBATE'S THEME.

The question of compulsory military service has been chosen for this year's annual intercollegiate debate between Stanford and the University of California, on Friday evening, November 21, in San Francisco. For the first time, there will be no decision by judges but the whole endeavor will be to bring about an illumination of the subject of discussion, without award.

The question proposed by the students of the University of California was: "Resolved: That the United States should adopt a system of compulsory universal military service similar to that of Switzerland." Stanford was given the choice of sides and chose the affirmative. The University of California team, which therefore, will discuss the negative, consists of Harold Hyde, '17, of Watsonville; M. S. Rosenblatt, '18, of San Francisco, and Ray Vandervoort, '18, now of San Francisco and formerly of Los Angeles. The intercollegiate debate will take place at 8 o'clock Friday evening, November 24, at Knights of Columbus Hall, 150 Golden Gate avenue, San Francisco. The public will be welcome. Chester H. Rowell, editor of the Fresno Republican, has been asked by the students to preside and to close the discussion.

Notable Gathering Of Representatives Of the National Lumber Manufacturers Ass'n.

Yesterday's meeting of all the allied lumber interests at the Palace Hotel was an epoch-making event.

The most prominent representatives of the lumber industries from all over the United States were there and about 150 local dealers and manufacturers were present.

The session began with a luncheon at 12:30 o'clock and continued throughout the afternoon. The meeting was presided over by Mr. E. A. Selfridge.

F. J. Kogler, President of the San Francisco Chamber of Commerce, welcomed our visitors, and among other things said that it was time for the lumber interests to stop being "quitters" whenever a competitive article appeared on the market, and urged co-operation.

Very interesting papers were read by the following gentlemen: Mr. R. H. Bowman, President, The National Lumber Manufacturers Association, New Orleans, La.; Mr. C. S. Keith, President Southern Pine Association, Kansas City, Mo.; Mr. F. E. Weyerhaeuser, Northern Pine Association, St. Paul, Minn.; Mr. R. B. Goodman, Head of the Huckleb Promotion Campaign of the Northern States, Goodman, Wis.; and Mr. A. R. Turnbull, President North Carolina Pine Association, Norfolk, Va.

The meeting was in charge of the following committee:

A. A. BAXTER,
M. A. HARRIS,
OTIS JOHNSON,
E. A. BLOCKLINGER,
L. H. PIERSON,
E. A. SELFRIDGE, JR.

SELECT ARCHITECTS FOR S.F. STATE BUILDING.

Seven San Francisco Firms are Selected in State-Wide Competition For Building in Civic Center.

The jury on the award of prizes in the San Francisco State Building competition have selected seven San Francisco architects and one Reno man, holding a California certificate, to participate in the final competition for the million dollar building.

The eight approved architects are: Bliss & Faville, Charles Peter Weeks, Louis P. Hobart, Bakewell & Brown, Leong P. Rixford and John Baur, Wood & Sampson, Wm. C. Hayes and F. J. Delongchamps.

These eight firms of architects will now enter the final stage of the competition. Further plans are to be submitted by them by February 15, and then one of the eight architects will be named as the official architect of the San Francisco State Building. The prize is worth about \$50,000. The other seven architects will, however, receive \$1,000 each for their participation in the second stage of the contest.

THE LAVAS OF HAWAII.

None of the island possessions of the United States exhibit more notable points of interest for the observant traveler or the naturalist than the Hawaiian Islands. The natives are typical of the race inhabiting many island groups of the south Pacific, the plant life has the attractive features of insular development in semitropical latitudes, the marine life of the warm waters is wonderful, but perhaps the most fascinating, instructive, and awe-inspiring of all the natural phenomena of Hawaii are furnished by its active volcanoes. The whole group of islands, extending in chain for many hundred miles, is of volcanic origin, though some of the islets and reefs are but the wave-battered remnants of volcanoes whose fires have long since died out.

Approaching Honolulu by steamer from San Francisco, the traveler has the evidence of volcanic action plainly before him in the first land he sees, in the ash cone of Koko Head and the well-preserved craters of Diamond Head and the Punch Bowl, which are in the outskirts of the city. The high mountains of the island of Oahu are also made up of black lava—basalt—but they are largely covered with vegetation and one must go to the largest island of the group, Hawaii, for the wonderful demonstration of the process by which all these island mountains have been built up from great ocean depths. Kilaua, one of the most active, and Mauna Loa, one of the largest volcanoes in the world, are showing just how lava builds up mountains. Both of these volcanoes are included in the newly created Hawaii National Park.

Since the time of Captain Cook the Hawaiian Islands have been visited by geologists and others interested in the problems of volcanoes, and much has been written concerning them.

Professional Paper 88, "Lavas of Hawaii and their Relations," by Whitman Cross, of the United States Geological Survey, Department of the In-

terior, presents a summary of what is now known concerning the lavas of all the islands. This paper is largely technical in its character, for it is intended primarily to serve as a basis for future study of the rocks by geologists.

It appears that there are many other kinds of lavas in Hawaii besides basalt, and many facts of association of the different lavas are of interest to students of the inner history of volcanoes. While much is yet to be learned concerning the lavas of these islands, Mr. Cross shows that present knowledge of the rocks is sufficient to throw light on some of the most vexed questions pertaining to the origin and relations of the igneous rocks of the earth. The chemical relations are discussed with particular thoroughness. Petrologists will find valuable material in this report, bearing on many problems.

CENSUS OF 1916 LUMBER PRODUCTION TO BE TAKEN.

WASHINGTON, November 27.—The census of the lumber production of the country for 1916 will be undertaken by the Forest Service in co-operation with the National Lumber Manufacturers' Association. The information to be obtained by this work, it is stated, will be of immense benefit to the lumber industry, the Forest Service, and other branches of the Government.

It is estimated by the Forest Service that there are more than 30,000 sawmills in the country and it is planned to have the investigation reach every sawmill in operation. Each of these will be asked to make a detailed report of its production. Information is sought as to the total quantity of each kind of wood sawed, the number of lath and shingles manufactured and the average mill value for each species. Printed schedules designed for use in different regions of the country will simplify the collection of the figures and make it easy for each mill man to send in a complete report. The work, it is stated, will be directed by the Office of Industrial Investigations of the Forest Service in Washington, but the western part of the country will be covered by the District offices of the Forest Service located in Missoula, Mont.; Denver, Colo.; Albuquerque, N. M.; Ogden, Utah; San Francisco, Cal., and Portland, Ore. The officers in charge of these Districts, being nearer and thoroughly familiar with the scenes of operations, are able to secure returns and compile results in less time than if the work were all handled from Washington.

It is intimated that preliminary statements showing the production of the principal species, such as yellow pine, Douglas fir, white pine, and oak, and also the production of the leading states, will be issued as soon as the figures are available. The importance of these annual statistics, Forest Service officials say, is apparently not fully realized by all of the sawmill men, since past attempts to gather similar data show a large number often fail to reply promptly, or neglect to make any report. A better response has been received from the lumber trade in late years, and the officials in charge of the work believe that with proper co-operation on the part of the lumbermen final figures showing the total production can be announced by June 1, 1917.

NOTICE OF SALE.

On December 7th, 1916, at 10 o'clock A. M. the referee in bankruptcy will sell at auction at his office in the U. S. Post Office Building in San Francisco the property of the Sunset Construction Company. For further particulars see T. H. LAINE, 14 Montgomery Street, San Francisco.

CHICO STATE NORMAL TO HAVE ELECTROLIER SYSTEM ON CAMPUS.

CHICO, Cal.—Plans and specifications for an electrolier system for the grounds of the Chico State Normal School have been prepared by State Electrician Simondson, and will be presented by him to President Allison Ware some time next week.

It is planned to install fifteen electroliers along the driveways and approaches to the school at an approximate cost of \$1,000. The type of standard has not yet been decided upon, but it will be of the most modern design.

PLAN RAILROAD EXTENSION.

LOS ANGELES, Cal.—That a contract is soon to be let by the Salt Lake railway for the building of a line from Pico to Santa Ana was announced by officials of the railway company.

The new line is to extend from Pico, through Whittier, Fullerton, Anaheim, Orange and Santa Ana. It will be some 25 miles long and will require about six months to complete.

According to information received in Los Angeles it was reported that the line was to be extended to San Juan Capistrano, and that the Salt Lake would make a traffic arrangement by which Salt Lake passengers and freight service could be extended clear to San Diego.

MODEL CITY AT HONGKONG.

Consul General George F. Anson on Hongkong, British China, Sept. 23.

For a good many years schemes have been entertained from time to time for the erection somewhere in South China of a model city for the use of well-to-do Chinese. Chinese people of wealth and Chinese returning from the United States, Australia, and other sections of the globe with a knowledge of modern cities have felt this need, and in recent years several attempts have been made to launch such a project.

One scheme went so far as the organization of a city at Heungshan, not far from Kowloon and within a short distance of Hongkong. This city was established upon Chinese soil and by special arrangement with the Chinese Government. It was to have certain curious privileges; it was established upon modern sanitary lines; and its close proximity to Hongkong, on the one hand and its location in the part of China from which come most of the Chinese in America on the other, were expected to make it attractive. The city has made little progress, however.

Modern Suburb the Latest Project.

The latest undertaking of this sort is for the construction of a model suburb of Hongkong along the most modern lines for the housing of wealthy Chinese. This plan involves the reclamation of a tract of land about a mile and a half long and a third of a mile broad, the construction of wide avenues and fairly wide side streets, the erection of 47 blocks of high-grade apartment, tenement, and similar buildings, and the establishment of a modern sewerage system and other public utilities. In spite of war and the uncertainties of finance the company undertaking this enterprise has been formed and its plans completed and work is to commence at once.

As has been indicated in reports from this office, increasing numbers of wealthy Chinese from various parts of South China are coming to Hongkong to make this city their permanent residence. The result has been a constantly increasing need for houses for such people and a growing demand on their part for homes so situated that they can be among their countrymen. Most of these newcomers have plenty of money for their needs, and some of them have considerable sums for which they seek profitable investment. Purchases of residence property in the lower levels of Hongkong by such people have changed the entire course of real estate matters in the colony of Hongkong. The organization of this new suburb offers a way out of many difficulties, for it will not only afford this class of people the proper housing they demand but will also offer a ready and safe investment.

The new suburb is to be located on the south side of the Kowloon peninsula,

the mainland portion of the colony of Hongkong, 2 miles from the landing of the ferry from the city of Victoria (commonly known as Hongkong) and along the shore of Kowloon Bay near the native city of Kowloon. The site is to cover a tract about 5,000 feet long and 1,500 feet broad, embracing the sea-shore only but backed by hills from which several small streams emerge, the ravines affording considerable fall for drainage purposes. The reclamation is wholly a dredging undertaking. The company is at present drawing specifications for the work to be done and expect to let the contract within the next six or eight weeks. There is some doubt as to whether dredging machinery of sufficient capacity will be available at the present time for the company's purposes, but apparently this is the only obstacle in the way of rapid progress being made upon the entire undertaking.

Construction by Syndicates—Plans Include Piers and Warehouses.

The reclamation of the land for this suburb is being undertaken by the original syndicate, the plan being that the construction of tenements, private residences, piers, and warehouses shall be undertakings of separate syndicates to be arranged later. Being on the mainland portion of the colony the site has the advantage of railway connections for piers and warehouses and to assist in its development generally. It is probable that connections with Kowloon and Hongkong will be maintained by motor busses rather than by a tramway system, but this question is yet to be settled.

The plan includes the erection of four piers, with space for warehouses if need for them arises, on the water front of the reclaimed land. The depth of water now over the site averages about one and a half fathoms. With the extension of the piers and the dredging to be done in a reclamation work, sufficient depth for ordinary ocean-going vessels will be had at all tides.

Unless delayed by a lack of machinery it is expected that the reclamation will be completed in about two years.

LUMBER EXPORTS.

PORT TOWNSEND During the month of October, the lumber exports from Puget Sound showed a marked increase over previous months during the past two years. The exports totaled 28,500,000 feet, according to the monthly statement just issued by Collector Roscoe M. Drumbheller. Raw cotton also reached the top line with 11,117 bales valued at \$2,781,190, while iron, steel and manufactures to the value of \$2,758,266 found their way to foreign countries. The total exports for October amounted to \$11,919,051 and the imports to \$12,578,681.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO.—Apartment house, 4-story and base, frame, \$10,000. Architect, Henry J. Hammond. Humboldt Bldg., 8 P. Owners, J. L. Meyer. Location, south of Market, between 2nd and 3rd avenues, covering an area of 7 by 16 feet. Will contain six residential apartment of four rooms and bath. SAN FRANCISCO.—Apartment house, 4-story and base, reinforced concrete, \$10,000. Architect, C. A. Allen. Humboldt Bank Bldg., 8 P. Owner, A. W. Wilson. Location, north Jackson west Franklin covering an area of 7 by 14 feet. Will contain six residential apartment each of six rooms. Plans complete and segregated figures being taken.

SAN FRANCISCO.—Apartment house, 4-story and base, frame, \$10,000. Architect, Joseph Cohen, 17 Broadway. Plot, 8 P. Owner, J. Rosenberg and Joseph Cohen. Location, south of Sacramento and between streets covering an area of 7 1/2 by 30 feet. Will contain fourteen suites of two three and four rooms. Plans complete and segregated figures being taken.

OAKLAND, CAL.—Apartment house, 4-story and base, frame, \$10,000. Architect, James W. Pritchard. Whelan Bldg., Berkeley. Owner, R. H. Bradshaw. Location, 68th and Telegraph avenue. Will contain stores on the first floor and six three room apartments above. Plans complete and segregated figures being taken.

Contract Awarded.
LOS ANGELES, CAL.—Apartment house, 4-story and base. Class of construction, \$145,000. Architects, Peoples & Cheney, Haas Bldg., L. A. Owners, Wilschke Hotel Co., Contractors, Atlas Building Co., Haas Bldg., L. A. Cons-

tract has been taken on the percentage basis.

VENICE, LOS ANGELES CO., CAL.—Apartment house, 4-story and base, brick, \$30,000. Architect, D. D. Smith, 839 South Ocean Front, Venice. Owner, David Evans. Contractor, D. D. Smith, 839 South Ocean Front, Venice. Contract price, \$30,000.

BONDS.

ALPHEIGH, TULARE CO., CAL.—The directors of the Alpheigh Irrigation District will receive sealed bids for the purchase of \$283,000 worth of bonds which will provide for irrigation improvements. W. T. Holton is Secretary of the district at Alpheigh.

SEAL BEACH, ORANGE CO., CAL.—An election has been called for December 21st to vote bonds of \$15,000 for the installation of a sewerage system, including a system of septic tanks. Olmstead & Gillette, engineers of Los Angeles are planning the work. A \$30,000 issue is also planned for a municipal water plant.

RED BLUFF, TEHAMA CO., CAL.—Bids will be received by the Supervisors of Tehama County up to December 8th for the purchase of \$15,000 worth of Red Bluff School bonds. H. G. Kuhn is County Clerk.

ALBANY, ALAMEDA CO., CAL.—December 9th is the date set for the holding of a bond election to vote \$25,000 for paving San Pablo avenue through the city limits.

EL PASO, TEXAS.—An election will be held December 19th, for voting on an issue of bonds for providing funds for the following purposes: Installing septic tanks at the city's disposal plant, \$10,000; installing drainage system for flood waters, \$75,000; extending and permanently improving sewer system, \$10,000; grading and improving streets and alleys, \$10,000.

COALINGA, FRESNO CO., CAL.—Engineer Lloyd Deservo, Central Building, Los Angeles, has been engaged by the City Trustees to make soundings and borings in Whittier Canyon, where it is proposed to sink a submerged dam and secure a water supply for the city. Deservo drew up the plans for a water system when the \$100,000 bond issue for a water system was proposed. The issue carried at the recent election.

REDWOOD CITY, SAN MATEO CO., CAL.—The County Supervisors have sold the \$1,000 bonds of the West Union School District to the Bank of Italy, they being the best bidders at \$1.055.

LONG BEACH, LOS ANGELES CO., CAL.—The City Commissioners will be asked shortly to appropriate \$25,000 to employ engineers to draft plans and specifications for the American avenue-plaza avenue pleasure pier. Under the present plans an issue of \$500,000 in bonds will be asked. The proposed pier is of the horseshoe or V-shaped structure, extending seaward about 2,000

feet. B. F. Nicker is selecting the campaign committee members.

BRIDGES, DAMS AND HARBOR WORK

RICHMOND, CONTRA COSTA CO., CAL.—Harbor fill, etc. Cost as follows. Engineers, Haviland & Tibbitts, Alaska Commercial Bldg., S. F. Owners, City of Richmond. The Standard American Dredging Co., 114 13th street, Oakland, although being the low bidder for constructing the mud fill in the inner harbor, was not given the contract by the City Council. The matter was referred to the City Attorney for one week. Only three bids were received for the work. The fill is to be approximately 4,600 linear feet in length. The bids were: Standard American Dredging Co., \$39,376; American Dredging Co., \$52,900; San Francisco Bridge Co., \$13,240.

OAKLAND, CAL.—Bridges, fender piles, etc. Cost not stated, Engineer, County Surveyor, Oakland, Owners, Alameda County. Bids will be opened on December 18th at 10 a. m. for the construction of fender piles at the Webster street bridge across the estuary between the cities of Oakland and Alameda.

REDWOOD CITY, SAN MATEO CO., CAL.—Culverts, reinforced concrete. Cost not stated. Engineer, County Surveyor, Redwood City, Owners, San Mateo County. Bids will be opened on December 8th at 10 a. m. for the construction of a reinforced concrete culvert on the Alpine road in the Third Road District of San Mateo County.

RICHMOND, CONTRA COSTA CO., CAL.—Rock sea wall. Cost not stated. Engineers, Haviland & Tibbitts, Alaska Commercial Bldg., S. F. Owners, City of Richmond. Bids will be opened on December 18th at 5 p. m. for the construction of a rock sea wall adjacent to Municipal Wharf No. 1, Richmond Harbor, on the waterfront at Point Richmond.

Contract Awarded.

SOUTH VALLEJO, SOLANO CO., CAL.—Flour mill and elevators, reinforced concrete. Cost not stated. Engineer, Maurice Conchot, 110 Sutter street, S. F. Owners, Sierra Flour Co., Contractors, Unpublished Construction Co., Crocker Bldg., S. F. Contract includes only the reinforced concrete and steel work. Contract price not stated.

FACTORIES AND WAREHOUSES.

OAKLAND, CAL.—Factory, 1-story, brick, \$7,000. Architect, A. W. Smith, 1010 Broadway, Oakland. Owners, Rex Switch Board Co. Location, 28th and Telegraph avenue. Will cover an area of 54 by 120 feet and contain offices besides the factory. Plans complete and figures being taken.

LOS ANGELES, CAL.—Factory group, \$10,000,000. Engineer's name not given. Owners, Elsenhuth Motor Co., J. W.

Eisenhuth, president of the Eisenhuth Motor Company, has applied to the Harbor Commission for a lease on a site of seventy acres at Los Angeles Harbor on which the company proposes to construct a manufacturing plant to cost \$10,000,000. Options have been secured on adjoining property and the factory will occupy a total of 195 acres. The company will manufacture automobiles, auto trucks, and gas engines. Mr. Eisenhuth lives at the Angeles Hotel and states that the project has been financed by eastern capital.

LOS ANGELES, CAL.—Ship building plant, \$750,000. Engineer's name not given. Owners, Los Angeles Ship Building Co. E. G. Eckstrom 127 E. W. Hellman building, representative, which is negotiating with the Harbor Commission for a lease of a ship building site at Los Angeles Harbor, contemplates the erection of a group of buildings for the new plant. Mr. Eckstrom states that the buildings will be of frame construction and that the work will be done by the day. The new structures will include a plate shop, 80 by 150 feet; machine shop, 80 by 250 feet; carpenter shop, 60 by 200 feet; two-story office building, 40 by 125 feet; pattern store room, 40 by 75 feet and general storage building, 60 by 150 feet. The shop building will be equipped with a large traveling crane. The total expenditures, including buildings, construction of wharves, and machinery, will eventually reach the sum of \$750,000.

LOS ANGELES, CAL.—Bakery, 1, 2 and 3 story and base, brick, \$65,000. Architect's name not given. Owners, The Supreme Baking Co., 401 North avenue. L. A. Contractors, Frank Graves & Son, Builders' Exchange, L. A. Contract price, \$65,000.

FIREHOUSES AND JAILS

SAN FRANCISCO—Fire house, 2 story and base. Class C construction, \$35,000. Architects, Ward & Bohme, Alaska-Commercial Bldg., S. F. Owners, City and County of San Francisco. Location, 25th and Vermont streets. Will contain general apparatus room on the ground floor and quarters for the men above. Plans are being prepared.

FLATS.

SAN FRANCISCO—Flats, 2 story and base, frame, \$3,000. Architect, none. Owner, Joseph Hagen 1710 Sacramento street, S. F. Location, north Sacramento west Polk, covering an area of 25 by 80 feet. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

STOCKTON, SAN JOAQUIN CO., CAL. Flats, 2 story and base, frame, \$2,000. Architect, Ralph P. Morrill, Odd Fellows Bldg., Stockton. Owners, Messrs. Brock and Maisel. Location, northeast El Dorado and Boese. Will contain two flats of five and six rooms. Plans complete and figures being taken.

IRRIGATION PROJECTS

WATERFORD, STANISLAUS CO., CAL. Irrigation siphon. Cost not stated. Engineer, Chief Engineer, Waterford District. Owners, Waterford Irrigation District. Bids will be opened on December 21st at 2 p. m. for constructing siphon. Said siphon is to be situated in the crossing of the lower main canal of the Waterford Irrigation District beneath the outlet canal of the Modesto Irrigation District reservoir, and at a point approximately 700 feet southerly from the outlet gates of said reservoir. The work involved includes making necessary excavation, backfilling and pouring approximately 105 cubic yards of reinforced concrete, and work being known as Contract Section No. 6.

WATERFORD, STANISLAUS CO., CAL. Irrigation flume, etc. Cost not stated. Engineer, Chief Engineer, Waterford District. Owners, Waterford Irrigation District. Bids will be opened on December 21st for constructing a cement lined flume to be situated at the crossing of the lower main canal of the Waterford Irrigation District over the main canal of the Modesto Irrigation District and about one-half mile northeast of the town of Waterford. The work involved includes the excavation of footing and headworks, pouring concrete footings, erection of barge, and application of cement planking. Flume box is to be 4 by 6 feet and approximately 200 feet long. The work is to be known and described as Contract Section No. 7.

WATERFORD, STANISLAUS CO., CAL. Irrigation flume, etc. Cost not stated. Engineer, Chief Engineer, Waterford District. Owners, Waterford Irrigation District. Bids will be opened on December 21st for constructing a cement lined flume to be situated at the crossing of the lower main canal of the Waterford Irrigation District over the main canal of the Modesto Irrigation District and about one-half mile northeast of the town of Waterford. The work involved includes the excavation of footing and headworks, pouring concrete footings, erection of barge, and application of cement planking. Flume box is to be 4 by 6 feet and approximately 200 feet long. The work is to be known and described as Contract Section No. 7.

IRIDHOLE. School proposals will be received by the United States Reclamation Service, Washington, D. C., until 2 o'clock p. m., December 21, 1916, and will at that hour be opened for furnishing and erecting one foot highway bridge, consisting of four 11 feet 6 inch pony truss spans over the highway crossing the Little Lost River project, Montana. For particulars address the United States Reclamation

Service, Washington, D. C., Denver, Colo., or Browning, Mont. A. P. Davis, chief engineer.

GATES AND STANDS Sealed proposals will be received by the United States Reclamation Service, Denver, Colo., until 2 o'clock p. m., December 29, 1916, and will at that hour be opened, for furnishing cast iron gates and gate stands for Rio Grande project, New Mexico-Texas. About twelve tons of metal work will be required. For particulars address the United States Reclamation Service, Denver, Colo., or El Paso Texas. A. P. Davis, chief engineer.

CHOWCHILLA, SAN BERNARDINO CO., CAL.—The Chowchilla Reclamation District, which is being organized to construct levees along the sloughs of the San Joaquin River and to drain the swamps, at approximate cost of \$400,000, has elected the following directors: H. S. Wanger, G. A. Howell and E. M. Binder. Engineering plans will be submitted to the Board of Supervisors next month.

HESPERIA, SAN BERNARDINO CO., CAL.—An irrigation system to serve the lands on both sides of the Mojave River between Hesperia and Victorville, is under consideration by property owners in Victor Valley and Apple Valley. The holdings of the Arrowhead Reservoir and Power Company will probably be secured as a basis for the system.

MADERA, MADERA CO., CAL.—Improvements costing \$1,000,000 are planned by the Madera Irrigation District. Dams and reservoirs on the San Joaquin River are included in the program. Engineer Frank Chase has been retained to make the preliminary survey, for which \$10,000 is being raised. The Miller & Lux Corporation, San Francisco, has agreed to assist in the work if the present plan is carried out.

POST OFFICES

BAKERSFIELD, KERN CO., CAL.—Post office, 2 story and base, brick, steel and stone. Cost not stated. Architect, Supervising Architect, Washington, D. C., Owners, United States Government. Bids will be received on December 22nd at 3 p. m. for the entire construction of the new federal building. Plans provide for a building similar to the post office at Berkeley, Cal. An official proposal appears in another column of this issue. Plans can be secured from either the Supervising Architect at Washington, D. C., or the custodian of the site at Bakersfield.

POWER HOUSES.

SANTA BARBARA, SANTA BARBARA CO., CAL.—The Santa Barbara Gas and Electric Company will start work within a few weeks on the construction of a second generating unit of its gas plant on Quarantine street to cost \$15,000. The contract for the iron work has been let to the Baker Iron Works of Los Angeles.

NILAND, IMPERIAL CO., CAL.—A power line from Niland to the head of the Alamo canal to supply the Imperial Irrigation District, and costing approximately \$150,000, is planned by the Southern Sierras Power Company, Riverside.

SAN DIMAS, LOS ANGELES CO., CAL.—R is the plan of J. W. Reagan, County Flood Control Engineer, to construct, under the proposed \$3,600,000 bond issue, a dam in San Dimas Canyon, 125 feet high and 265 feet long, with 12-foot roadway on top, to impound about 2,100 acre-feet of water. Cost about \$300,000.

HANFORD, KINGS CO., CAL. Bids will be received by the Board of Supervisors up to January 2nd, for the purchase of a franchise for the installation of an electric power and lighting system in Kings County. E. F. Pickrell is clerk of the board.

Contracts Awarded.

SAN RAFAEL, MARIN CO., CAL.—Water tunnel, \$257,400. Engineer, A. R. Baker, San Rafael. Owners, Marin Municipal Water District. Contractors, McLaren & Peterson, Shattuck Bldg., S. F. Contract price, \$257,400.

ETREKA, HUMBOLDT CO., CAL.—Water pipe. Cost as follows. Engineer, City Engineer, Eureka. Owners, City of Eureka. Contractors, Pacific Hardware and Steel Co., S. F. Contract price, 12,000 feet of 2-inch iron pipe at \$13.09 per 100 feet.

RAILROAD CONSTRUCTION AND EQUIPMENT

NEEDLES, SAN BERNARDINO CO., CAL.—Railroad shops, etc., reinforced concrete. Cost not stated. Engineer, Chief Engineer, Ketchoff Bldg., L. A. Owners, Atchison, Topeka and Santa Fe R. R. Co. Twenty buildings are included in the plan. The roundhouse will be of reinforced concrete construction and will contain forty stalls, making one of the largest roundhouses on the Santa Fe system. The other buildings will be of brick and frame construction and will range from small structures to large shop buildings. An estimate is being made as a basis on which to make an appropriation for the erection of the buildings.

SAN BERNARDINO, SAN BERNARDINO CO., CAL.—Railroad station, etc., reinforced concrete. Cost as follows. Engineer, Chief Engineer, Ketchoff Bldg., L. A. Owners, Atchison, Topeka and Santa Fe R. R. Co. Plans for new buildings for the Santa Fe depot grounds south of Third street, comprise the following structures: A passenger depot costing \$200,000; refrigerator repair plant costing \$75,000; car and coach shop, 150 by 245 feet, together with other shop buildings, \$125,000; upholstering and cabinet shop, 73 by 132 feet, mill building, 80 by 226 feet. The new buildings will cover a tract of ground 1725 by 250 feet fronting on Third street. It is proposed to purchase the land for about \$100,000. Plans for the new buildings are being evolved by General Manager A. G. Wells, General Superintendent J. L. Hubbard, and Herbert S. Wall, shop superintendent.

RESIDENCES

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$5,000 each. Architect, none. Owners, Oscar Helman & Bro., 742 Market street, S. F. Location, west 23rd avenue north Fulton. Each house will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 3, 1 story and base, frame, \$4,000 each. Architect, Joseph A. Leonard, 85 Cerritos avenue, S. F. Owners, Urban Realty Co., 85 Cerritos avenue, S. F. Location, east Albano Drive south Pico. Each house will contain eight rooms, two baths and separate garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$2,000. Architect, none. Owner, John M. Peters, 1010 Balboa street, S. F. Location, west 12th avenue south Cabrillo. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$7,500. Architect, none. Owners, Allen & Co., 125 Sutter street, S. F., sold to John E. Cazes. Location 26th avenue near Sea Cliff. Will contain eight rooms, two baths and a garage. Plans complete and work being done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, M. J. Walsh, 915 Treat avenue, S. F. Owner, Oscar Swanson, 572 Clipper street, S. F. Location, west 23rd avenue north Irving. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$5,000. Architect, Smith & Otton, Humboldt Bank Bldg., S. F. Owner, Michael Casey. Location, Sanchez and 15th streets. Will contain ten rooms, bath and basement garage. Plans being prepared.

SAN FRANCISCO—Residence, 1 story and base, frame, \$2,750. Architect, E. J. Spence, 357 25th avenue, S. F. Owner, C. E. Janssen, Hearst Bldg., S. F. Location, east First avenue north Turk. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 3, 2 story and base, frame, \$3,000 each. Architect, none. Owner, C. S. Allred, 150 Omundson street, S. F. Location, north-east 24th avenue and Cabrillo. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1 story and base, frame, \$4,000. Architect, A. W. Smith, Oakland. Owners Barrett & Hulp, Sharon Bldg., S. F. Location, east Miramar north Southwood. Will contain eight rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence 1 story and base, frame, \$3,000. Architects, Wood & Simpson, 110 Sutter street, S. F. Owner, F. E. Penke. Location, 750 Spruce street. Will contain four rooms bath and sleeping porch. Separate garage. Plans complete and figures being taken.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, \$4,000. Architect, Chester H. Miller, First Savings Bank Bldg., Oakland. Owner's name withheld. Location, Piedmont. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

BERKELEY, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, \$5,000. Architect, none. Owner, E. B.

SPLITTER, 815 Oxford street, Berkeley. Location, east Mendocino south Indian Rock. Will contain nine rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, E. S. Cortage, 133 Folger avenue, Berkeley. Location, north Alameda street west Shattuck. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, Herbert F. Kern, 928 San Benito Road, Berkeley. Location, north Los Angeles near Mariposa. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1½ story and base, frame, \$2,500. Architect, none. Owner, Paul C. Woodburn, 3965 Greenwood avenue, Oakland. Location, east Vista north Wellington. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, J. Muldoon, 2117 Blake street, Oakland. Location south Alameda west Gaskill. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, C. W. Glantz, 1322 84th avenue, Oakland. Location, east Harriet street north Carlton. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, I. Hylander, 1214 East 14th street, Oakland. Location, west Division north East 25th street. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Ole Kohn, 2127 Brice street, Oakland. Location, west Ransom avenue south Santa Rita. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, C. Texdahl, 3035 Harper street, Berkeley. Location, west Texdahl south Oregon. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,600. Architect, none. Owner, Andrew Anderson, 1606 48th avenue, Oakland. Location, north Arkansas east Peralta. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, R. C. Hillen, 426 Haight street, Alameda. Location, southeast Montana and Curran avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, Albin Leina, 2833 8th street, Berkeley. Location, north Channing Way east California. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Eric Leach, 1000 14th street, Oakland. Location, south Scott and Jones. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 1 story and base, frame, \$1,000. Architect, none. Owner, Howard A. Peterson, 1000 14th street, Fresno. Location, Hazelwood addition. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 1 story and base, frame, \$1,000. Architect, none. Owner, John L. Reed, Fresno. Location, Elmeria Vista addition. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, \$1,800. Architect, none. Owner, I. Gabanelli, 1013 1st street, Sacramento. Location, 3rd and J streets. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2½ story and base, frame, \$5,000 each. Architect, none. Owner, Benjamin F. Mann, 221 Brighton avenue, S. F. Location, east Naples north Munich. Each house will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 3½ story and base, frame, \$11,000 each. Architects, Finch & Knoll, Heinst Bldg. S. F. Owners, Newell-Murdock Co. Location, Forest Hill Bldgs. have been taken for the general construction of all three of these houses and a contract will be let this week.

Contracts Awarded.

PASADENA LOS ANGELES CO., CAL.—Residence, 2 and 3 story and base. Class A construction, \$200,000. Architect, Charles Platt, New York City. Owner, Dr. Campbell. Contractor, Thomas C. Marlowe, 1017 Van Ness Bldg., L. A. Note: The contract has been awarded on a percentage basis.

SCHOOLS

BAKERSFIELD, KERN CO., CAL.—School heating system. Cost not stated. Architect, Ouyille L. Clark, Brower Bldg., Bakersfield. Owners, City of Bakersfield. Bids will be opened on December 8th for the furnishing of all materials and labor necessary to install and complete a heating system known as the Hawke Ventilating Gas Radiators System, same to be installed in the present Fremont School building under construction at the present time.

PAISLEY, ORE.—School, 1 and 2 story. Class C construction, \$10,175. Architects, Taarlebottle & Hummel, Rothchild Bldg., Portland. Owners, Paisley School District. Zeph Bros., Enterprise, Ore., submitted the lowest bid for the new school building, and while the contract has not been officially awarded such action will be taken.

SEWERS, STREET WORK & WATER SYSTEMS

BRIDGES, FENDER PILES, ETC.—Cost not stated. Oakland, Cal. Engineer, County Surveyor, Oakland. Owners, Alameda County. Bids will be opened on December 18th at 10 a. m. for the construction of fender piles at the Webster street bridge across the estuary between the cities of Oakland and Alameda.

GARAGE—1 story and base, Class C construction, \$10,000. Berkeley, Alameda Co., Cal. Architect, A. W. Smith, 1010 Broadway, Oakland. Owner, Mr. Dana. Location, Blake and Telegraph avenue. Designed for a commercial garage and will contain machine shop besides the office and storage space. Plans complete and figures being taken.

FACTORY—1 story, brick, \$7,000. Oakland, Cal. Architect, A. W. Smith, 1010 Broadway, Oakland. Owners, Rex Switch Board Co. Location, 28th and Telegraph avenue. Will cover an area of 50 by 120 feet and contain offices besides the factory. Plans complete and figures being taken.

APARTMENT HOUSE—2 story and base, frame, \$10,000. Oakland, Cal. Architect, none. Owner, H. S. Pratt, 1115 Glendora avenue, Oakland. Location, west 39th and Market streets. Will contain sixteen rooms arranged in two and three room apartments. Plans complete and work to be done by Day Labor.

STORES—1 story and base, Class C construction, \$15,000. Oakland, Cal. Architect, J. G. McDougall, Sheldon Bldg., S. E. Owner's name not given. Location, 24th and Broadway. Will contain a number of small stores. Plans complete and figures being taken.

STORES—1 story and base, brick, \$20,000. Oakland, Cal. Architects, C. W. Dickey and J. J. Donovan, Perry Bldg., Oakland. Owners, King Estate. Location, 12th street. Will cover a

considerable ground area and contain several small stores. Plans are complete and figures being taken.

STREET IMPROVEMENTS—Cost not stated. Oakland, Cal. Engineer, City Engineer, Oakland. Owners, City of Oakland. Bids will be opened on December 14th at 12 noon for street improvements authorized under the following resolutions: That Jackson St., from 10th street to 12th street, be graded, curbed with concrete, guttered with brick gutters 14 inches wide, and paved with asphalt.

That a vitrified pipe sewer, having an internal diameter of 8 inches, be constructed along East 11th street, from 8th avenue to a point distant 210 feet southeasterly therefrom, measured along said center line of East 11th street. Also that a brick manhole with cast iron top be constructed at the northwest end of said sewer. Also that a vitrified pipe lamphole with top of brick and cast iron be constructed at the southeast end of said sewer. Also that Y branches with 5-inch openings be constructed on said sewer so as to provide one such branch for each 25-foot lot and fractional lot remaining into which the abutting property frontage is capable of being divided.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're **loafing**.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps **ON** the road and **OUT** of the repair shop.

The F-W-D **saves 20 to 25 per cent** of gasoline and oil money. It reduces first cost of tires **one-third.** It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA

LIGHTING SYSTEM—Shomo, Modesto, Merced Co. City Engineer. T. Phillips, Modesto 1942, S. P. Owners City of Merced. Plans for commercial street lighting. Ten or cost \$10,000 have been officially approved and bids will shortly be called for. Plans call for a small section of reinforced concrete substation, the underground conduit system and ornamental electrolier.

IRRIGATION SYSTEM—Cost not stated. Waterford, Stanislaus Co. Cal. Engineer, Chief Engineer. Waterford Owners. Waterford Irrigation District. Bids will be opened on December 21st at 2 p. m. for constructing a siphon. Said siphon is to be situated at the crossing of the lower main canal of the Waterford Irrigation District beneath the outlet canal of the Modesto Irrigation District reservoir, and at a point approximately seven hundred feet southerly from the outlet gates of said reservoir. The work involved includes making necessary excavation, and backfilling and pouring approximately 165 cubic yards of reinforced concrete, said work being known as Contract Section No. 6.

IRRIGATION FLUME, ETC.—Cost not stated. Waterford, Stanislaus Co. Cal. Engineer, Chief Engineer. Waterford Owners. Waterford Irrigation District. Bids will be opened on December 21st for constructing a cement lined flume to be situated at the crossing of the lower main canal of the Waterford Irrigation District over the main canal of the Modesto Irrigation District and about one-half mile north east of the town of Waterford. The work involved includes the excavation of footings and headworks, pouring concrete footings, erection of flume, and application of cement plaster lining. Flume has to be 1 by 6 feet, and approximately 299 feet long. The work is to be known and described as Contract Section No. 7.

RESIDENCE—1 story and base, frame, \$2,000. Fresno, Fresno Co. Cal. Architect, none. Owners, Dow and Cannon. Fresno. Location, Hazelwood Addition. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, \$1,000. Fresno, Fresno Co. Cal. Architect, none. Owner, John L. Boyd, Fresno. Location, Buena Vista Addition. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

POST OFFICE—2 story and base, brick, steel and stone. Cost not stated. Bakersfield, Kern Co. Cal. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids will be received on December 22nd at 3 p. m. for the entire construction of the new federal building. Plans provide for a building similar to the post

office in Berkeley, Cal. An official proposal appears in another column of this issue. Plans can be secured from either the Supervising Architect at Washington, D. C., or the custodian of the site at Bakersfield.

SCHOOL HEATING SYSTEM—Cost not stated. Bakersfield, Kern Co. Cal. Architect, Ouyile L. Clark, Brower Bldg., Bakersfield. Owners, City of Bakersfield. Bids will be opened on December 11th for the furnishing of all materials and labor necessary to install and complete a heating system known as the Hawks Ventilating Gas Radiation System, same to be installed in the present Fremont School building, under construction at the present time.

STREET IMPROVEMENTS—Cost as follows. Bakersfield, Kern Co. Cal. Engineer, City Engineer. Bakersfield Owners, City of Bakersfield. The City Council has awarded the contract to Confield & Davis, Bakersfield, for paving and grading 21st street, between I and L streets, they being the low bidders at \$6,579. Lloyd S. Stroud, 2225 18th street, Bakersfield, was awarded the contract for sewer work in Sewer District No. 34, he being the low bidder at \$1,576.45.

Contract Awarded.

PAVING, ETC.—\$48,800. Tulare, Tulare Co. Cal. Engineer, City Engineer. Tulare Owners, City of Tulare. Contractors, Federal Construction Co., Sharon Bldg., S. E. Contract price, \$19,000.

GLASS WORKS RESUME.

STOCKTON, N. C., 20.—Glass blowing has been resumed at the Stockton Glass Works by the Patterson Glass Company, a new organization financed by R. M. Patterson, who last season managed the plant for the W. P. Fuller Company. The plant started operations with 150 men on the pay roll, but fifty more experienced workers are on their way for West Virginia.

RICE WAREHOUSE COMPLETE.

HTTE CITY—The new warehouse of the Sacramento Warehouse Co. at this city now is complete and tractors are hauling rice and grain from the surrounding country. The new house is one of the largest in this section of the country. Electric elevators will be used for slacking the grain.

LOS ANGELES SHIP PLANTS.

LOS ANGELES—Rumors of more ship building companies seeking sites here are urgent along the waterfront. The definite announcement that Robert Christy was seeking a site for a concern in which he was interested was made recently and it was learned that still a third company has been investigating possibilities in the outer harbor. The first company to make definite announcement was the Los Angeles Shipbuilding Co.

SHALL COMBINATIONS TO CONSERVE NATURAL RESOURCES BE PERMITTED?

National Chamber Referendum Offers to Commercial Organizations Question of Remedial Legislation Permitting Agreements When in the Interest of the Public, Labor, and Business.

WASHINGTON, D. C., November 29.—Commercial bodies of the country through a referendum sent by the Chamber of Commerce of the United States will have an opportunity to vote against the report of a special committee which recommends that there should be remedial legislation to permit co-operative agreements under Federal supervision in those industries which involve primary natural resources, on condition that the agreements in fact tend to conserve the resources, to lessen accidents, and to promote the public interest.

The plan is to make it possible for the Federal Trade Commission to go beyond its present powers of investigation and to formulate constructive plans under which an industry may operate to the common benefit of consumers, workmen, and producers. The public interest is the paramount thing. The committee means to point a way by which the public interest may be safeguarded and promoted, instead of being left to take care of itself, as at present.

In support of the above recommendation the argument is put forth that the natural resources of the country received little attention twenty-five years ago, except as sources for exploitation. Legislation made no distinction between the resources which become exhausted or greatly depleted through utilization and resources which in large part renew themselves every year. The necessity of efficient utilization and of appropriate legislation has been recognized in steadily increasing degree by the public, and the principal question now remaining appears to relate to methods and to the form new legislation should assume.

Members of Committee Advocating Legislation.

By way of emphasizing the thorough manner in which the question submitted to the National Chamber members has been gone into, the personnel of the committee making the report is cited. The acting chairman is W. L. Saunders, of New York, chairman of the Board of Directors of the Ingersoll-Rand Company and formerly president of the American Institute of Mining Engineers. The other members are: William B. Clark, professor of geology at Johns Hopkins University and Geologist for the State of Maryland; John H. Fahey, a newspaper publisher of Boston, and formerly president of the Chamber of Commerce of the United States; Charles S. Keith, a lumberman and coal operator of Kansas City, president of the Southern Pine Association; and Dr. Charles R. Van Hise, a well-known geologist and president of the University of Wisconsin.

Committee Recommendations Limited in Scope.

The National Chamber committee confined its study to timber, the ores and deposits of useful metals, and the deposits of minerals which are a

THE CITY MANAGER PLAN OF MUNICIPAL GOVERNMENT.

A combination of the commission plus city manager would seem to be the ideal. It would eliminate what is regarded as the principal objection to the straight city manager scheme, namely, the fear of one-man power. With the commissioners acting as a group through one controlled executive, the whims or fancies of any one man would be neutralized by the combined judgment of the other members of the commission. Furthermore, if any one member of the board happened to be selfishly interested in the passing of certain acts the passing of every act by the group makes it impossible for any one to put such deals over. In this way the manager would become servant and executor rather than boss.—Canadian Municipal Journal.

BUILDING OF SILOS IN NEW SOUTH WALES.

SYDNEY, Australia, Oct. 24.—Recently the New South Wales Government Department of Agriculture announced that funds would be provided for assisting farmers in the erection of silos, and numerous inquiries have been received, especially from dairy farmers. Many of the applicants have signified their willingness to pay for the silos when they are completed, while others have agreed to pay much larger deposits than was anticipated. Owing to the abundance of rainfall in many districts, silos will greatly benefit dairy farmers by enabling them to conserve the fodder harvested during the rainy seasons.

PUBLIC EMPLOYMENT BUREAUS OF STATE OF CALIFORNIA.

The report of the Public Employment Bureaus of the State of California, just issued by John P. McLaughlin, labor commissioner, shows that October ranks among the banner months, 5131 having obtained positions, 1191 men and 640 women, during this period, which is 3,609 more than were filled in February, when the State launched in the employment business. The four bureaus, located in San Francisco, Oakland, Sacramento and Los Angeles, found work for about 200 men and women per day during October, and saved them \$16,000 in fees.

The large army of 33,451 men and 5,999 women, 38,550 in all, have been connected with jobs by the state since February 1, and the great majority of them are still holding these positions, which proves the efficiency of the service which the State is rendering. Labor Commissioner McLaughlin and C. B. Sexton, superintendent of the bureaus, are constantly improving the service and studying ways and means whereby the needs of the employer and the employee may be best served. As a result, corporations, companies and private employers are coming to the State in increasing numbers every month and a high class of employees are streaming to the public employment bureaus.

Besides the facilities which the State is now offering its citizens in finding jobs and suitable employees to fill them, an important feature is of course the doing away with fees. On the basis of an average of \$2 which employees are paying private agencies for jobs, the State has, during the past nine months, saved the employees \$75,000 in fees, and at the close of the first year will have saved them \$100,000, or twice as much as the Legislature appropriated for the maintenance of the public employment bureaus.

The San Francisco bureaus filled 2,178 positions during October; Oakland, 713; Sacramento, 1,032; Los Angeles, 1,211; for the past nine months, the record of positions filled held by the four employment bureaus is as follows: San Francisco, 15,101; Oakland, 5,127; Sacramento, 6,435; Los Angeles, 11,587. It was predicted, when the public employment bureau's law was being proposed before the Legislature, that if 10,000 positions were filled in one year, the work would be deemed a success. The above figures show that the San Francisco office alone in nine months went 5,000 better than this figure. Comparing this record with the results obtained by public employment bureaus in other states, California today stands foremost in the United States as a successful exponent of the public employment idea.

Since California launched into the employment business, 36,166 men and

women have made applications for work and employers have applied for 29,955 employees. The State referred 25,159 persons to these positions and the employers accepted 38,550 of them. The remarkably high percentage of persons accepted shows how carefully those in charge of the bureaus study the needs of the employers and size up those who apply for work.

Of course a large number of the positions filled consists of so-called common laborers and section employees, but the State has successfully filled almost every conceivable kind of positions. The following is an interesting resume of the kinds of positions filled by the State during the past nine months: Agriculture, 3533; building and construction, 1583; clerical and professional, 369; food, beverages and tobacco, 387; hotels and restaurants, 4673; lumber and timber trades, 1169; metals and machinery, 889; mining and quarries, 678; transportation and public utilities, 8199; wholesale and retail trades, 950; manufacturing, 700; private homes, 2272; miscellaneous positions, 999.

During the coming winter months, the State will of course face the most difficult phase of the employment problem, as there will be more men looking for jobs than jobs. The employers should make a special effort to send in their orders for help to the State bureaus and they will be supplied with the most suitable help. The public employment bureaus do not deal with the charity problems, believing that these are for charitable associations to take care of, and instead applies only the strictest business principles in the conduct of the employment business, thus insuring the most efficient service possible for the employer and the employee.

AMERICAN COTTON GOODS GAIN IN AUSTRALIA.

The "Australian Traveler" of October 1 comments upon the increase in the importation of cotton cloth from the United States during the fiscal year, stating that American goods are replacing those of European origin. According to figures supplied by Commercial Attache Philip B. Kennedy, of Melbourne, Australia's cotton-cloth imports from the United States for the fiscal year ending July 1, 1916, totaled \$1,708,800 in value, as compared to \$850,320 for the preceding twelve-month.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

OAKLAND, CAL.—Apartment house and rooms, 1 story and base, reinforced concrete. Cost not stated. Architect, William Knowlton, Belmont Bldg., S. F. Owner's name withheld. Location, north 17th street east Broadway. Will contain apartments of two and three rooms on the upper floor and a number of single rooms on the other floors. Plans complete and figures being taken.

OAKLAND, CAL.—Apartment house, 2 story and base, frame, \$72,000. Architect, James W. Planch, Ketchikan Bldg., Berkeley. Owner, R. H. Bradshaw. Location, 60th and Telegraph. Will contain stories on the first floor and six three-room suites on the upper floor. Plans complete and segregated figures being taken by the owner.

SAN JOSE, SANTA CLARA CO., CAL.—Apartment house, 3 story and base, frame, \$35,000. Architect, Charles S. McKenzie, Bank of San Jose Bldg., San Jose. Owner, Mr. Phillips. Location, near St. James Park. Will contain a number of two, three and four room apartments. Plans complete and figures being taken.

SAN FRANCISCO.—Apartment house, 1 story and base, frame, \$24,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. Location, south 15th 20 feet west of Church. Will contain 21 apartments of two and three rooms. Plans complete and figures being taken.

BANKS

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Bank, 2 story and base, brick and steel, \$30,000. Architect, Thomas M. Edwards, Park Bldg., Burlingame. Owners, Bank of South San Francisco. Will occupy an area of 50 by 90 feet. Plans complete and figures being taken.

BONDS.

UTAH, MOUNTAIN CO., CAL.—The Trustees of the U. C. Union High School District are considering a \$75,000 school bond issue to erect a new high school building. The present building is inadequate.

MARYSVILLE YIPA CO., CAL.—The report of W. H. Lynch, highway engineer sent to Yuba County by the U. S. Department of Agriculture to investigate road building in compliance with a request of the County Supervisors, has been received at road. The report has been perused by the office of Public Roads and Rural Engineering at the U. S. Department of Agriculture at Washington.

Lynch's summary of the cost of the proposed county system is \$160,000, divided as follows: Marysville-Oroville road, \$150,000; Marysville-Nevada County line, \$175,000; Marysville and Bodinns, \$300,000. Reports, \$75,000.

Butte County line to Camptenville, \$100,000.

Lynch also recommends the use of concrete with an asphaltic oil top.

WOODLAND, YOLO CO., CAL.—The County Supervisors have instructed County Surveyor Proctor to commence the necessary surveys for the building of a system of permanent county highways. The estimated cost of the system is placed at \$1,250,000, funds for which will be provided for by a bond issue.

BAKERSFIELD, KERN CO., CAL.—The Kern County Supervisors have sold one-half million dollars worth of county highway bonds to Byrne & McDonnell.

FRESNO, FRESNO CO., CAL.—Action has been taken and a \$125,000 building for the Y. M. C. A. is probable for Fresno before the close of next year. Geo. C. Rowing of Fresno is interested in the proposed structure.

TACOMA, WASH.—Under an agreement between the Secretary of War and a committee of Tacoma men, the Commissioners of Pierce County will call a special election, probably January 6th, to vote a bond issue of \$2,000,000 with which to buy several thousand acres on the Nisqually plains for an army post.

THE DALLES, ORE.—The bond issue of \$26,000 for highway construction has been voted and J. A. Elliott, engineer, will complete final data within the next few weeks.

POMONA, LOS ANGELES CO., CAL.—For the construction of pavements, storm drains and curbs, a \$200,000 bond issue has been taken under consideration.

PILLSBURY, WASH.—The County Commissioners have decided to call an election to vote bonds in the sum of \$125,000 for the construction of a new court house.

SEATTLE, WASH. By a safe majority bonds in the sum of \$1,080,000 for the purchase of sites and erection of new school buildings were carried at the special school and port election held in this city recently.

This amount will probably be expended in the construction of seven buildings although the selections have not been made as yet. Locations considered so far for grade schools are: Seward district, Whitworth, Columbia, Dunlap, and Interbay and would cost \$75,000 to \$100,000 each. Two high schools are also considered to cost \$250,000 each.

Edgar Mann, as school architect, will handle the construction details.

BRIDGES AND DAMS.

SAN FRANCISCO.—Pier, concrete and timber. Cost not stated. Engineer, Chief Engineer, Ferry Bldg., S. F. Owners, State of California. The State Board of Harbor Commissioners has approved plans for Pier No. 2 to be

erected at the foot of Washington St. The new structure will be 700 by 138 feet and will be carried on concrete piles. Bids will be called for as soon as the plans receive the approval of the State Advisory Board.

Contract Awarded.

SAN JOSE, SANTA CLARA CO., CAL.—Bridge, reinforced concrete. Cost as follows. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. At the last meeting of the County Supervisors, the contract for the construction of one reinforced concrete bridge on Alviso and Mountain View road on the line between Supervisor Districts Nos. 4 and 5 was awarded to R. H. Jamison, Coffin road, Santa Clara for the sum of \$860.

HANFORD, KINGS CO., CAL.—Bridges, timber and concrete. Cost as follows. Engineer, County Surveyor, Hanford. Owners, Kings County. J. E. Hines of Tulare, Tulare County, has been awarded the contract for the construction of a three-pile bridge to span Cross Creek northwest of Corcoran on the county improved highway. Mr. Hines' Bids were: Trestle No. 1, \$1,000; trestle No. 2, \$1,350; trestle No. 3, \$850. Bids were also opened for the construction of a reinforced concrete bridge over the Last Chance canal four miles west of this city. On this work the Adell-Cornright Concrete Pipe Co. of Hanford, was the successful bidder.

CHURCHES.

SAN FRANCISCO.—Church, 1 story and base, frame, \$2,500. Architect none. Owners, Roman Catholic Church. Location, north California west Walnut covering an area of 20 by 90 feet. Will contain main auditorium and Sunday school rooms. Plans complete and work to be done by Day Labor.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO.—Factory, 4 story and base. Class C construction, \$40,000. Architect, Edward G. Garden, Phelan Bldg., S. F. Owner's name withheld. Location, First and Folsom streets. Will cover a considerable ground area. Plans include automatic conveyors and sprinkler system. Plans complete and figures being taken.

OAKLAND, CAL.—Laundry, 1 story brick and frame. Cost not stated. Architect, Sidney B. Newsom, Nevada Bank Bldg., S. F. Owners, Oakland Laundry Co. Location, 29th street between Grove and San Pablo. Will cover an area of 26 by 150 feet. Two brick walls. Plans complete and figures being taken.

LOS ANGELES, CAL.—Auto manufacturing plant, J. W. Eisenhuth president of the Eisenhuth Motor Co. has applied to the Harbor Commission for a lease on a site of 70 acres at Los Angeles Harbor on which the company proposes to construct a manufacturing

GARAGES

plant to cost \$10,000,000. Capital \$5,000,000. Secured on adjoining property and the factory will occupy a total of 145 acres. The company will manufacture automobiles, auto trucks, and gas engines. Mr. Eisenhuth lives at the Angelus Hotel and states that the project has been financed by eastern capital.

HUNTINGTON PARK, LOS ANGELES
 CO., CAL.—Factory group, 1 and 2
 story, frame and corrugated iron, \$100,-
 000. Architects, Peoples & Chem-
 taas Bldg., L. A. Owners, Warner
 Steel Casting Co. The new plant will
 consist of a main foundry building, 112
 by 210 feet in size, 10 feet high,
 equipped with a trolley traveling crane,
 with a 50-foot span; a pattern shop, 40
 by 60 feet; storage room, 10 by 10 feet,
 and an office building, 24 by 30 feet in
 size. All the buildings will be of frame
 and corrugated iron covered with steel
 plates. Foundations of galvanized and
 corrugated iron sides, composition roof-
 ing, ventilators, steel and wood frame
 work. Three electric furnaces
 and a special oxy-acetylene welding
 plant will be installed. Plans are com-
 plete and figures being taken.

Contract Awarded.

LOS ANGELES, CAL.—Warehouse, 5 story and base, reinforced concrete, \$75,000. Architect, John Parkinson. Security Bldg., L. A. Owners, Joannes Bros., Contractors, Leonard & Peck, H. W. Hellman Bldg., L. A. Contract price, \$75,000.

SAN FRANCISCO—Factory, 1 story and base, mill construction. Cost not stated. Architects, Ward & Blohme, Alaska-Commercial Bldg., S. F. Owners, H. N. Cook Belting Co. Location, Fremont and Howard streets, covering an area of 50 by 120 feet. Preliminary plans only prepared.

FIRE HOUSES AND JAILS.

SAN RAFAEL, MARIN CO., CAL.—Fire house, 2 story and base, reinforced concrete, \$12,000. Architect, Masten & Loubet, First National Bank Bldg., S. F. Owners, City of San Rafael. Will contain apparatus room and living quarters. Plans complete and figures being taken. Bids open on December 22nd. Plans from either the architects or City Clerk.

VISALIA, TULARE CO., CAL. Jail alterations and additions, 2 story and base, reinforced concrete, \$45,000. Architect, Ernest Kump, Rowell Bldg., Fresno. Owners, Visalia County. Work will consist of concrete, masonry, carpentry work, electric work, plumbing and heating and structural steel work. New cell blocks will also be installed. Plans are complete and figures being taken. Bids open on January 5th. Plans can be secured from the County Clerk or the office of the architect.

FLATS.

SAN FRANCISCO—Flats, 3 story and base, frame, \$6,600. Architect, none. Owner, F. C. Amoroso, 1216 Kearny street, S. F. Location, east Kearny south Union, covering an area of 25 by 69 feet. Will contain three flats of five rooms each. Plans complete and work to be done by Day Labor.

BAKERSFIELD, KERN CO., CAL.
Garage, 1 story and base, brick. Cost not stated. Architect, J. M. Saffell, No. 1 Fish Bldg., Bakersfield. Owner, George Haberfelde (Ford Agent). Will cover an area of 115 by 261 feet. Plans are being prepared.

Contract Awarded:

TAFT, KERN CO., C/M George, story and base, hollow tile, \$14,100. Architect, J. M. Saffell, New Fish Bldg. Bakersfield. Owner, George Haberkold. Contractors, Parlier & Green, Tulare. Contract price, \$14,100.

SAN FRANCISCO Auto sales room and garage, 3 story and base, brick and concrete, \$15,000. Architect, none. Owner, Leo Gillig. Contractors, Barrett & Hip, Sharon Bldg., S. F. Contract price, \$15,000.

GOVERNMENT WORK & SUPPLIES.

Vancouver, Wash., Post Office.

As previously reported, the contract for the construction complete of the U. S. post office at Vancouver, Wash., has been awarded to the Campbell Building Co., Salt Lake City, Utah, \$2,187, in the construction of the building. Fixtures and material manufactured by the following firms will be used: Plumbing fixtures, Crane Co.; column radiators, American Radiator Co.; wall radiators, do; non-conducting coverings, Johns-Manville Co.; radiator valves Crane Co.; damper regulator, American Radiator Co.; air valves and radiators for hot water tank, Hoffman Specialty Co.; air valves for end of steam mains, do; cabinet and tablet, No-Name-McKenny Co.; conduit, National Metal Molding Co.; rubber covered wire, Simplex Wire & Cable Co.; flush switches, Hart & Hegmann Mfg. Co.

Pearl Harbor, Jib Crane.

The following bids were received at the bureau of yards and docks, Navy Department, Washington, D. C., for furnishing 1 locomotive jib crane of 50 gross tons capacity, at the Naval Station, Pearl Harbor, Hawaii:

Item 1, electric crane as specified; 2, do, bidder's specifications; 3, steam crane as specified; 4, bidder's specification.

McMyler Interstate Co., New Bedford, Ohio, item 2, \$159,385; 4, \$153,542.

 COST, \$400

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not FOUR WHEEL DRIVE.

On the F-W-D Truck every wheel is a **Driving Wheel**. The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. So the **F-W-D lasts years longer**. The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps **ON** the road and **OUT** of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA.

STREET IMPROVEMENTS—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. Contracts for street improvements have been awarded under the following resolutions: That the alley first north of California Boulevard in Elmhurst, in the city of Sacramento, be improved, from Helvetia avenue to Elmhurst avenue, by excavating a trench and constructing therein 8, 10, and 12-inch, vitrified, ironstone pipe sewers.

That Marshall avenue, near California Boulevard, in Elmhurst in the city of Sacramento, be improved by excavating a trench and constructing therein an 8-inch, vitrified pipe sewer.

That Monterey avenue, near California Boulevard in Elmhurst, be improved by excavating a trench and constructing therein an 8-inch, vitrified ironstone pipe sewer.

That San Diego avenue, in Elmhurst, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer, backfilling the trenches, constructing eight concrete manholes complete; one 6-inch, vitrified, ironstone flusher branch complete; placing 14 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer; placing 14 6-inch, vitrified, ironstone Y branches on 10-inch pipe sewer. Awarded to Joe Lawrence, Frederick, Cal.

That the three alleys between 2nd avenue and 3rd avenue, in West Curtis Oaks, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer from the north line of 3rd avenue to a point 7 feet north from the south line of 2nd avenue in each of the following named alleys: The alley first west of 22nd avenue, the alley between 22nd avenue and 23rd avenue, and the alley between 23rd avenue and 24th avenue, etc. Constructing 66 concrete manholes complete, placing 66 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer; placing 2 6-inch, vitrified ironstone flusher branches complete, replacing 150 square feet of oil macadam pavement, doing all necessary excavation and backfilling of trenches and leaving streets and alleys in their original condition. Awarded to Joe Lawrence.

That the alley first south of 4th avenue in West Curtis Oaks Addition, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer, constructing 5 concrete manholes, complete; placing 33 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and backfilling the trench. Awarded to Joe Lawrence.

That Center avenue, in Oak Grove Addition, be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer, constructing one concrete manhole complete, and backfilling the trench. Awarded to Joe Lawrence.

That the alley between Stanley avenue and Chinese avenue, and that the alley between Chinese avenue and Bird-sall avenue, and that the alley between Hartley avenue and McFarlan avenue, in Wright & Kimbrough Tract No. 21, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer, five concrete manholes, complete; placing 36 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and doing all necessary excavating and backfilling of trenches. Awarded to Joe Lawrence.

That portions of 15th street be improved by grading the space between the property line and curb, and constructing concrete sidewalks. Awarded to A. Olson, 2721 First avenue, Sacramento, Cal.

That the alley between Carmelo avenue and Manzilla avenue be improved by excavating a trench and constructing therein an 8-inch, vitrified, ironstone pipe sewer, two concrete manholes, complete; placing 21 6-inch, vitrified, ironstone Y branches on 8-inch pipe sewer and backfilling the trench. Awarded to W. J. Tobin, 755 Filbert street, Oakland.

That the easement granted to the city of Sacramento for the purpose of constructing therein a sewer on the southerly three feet of lots 145 to 173 inclusive, between 3rd avenue and 4th avenue, in West Curtis Oaks Addition, be improved by constructing therein an 8-inch, vitrified, ironstone pipe sewer; four concrete manholes, complete, placing one flusher branch, complete; placing 50 6-inch, vitrified, ironstone Y branches on 8-inch, vitrified, ironstone pipe sewer and backfilling the trench. Awarded to J. W. Torrell, 1311 29th street, Sacramento.

THEATRE ALTERATIONS—Brick and concrete. Cost not stated. Chien, Butte Co, Cal. Architect, Chester Cole, Waterland Bldg., Chico. Owner, John Konning. Location, Broadway near Second. Work will consist of new interior trim, installation of a ventilating system and electric wiring. Plans are being prepared.

ROAD CONSTRUCTION—\$12,000. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Bids have been invited by the Board of Supervisors for the improvement of the Durham Ferry road. The road, which is 6.8 miles long, is to be covered with six inches of crushed rock bound with oil. Plans for the work may be had from the County Clerk at Stockton.

SEWER CONSTRUCTION—Cost not stated. Eureka, Humboldt Co., Cal. Engineer, City Engineer, Eureka. Owners, City of Eureka. Bids will be opened on December 19th at 5 p. m. for sewer construction authorized under the following resolutions: That a 6-inch, vitrified, salt-glazed pipe sewer be laid in C street, from the present manhole situate at C and Hendon streets, thence south in C street a distance of 280 feet, and having one manhole therein. Also separate bids for a 6-inch vitrified, salt-glazed pipe sewer

to be laid from C street south and west to Block A, at Foster Addition, to be laid and set as a Y connection between the present sewer laid in C street, thence south in said block a distance of 100 feet, and having one manhole therein.

Contract Awarded.

W. Wood, 2 and 2 story, frame, \$20.- Shaysville, Yuba Co., Cal. Architect, Julia Morgan, Merchants Exchange Bldg., S. F. Owners, City of Shaysville. Contractor, J. C. Evans, Shaysville. Contract price, \$20,698.

plant to cost \$10,000,000. Options have
been secured on adjoining property and
the factory will occupy a total of 105
acres. The company will manufacture
automobiles, auto trucks, and gas en-
gines. Mr. Eisenhuth lives at the An-
gelus Hotel and states that the project
has been financed by eastern capital.

FACTORY GROUP—1 and 2 story,
frame and corrugated iron, \$100,000.
Huntington Park, Los Angeles Co., Cal.
Architects, Peoples & Cheney, Haas
Bldg., L. A. Owners, Warman Steel
Casting Co. The new plant will con-
sist of a main foundry building, 113 by
240 feet in size, 40 feet high, equipped
with a tention traveling crane with a
50-foot span; a pattern shop, 40 by 60
feet; storage room, 40 by 40 feet, and
an office building, 24 by 50 feet in size.
All the buildings will be of frame and
corrugated iron construction with con-
crete foundations, galvanized and cor-
rugated iron sides, composition roofing,
ventilators, steel and wood frame work.
Three electric furnaces and a special
oxy-acetylene welding plant will be in-
stalled. Plans are complete and figures
being taken.

HOSPITAL WARD, ETC.—5 1, story
and 1 2 story, brick and concrete. Cost
not stated. Los Angeles, Cal. Engi-
neer, John Schulz, L. A. Owners, Los
Angeles County. Location, County Hospi-
tal site. Each of the one-story build-
ings will contain accommodations for
16 patients. The two-story building
will be used for a dining hall and ma-
ternity ward. Plans complete and fig-
ures being taken. Bids opened on Jan-
uary 8th.

HOSPITAL—1 story and base, frame
and plaster. Cost not stated. Los An-
geles, Cal. Architect, F. M. Drake, L. A.
Owners, Seventh Day Adventists.
Location, block bounded by Boyle ave-
nue, Daily street, New Jersey and Michi-
gan. Main portion will cover an area
of 110 by 34 feet with two wings each
33 by 26 feet. Plans complete and
work under way under the direction of
Superintendent J. W. Cartwright, Car-
ter Apartments, L. A.

J. E. O'Mara.....	892	1,370
Robert Dalziel Jr....	715	1,397
J. C. Hurley Co.....	814	1,425

RESEARCH WORK ON INDUSTRIAL PROBLEMS.

Several important problems have received attention recently at the United States Bureau of Standards in research work conducted in aid of American industrial progress. Among the subjects were electrotyping, stuccos, and plasters, and textile materials.

In the electrolytizing work, several tests of importance to the industry have been made. The cause of defective service of certain plates, the nature and cause of an unusual precipitate in copper solutions, and the cause of "soft rules" in copper electrolytes were subjects of inquiry. At a meeting of the International Electrotypers' Association, held in Cleveland, a report of the work of the bureau on several problems was presented. Great interest was manifested, especially in the efforts to replace Austrian ozokerite by the American (Utah) product.

In the investigation of stuccos and plasters, the new test panels, 22 in number, have been completed under most favorable conditions. These new panels, which represent a variety of stucco mixtures and backings and in-

clude several different types of construction, already have attracted considerable attention. The report on the investigation of stucco panels has been prepared for distribution. The investigation is of interest and importance in connection with all construction work involving the use of plaster or stucco, as it is a service test conducted with the fullest cooperation between the manufacturers and the Bureau.

Research by the textile laboratory has included the design of a pressure testing machine for textile. An investigation also has been started for the determination of fabrics most desirable for use in the construction of aeroplane wings. Exposure tests of bending have been continued.

PAINT FACTORY FOR SEATTLE;
COST, \$250,000

SEATTLE, Wash. At a cost of \$250,000, A. J. Capron, Air South Bldg., Portland, representative of the Goben Manufacturing Co. of Canton, Ohio, reports that his principals have practically closed a deal for a 4-acre site on the South Waterway, Seattle, on which they will erect a \$250,000 paint factory plant to include four main plant buildings of concrete and a separate office structure, work to start about January 1; tentative plans ready, but final architect not selected.

QUALITY WINS FOR AMERICAN HARDWARE.

Quality is emphasized as the distinguishing characteristic of American hardware in a report by Commercial Attache Albert Hale on hardware markets in Argentina, Uruguay and Paraguay. "Upon this sales factor," he says, "the American manufacturer can most surely depend for success."

Mr. Hitt states that during the past year the sales of this class of goods from the United States have increased rapidly in Argentina, and that it is thought that much of the increased trade will be retained after the war. He adds that American hardware manufacturers are now reaping their reward for having built up in Argentina an unsurpassed reputation for their products. Germany and England have outsold Americans to some extent in this market in the past, but almost always by introducing cheaper articles. The normal imports of hardware into Argentina are between five and six million dollars, the total for 1912 being \$1,475,000, of this total Germany supplied \$1,187,000, England, \$1,265,769 worth, and the United States \$1,211,097 worth.

Expects European Attempt to Recover Lost Ground.

The opinion is expressed that when the war is over there will be a serious effort on the part of European manufacturers to get back the trade they have lost and that one of their first steps will be to establish at Buenos Aires local and permanent representatives or to make intimate connections with houses already there.

"To me on the spot," says Mr. Hale, "is the only way to understand this market. The demand is constantly changing, and the tendency is to purchase better tools and hardware. This tendency has been especially notice-

1. The first two groups are the "old" immigrants, who came to the United States before 1900. They are the descendants of the immigrants who came to the United States before 1900. They are the descendants of the immigrants who came to the United States before 1900.

The author of this document, now gone at Buenos Aires, is mentioned in examining the import trade of Argentina, Uruguay, and Paraguay and has discussed several of the trade in such particular fields as hardware, such as the fourth part of the series on the world's conflicts on hardware, the exact title being "Markets for American Hardware in Argentina, Uruguay, and Paraguay," Miscellaneous Series, No. 43. There are 66 pages in all. Copies may be purchased for 10 cents, each from the Superintendent of Documents, Washington, D. C., or from the district offices of the Bureau of Foreign and Domestic Commerce.

STANDARD OIL COMPANY BUILDING
GAS COMPRESSOR.

TAFIT, Cal. With the first four units of its mammoth compression plant now completed, a fifth under construction and three additional units to be constructed as rapidly as possible, representing an investment of \$750,000, the Midway district is coming into its own, and the Standard Oil Company is a contributing factor.

The Standard's compressor plant now under construction is located on Section 36, 31-23, on the famous Mc-Nee lease, and was given its initial test or tryout last week. The testing of the completed four-unit plant was entirely satisfactory in every way, and proved itself capable of compressing gas of both high and low pressure.

The present four-unit compressor plant has a capacity of 900 horse power, or 11,000,000 cubic feet of gas daily, and when the additional four units are added the completed plant will have double its present capacity, or 800 horse power for 22,000,000 cubic feet of gas daily. It will practically equal the Southern California Gas Company's compressor plant, the largest in Kern county, if not in the entire state.

DEATH NEWS.

Dog fanciers have long noted that when a house-dog begins to get fat and wheezy it is pretty apt to be attacked by a stubborn skin disease. In such a case they cut down the diet and increase the open air exercise, thus reviving the over-burdened body of our roving substance.

The use of glutinous is common and heretofore much condoned, but like every other violation of Nature's laws incurs a penalty. It is efficient, suggests spontaneity, the reddened nose, the torped face, a trace of the chronic kin eruptions, and much fatigue and discomforts are due to the abuse of

the digestive apparatus. Rich, indigestible foods in large quantities, highly seasoned to stimulate the jaded palate, are forced into a body already rebellious from repletion. Exercise is largely limited to walking to and from the table and bodily deterioration proceeds rapidly. Many an overfed dyspeptic, suddenly dragged by the stern hand of circumstances from a life of physical ease and plenty and forced to work out of doors suddenly discovers that his semi-invalidism has gone, that a chronic skin derangement of many years standing has disappeared and that a new vigor and zest of life has been given him.

Not everyone can spend his whole time in the open air but a certain amount of exercise and plain wholesome food in an amount not exceeding the body's needs can be had by almost everyone. Simple moderate diet and exercise make for health. These are not faddish food theories; they are just plain common sense.

TO SELECT MEN FOR STUDY OF FOREIGN MARKETS.

Markets for American goods in many countries are to be studied by men to be selected as a result of an examination which is to be given in the principal cities of the country by the United States Civil Service Commission on December 6. The persons chosen are to act as trade commissioners and special agents for the Bureau of Foreign and Domestic Commerce. Their work is considered an important step in preparing the country to retain and expand in newly won foreign markets.

Ten appointments are to be made for the following investigations: Motor vehicles in Russia and the Far East; investment opportunities in Russia; fancy groceries in South America, furniture in South America; metal-working machinery and prime movers in Russia; metal-working machinery and prime movers in Brazil; jewelry and silverware in South America; hardware in Africa, the Near East, and India; ports and transportation facilities in Russia and the Far East; and mineral resources in the Far East.

To Prepare Reports for American Exporters.

The duties of appointees to these positions will be to obtain information concerning the demand in foreign markets for the particular commercial lines they are to study, and to present the data obtained in straightforward, readable reports, which will enable American manufacturers and exporters to plan campaigns for the sale of goods in the markets investigated. Applicants for the South American investigations will be expected to know Spanish, and extra credit will be given for Portuguese. For work in Brazil Portuguese is considered especially desirable. In the investigations including Russia, French is required, and an extra credit is given for Russian. No foreign language is required for the hardware investigation in Africa, the Near East, and India, or for the investigation of mineral resources in the Far East. No person will be admitted to any of these examinations who has not had previous training which would qualify him as an expert in the particular line to be investigated. This means substantial and responsible experience. An oral test will be given

Keystone Hotel

San Francisco, Cal.

Right down town. Close to the Builders Exchange and General Contractors Ass'n. Accommodations can't be equalled for double the price.

Rooms with private baths, \$1.25 per day.

at Washington or some other city before the final appointments are made, and only those who pass successfully the written examination on December 6 will be asked to present themselves.

The Bureau will pay each of these men a salary not to exceed \$10 a day, with all transportation expenses paid and \$1 a day extra for subsistence. Persons who meet the requirements and desire this examination should at once apply for Form 375, stating the title of the examination for which the form is desired, to the United States Civil Service Commission, Washington, D. C.; the secretary of the United States Civil Service Board, Post Office, Boston, Mass.; Philadelphia, Pa.; Atlanta, Ga.; Cincinnati, Ohio; Chicago, Ill.; St. Paul, Minn.; Seattle, Wash.; San Francisco, Cal.; customhouse, New York, N. Y.; New Orleans, La.; old customhouse, St. Louis, Mo. Applications should be properly executed and filed with the commission at Washington in time to arrange for the examination.

STATE HEALTH BOARD AFTER DRUG FAKERS.

Although the much bejewelled street fakir with silk hat and long coat, who sells wonderful cure-alls, is almost never heard of now, the Bureau of Foods and Drugs of the California State Board of Health recently found one of this type in Imperial county. He prefaced his smooth salesmanship with an entertainment, and strange to relate, found many customers for his "New Life Water" which he claimed would cure kidney and stomach diseases, catarrh, eye trouble and many other ills. An examination of the product by the Bureau revealed the fact that the claims made for the so-called remedy were so fantastically extravagant that the matter was referred by the Board to the District Attorney for prosecution.

In Sonoma county the Bureau found

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

White Brothers

Fifth & Brannan Sts.

San Francisco

the manufacture of California's Lakme, a so-called remedy for diphtheria, cuts, burns, tumors, skin diseases and many other ailments. The claims made for the product were preposterous, as revealed by the chemical analysis made by the Bureau, and this matter was also referred to the District Attorney for prosecution.

Many fraudulent remedies, with extravagant claims printed upon the labels, are sold without the spectacular methods of the fakir with his street entertainment. The California State Board of Health has declared war upon all such fraudulent cures, whether they are sold over the counter or upon the street.

◆ COLDS CAUGHT ONLY FROM THOSE HAVING COLDS.

You can "catch" cold only from a person who has a cold, according to the California State Board of Health. Acute colds are not caused by overeating, or lack of fresh air and sleep. These are but predisposing factors. All acute colds are due to infection received from another person who is so infected.

Dirty hands, soiled handkerchiefs, common drinking cups and eating utensils are some of the ordinary vehicles by which the infection is transferred. The promiscuous sneezer, who does not sneeze into his handkerchief, is also a big factor in the spread of acute colds. In order to keep well, one must observe the common rules of hygiene, and to avoid a cold he must keep away from a person who has a cold. This is easier said than done, for there are large numbers of people who are harboring such infections.

Much misinformation regarding the avoidance of colds is published. There is no denial of the fact that a person must do all that is possible to keep up his bodily resistance, but it is a mistake to claim that colds are caused by indiscretions in mode of living.

◆ NEW SANITARY REGULATIONS IN VENEZUELA.

The Venezuelan Government has issued new sanitary regulations for the whole Republic. The regulations, which are published in the *Gaceta Oficial*, include requirements as to cleanliness in bakeries, markets, slaughterhouses, manufacturing establishments, streets, and buildings, as well as standards of purity in liquors and food-stuffs.

◆ MILITARY TRAINING IN THE SCHOOLS RIGHT AND NEEDFUL.

From the Sacramento Bee.

A two-fisted sailor like Andrew Furuseth often can express pithily in a few words what an orator could not encompass in an hour.

The leader told the American Federation of Labor Convention in Baltimore his plain mind about pacifists who will not defend their country.

Furuseth said:

Men who will not fight and women who won't be mothers are an abomination in the world.

Which leaves little more to be said upon those two classes.

Furuseth was speaking against a resolution which condemned military training in the schools. The resolu-

tion referred to the offer of the secretary of War to provide in tractor, rifles and ammunition to school where the authorities provide courses in military training.

But notwithstanding the efforts of Furuseth and others, the convention adopted the resolution, placing the largest labor organization in America upon record as opposed to any military training in the schools.

The United States mightily can be proud of that spirit of justice and fair dealing to all Nations permanent her people which makes war of conquest improbable. No one would lessen that splendid sentiment in the slightest.

But many, lured by high-sounding phrases, carry their belief to the ridiculous extent of opposing all military training or preparedness, placing their trust upon the principle that a justly-dealing Nation never will be attacked by a foreign foe.

That belief involves enormous dangers to the United States. Cold, hard facts stare any one in the face who is willing to see them. The millennium has not yet arrived, wherein all Nations are to be governed by Christ-like motives of conduct.

The world today is still made up of countries whose ruling spirits will war or not war upon others, according as it suits their financial and national aims, and as their rivals or enemies are prepared or not prepared. The history of the last ten years should be enough to prove that.

Militarism no wise man wishes. But an adequate preparedness in arms, and in the training of citizens to insure against conquest, are not militarism. They are only a sensible precaution against disaster such as has overwhelmed many a Nation foolish enough to remain weak before the threatening strength of others.

No sensible objection exist against the military training of the youth receiving education in the schools of this country. Besides being a duty owed to the Nation to train themselves to defend their mother country, such training is of great benefit physically and morally.

The American Federation of Labor should reverse its stand.

It indicates grave danger if a great mass of the workmen of this country are set firmly against that military training of the youth of the Nation which some day may be so needful for her defense.

◆ MODEL TENEMENTS PAID.

NEW YORK—The City and Suburban Homes Company, builders and operators of several large model tenements, have paid a semi-annual dividend of two per cent. During the last six months, under the management of President Allan Robinson the revenues have exceeded any twelve-month period in the history of the company, and out of three thousand apartments there is not one vacant. This record, it is said, has never been equalled.

◆ FOREST NOTES.

The United States National Government has taken the National Forests of Arizona upon a new basis. Arizona was divided into 100 tracts to be sold at a thousand dollars each. This case is due to the fact that the results of the more efficient method of handling and will mean a saving of thousands of dollars annually to the national treasury.

An effort is being made by the Forest Service to clear the timber on the small area that might be used for agricultural purposes in the National Forests of California. After the timber is sold and cut this land will be tilled and thrown open to settlement under the Forest Home-stead law.

Experiments made recently by the Forest Service in California demonstrated that the black sulphur match, often called the "rhiny match" is safer to use in the forest than the common parlor match. It was discovered that the burning sulphur match when thrown away almost invariably goes out before touching the ground, while the parlor match, even of the kind chemically treated, often holds its flame for a few moments. This advantage of the sulphur match over the parlor match is said to be due to the comparative smallness of the former's stick.

What is said to be the first wireless telegraph message sent from any Forest Service Station in the United States was recently transmitted by a Forest Ranger on the Apache National Forest, Arizona from the Base Line Ranger Station to Clifton, Arizona, a distance of 40 miles.

◆ DRY DOCK ON SOUND.

WASHINGTON—An appropriation of \$7,500,000 for the construction of a dry dock at the Puget Sound Navy Yard has been asked by Representative Humphrey of Washington. The bill calls for a dry dock at least 1600 feet long, to accommodate the largest battleships. Congressman John E. Baker introduced public building bills to appropriate \$200,000 for a Federal building at Auburn and \$250,000 for a similar structure at Redding, Cal.

◆ FLOATING DRY DOCK FOR VALPARAISO HARBOR.

[Consul General L. J. Keena, Valparaiso, Chile, Oct. 25.]

The afternoon edition of *El Mercurio* for October 21 reports that a 30-year concession has been granted to Sr. Alfredo Ballivian O'Higgins, Independencia 271, Valparaiso, for the operation of two floating dry docks in the harbor of Valparaiso. It is stated that the dry docks must be capable of handling ships up to 12,000 tons.

No further information on the subject is available at the present writing.

◆ DELIVERY OF STEEL BRIDGES FOR CANTON-HANKOW RAILWAY.

Consul General Edwin S. Cunningham writes from Hankow, China, under date of October 2, that the shipment of bridges for the Canton-Hankow

Railway, Impey-Human section, the contract for which was awarded to the United States Steel Products Co., has arrived at Wuchang for delivery. The contract price was \$475,501.

CONCESSIONS FOR OIL DOCKS AT PERUVIAN PORTS.

The Government of Peru has granted concessions to the West Coast Oil Fuel Co. for the construction of iron docks at Callao and Paita. These docks will be used exclusively for the loading and unloading of oil consumed by incoming and outgoing steamers. Pipe lines will carry the oil from the tanks of the company to the docks. The traffic of the oil docks will be subject to the usual port and customs regulations. The concessions as published in *La Revista Comercial*, are for a period of 25 years from the date of the opening of the docks to service.

CITY PAY ENVELOPES BEFORE CHRISTMAS.

Treasurer McDougald Sends Out Welcome Christmas Greeting to Heads of all Departments.

The following notice has been sent out by City Treasurer John E. McDougald to the heads of all departments and brings the good news that all city and county employees will be paid before Christmas.

CHRISTMAS GREETINGS.

As the Christmas Season approaches, I find my heart full of good will towards all the employees of our City, who will need their salaries to make their families and friends happy at this joyous season.

Christmas is the greatest Day of the year; it ought to be, because it symbolizes the birth of all that is good, therefore, let us rejoice. Santa is going to assume a selfish guise this year in our land at least, but it will be in name only for his annual cheer will be bestowed as freely as ever, for we all know it isn't Santa's fault that he is now an ALL AMERICAN PATRON OF ALL AMERICAN GOODS.

He, good soul, would much prefer to get some of his things from the shops across the sea, but when those unfortunate Shopkeepers tell him sadly that they cannot supply his wants, he has done what should please all Americans, big and little alike—established a true ALL AMERICAN SANTA CLAUS.

In the name of Santa Claus, I ask all the employees to hang up their stockings, and from the Millions of Dollars I find in my vaults at this time, I am ready to do my part in distributing some of this money in the many homes of our people where it will do the most good, to provide for things that make life happy by presenting some token of love to the wife or the sweetheart, filling the baby's stocking with some of the same articles that were sent to the children of Europe. It will help our home Merchants who will secure more customers for their well-filled shelves of Christmas joys.

To this end I ask the heads of all Departments to so arrange the business

with their duplies and clerks and all others in any way connected with our City Government, that the demands may be ready for delivery to my office before Christmas Day.

I hope that you will cheerfully co-operate with my request.

I beg to remain with best wishes,

Yours respectfully,

JOHN E. McDOUGALD,

Treasurer of the City and County of San Francisco.

The final corrections of the National Electrical Safety Code have been made by the United States Bureau of Standards. The code will be issued for use by those who may be interested, it is announced by the bureau.

CONSTRUCTION WORK ABROAD

COSTA RICA.

Floods of the past 10 days have destroyed a railroad bridge of the Pacific Railroad of Costa Rica. A new bridge is reported necessary. Particulars as given by the Secretary of the Administration of the railroad are:

The bridge that was destroyed is the Puente de la Boca de Barranca at 12 kilometers (about $7\frac{1}{2}$ miles) from Puntarenas, constructed by an American engineer. The bridge had 3 spans of 150 feet each and each span weighed 50 tons. The whole construction rested on 5 cylinders of 6½ feet diameter each. The cost of this bridge was 96,311 colones (\$45,004) and the approaches were estimated at 9,169 colones (\$4,264).

The railroad is owned by the Government of Costa Rica. A special appropriation of the Congress now in session seems necessary before the bridge can be replaced. Particulars as to tenders have not yet been published. Firms desiring to bid should address the General Manager of the Ferrocarril al Pacifico (Pacific Railroad), Mr. Isaac Zuniga M. Oficina del Administrador, San Jose, Costa Rica.

Correspondence should be in Spanish, although English is understood. Local representation will not likely be necessary.

In addition to the above bridge entirely destroyed, much damage was done to other bridges along the line.

FLOATING DRY DOCKS IN VALPARAISO HARBOR.

VALPARAISO, Chile, Nov. 7.—The concession granted Sr. Alfredo Ballivian (Grimwood) for the operations of two floating dry docks in the harbor of Valparaiso has been revoked by a decree dated November 6, 1916. The second decree states that no permission or concession of this nature will be granted by the Chilean Government except as an award after the receipt and examination of public bids.

ORGANIZE HUGE MAGNESITE COMPANY.

PORTERVILLE, Cal.—Formal permission for the organization of the Magnesite Refractories Company has been given by the state commissioner of corporations, according to word sent to F. J. Schuhl of this city, attorney for the new corporation and one of the organizing directors.

According to the details of the organization, as filed with the state officials, the company will start with a capital of \$200,000, all paid in; and work

is to be started at once on the largest magnesite plant in the United States to be built at a cost of \$150,000.

The plant is to be located on the George W. Stewart magnesite lands, just north of this city, the company having secured an option for the purchase of the seventy-two acres of land in the tract. It is stated this option will be exercised this week.

LUMBER CENSUS TO INCLUDE PULPWOOD STATISTICS.

WASHINGTON, December 11, 1916.—Figures showing the amount of wood used in the United States for making pulp will, it is announced, be obtained by the Forest Service in connection with its 1916 census of the lumber industry. Because of the increasing scarcity of pulpwood in some parts of the country, the need for accurate figures showing the consumption of this class of material is realized by manufacturers and foresters alike and it is expected that such figures will be made a part of the yearly statistical work of the Forest Service. The pulp manufacturers will co-operate in the work, through their trade organization, the Newsprint Manufacturers Association.

The data collected will comprise detailed information on the following:

Pulpwood consumption in cords by species, subdivided to show quantities of imported and domestic wood used. Comparative figures will be given for 1899, 1909, and 1914.

Number of mills by States; quantity of wood consumed; total cost; average cost per cord; amount of pulp produced.

Consumption of different kinds of pulpwood by States, subdivided to show amounts of domestic and imported spruce and poplar pulpwood.

Consumption of different species and different processes of manufacture.

Consumption by States, showing total amounts used, total cost and average cost per cord, according to condition of wood—rough, peeled, and roased.

The data to be obtained will, it is stated, be of considerable value to pulp manufacturers as well as to the Forest Service. Owing to the comparatively small number of pulp mills in the United States, it is thought it will be possible to issue a report on the work at an early date.

PORTLAND GETS ORDERS FOR SHIPS.

PORTLAND, Ore.—The Albina Engine and Machine Works of this city has a new contract for the building of a fleet of four vessels of 3,500 tons deadweight each and to cost a total of \$2,500,000.

William Confort, head of the concern, said instead of the company having two ways it will have five immediately and possibly six to take care of the new business. With the contract just closed the company will have six steel ships to build. The contracts were negotiated through A. O. Anderson & Co., limited, which recently opened an office in Portland as its headquarters on the Pacific coast.

Washington, D. C., Nov. 21, 1916.
To the Editor:—

In your issue of September 1, 1916, under the caption "Editorial Comment," the following statement is credited to the National Security League:

"A year and a half ago there was practically no expression of public sentiment on the subject of universal service. The first discussion of the subject by a body of assembled delegates occurred at the National Defense Congress of the National Security League held in Chicago, November 27, 1915."

I do not believe there is any sentiment for "Universal Service" in time of peace in this country at this time. I shall treat this point more fully later on.

As to "the first discussion of the subject by a body of assembled delegates" occurring under the auspices of the National Security League, I must say that this is surprising, inasmuch as I was a delegate in October of 1915 to a congress held in this city, which congress discussed the subject rather freely.

If there is any sentiment for "Compulsory Service"—as is stated by the Security League, in the article above noted—we have not heard of it in this part of the country, and the further statement "The introduction of a universal service bill in Congress by Senator Chamberlain" is absolutely and unqualifiedly a misrepresentation, and there is no truth in it. Whether the statement was willfully made or not, is beside the point—the point is that such a statement should be given publicity and the danger is that this may be believed by a great many people, and thus create opposition and antagonism to Senator Chamberlain's bill for Military Training.

I have discussed this point with Senator Chamberlain in person, and he has expressed himself as unalterably opposed to any agitation for compulsory service at this time.

Allow me to quote from a recent letter on this point, which exactly defines the position of the Association for National Service, and which, together with the foregoing, I trust you will be able to publish, as a denial should be made, emphatically, so as to correct the impression in the public mind.

Following is the quotation from the letter above mentioned:

"Now as to the Swiss system—I do not agree with you nor do the men of the Army that we can adopt that system in its entirety in America. What we most need is a combination of the Swiss and Australian systems, so arranged as to be adaptable in this country."

"We do not need any legislation to make the citizen—able bodied or not—liable for service. The constitution has taken care of that. Conscription has been resorted to in every war we have had, in order to produce the necessary number of men for service. The constitutionality of the Draft Law during the Civil War was decided in two cases before the Supreme Court of the United States, and three cases in the Supreme Court of the Confederate States. So you see that in no case does training, or the lack of it, affect the liability of the citizen to serve. The constitution covered the whole field—it does not exempt any citizen between the ages of eighteen and forty-five but includes, in this provision for enforced service to the State, all citizens without regard to mental, moral, or physical condition, and which may surprise you further, without regard to sex."

"The above is good and sufficient reason why we deem it unnecessary to

make any agitation whatever for "Service," but we do feel that since the constitutional provisions are what I have explained them to be, it is the solemn duty of the Administrative Trustees of the Nation to see that those liable for service are trained, so as to render efficient service in time of need, and through informed ability produce the organized force necessary to the protection of the United States as a Nation."

"We have declined to become involved in a discussion of details, confining ourselves to the principle of National Military Training and Equal Service from a purely National standpoint. The details can be most safely and properly left to the experts of the General Staff and Congress. There are a few men in Congress qualified for, and earnestly devoted to, the working out of the necessary details with the advice of the General Staff of the Army."

"Of course a system of compulsory military training in time of peace for military service, National Service, is contrary to the State in any capacity, in time of War is what we are working for so earnestly."

In other words, compulsory service is guaranteed by the Constitution, but no system has been adopted by this Nation for training the citizen to efficiently render the service this imposes."

"Read, ponder, and inwardly digest" all of this, and then go forth and preach the doctrine of National Military Training and Equal Service for "compulsory service" in time of peace."

This Association has been conducting a nation-wide campaign—which your paper has assisted most effectively—on the question of the adoption of a system of National Military Training along the lines of the "Chamberlain-Swiss System Bill" (S. 16951).

We wish to thank the National Security League through your columns, for mentioning, so kindly, the vote taken at the request of this Association, through the courtesy of the Chicago Tribune and The Baltimore Sun.

Again an erroneous impression is created, in that it would seem that this vote had been taken as a result of the activities of the National Security League, and that the vote was on "Universal Service," whereas, the vote was taken at the instance of this Association, and was devoted solely and exclusively, to the question of National Military Training. The Baltimore Sun's poll, excepted.

Of course the National Security League did not intend to convey this impression, I am sure, but for fear they might create some misunderstanding in the public mind, I am asking that you publish this correction.

Allow me to take this occasion to thank you for the splendid support you have given the cause of Military Training through the columns of your paper.

Respectfully submitted,

ASSOCIATION FOR NATIONAL SERVICE,

VICE,

By: S. B. M. YOUNG, President
REHILLO SAN BERNARDINO SHOP,
SAN BERNARDINO—Improvements to cost three-quarters of a million dollars will be installed at the Santa Fe terminal here to replace the buildings burned in the fire of November 16 and to establish a new refrigerator car repair plant to serve all the Western lines of the road.

S. F. FIRM AWARDED IRRIGATION CONTRACT.

WATERFORD, Cal. The first contract for work on the Waterford Irrigation District equals has been let to G. W. Price & Company of San Francisco, who will build part of the main

canal for \$1,000,000. The district has now disposed of all its bonds. The Union Savings Bank of Modesto taking \$100,000 worth at 5% and H. M. McDonald of San Francisco buying the remaining \$350,000 at 5 1/2%. The district received one bid of part from the Lumberman's Trust Company, but this bid was rejected, as it carried with it the right of the bidder to dictate to whom the contract for work should be given.

ZINC PLANT NEARS COMPLETION.

KENNETT, Cal. The new zinc plant of the Mammoth Copper Company is rapidly nearing completion. It is a mile and a half west of the smelter, on Backbone Creek. It is expected that the plant will be ready for operation about February 1st. Some delay is occasioned by the failure to receive the electrical appliances from the Eastern manufacturer on time.

The plant, by the time it is set in operation, will cost \$100,000, if not more. It is designed to treat for zinc by the electrical process developed at Winthrop by the Bully Hill Copper Company. This process has been adopted by the Broken Hill Mining Company in Australia and is in use at Park City, Utah.

The Mammoth Copper Company has thousands and thousands of tons of the dust caught in the bag house at the smelter. This contains large values in zinc. The company's little mountain of flue dust has been as so many ashes until this zinc plant was built. All the zinc values will be recovered from the flue dust as well as from zinc ore saved at the sorting tables in the smelter.

CALIFORNIA'S ELECTRICAL FUTURE GREAT.

How the industries of California are being revolutionized by electricity so that they stand up in face of the competition of the whole world in many respects will be told by Engineer Albert H. Elliot, at the weekly luncheon-meeting of the Home Industry League of California, to be held at the Palace Hotel on Thursday, December 7th. The general public is cordially invited.

"The time is rapidly approaching," says Engineer Elliot, "when every commercial wheel in California will be turned exclusively by electricity drawn from the rushing waters of California's own mountains. And in many other respects the people of California are now leading the world in making Electricity the Slave of Mankind."

The ballroom of the Palace in which the luncheon will be held will be specially decorated with electrical effects appropriate for Christmas, which will include a special electrical Christmas tree, designed for the occasion.

HERMANN SAFE CO. TAKE ON A NEW LINE.

The Hermann Safe Co. have recently secured the agency of the York Safe & Lock Co. This line in connection with their own product, makes the Hermann Safe Co. the largest and best equipped concern in the safe and vault line west of Chicago.

MINERAL PRODUCTION OF CALIFORNIA.

Bulletin No. 71 issued by the State Mining Bureau, under direction of Fletcher Hamilton, is now ready for distribution. This bulletin is a detailed report of the Mineral Production of California for the calendar year 1915, and reveals many interesting facts regarding our mineral wealth. The total production for the year amounted to a value of \$96,663,369, made up of forty-nine different substances, and contributed to by fifty-six of the fifty-eight counties in the State.

In addition to the statistical data, the fundamental Federal and California statutes relating to mining are in an appendix, also a set of county maps covering the entire State. These maps have been especially drawn for this bulletin, and are strictly up-to-date as regards post offices, highways, roads and railroads.

Copies of Bulletin No. 71 may be obtained, gratis, by applying to the State Mining Bureau, Ferry Building, San Francisco; or to the Branch Office of the Bureau, No. 520 Union League Building, Los Angeles, for those in the latter locality.

SENTENCED TO STUDY FOREST FIRES.

Two boys recently convicted in a Los Angeles court of leaving a campfire burning in the Angeles National Forest were sentenced to visit the scene of a forest fire near Newhall, California, where 400 acres were burned over and property to the value of \$100,000 was destroyed, and to make a study of the damage done. Six months later they are to report to the judge and tell him whether they have done so and what lessons they have learned.

FRESNO BUILDING REPORT.

FRESNO, Cal.—The total of all building work in Fresno last month, according to figures in the office of James Anton, city building inspector, was \$45,667. This is a decrease of the October valuation. New building amounted to \$28,018 and repairs amounted to \$17,649. The total valuation of building work for the year, to date, is \$774,382, of which \$574,254 is for new buildings and \$200,149 is for alterations and repairs.

LOCAL HOO-HOOOS TO CONVAT.

A Hoo-Hoo Dinner and Concatenation has been arranged in honor of the Great Black Cat, who will be at the Commercial Club California and Montgomery streets, San Francisco, on Saturday, December 9, 1916.

Assemble at 6:00 P. M.

Dinner at 6:30 P. M. Sharp.

Concert at 8:30 P. M. Sharp.

Cigars, music oratory, witticisms, good-fellowship and the beautiful surroundings will be contributed for the good of the order, but the dinner, which can not be excelled for tastiness or service by any club, will set you back the infinitesimal sum of two (2) dollars.

A. B. Wastell, the Sol Smith Russell of the West, will act as Junior Hoo-

Hoo and may be relied on to run true to form.
And come to the garden where levity bubbles.

By the tail of the Great Black Cat.
You must be at this Concert:
Take an evening off, forgetting your troubles.

FIRE WARDENS CONDEMN LARGE STRUCTURE.

By unanimous vote the Board of Fire Wardens condemned the two-story, basement and attic frame building located at 2476-2496 Folsom streets as being "in a very delapidated condition, a fire menace and a conflagration breeder." The Fire Board has recommended that the Board of Public Works take the necessary steps to have the building razed.

The structure, which covers a ground area of 155 by 122 feet, is owned by Mrs. Ralph Polk and Greenwich Sts., while R. A. Wilson, 217 Montgomery street, is reported as the agent.

BAKERSFIELD POST OFFICE BEING FIGURED.

BAKERSFIELD, Cal.—Bids for Bakersfield's new \$135,000 federal building will be opened at Washington at 3 P. M. on December 22. The structure will be located at Eighteenth and G streets on a site covering a quarter block, purchased from the Brundage estate in 1912 for \$17,500. The U. S. forestry building for the Sequoia national forest is to be located in the new building. There will be two main entrances, one on G and the other on Eighteenth street. Plans and specifications will be furnished on application to the Supervising Architect, Treasury Building, Washington, D. C. James A. Wetmore is the supervising architect.

Note:—An official advertisement for bids appears in our Proposal Column.

ALASKA RAILWAY CONSTRUCTION DELAY.

SEWARD, Alaska.—A two years delay in the completion of the United States government Alaska railroad is announced here by Frederick Mears, member of the Alaska railway commission.

He announces that the road between Seward and Fairbanks will not be completed before 1920 or 1921 instead of 1915 as has been previously reported.

Heavier construction work and general delays are given as the cause.

ALASKA WILL HAVE \$750,000 FOR HIGHWAYS.

Acting Secretary for War William M. Ingraham has approved the appropriation of \$750,000 for the construction of new roads and bridges in Alaska next year. The principal item is \$400,000 for the commencement of a steel bridge over the channel between Douglas Island and Juneau in 3 units. The remaining two units will be built at a cost of \$100,000 each. A trunk wagon road will connect Ruby with the Southern coast by way of Rainy Pass and the head of the Kuskokwim river. An automobile road from Lynn Canal town to the E. C. boundary is also planned.

This work will be under the direction of Col. W. P. Richardson, president of the Alaska Road Commission. Other

members of the board are Major P. W. Davison and Captain J. C. McChaffy, engineering officer. Headquarters are in Valdez.

GOVERNMENT PUBLICATIONS FOR SALE.

The following were among the publications received in stock for sale by the Superintendent of Documents at Washington during the week ended November 18, 1916:

Australian Markets for American Hardware (Foreign and Domestic Commerce Miscellaneous Series 12).—A general review of conditions, statistics of manufacture and importation, description of the hardware business as transacted, and the most desirable methods of entering the market. Price, 10 cents.

Exporting to Australia. Practices and Regulations to be Observed by American Shippers (Foreign and Domestic Commerce Bureau Miscellaneous Series 15).—Australian laws and regulations, and information on packing, documenting, and financing the shipments. Price, 5 cents.

WRAPPING TWINE FROM PAPER.

WASHINGTON, November 29.—That wrapping twine which give thorough satisfaction can be made from paper has been demonstrated by experiments made by the Forest Products Laboratory at Madison, Wisconsin. Several hundred packages, each containing a medium-sized book, were wrapped and fastened with the lightest-weight paper twine and were mailed to various points throughout the United States. Reports show that practically every package was received in good order and that in no case was there any damage which could be charged as a fault of the twine.

In making twine the paper is cut into narrow strips which are then twisted tightly to form a cord. The strength of the twine depends upon the character of the paper used and the process of treatment. It is well adapted to a number of purposes, but the foresters say that as yet no satisfactory means has been found for protecting paper twine from the action of water and it should not be used where it will be exposed to moisture.

PERMIT IS GRANTED FOR RESERVOIR SPUR.

RICHMOND, Cal.—The City Council has granted the Key System a franchise to construct a spur track from its San Pablo line in Richmond for the handling of material to be used in constructing the \$2,000,000 Richmond reservoir of the East Bay Water Company, formerly the Peoples.

HALF MILLION FOR FACTORY ADDITION.

OXNARD, Cal.—A half a million dollars worth of improvements have been started on the sugar factory here. The gang which has just concluded a 128-day run at the factory has in a large part, been hired to do the remodeling in the factory. The total tonnage capacity of the factory is to be greatly increased to meet the demands of enlarged beet fields and much modern

machinery will be installed before the next sugar season.

WATER WORKS PLANNED.

ASTORIA, Ore.—Plans are under way for the expenditure of \$200,000 in public betterments. This includes a high service reservoir in the east end of the city, a tunnel way from the head-works and rebuilding about four miles of the steel conduit service line.

The amendment to the city charter now before the people and to be voted on at the general election December 13, is to increase the limit of water bonds from \$500,000 to \$625,000, thus giving the commission \$125,000 for present needs.

IRRIGATION DISTRICT MAY PURCHASE RESERVOIR SITE.

One Hundred and Sixty-Foot Dam Will Back Water up in Stanislaus River for Ten Miles.

OAKDALE, Cal.—James H. Cameron and Domingo Roleri of Angels, associated with S. M. Levy of the Calaveras Copper Company of Copperopolis, are about to offer to the Oakdale and South San Joaquin irrigation districts a reservoir site on the Stanislaus river, the river itself to serve as the reservoir by means of a dam constructed from the river bed to any height desired.

The reservoir will retain a body of water extending down the river from the town of Melones, a distance of ten miles, to a point where the river flows through a deep narrow gorge.

A concrete wall 160 feet high would be required to store about 10,000 acre feet of water. As the walls of the canyon are almost perpendicular the dam could be made much higher.

All necessary surveys have been made rights of way have been secured and the property to be flooded in raising the water level has been looked after.

PUBLIC WORKS IN ECUADOR.

GUAYAQUIL, Ecuador.—The Government of Ecuador is making provision for public works in various parts of the country, including electric plants, waterworks, bridges, new school-houses, etc. The funds that are specified for the new works are in most cases certain revenues heretofore assigned to purposes that are considered of less immediate importance than the present plans. In case funds are not available at once the board or commission in charge of the work is authorized to contract a loan guaranteed by the revenues designated in the law providing for the new work. The following are the improvements recently authorized by the Ecuadorian Congress:

Schools and Electric Plant at Guano.

The municipality of Guano is to install an electric plant in the town of Guano, to construct a bridge and a jail at Penipe, to build a bridge at Pueta, to purchase a house for girls' school in the district of El Altar and another in the district of Elen in the town of Guano, and to construct a schoolhouse for boys in the districts of Ilopo and San Isidro. To finance this work the municipality of Guano is authorized to contract a loan of 50,000

sucres (Suez) equal 18.67 cents, which will be guaranteed by the portion of the taxes of Guano heretofore assigned to the water service of the city of Riobamba. The decree providing for these works becomes effective January 1, 1917, and continues in force until the completion of the projects.

Tuberculosis Sanitarium at Guayaquil.

The Junta de Beneficencia Municipal of Guayaquil is authorized to build a national sanitarium for tuberculosis patients. The Municipality or the Government will donate a site for the building, the site to be selected by a technical commission. The sanitarium will be of the most modern type, with all the improvements known to medical science. Part of the funds needed for this building is already available, and the remainder is to be raised by a loan for which certain local revenues are offered as security. The exact amount of the loan and the manner of collecting the revenues remain to be determined.

Railway Extension and River Embankment at Machala.

Congress has provided for a public works commission at Machala, to be composed of the Governor of the Province, two delegates from the Municipality of Machala, and two from the city council of Pasaje. This commission will have charge of the extension and repair of the El Oro railway, and also of the construction of works to prevent the overflow of the Juhones River. The work may be done by the commission directly or through contracts made with the lowest bidders. The commission has authority to contract loans for the sum needed to complete the projects, giving as security the customs revenues at Puerto Bolivar formerly collected for the irrigation works of Pasaje and Machala and for the sanitation of Puerto Bolivar, and other duties assigned to the service of El Oro. The collection, as well as the investment of the funds for the new work, is in charge of the commission.

Electric Plant at Azogues.

The Municipality of Azogues will install an electric lighting plant in that city, in accordance with a recent decree of Congress. The funds required from the installation are provided by a special tax on the rum or brandy brought into the district of Azogues, and on that now held there, in addition to a tax or rural distillation. Other revenues, including a small tax on the sale of foreign merchandise, will complete the resources. Upon the installation of the electric plant, the revenues used for this purpose shall be diverted to drainage and paving work in the city of Azogues.

IMPORTANT TESTS OF AMERICAN CLAY REFRACTORIES.

One of the most elaborate investigations dealing with tests of the finished clay refractories of this country ever undertaken has been started by the United States Bureau of Standards in co-operation with the American Refractories Manufacturers' Association and the American Gas Institute. It is proposed to make this work the basis of a system of classification and specifications governing the several classes of fire-clay refractories.

Work on another investigation, with a piece of the same material, using a dolomite in certain of the original furnace, as a refractory.

The burned dolomite is placed in position in the furnace with some other combustible material as a binder. Where the lining was of a basic nature it had to be made of brick, magnesite brick was used. The piece of magnesite brick, however, was advanced to such a degree that the use of this material has become almost prohibitive. It has been suggested at various times that dolomite might be burned in such a manner, or with the addition of such impurities that the lime present in it would not slake, except after an extended period, making it possible to produce a brick of this material which would replace the magnesite brick. The bureau by its investigation will determine the possibility of producing such a burned dolomite.

Month's Record in Clay Products and Glass.

The bureau during the month of October conducted many experiments dealing with clay products and glass. In the fire-brick investigation 21 sets of 10 specimens each were prepared, corresponding to 21 brands of fire brick, and the results obtained were plotted. For porosity and density determinations, 141 specimens of fire brick were prepared, corresponding to 24 new brands.

In the silica-brick investigation the volume of expansion of 32 specimens of silica brick was determined. In the investigation of the effect of calcine in the clay bodies 60 specimens were fired, and work previously done was recalculated and checked. In the porcelain investigation two firings, a bisuit and a glost burn were made. In the glass investigation 10 pots with and without lining were made up and a run with 3 pots and another set charged for fusing. Four sets of clay-graphite mixtures were made up for graphite crucibles for the study of the carbon retention, due to the use of different clays. In the cement investigation 198 briquets, 24 two-inch cubes, 132 two-inch cylinders, and 72 six-inch cylinders were tested. Forty specimens of terra cotta were subjected to tests.

Architect Edward E. Young, 251 Kearny street, has prepared plans for two attractive two-story and basement frame dwellings which will be erected for H. H. Helbush on his property on the west side of Jordan avenue south of California. Each house will cost in the neighborhood of \$8,000 and will contain nine rooms, two baths and hase, ment garage. Interior will be finished in pine, hardwood and white enamel with hardwood floors throughout. There will be central heating systems, hot water supply and open fire places. Bath rooms will be finished in tile. Exteriors will be covered with cement plaster. Work will be done by day labor.

Architect William Wilde, formerly located in Oakland, has leased a suite of three rooms on the second floor of the Market Building, 16 Kearny street, and will locate permanently in San Francisco after January 1st.

WILL ERECT MINING MACHINERY PLANT.

RENO (Nev.)—The Nevada Engineering Works, one of the big mining machinery manufacturing establishments of the State, has changed hands and will be completely reorganized. The officers of the new company are George Wingfield President; ohn G. Kirchen of Tonopah, Vice President; L. P. Curtis, Reno, Secretary-Treasurer.

The stockholders represent a large majority of the mining interests of the State and the Board of Directors is practically identical with the Executive Committee of the Nevada Mine Owners' Association.

The reorganized company will construct a complete new plant to be in operation in the Spring.

MUNICIPAL PHONE POSSIBLE.

LOS ANGELES, Cal.—That Los Angeles may some day have a municipal telephone system, in addition to other public service utilities is foreseen by the board of public utilities, which makes the possibility of municipal acquisition one of the conditions in its permission for the acquisition of the Home Telephone Company's franchise and properties by the Southern California Telephone Company. The ordinance prepared for the transfer establishes the right of the city to purchase the consolidated system at any time without franchise or "going concern statute."

CALIFORNIA'S COTTON GROWTH A SECOND "GOLD RUSH?"

Startling figures, showing the steady rush of gold to California to buy up the State's remarkably increasing output of cotton, during the year 1916, were given to several hundred surprised members of the California Home-Industry League at the meeting held recently at the Palace Hotel. The figures were announced by Superintendent M. F. Davidson, of the California Cotton Mills, the speaker of the day.

"Although the first crop of cotton in California was sown only seven years ago," declared Mr. Davidson, "it was a success from the start, for various climatic reasons, the crop selling for \$14,000. But great as was that sum, and encouraging to the cotton farmers of the State who had the hardihood to venture into the new industry, the perfect bonanza that cotton-raising has proven since is shown by the amazing fact that the crop of cotton in California this year,—that is, the price brought to the farmers for the raw materials,—has already surpassed \$12,000,000."

In order to have the League be assured that these startling figures were not due to any slip of the tongue, President Harbour asked the speaker to re-state these facts, which Mr. Davidson did, announcing that he spoke from carefully written notes.

"Nor does the startling part of the business end here," Davidson went on. "For while the best cotton lands in the Eastern States is producing 175 odd pounds per acre, the California cotton acre is producing over 400 pounds this year. The price now being brought by California cotton is nearly double per pound the price brought last year, and the total cotton production of the State, this year, over last year, raw and manufactured, is some 66 2/3 per cent greater than the year before. Manufactured California cotton is in such great demand this year that we are now building an addition to our plant in Oakland at a cost of over \$500,000, and soon our Oakland factory alone will cover over ten acres of city property. The fact that our raw materials cost more than do the raw materials in Eastern factories, and the fact that we pay higher wages to our employees, and surround them with more pleasant and more sanitary arrangements does not prevent our business expanding to South America and the Orient.

"And while all cotton planters or ranchers of California are making money, the business of cotton-growing is only at its beginning in this State. There is no negro labor in use in the cotton industry of the State; it is mainly white and Mexican.

"If the cotton crop of the State had been three times larger this year it would all have been sold at high

prices, the character of the cotton grown in this State being superior to most of the cotton grown in any other part of the United States."

ECONOMY IN SCIENCE.

The increased extent to which the large industrial corporations of the country now support their own departments of scientific research is a gratifying development of the times. Science is regarded as a necessity rather than a luxury. And this coming of science into its own as a large factor in the industrial life of the Nation is necessarily followed by a certain reaction of business upon science. Never before, perhaps, has the demand been so keen for research that is no less than ever scientific in spirit and in method but that has a definite purpose and yields definite results. The idea of making science useful is not new, but the utility of science has become more universally the test of its value.

In the scientific work done under the Federal Government this demand for results is abundantly justified by the public need. If the strongest corporations are making large use of chemists, physicists, and geologists, the general public has similar need in its service for applied science.

The business policy of organizing scientific investigation for effective work, however, is far from novel, for in 1878, in the report to Congress advocating the creation of the United States Geological Survey, the National Academy of Sciences described the ideal plan for a scientific bureau as that which would yield the "best results at the least possible cost." Since that day, moreover, economy in science has become a more pressing issue. 35th Ann. Report, Director U. S. Geological Survey, Department of the Interior.

SANDSTONES ARE POROUS.

The more porous beds of sand and gravel along stream valleys, lake shores, and the coast absorb very large amounts of water. Next to these unconsolidated deposits the rocks capable of direct absorption are sandstones and certain porous limestones. The absorption of granites, slates, and other massive rocks is relatively slight, according to the United States Geological Survey, Department of the Interior. A cubic foot of sand will absorb on an average about 19 quarts of water, and certain porous sandstones will absorb 2 to 6 quarts. While there is no definite lower limit to the penetration of water, it is probable that little surface water penetrates more than 2 miles below the surface, and most of the pores and crevices in rocks are closed below the depth of a few hundred feet. U. S. Geological Survey, Department of the Interior.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$25,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name not given. Location, south 17th street west Church. Will contain 24 apartments of two and three rooms. Plans complete and figures being taken.

OAKLAND, CAL.—Apartment house, 5 story and base, Class C construction. Cost not stated. Architects, Richardson & Burrell, Albany Bldg., Oakland. Owners, Sommarstrom Bros. Location, 22nd and Broadway. Will contain stores on the first and a large number of two and three room suites on the upper floors. Plans complete and segregated figures being taken by the owners.

LOS ANGELES, CAL.—Apartment house, 1 story and base, Class C construction. Cost not stated. Architect, Leonard L. Jones, Hibernian Bldg., L. A. Owner, Mr. Cushing. Location, 1340 Orange street, covering an area of 55 by 90 feet. Will contain 70 rooms arranged in two and three room apartments. Plans being prepared.

PORTLAND, ORE.—Apartment house, 4 story and base, brick and steel, \$40,000. Architects, Clausen & Clausen, Macleay Bldg., Portland. Owner's name withheld. Location, West Side, covering an area of 50 by 90 feet. Will contain 12 apartments of four, five and six rooms. Plans being prepared.

SAN FRANCISCO—Apartment house, 3 story and base, frame. Cost not stated. Architect, Henry Shermund, Mills Bldg., S. F. Owner, B. F. Meyer. Location, south California east 3rd avenue, covering an area of 50 by 95 feet. Will contain twelve suites of four rooms and bath. Plans complete and figures to be taken at once.

SAN FRANCISCO—Apartment house, 3 story and base frame, \$15,000. Architect, none. Owner, D. J. Clancy, 2881 Folsom street, S. F. Location, southwest Mason and Malvina streets, covering an area of 40 by 52 feet. Will contain 12 apartments of three and four rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Apartment house alterations, 3 story, frame. Cost not stated. Architect, Carl Geiffuss, 46 Kearny street, S. F. Owner, Mr. Hansen. Location, Fulton near Steiner. Work will consist of converting the present flat building into modern apartments. Plans are complete and figures being taken.

BANKS

SAN FRANCISCO—Bank and offices, 12 story and base, Class A construction. Cost not stated. Architect, George William Kelham, Sharon Bldg., S. F. Owners, American National Bank. Location, southeast Montgomery and California streets, covering an area of

68½ by 137½ feet. Ground floor will be occupied by the bank and upper floors arranged for offices. Plans are being prepared.

BONDS.

MODESTO, STANISLAUS CO., CAL.—The \$125,000 bond issue of the Modesto City High School District has been sold and bids for the erection of buildings will be invited shortly.

RED BLUFF, TERAMA CO., CAL.—The County Supervisors have sold the \$15,000 bonds of the Red Bluff School District and will erect a new building with the proceeds of the sale.

ALBANY, ALAMEDA CO., CAL.—Bonds of \$20,000 were voted here last week and the issue, when sold, will provide for the paving of a portion of San Pablo avenue in the city limits.

MODESTO, STANISLAUS CO., CAL.—The Stanislaus County Highway bond issue has been sold by the County Supervisors. The issue amounted to \$1,456,000 and will provide for a system of permanent roadways.

BAKERSFIELD, KERN CO., CAL.—A resolution setting January 16th as the date to hold a \$90,000 bond election has been passed by the City Board of Education. The proceeds of the sale of the bonds will finance the construction of two new schools and make additions to the present structures.

SEATTLE, WASH.—Bids will be received by the County Commissioners up to January 16th for the purchase of \$500,000 bonds, the proceeds of which will finance the construction of highways.

SUNNYVALE, SANTA CLARA CO., CAL.—Bids are being received by the Town Clerk until January 15th for the purchase of \$19,000 bond issue recently voted for improvements to water system and for the purchase of fire apparatus.

OAKLAND, CAL.—Steps are being taken by the city for the replacement of bridges over Oakland Harbor between this city and Alameda. The purchase of a site and the erection of a million dollar county hospital is also planned.

SAN DIEGO, SAN DIEGO CO., CAL.—An election will be held soon to vote on a bond issue of \$150,000 for the purpose of providing additional class rooms, with manual training and domestic science departments and auditoriums, for the Grant and Jefferson schools.

BRIDGES AND DAMS.

MODESTO, STANISLAUS CO., CAL.—Bridge, steel and concrete. Cost not stated. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. The County Supervisors have instructed the County Clerk to advertise for bids for the construction of a steel span bridge across Little John Creek

between Eugene and Knights Ferry, to be opened on January 8th. The bridge will be 100 feet in length.

Contract Awarded.

SAN FRANCISCO—Sea wall construction, \$33,343. Engineer, Chief Engineer, State Board of Harbor Commissioners, Ferry Bldg., S. F. Owners, State of California. Contractors, Healy Tibbitts Construction Co., S. F. Contract price, \$38,343. A complete list of the bids received will be found under the heading of "Bids Opened" in this issue.

CHURCHES.

OAKLAND, CAL.—Church, 2 story and base, steel and frame, \$20,000. Architect, Eugene K. Martin, 192 Shattuck avenue, Berkeley. Owners, Lutheran Church. Location, 61st and Canning. Will contain main auditorium, Sunday school rooms, pastor's study and social halls. Plans being prepared.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO—Warehouse and factory, 4 story and base, reinforced concrete. Cost not stated. Engineer, Maurice Couchot, 110 Sutter street, S. F. Owners, American Ever Ready Co. Location, northeast Eighth and Brannan. Only a portion of the building as originally planned will be erected at this time. Plans for this unit are complete and figures are now being taken.

SAN FRANCISCO—Warehouse, 6 story and base, reinforced concrete. Cost not stated. Architect's name not given. Owners, Regents of the University of California. Location, east First street between Market and Mission. The entire building has been leased to a large wholesale shoe firm. Construction will probably be under the direction of the Clinton Fireproofing Co. Further mention will be made of the work.

SAN FRANCISCO—Factory repairs, 3 story, frame, \$3,000. Architect, J. A. Porporato 619 Washington street, S. F. Owners, Roma Macaroni Factory. Location, southeast Grant avenue and Francisco. Work will consist of repairing fire damage. Plans are complete and ready for figures.

PORTLAND, ORE.—Warehouse, 3 story and base, brick and mill construction. Cost not stated. Architect, none. Owners, Oregon Home Builders. Portland. Location, 23rd and Broadway, covering an area of 60 by 125 feet. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL.—Warehouse, 5 story and base, reinforced concrete, \$500,000. Architects, Mayberry & Parker, Pacific Electric Bldg., L. A. Owners, Panama-Pacific Warehouse Co. Location, Alameda street between 6th and 11th streets, covering an area of 200 by 400 feet. Plans are being prepared.

Contract Awarded.

SEATTLE, WASH.—Ship yards, \$80,000. Architect, none. Owners, Ames Ship Building and Dry Dock Co. In addition to securing the award of contract for the plate building for the Ames Ship Building and Dry Dock Co., Hanford street and 26th avenue, S., H. D. Stewart, American Bank bldg., Seattle, has just been awarded the balance of the project involving a total of \$80,000, including machine shop, 95 by 240 feet; woodworking shop and mold loft, 75 by 400 feet; engine, blacksmiths and coppersmiths sheds, each 50 by 120 feet; office building, 2 story, frame, 35 by 60 feet, with concrete vault; a power house and several out buildings, together with three slip ways capable of taking vessels up to 450 feet long.

FIRE HOUSES AND JAILS.

TRACY, SAN JOAQUIN CO., CAL.—Fire house, 1 story, brick. Cost not stated. Architects, Sala & Mayo, Commercial and Savings Bank Bldg., Stockton. Owners, City of Tracy. Will contain apparatus room and living quarters. Plans complete and figures being taken. Bids open on December 26th.

FLATS.

SAN FRANCISCO—Flats, 2, 3 story and base, frame, \$3,000 each. Architect, none. Owner, P. Algot Nelson, 33 19th street, S. F. Location, southwest Eureka and 19th. Each building will contain three flats of four and five rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$2,500. Architect, none. Owner, E. Sere, 2821 Greenwich street, P. Location east Lila north 26th. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, \$4,000. Architect, none. Owner, L. R. Ham, 274 25th avenue S. Location, west 19th avenue south side, covering an area of 25 by 50 feet. Will contain two five room flats and basement garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Flats, 2 story and base, frame, \$4,000. Architect, none. Owner, Emma J. Doran, 117 Liberty street, S. F. Location, west Josephine north Vine. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 3 story and base, frame, \$5,000. Architect, none. Owner, J. S. Niemela, 74 Lansing street, S. F. Location, north Cabrillo west 9th avenue. Will contain two flats of five and six rooms and a basement garage. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Flats, 2 story and base, brick and frame. Cost not stated. Architect, Eugene Mathewson, Cory Bldg., Fresno. Owner, S. N. Smith. Location, Mariposa and M Streets. Will contain four large residential flats. Plans complete and figures being taken.

GARAGES

BERKELEY, ALAMEDA CO., CAL.—Garage, 2 story and base, brick, \$5,000. Architect, P. Holberg Remick, Adams Bldg., Berkeley. Owner, A. M. Harvey. Location, Solano and Colusa streets. Will contain garage on the first floor and a public hall on the upper floor. Plans are being prepared.

SAN FRANCISCO—Garage, 2 story and base, reinforced concrete, Cost not stated. Architect, Clarence A. Taintor, Clinic Bldg., S. F. Owner, Dr. George B. Somers. Location, east Van Ness south California. Contract for the excavating, concrete work and back filling has been awarded to George Bos for \$29,889, and segregated figures on all other parts of the work are now being taken.

OAKLAND, CAL.—Garage, 1 story, frame. Cost not stated. Architects, Merrill and J. C. Newsom, 1748 Broadway, Oakland. Owner, R. Mott. Location, east 14th street. Designed for a commercial garage. Plans being prepared.

The project involves installing a gravity system with headworks on Jones Creek, and a pipe line to the reservoir at Camas; alterations of distributing system; repairs and enlargement of the reservoir; construction of headworks, etc. There will be about seven miles of new pipe line to replace an existing open flume.

RAILROAD CONSTRUCTION AND EQUIPMENT**Contract Awarded.**

SEATTLE, WASH.—Railroad terminal. Cost as follows. Engineer, Chief Engineer, Northern Pacific R. R. Co. Owners, Northern Pacific Railway. The contract for the construction of the new terminals for the Northern Pacific Railway Co. on Hanford street and Occidental avenue, running through the block to the city waterway, has been awarded to the E. B. Rounds Construction Co., Walker Bldg., Seattle. The work will cost \$150,000. The project under this contract includes: 22 stall frame roundhouse with concrete foundation, 85-foot turntable, 48 by 120 feet frame machine shop, 24 by 30 feet frame blacksmith shop, 24 by 80 feet frame store house with concrete basement, 20 by 34 feet brick oil house, 21 by 50 feet frame engineers' building, 25 by 29 feet frame lavatory, 12,000 gallon capacity oil tank and oil cellar, 100-foot cinder pit, 25 by 16 feet coal shed, 23 by 169 feet sand house, 2-tract coal dock, 100,000 gallon wood water tank, 2 stand pipes. Complete heating and plumbing system for entire plant.

RESIDENCES.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$8,000. Architect, Edward E. Young, 251 Kearny St., S. P. Owner, H. H. Helbush, 75 Sutter street, S. F. Location, west Jordan avenue south California. Each dwelling will contain ten rooms, two baths and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$10,000. Architect, none. Owners, Allen & Co., 125 Sutter street, S. F. Location, west 26th avenue south Sea Cliff. Will contain ten rooms, three baths and basement garage. Plans complete and work to be done by Day Labor.

ALBANY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, A. H. Pallen, 686 61st street, Oakland. Location, Santa Fe avenue south Solano. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,000. Architects, Schirmer, Bugbee & Co., Dalziel Bldg., Oakland. Owner, J. Gallano. Location, Warfield avenue. Will contain seven rooms, bath and sleeping porch. Plans being prepared.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, P. S. Walsh, 495 Rich street, Oakland. Location, east Shafter north 42nd street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, C. E. Sincilar, Y. M. C. A. Bldg., Berkeley. Location, east Fresno south Solano street. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Charles D. Hart, 615 22nd street, Oakland. Location, west Jean south Monte Vista. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, P. S. Walsh, 495 Rich street, Oakland. Location, east Shafter avenue north 42nd street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$3,500. Architect, none. Owner, Harry Schwalm, 721 Main street, Hayward. Location, south Annelly Road east Hayward. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, J. A. Leithmann, 3418 Champion street, Oakland. Location, west Champion north Montana. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, M. A. Colt, 1028 Washington street, Oakland. Location, north Scenic avenue west Laguna. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 1/2 story and base, frame, \$2,000. Architect, none. Owner, R. C. Hillen, 430 Haight avenue, Alameda. Location, north Arkansas east Curran avenue. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERLINGAME, SAN MATEO CO., CAL.—Residence, 1 story and base, frame, \$3,000. Architect, Thomas Edwards, Bank Bldg., Burlingame. Owner's name not given. Will contain six rooms, bath and sleeping porch. Plans being prepared.

FRESNO, FRESNO CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, C. H. Shumard, Fresno. Location, Stratford Place. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL.—Residence, 2 story and base, hollow tile. Cost not stated. Architects, Milwaukee Building Co., Wright and Callender Bldg., 14. A. Owner, Karl Steinlein. Location, Andrews Boulevard near 8th St. Will contain fourteen rooms and four baths. Separate garage. Plans being prepared.

BERKELEY, ALAMEDA CO., CAL.—Residence, 2 story and base, frame. Cost not stated. Architects, Wright & Rushforth, 354 Pine street, S. F. Owner, G. A. Mattern. Location, 1825 Hillegas avenue. Will contain eight rooms, two baths and sleeping porch. Plans complete and work will be figured.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 1½ story and base, frame, \$3,000. Architect, none. Owner, James J. Granville, 4231 18th street, S. F. Location, Lakewood Park. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$5,000. Architect A. W. Pattiani, Merchants' National Bank Bldg., S. F. Owner, Harriet H. Coe. Location, east Euclid avenue north Van Buren. Will contain eight rooms, two baths and sleeping porch. Plans complete and contract to be let shortly.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, J. W. Davis, 1641 Alhston Way, Berkeley. Location Bancroft and McGee. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

LOS ALTOS, SANTA CLARA CO., CAL.—Residence 2 story and base, frame, \$25,000. Architect, J. R. Miller, Lick Bldg., S. F. Owner, Mr. Herzstein. Designed for a country house and will contain fourteen rooms, several baths and sleeping porches. Separate garage and out buildings. Plans being prepared.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, \$2,00. Architect, none. Owner, W. B. Phillips, 4019 Cypress avenue, Sacramento. Location, Boyle Tract. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SCHOOLS.

YREKA, SISKIYOU CO., CAL.—School, 2 story and base, brick and concrete, \$65,000. Architect, Henry C. Smith, Hunsoldt Bank Bldg., S. F. Owners, Yreka School District. This building will be the first unit of a group which will cost \$165,000 when completed. The first building will contain class rooms and an assembly hall. Plans are now being prepared.

Contract Awarded.

OAKLAND, CAL.—Schools, 2, 1 story, frame, \$2,095. Architect, none. Owners, City of Oakland. Contractor, John R. Faulkes, 9828 East 11th street, Oakland. These buildings are of the portable type and will each contain one class room.

RICHMOND, CONTRA COSTA CO., CAL.—School, 2 story, brick and concrete, \$20,000. Architect, James T. Nabbett, 910 Macdonald avenue, Richmond. Owners, City of Richmond. The contracts awarded were: J. S. Hannah, Chronicle Bldg., S. F., general con-

tract, \$14,750; J. N. Long, 1000 Broadway, Richmond, plumbing, \$1,250; Scott Co., 243 Minna street, S. F., painting, \$2,750; and Spicers' Bldg., 1000 Broadway, Richmond, \$4,125 for painting. The Board had the bid of \$2,000 for floor for \$2,672 to install the steel work on the building over four weeks.

FRESNO, FRESNO CO., CAL.—Heating system, \$2,918. Architects, Coates & Traveler, Fresno. Owners, City of Fresno. Contractor, J. C. Hiley Co., 509 6th street, S. F. Contract price, \$2,918.

SEWERS, STREET WORK & WATER SYSTEMS.

BERKELEY, ALAMEDA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on December 26th for street improvements authorized under the following resolution: That Lincoln street from Chestnut street, a distance of 27 feet, be graded; that concrete curbs and gutters be constructed and that the remainder of the roadway be macadamized and surfaced with oil and rock screenings; and that a concrete storm culvert be constructed, and a 6-inch vitrified, ironstone pipe sewer be constructed with two manholes.

RICHMOND, CONTRA COSTA CO., CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Richmond. Owners, City of Richmond. Bids will be opened on December 26th for street improvements authorized under the following resolution: That a portion of 25th street, formerly Nadenum street, and 26th street, formerly Dumont street, and 28th street, formerly Solomonte street, in the Fifth Addition, be improved by paving with Richmond Standard macadam, consisting of broken stone and of asphaltum having a penetration of from 125 degrees to 140 degrees. District of Columbia Standard and the construction of cement concrete curbs, gutters, sidewalks and wing walls.

PLACERVILLE, EL DORADO CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Clifton H. Wildman, Placerville. Owners, El Dorado County. Bids will be opened on January 4th at 2 p. m. for the construction of about 3½ miles of earth surface wagon road. The work is located near Placerville and is known as the Morga Grade. About 12,000 cubic yards of excavation is included. Plans can be secured from County Clerk Arthur J. Koletzke, Placerville, on deposit of \$10.

SANTA ANA, ORANGE CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Santa Ana. Owners, Orange County. The Orange County Supervisors have rejected all bids received for paving two and one-half miles of road between Brea and Olinda, as it was found that sufficient funds were not available.

REDWOOD CITY, SAN MATEO CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. At the last meeting of the County Supervisors it was ordered that the County Engineer be instructed to prepare plans and specifications for the grading of the new summit road in the Second Township.

CONTRACT AWARDED.
The City of Berkeley, Cal., has awarded a contract to the City Engineer, Berkeley, for the construction of a sewer line from the intersection of Chestnut street and Lincoln street to the intersection of Chestnut street and 27th street, a distance of 27 feet. The contract is for the construction of a concrete storm culvert and a 6-inch vitrified, ironstone pipe sewer. The estimated cost of the work is \$2,918. The contract was awarded to J. C. Hiley Co., 509 6th street, S. F., at a price of \$2,918.

CONTRACT AWARDED.
The City of Berkeley, Cal., has awarded a contract to the City Engineer, Berkeley, for the construction of a sewer line from the intersection of Chestnut street and Lincoln street to the intersection of Chestnut street and 27th street, a distance of 27 feet. The contract is for the construction of a concrete storm culvert and a 6-inch vitrified, ironstone pipe sewer. The estimated cost of the work is \$2,918. The contract was awarded to J. C. Hiley Co., 509 6th street, S. F., at a price of \$2,918.

PITTSBURGH, CONTRA COSTA CO., CAL.—Sewer construction. Cost not stated. Engineer, City Engineer, Pittsburg. Owners, City of Pittsburg. Hutchinson Co., 17th and Franklin streets, Oakland, have been awarded a contract by the City Trustees for the following work: That a 10-inch, vitrified, salt-glazed, iron pipe main sewer be constructed on 17th and Second street, from Black Diamond street to Cumberland street, thence south along Cumberland street to East Third street; and that manholes be constructed; that 4-inch, vitrified, salt-glazed ironstone pipe laterals sewers be constructed, each having a 6-inch curb line, and that all lateral sewers be connected with and above mentioned 10-inch sewer with Y branches.

SACRAMENTO, CAL.—Street improvement. Cost not stated. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. A contract for street improvements has been awarded under the following resolution: That the 1½ mile between J and K streets, from the east line of 12th street to the east line of 10th street, be improved by grading the alley and constructing thereon an asphalt pavement, consisting of an asphaltic mac-

adam foundation 3 inches thick and a sheet asphalt wearing surface 1½ inches thick. Awarded to the Clark & Henry Construction Co., Ochsner Bldg., Sacramento.

BERKELEY, ALAMEDA CO., CAL.—Street improvement. Cost as follows. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. The City Council has awarded a contract to the Clark & Henry Construction Co., Ochsner Bldg., Sacramento, Cal., for the improvement of the eastern half of San Pablo avenue, from the north city line to the south city line, for the sum of \$58,025.55, by grading, constructing concrete curbs and sewers, a vitrified pipe storm sewer, one manhole, reinforced concrete catch basins, vitrified pipe connections with the storm sewer and the remainder of the roadway be paved with asphaltic wearing surface 2 inches thick laid on a concrete foundation 6 inches thick.

REDWOOD CITY, SAN MATEO CO., CAL.—Culverts, reinforced concrete, \$1469.80. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Contractor, A. Mattson, Chapman street, South San Francisco. Contract price, \$1469.80.

REDWOOD CITY, SAN MATEO CO., CAL.—Highway construction, \$5,976. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Contractor, E. M. Chadbourne, 503 Market street, S. F. Contract price, \$5,976.

STORES AND OFFICES.

SAN FRANCISCO—Stores and offices, 10 story and base. Class A construction. Cost not stated. Architects, Reid Pown, California-Pacific Bldg., S. F. Owners, Matson Navigation Co. Location, Market and Spear streets, covering an area of 137½ by 137½ feet. Will contain a number of stores on the ground floor and over 200 offices on the upper floors. Construction will be started about March 1st.

BERKELEY, ALAMEDA CO., CAL.—Stores, 1 story and base, frame, \$3,660. Architect, Eugene K. Martin, 232 Shattuck avenue, Berkeley. Owner, E. C. Curry, 2745 Elwood avenue, Berkeley. Location, College avenue north Ashby. Will contain three small stores. Plans complete and figures being taken by the owner.

PITTSBURG, CONTRA COSTA CO., CAL.—Stores and offices, 2 story and base, brick. Cost not stated. Architect, A. W. Cornelius, Merchants' National Bank Bldg., S. F. Owner, D. Frankel. Location, Third and Railroad avenue. Will contain three stores on the first floor and a number of offices and apartments on the upper floors. Plans are complete and figures will be called for shortly.

FRESNO, FRESNO CO., CAL.—Stores and offices 6 story and base. Class A construction, \$165,000. Architect, Eugene Mathewson, Forsythe Bldg., Fresno. Owner, Mrs. Nellie Mason. Location J street, covering an area of 150 by 150 feet. Will contain a number of stores on the first floor and 250 offices on the upper floors. Plans are complete and figures being taken.

SAN FRANCISCO—Stores and offices, 2 story and base. Class A construction. Cost not stated. Architect, Willis Polk, Hobart Bldg., S. F. Owners, McCreery Estate. The proposed office

structure to be erected at the northeast corner of Pine and Montgomery streets on the property of the McCreery Estate, will be but two stories high instead of ten as at first proposed. Originally designed for the Western Union Telegraph Co., a ten-story structure was planned, but recently the telegraph company secured other quarters and the original plans have been abandoned. A two-story class A structure will be erected with foundations and steel work so designed as to carry additional stories.

SAN FRANCISCO—Stores, 1 story, frame, \$3,000. Architect, none. Owner, C. J. Keenan, 20 Broderick street, S. E. Location, southeast 10th avenue and Cabrillo, covering an area of 20 by 95 feet. Will contain one store. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Stores and lofts, 3 story and base. Class C construction. Cost as follows. The Port of San Francisco Association, Robert Dollar, President; John Parr, Secretary, has announced its intention of improving its property at the corner of Davis and Sacramento streets with at least a three-story class C building, costing in the neighborhood of \$40,000. Preliminary sketches have been prepared by Naval Architect George Dickey, but these will be submitted to a construction architect and revised. The first floor will be occupied by the association with offices and club rooms, while the upper floors will either be arranged for lofts for commercial purposes or else for living rooms to be conducted under the management of the local Army and Navy Young Men's Association. Construction will not be started until after the first of February.

TULARE, TULARE CO., CAL.—Store alterations, 2 story and base. Class C construction, \$10,000. Architect, Ernest J. Kump, Rowell Bldg., Fresno. Owners, Quilty Estate. Location, K and Kern streets. Work will consist of new store fronts, marble bases, electric work, plumbing and interior finish. Plans are being prepared.

POMONA, LOS ANGELES CO., CAL.—Telephone exchange, 2 story and base, reinforced concrete. Cost not stated. Architect, Paul F. Diggs, First National Bank Bldg., Pomona. Owners, The Home Telephone Co. Will cover an area of 50 by 60 feet, and contain offices besides the telephone company's plant. Plans are being prepared.

Contract Awarded.

SEATTLE, WASH.—Exhibit building, 1 and 2 story and base, brick and plaster, \$50,000. Architects, Howells & Stokes, Henry Bldg., Seattle. Owners, Metropolitan Co. Contractors, Grant Smith & Co., Henry Bldg., Seattle. Contract price, \$50,000.

THEATRES.

NAPA, NAPA CO., CAL.—Theatre and stores, 2 story and base. Class C construction, \$25,000. Architect, L. M. Turton, Napa. Owners, John and Samuel Garibaldi, leased to S. Errant and S. Fisher of San Francisco. Besides the theatre, which will have a seating capacity of 110 people, there will be a number of modern stores on the first floor. Upper floor will be arranged for offices. Plans are being prepared.

SEALED PROPOSALS

PROPOSALS FOR S. F. Q. M. SUPPLIES

SAN FRANCISCO Q. M. No. 143—Office of the Depot Quartermaster, Fort Mason, San Francisco, Cal.—Sealed proposals will be received here until December 26, 1916, under circular 143 for furnishing 25,000 pounds ammonia, 100 barrels, 35,000 pounds grate bars, 5000 dry batteries, 2,000 packing boxes, 2,000 do, 200 yards velvet carpet, 60 barrels Portland cement, 30,000 pounds cottonwood excelsior, 500 brass pipe fittings, 3,000 standard pipe fittings, 200,000 pounds ice, 50 barrels lime, 6,000 feet wrought pipe, 3,000 feet steel wire rope, 200 pounds soft pure gum rubber, 200 sacks sawdust 200 gallons bituminous solution, 1,000 rubber stamps, 50 brass angle valves, 20 brass check valves, 12 do, 100 brass globe valves, 200 pounds rubber valves and 500 gauge glass washers. For further information address JOHN T. KNIGHT, colonel, quartermaster corps, depot quartermaster.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CANAL 1106—Proposals for Galvanized Steel, Spring Steel, Black Links, Electric Bolts, Nails, Tacks, Poultry Netting, Pipe Straps, Electric Cable and Wire, Steel Conduit and Fittings, Electrical Fittings, Electric Motors, Electric Pumps, Reflectors, State Slabs, Insulating Tape, Spark Plugs, Fire Extinguishers, Tally Registers, Hawsing Bottles, Rubber Boots, Leather, Glue, Manganese, Dioxide, Wrought Pipe, Sheet Metal, Paper, Lumber and Ties—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal Co., U. S. Army, until 10:30 a. m., December 27, 1916, at which time they will be opened in public, for furnishing the above mentioned articles, Planks and general information relating to this circular (No. 1106) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal., also from the U. S. engineer offices in the following cities: Seattle, Wash.; Los Angeles, Cal. EARL L. BROWN, major, corps of engineers, U. S. Army, general purchasing officer.

PROPOSALS FOR PONTONS.

Plans prepared by Architect Frederick H. Meyer, Bankers' Investment Bldg., have received the approval of the Board of Public Works and construction on the proposed office building for the Union Iron Works will be started immediately. The structure, which will be a three-story and basement brick, will be erected at the northeast corner of Twentieth and Illinois streets and is estimated to cost \$164,000. The permit will cost \$97.60.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO.

RESIDENCE—2 story and base, frame, \$10,000. San Francisco. Architect, none. Owners, Allen & Co., 125 Sutter street, S. F. Location, west 26th avenue south Sea Cliff. Will contain ten rooms, three baths and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 2 story and base, frame, \$8,000. San Francisco. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, H. H. Holbush, 75 Sutter street S. F. Location, west Jordan avenue south California. Each dwelling will contain ten rooms, two baths and basement garage. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—3 story and base, frame, \$25,000. San Francisco. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name not given. Location, south 17th street west Church. Will contain 21 apartments of two and three rooms. Plans complete and figures being taken.

FLATS—2, 3 story and base, frame, \$5,000 each. San Francisco. Architect, none. Owner, P. Algot Nelson, 4323 19th street, S. F. Location, southeast Eureka and 19th. Each building will contain three flats of four and five rooms. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$2,300. San Francisco. Architect, none. Owner, E. Sere, 2821 Greenwich street, S. F. Location, east Linc near 26th. Will contain two flats of five and six rooms. Plans complete and work to be done by Day Labor.

FLATS—2 story and base, frame, \$4,000. San Francisco. Architect, none. Owner, L. B. Ham, 271 25th avenue, S. F. Location, west 19th avenue south Geary, covering an area of 25 by 50 feet. Will contain two five-room flats and basement garage. Plans complete and work to be done by Day Labor.

FACTORY REPAIRS—3 story, frame, \$3,000. San Francisco. Architect, J. A. Porporato, 619 Washington street, S. F. Owners, Roma Macaroni Factory. Location, southeast Grant avenue and Francisco. Work will consist of repairing fire damage. Plans are complete and ready for figures.

WAREHOUSE—4 story and base, reinforced concrete. Cost not stated. San Francisco. Architect's name not given. Owners, Regents of the University of California. Location, east First street between Market and Mission. The entire building has been leased to a large wholesale shoe firm. Construction will probably be under the direction of the Clinton Engineering Co. Further mention will be made of the work.

WAREHOUSE AND FACTORY—1 story and base, reinforced concrete. Cost not stated. San Francisco. Engineer, Maurice Conchot, 114 Sutter St., S. F. Owners, American Ever Ready Co. Location, northeast Eighth and Brannan. Only a portion of the build-

ing as originally planned will be erected at this time. Plans for this unit are complete and figures are now being taken.

LIBRARIES—2, 2 story and base, Class C construction, \$15,000 each. San Francisco. Architects as follows. Owners, City and County of San Francisco. Approved plans for the two branch libraries will reach San Francisco the first of next week. Secretary Mullin states that bids will not be called for sometime thereafter as specifications have to be prepared. Both buildings will be of the class C type and each will cost in the neighborhood of \$15,000. Architect, G. Albert Lansburgh prepared plans for the building to be erected at 18th avenue and Irving and Architect Ernest Coxhead the plans for the building to be erected at Green and Octavia streets.

STORES AND OFFICES—10 story and base, Class A construction. Cost not stated. San Francisco. Architects, Reid Bros., California-Pacific Bldg., S. F. Owners Matson Navigation Co. Location, Market and Spear streets, covering an area of 137½ by 127½ feet. Will contain a number of stores on the ground floor and over 200 offices on the upper floors. Construction will be started about March 1st.

APARTMENT HOUSE—3 story and base, frame. Cost not stated. San Francisco. Architect, Henry Shermond, Mills Bldg., S. F. Owner, B. F. Meyer. Location, south California east 3rd avenue, covering an area of 50 by 95 feet. Will contain twelve suites of four rooms and bath. Plans complete and figures to be taken at once.

APARTMENT HOUSE—2 story and base, frame, \$15,000. San Francisco. Architect, none. Owner, D. J. Clancy, 2841 Folsom street, S. F. Location, southwest Mason and Malvina streets, covering an area of 40 by 52 feet. Will contain twelve apartments of three and four rooms. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE ALTERATIONS—2 story, frame. Cost not stated. San Francisco. Architect, Carl Gelfuss, 14 Kearny street, S. F. Owner, Mr. Hansson. Location, Fulton near Steiner. Work will consist of converting the present flat building into modern apartments. Plans are complete and figures being taken.

FLATS—2 story and base, frame, \$5,000. San Francisco. Architect, none. Owner, J. S. Niemela, 71 Lansing street, S. F. Location, north Calville west 9th avenue. Will contain two flats of five and six rooms and a basement garage. Plans complete and work to be done by Day Labor.

BANK AND OFFICES—12 story and base, Class A construction. Cost not stated. San Francisco. Architect, George William Kelham, Sharon Bldg., S. F. Owners, American National Bank.

Location, northeast Montgomery and California streets, covering an area of 60 by 137½ feet. Ground floor will be occupied by the bank and upper floors arranged for offices. Plans are being prepared.

GARAGE—2 story and base, reinforced concrete. Cost not stated. San Francisco. Architect, Clarence A. Tantan, Clunie Bldg., S. F. Owner, Dr. George B. Somers. Location, east Van Ness south California. Contract for the excavating, concrete work and back filling has been awarded to George Bos for \$39,559, and segregated figures on all other parts of the work are now being taken.

CLUB SERVICE BUILDING—2 story, reinforced concrete, \$10,000. San Francisco. Architect, Willis Polk, Hobart Bldg., S. F. Owners, Pacific Union Club. Will cover an area of 25 by 40 feet and contain storage space and machinery equipment. Plans complete and figures being taken.

ASSOCIATION BUILDING—2 and 6 story and base, Class C construction, \$150,000. San Francisco. Architect, Lewis P. Hobart, Crocker Bldg., S. F. Owners, Young Women's Christian Association. Location, north Sutter near Mason, covering an area of 75 by 127½ feet. Plans are nearly complete and figures will be called for shortly.

STORES AND OFFICES—2 story and base, Class A construction. Cost not stated. San Francisco. Architect, Willis Polk, Hobart Bldg., S. F. Owners, McCreery Estate. The proposed office structure to be erected at the northeast corner of Pine and Montgomery streets on the property of the McCreery Estate, will be but two stories high instead of ten as at first proposed. Originally designed for the Western Union Telegraph Co., a ten-story structure was planned, but recently the telegraph company secured other quarters and the original plans have been abandoned. A two-story class A structure will be erected with foundations and steel work so designed as to carry additional stories.

STORES—1 story, frame, \$3,000. San Francisco. Architect, none. Owner, C. J. Keenan, 20 Broderick street, S. F. Location, southeast 10th avenue and Cabrillo, covering an area of 20 by 95 feet. Will contain one store. Plans complete and work to be done by Day Labor.

STORES AND LOFTS—3 story and base, Class C construction. Cost as follows. San Francisco. The Port of San Francisco Association Robert Dollar, President, John Parr, Secretary, has announced its intention of improving its property at the corner of Davis and Sacramento streets with at least a three story class C building, costing in the neighborhood of \$40,000. Preliminary sketches have been prepared by Naval Architect George Dickey, but

these will be submitted to a constructing architect and revised. The first floor will be occupied by the association with offices and club rooms, while the upper floors will either be arranged for lofts for commercial purposes or else for living rooms to be conducted under the management of the local Army and Navy Young Men's Association. Construction will not be started until after the first of February.

Contract Awarded.

SEA WALL CONSTRUCTION—\$38,343. San Francisco. Engineer, Chief Engineer, State Board of Harbor Commissioners, Ferry Bldg., S. F. Owners, State of California, Contractors, Healy-Tibbitts Construction Co., S. F. Contract price, \$38,343. A complete list of the bids received will be found under the heading of "Bids Opened" in this issue.

GARAGE—2 story and base, brick, \$5,000. Berkeley, Alameda Co., Cal. Architect, F. Holberg Reimers, Acheson Bldg., Berkeley. Owner, A. M. Harvey. Location, Solano and Colusa streets. Will contain garage on the first floor and a public hall on the upper floor. Plans are being prepared.

STORES—1 story and base, frame, \$3,600. Berkeley, Alameda Co., Cal. Architect, Eugene K. Martin, 2192 Shattuck avenue Berkeley. Owner, F. C. Curry, 2745 Elmwood avenue, Berkeley. Location, College avenue north Ashby. Will contain three small stores. Plans complete and figures being taken by the owner.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're **loafing**.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not **FOUR WHEEL DRIVE.**

On the F-W-D Truck every wheel is a **Driving Wheel.** The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps **ON** the road and **OUT** of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

H. M. Pittman.....	169,598.80

**UNIQUE ELECTRIC
HEATING SYSTEM.**

A unique system of electric heating has been patented by P. F. Apfel of Seattle, Wash., and plants are now being installed by the Electric Sales Corporation in that city and will soon be on the market in California. This electric heating system is free from all complicated parts and delicate adjustments, and is readily adaptable to residences, business buildings, and public buildings of all kinds. The system consists primarily of a regular hot-water radiator filled with a non-corroding, non-freezing liquid which does not require renewal. The electric heating element is inserted in the bottom connections of the radiator, divided into several sections, and connected to a three-heat switch. This switch can either be attached direct to the radiator or located at any convenient part of the room desired.

The exceptionally large efficiency of this system is one of its greatest merits, since every unit of heat generated by the electric current is created right in the room in which it is used, and there is, therefore, no loss in transmission, radiation, friction, or circulation, such as must occur in either steam or hot-water systems of heating.

Apfel's patented system of electric heating is especially unique in the fact that it eliminates all possibility of oxidation or burning out of the heating element, which is the most common trouble with other electric heating systems. This problem has been solved by eliminating all air from contact with the heating element, and the non-corroding liquid perfects the insulation and also acts as a conveyor of the heat units to the outside atmosphere. The current consumption is fifty watts per square foot of radiating surface on highest heat, twenty-five watts on medium heat, and twelve and one-half

watts on low heat at 110 volt pressure. This gives a radiating temperature of approximately 180 degrees Fahrenheit when on highest heat.

The greatest possible flexibility is obtained in electric heating systems by the use of this individual unit system and the application of automatic thermostat regulating devices, permitting the maintenance of constant temperatures in all rooms of the building at different temperatures in each room.

The quantity of radiation required is based upon well-known laws of heating engineering as applied to hot-water heating, and enables this firm to apply their electric heating system to buildings where either steam or hot-water heating systems had previously been used without destructive or expensive construction work or unsightly exposure of wires or pipes.

In Seattle heating rates as low as three-fourths of a cent per kilowatt hour are obtainable at which rate Apfel's system of electric heating can be maintained at approximately the same as coal heating systems, with the complete elimination of coal, ashes, dust, dirt, time, and trouble.

The Electric Sales Corporation has completed a number of installations in offices and the better class of residences, but the system is applicable to every kind and style of building where heat is required, and comfort and convenience appreciated.

There are particular advantages in the application of Apfel's system of electric heating to modern apartment houses. The average apartment house owner is subject to an exceptional amount of useless expense in fuel. This is largely due to the willful or unwitting waste of heat by tenants through failure to turn off radiators before opening windows for ventilating. The owner is thus compelled to pay enormous fuel bills to satisfy all tenants, some of whom wish a high degree of heat, while others only enough to keep a healthy person comfortable.

It goes without saying that no apartment house owner would consider connecting the electric lights on his own house meter and permitting the tenants to consume all they wanted at all hours of the day or night and he pay the bills therefore yet that is practically what all apartment house owners are doing with their coal heating systems, thus permitting the tenant to use or abuse the heating conveniences, and he must pay the bills whether his tenants are allowing the heat to uselessly pass through the windows or not. It is claimed that a very large saving can be effected for both the tenant and the owner if this system of electric heating is installed as the lighting systems are installed, connecting each apartment to a separate meter. Thus each tenant can have as little or as much heat as desired either day or night, and the useless loss and resulting increase in fuel bills are entirely eliminated. By this system the tenant is permitted, as it were, to own and operate his individual heating plant; he gets all he pays for and pays for all he gets. This will result in the lowering of the now seemingly excessive rates asked for the better class of apartments, eliminating a large percentage of the vacancies due directly to present heating methods; makes for a more contented tenant, and increases the net earnings of apart-

ments so that they will again prove a profitable investment for the owner.

Another important advantage is the fact that should there be any trouble with the heating system in one apartment there is not necessary to shut down the entire plant, thus inconveniencing many tenants because of the negligence or abuse on the part of one tenant, since each radiator is an individual heating plant of itself and may be regulated of increase or decreased.

Another advantage of the Apfel system of electric heating is the absence of depreciation of every kind. There is no evaporation of the circulating medium, no replacement of the heating element, and the radiator is fully guaranteed against any trouble except abuse.

"Pay a good price for something good."

**TESTS CONDUCTED BY BUREAU OF
STANDARDS.**

Tests of materials and products representing a wide range of industrial processes have been made in the course of recent activities of the United States Bureau of Standards. Engineering instrument's, iron pipe, and railroad track scales were among the subjects of such tests.

The bureau has received many requests for the testing of iron pipe. There are no machines in this locality for the complete testing of pipe except those owned by the United States Steel Corporation. There are, however, in this vicinity and through the country many smaller independent pipe-manufacturing corporations. It is from these that requests have been received from time to time for both hydraulic and either tension or compression tests. Owing to lack of facilities the bureau at first referred corporations which desired to have certain tests made to a commercial testing laboratory. The latter, however, found on attempting the work that its machine was not of sufficient capacity, and as a consequence the bureau did the work. An important test was that of two pieces of 6-inch flanged iron pipe in tension.

**Interest in Construction and Accuracy
of Gauge.**

A 2,000-pound gauge to be used by the United States Gauge Co. as a test gauge was calibrated by the bureau at six points of its scale. Twenty-one current meters were rated during the month. Thirteen of these instruments were for the use of engineers outside of the Government service. A test-pressure gauge of unusual interest because of its construction and accuracy was calibrated for the makers. This gauge was of the differential piston type using mercury, designed for pressures up to 10,000 pounds per square inch, graduated to 19 pounds, and could be read to 5 pounds.

Three 10,000-pound-pressure gauges were tested for a large steel company. Twelve relief valves for testing fire hose and 12 air gauges and pumps for testing lifeboat air tanks were tested for use by steamboat inspectors.

Test car No. 1 during a month's time tested 16 railroad track scales in Wisconsin. Test car No. 2 tested 29 railroad track scales and 3 master scales in Pennsylvania.

COTTON BUSINESS BRINGING MONEY TO CALIFORNIA.

The tremendous growth in the raising of cotton in California, with the phenomenal increase in the manufacture in the State of articles made of this material, since the outbreak of the European war, will be described in a moving picture lecture at the luncheon-meeting of the Home Industry League of California at the Palace Hotel on Thursday, December 14th. The speaker will be Superintendent M. F. Davidson, of the California Cotton Mills, whose talk will embrace the activities of all cotton interests in the entire State, including the development of the "cotton ranches" in the Imperial Valley.

BUILDING OPERATIONS FOR NOVEMBER.

A year ago, the abnormal construction activity that had begun during the early summer of 1915 reached its apex. The statement for November, 1915, showed an increase in volume over that of November, 1914, of 75 per cent. It is therefore with the floodtide of that remarkable business that present building comparisons are made. The figures reveal that the pace of a year ago is maintained.

The official reports of building operations, issued in 117 of the principal cities of the United States for November, as received by the American Contractor, Chicago; California Development Board and the Daily Pacific Builder, total \$70,892,290, as compared with \$70,127,333 for November, 1915. The statement must therefore be regarded as favorable, or as more than merely favorable, for besides the great activity a year ago there are other considerations that would ordinarily put a check upon new construction. Of these the abnormal scarcity of some material and its high price are perhaps the most notable. It might almost be said that the structures that are now going up are those that are indispensable, or those which the owners believe will yield an ad-quate profit upon the enhanced cost of construction.

New York City shows a recognizable decrease and Chicago limps a little in the comparison. The reason usually assigned for the decrease in New York City is that the new zoning law construction is naturally the more conservative. It is there a period of adjustment to radically new conditions. The activities in Chicago a year ago were very pronounced. And as the cities go numerically, there is the usual diversity of showings, 66 gaining in the comparison, 50 making losing exhibits, and one "breaking even." The details of this diversity may be studied at leisure in the subjoined tabulation:

Nov. 1916 Nov. 1915

ASSESSMENT AND TAXES.

In the forthcoming biennial report, State Controller John S. Chambers gives the following interesting facts and figures as to assessments and taxes in the counties.

The grand total of the assessment rolls of the counties for the year 1916 was \$5,577,877,764 as compared with the total roll in 1915 of \$5,314,492,798.

The total non-operative roll in 1916, which is general property taxed by the counties, but not by the State, was \$2,917,135,689 and the operative roll, which includes the property of the public utilities not subject to local taxation, amounted to \$509,735,455.

The value of the railroads as assessed by the State Board of Equalization was \$157,006,590.

Of the non-operative or general property roll, "inside," the real estate and improvements, in 1916, totaled \$1,628,171,972.

Inside, personal property and money, \$228,032,034.

Outside, real estate and improvements, \$902,315,264.

Outside, personal property and money \$158,616,419.

Total, \$2,917,135,689.

The taxes charged "inside" for county amounted to \$27,239,709.80 and "outside" county to \$19,514,689.89, giving a total of \$47,654,399.69.

TO INCREASE POPULATION OF SAN FRANCISCO BY LEGAL REGULATION OF HOUSING.

A definite plan to greatly increase the population of San Francisco immediately will be announced to the members of the Home Industry League and their friends at the weekly luncheon-meeting to be held on Thursday, December 21st, at the Palace Hotel.

This scheme for more rapid increase in the city's population has been originated by Engineer George C. Holberton, of the Pacific Gas and Electric Company, who will tell about it in person at this meeting.

In a general way, the plan calls for better and more adequate "housing" of the city's population.

The public is invited to hear this talk.

STATES BONDED INDEBTEDNESS.

Because of the great bonded indebtedness of the State, the counties and the cities, and the discussion which has taken place upon the subject during the past year, State Controller John S. Chambers, in his forthcoming biennial report to the Legislature, sets forth in detail the situation as to the State's bonded indebtedness.

The total debt of this kind owed by California is now \$33,013,500, with bonds on hand but unsold totaling \$30,500,000. The table follows:

Bonded Indebtedness of State of California, June 30, 1916.

Civil Bonds, 1857 (Interest ceased)	\$ 3,500
Civil Bonds, 1869 (Interest ceased)	500
Funded debt, 1873 (In trust for School Fund) 6%	1,526,500
Funded debt, 1873 (In trust for St. University) 6%	751,000
San Francisco Seawall, 1903 4%	932,000
Second San Francisco Seawall, 1909 4%	9,000,000
State Highway, 1909 4%	18,000,000
State University Buildings, 1915 4½%	1,800,000
San Francisco State Building, 1913 4%	1,000,000
Total	\$33,013,500
Bonds Authorized But Not Yet Issued.	
India Basin, 1909 4%	\$ 1,000,000
San Diego Harbor Improvement, 1909 4%	1,500,000
Sacramento State Building, 1913 4%	3,000,000
Third S. F. Seawall, 1913 4%	10,000,000
Total	\$15,500,000
Second State Highway, 1913 4%	15,000,000
Total	\$30,500,000

DEATH CALLS THOMAS GUERIN.

Thomas Guerin, one of the best known young men in building circles, and a member of the firm of J. S. Guerin & Co., died Saturday last from a relapse following a case of pneumonia from which he was thought to have recovered. The funeral was held Monday.

Thomas Guerin was a member of the Builders' Exchange and enjoyed a high standing among his fellows.

ALASKA'S SLURGED MOUNTAINS

Have you any idea of the extent of the Alaska coast line? The shores of the territory are washed by three great oceans. These are the Arctic ocean on the north, Behring sea on the west and the Pacific on the south. The Aleutian islands, off the Alaskan peninsula, are separated from each other and the mainland by a network of rocky straits, and much of Southwestern and Southeastern Alaska is made up of mountainous islands that have rocks of all shapes and sizes. The islands are really the tops of mountains half lost in the waters. They

rise in spires and cathedrals, some of which are thousands of feet above the water and others hidden beneath it, lying there concealed and ready to rip open the hulls of ships as the iceberg ripped the Titanic.

The extent of the Alaska coast, with its windings, surpasses that of the United States proper. It is greater than that of all our states on the Pacific from Puget sound to the boundary of Mexico, added to that of our states on the Atlantic, including the gulf. All told, it is more than 26,000 miles long, or longer than the distance around the world at the equator, and, in proportion to its length, it has perhaps more dangers than any other coast line on earth.

Nevertheless, not one-half of it has yet been sounded by the coast survey vessels and more than half of the general coast line is not marked by lights or by any aids to navigation.—Christian Herald.

LUMBER INDUSTRY SHOWS ON SCREEN.

Through the medium of the silent drama the lumber industry, one of the greatest of the many whose products pass through Los Angeles harbor, is being shown to the Los Angeles public. Exemplifying not only the magnitude of the industry but the rapid development of the harbor and of Los Angeles as a lumber market, the film is meeting with much praise. The Hammond Lumber Company made the 1200-ft. film, which is named "From Tree to Consumer." It starts with the virgin forests, shows the cutting of the graceful giants, and the various phases of manufacturing. Then is portrayed the loading of the lumber on board the big fleet of steamships built, owned and operated by the Hammond company, the entering of the craft into Los Angeles harbor and the unloading of the cargoes. Then the scene shifts to transportation of the lumber from the harbor yards to the business section of Los Angeles and to the Imperial country and Arizona. Finally is presented a view of the finished product, a Southern California bungalow of typical beauty.

WATER POWER IN THE UNITED STATES.

Revised figures of the potential water power resources of the country place them, says the report, at the minimum of 27,943,000 horse power and the maximum of 53,965,000, the minimum representing the amount of power that could be developed from the use of the average annual minimum stream flow for the lowest two consecutive seven-day periods of each year, while the maximum represents the amount that could be developed from the use of the average maximum continuous stream flow available for six months during the year. The national forests are stated to contain 30.4 per cent of this minimum and 31.3 per cent of the maximum, while over 72 per cent of the country's total is found in the mountain and Pacific states and 42 per cent in the three Pacific coast states. National forest water power amounts to 42 per cent of the minimum and 43 per cent of the maximum estimated power resources of the western states.—Report of the U. S. Department of Agriculture.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO—Apartment house, 6 story and base, steel and brick, \$100,000. Architects, Rousseau & Rousseau, 110 Sutter street. Owner's name withheld. Location, northwest Eddy and Hyde, covering an area of 75 by 57½ feet. Will contain garage on the first floor and 90 rooms arranged in suites of one, two and three rooms. Plans complete and figures to be called for shortly.

SAN FRANCISCO—Apartment house, 3 story and base, frame, \$22,500. Architect, J. P. Dunn, Monadnock Bldg., S. P. Owner, Mrs. Wilson. Location, Pine near Leavenworth. Will contain a number of two and three room apartments. Plans being prepared.

OAKLAND, CAL.—Apartment house, 3 story and base, frame, \$35,000. Architect, Chester H. Miller, First Savings Bank Bldg., Oakland. Owner's name withheld. Location, Head of Lake. Will contain seventy-five rooms arranged in suites of two and three rooms. Plans being prepared.

SAN MATEO, SAN MATEO CO., CAL.—Apartment house, 2 story and base, frame, \$10,000. Architect, Thomas M. Edwards, Bank Bldg., Burlingame. Owner, Mr. Canepa. Will contain a number of one, two and three room apartments. Plans complete and figures in. Contract to be awarded shortly.

MARTINEZ, CONTRA COSTA CO., CAL.—Apartment house, 3 story and base, frame, \$10,000. Architect, Chester H. Miller, Savings Bank Bldg., Oakland. Owner's name withheld. Will contain a total of 78 rooms arranged in suites of two and three rooms. Plans being prepared.

Location, M and Mariposa streets, covering an area of 120 by 56 feet. Will contain a total of 71 apartments of two and three rooms. Plans are being prepared.

SEATTLE, WASH.—Apartment house, 4 story and base, brick and steel. Cost not stated. Architect, W. R. Kelly, Leary Bldg., Seattle. Owners, Leopold Estate. Location, southeast 5th avenue and James street, covering an area of 60 by 120 feet. Will contain a number of two and three room suites. Plans complete and figures being taken.

BONDS.

OAKLAND, CAL.—The County Board of Supervisors has passed a resolution authorizing the District Attorney to prepare the necessary proceedings for the purpose of calling a special bond election to raise funds for the construction of a bridge over the estuary between Oakland and Alameda; also for the construction of a new county hospital building. It is thought that \$2,000,000 will be set for the issue.

PITTSBURG, CONTRA COSTA CO., CAL.—The Board of Trustees is contemplating a bond issue for street improvements, town hall and a police and fire alarm system. The town hall will cost \$25,000 and about \$10,000 is contemplated for street improvements. The bonding capacity of the city is estimated at \$175,000.

SACRAMENTO, CAL.—Seven bids were received for the purchase of \$1,750,000 state highway bonds held by Sacramento County. The bids were taken under advisement.

KLAMATH FALLS, ORE.—Bids are now being received for the purchase of bonds to finance the construction of a railroad 19.6 miles long, from Klamath Falls to a point near Dairy. Bids for the construction of the railroad are also being received.

LEWISTON, IDAHO—The voters of Lapwai Valley Highway District have authorized the issuance of \$150,000 in bonds for the construction of an automobile highway in that district and which will form a link in the Sunshine Highway that will extend from Nogales, Arizona to Marcus, Idaho.

CORNING, TEHAMA CO., CAL.—Corning residents will shortly ask the County Supervisors to call an election to vote bonds of \$120,000 to finance the construction of a bridge across the Sacramento River at Squaw Hill Landing.

MERCED, MERCED CO., CAL.—An election will be held shortly to vote on the selection of a site for the proposed \$150,000 high school building for which bonds have already been voted.

KITTITAS, WASH.—Bonds of \$5,000,000 have been voted for the construction of the proposed irrigation system near Ellensburg, Wash., for which Twoby Bros., Wells-Fargo Bldg., Portland, Ore., have agreed to take and carry on construction work.

SANDPOINT, IDAHO—An election will be held January 17th to vote bonds of \$90,000 for the construction of a high school.

WASHINGTON, YOLO CO., CAL.—January 10th is the date fixed to hold an election to vote bonds of \$30,000 for the construction of a new school building, plans for which have already been prepared by Architect Hemmings of Sacramento.

COLUSA, COLUSA CO., CAL.—The County Supervisors have sold the \$85,000 school bond issue and bids for the

erection of the structure will be called for immediately.

CHOWCHILLA, MADERA CO., CAL.—Bonds of \$50,000 sold by Rhythe-Witby Company are illegal owing to a slight technical defect and another election will probably be held. The bonds when sold will finance the construction of a new high school.

BRIDGES AND DAMS.

FRESNO, FRESNO CO., CAL.—Bridge, reinforced concrete and steel. Cost not stated. Engineer, County Surveyor, Fresno. Owners, Fresno County. Bids will be opened on January 10th at 2 p. m. for the reconstruction of Centerville bridge across Kings River, according to plans and specifications therefor.

Contract Awarded.

RICHMOND, CONTRA COSTA CO., CAL.—Sea wall, rock construction, \$22,000. Engineers, Hayland & Tibbitts, Alaska-Commercial Bldg., S. F. Owners, City of Richmond. Only two bids were received by the Richmond Council on Monday night for constructing a rock sea wall. Both bids were taken under advisement. The bids were as follows: Healy-Tibbitts Construction Co., S. F., \$22,000; Blake Bros., Oakland, \$25,000.

OAKLAND, CAL.—Bridge pile fenders, \$1,151. Engineer, County Surveyor, Oakland. Owners, Alameda County. Contractors, Hyde-Harjes Co., 110 Market street, S. P. Contract price, \$1,151.

RICHMOND, CONTRA COSTA CO., CAL.—Inner harbor fill, \$39,000. Engineers, Hayland & Tibbitts, Alaska-Commercial Bldg., S. F. Owners, City of Richmond. Contractors, Standard American Dredging Co., 414 12th street, Oakland. Contract price for 4,500 foot retaining wall, \$39,000.

HANFORD, KINGS CO., CAL.—Bridge construction, etc. Cost as follows. Engineer, County Surveyor, Hanford. Owners, Kings County. The following bids were received by the County Supervisors at their last meeting for the construction of a reinforced concrete bridge over the canal of the Lemoore Canal and Irrigation Co., S. G. Smartt—Item 1, A-class concrete, 12.40 cents per cubic yard; item 2, B-class concrete, 12.14 cents per cubic yard; item 3, reinforcing steel, 57 cents per pound; item 4, piling under footings, 80 cents per lineal foot. H. Erwin Walker—Item 1, A-class concrete, 15.28 cents per cubic yard; item 2, B-class concrete, 15.28 cents per cubic yard; item 3, reinforcing steel, 6 cents per pound; item 4, piling under footings, \$1.50 per lineal foot. Contract awarded to S. G. Smartt of Bakersfield.

MERCED, MERCED CO., CAL.—Bridge, reinforced concrete, \$1,700. Engineer, County Surveyor, Merced. Owners, Merced County. Contractors, Halverson & Gordo, Merced. Contract price, \$1,700.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO—Factory addition, 1 story, reinforced concrete. Cost not stated. Architect, Milton Lichtenstein, 111 Ellis street, S. F. Owners, S. and G. Gump Co. Location, Clay near Stockton. New addition will afford an additional 4,800 square feet of floor space. Plans complete and figures to be called for after the first of the year.

SAN FRANCISCO—Factory addition, steel and concrete, \$30,000. Engineer, N. M. Looney, New York City. Owners, American Can Co., Mills Bldg., S. F. Location, south 19th street and Treat avenue. Work will consist of driving 90-foot piles, concrete work, structural steel and concrete bases. Plans complete and figures being taken.

GALT, SACRAMENTO, CAL.—Factory group, 1 and 2 story, hollow tile, \$150,000. Architect E. C. Hemmings, Sacramento. Owners, Utah Condensed Milk Co., Richfield, Utah. The main building will be a two-story hollow tile structure facing the Southern Pacific tracks. There will also be two hollow tile cottages, each one story; a one-story hollow tile garage, a steel water tower with a tank of 25,000 gallons capacity, and a large concrete septic tank for the disposal of all refuse. Bids will be called for shortly after the first of the new year.

SACRAMENTO, CAL.—Factory, 1 story, hollow tile. Cost not stated. Architect E. C. Hemmings, Sacramento. Owners, Essex Lumber Co. Location, North Sacramento. Building has been designed for a pencil factory. Plans complete and figures to be called for at once.

IRRIGATION PROJECTS.

FRESNO, FRESNO CO., CAL.—Irrigation project. Cost as follows. Engineer, Louis C. Hill, Fresno. Owners, Associated Irrigation Districts. Plans prepared by Louis C. Hill, United States Consulting Engineer, have been approved by a committee of thirty land-owners, representing eight associated districts in the central part of San Joaquin Valley. The plans provide for a conservation dam at Pine Flat on the Kings River in Fresno County. A meeting will be held on January 3rd, when a report will be submitted on the cost of buying out the existing canal systems, with a view to consolidating all the territory depending on the Kings River. The proposed dam will cost \$9,000,000 and will give capacity to irrigate 400,000 more acres.

Contract Awarded.

WATERFORD, STANISLAUS CO., CAL.—Irrigation project. Cost as follows. Engineer, Chief Engineer, Waterford Irrigation District. Contracts for the construction of the last segment of the upper main canal of the Waterford Irrigation District, a section 2½ miles long and including a 2,200-foot tunnel 8 feet in diameter, have been awarded by the Waterford Board of Directors to James Willison of Redding at a total bid of \$29,420. The two Waterford contracts were considered separately, the canal portion proper calling for 45,000 cubic yards of open excavation, and the tunnel work including 9,569 cubic yards of portal excavation. Willison's bid on the open excavation was \$15,800, on the tunnel \$22,540. Hoskins & Bagley of Turlock submitted a bid of \$29,955 on the tunnel. Tieslaun Bros. of San Francisco asked \$23,490 for the open excavation alone. A. B. Cowden of San Francisco presented figures of \$35,220 for the tunnel, and \$16,470 for the open excavation. The Tibbets-Pacific Company of San Francisco bid \$26,560 on the tunnel, and \$18,660 on the canal portion. C. H. and A. J. Gorrill of San Francisco bid only on the tunnel work—\$22,270. The other parts of the main canal construction of the Waterford District were let November 15th to W. C. Price

& Co., San Francisco, who let the work this week.

HOLTVILLE, IMPERIAL CO., CAL.—Irrigation intake, \$150,000. Engineer, Grunsky & Anderson, 12 A. Owners, Holtville Irrigation District. Contractor, M. S. Goodbody, Holtville. Contract price, \$150,000.

KITTITAS, WASH.—Irrigation project, \$5,000,000. Engineer's name not given. Owners, Kittitas Irrigation District. Contractors, Twoby Bros., Portland and San Francisco. Contract price not stated.

LIBRARIES.

SACRAMENTO, CAL.—Library desks, etc. Cost not stated. Architect, Loring P. Rixford, Sharon Bldg., S. F. Owners, City of Sacramento. Bids will be opened on January 2nd at 11 a. m. for furnishing and delivering desks and chairs for the new City Library. Plans can be secured from the office of the City Clerk, Sacramento.

POST OFFICES.

BAKERSFIELD, KERN CO., CAL.—Post office, 2 story, brick and steel. Cost not stated. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids, which were to have been opened on December 21st for this work have been postponed until January 15th.

RICHFIELD, UTAH.—Post office, 1 and 2 story, brick and stone. Cost not stated. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$2,500 each. Architect, none. Owner, F. Nelson, 2701 Lincoln Way, S. F. Location, west 27th avenue south Lincoln Way. Each dwelling will contain six rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$7,000. Architect, Ernest Hildebrand, Crocker Bldg., S. F. Owner, Ernest Hildebrand. Location, 25th avenue near Geary. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, \$2,000 each. Architect, none. Owner, C. H. Harger, 672 Madrid street, S. F. Location, west Madrid south France. Each house will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 5, 2 story and base, frame, \$3,000 each. Architect, none. Owners Jacques Construction Co., 127 Montgomery street, S. F. Location, north Cabrillo west 21st avenue. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, \$1,000. Architect, C. O. Clausen, Hearst Bldg., S. F. Owner, E. V. Lacey. Location, east Pluto street Masonic. Will contain seven rooms, bath and basement garage. Plans complete and figures being taken.

SAN FRANCISCO—Residence, 2 story and base, frame, \$3,000. Architect, none. Owner, James Welsh, 543 18th avenue, S. F. Location, east 18th avenue north Balboa. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$7,500. Architect, August G. Headman Call Post Bldg., S. F. Owner, Mrs. E. White. Location, Claremont Court. Will contain eight rooms, two baths and sleeping porches. Separate garage. Plans complete and figures being taken.

ALAMEDA, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, G. H. Noble, 2220 Central avenue, Alameda. Location, 1518 Verdi. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, \$3,000.

Architect none. Owner, G. Taylor, 76 Pearl street, Oakland. Location, west Grand north Greenback. Will contain eight rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$2,500. Architect, none. Owner, C. J. Pirrang, 5187 Claremont avenue, Oakland. Location, north 19th street west Manila. Will contain five rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$2,500. Architect, none. Owner, W. S. Hurst, 5521 Taft avenue, Oakland. Location, south Wellington avenue near Everett. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 2 story and base, frame, \$1,000. Architect, none. Owner, James McGuinness, 5615 East 17th street Oakland. Location, south Lakeshore avenue east Lake Park. Will contain seven rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

PIEDMONT, ALABAMA CO., CAL.—Residences, 4, 2 story and base, frame, \$1,000 each. Architect, none. Owner, C. M. MacGregor, 470 13th street, Oakland. Location, south Mountain west Bernadara avenue. Each house will contain eight rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

SAN MATEO, SAN MATEO CO., CAL.—Residence 2 story and base, frame, \$8,000. Architect, Thomas M. Edwards, Bank Bldg., Burlingame. Owner, Mrs. D. F. Walker. Location, San Mateo Park. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans complete and figures to be called for at once.

PALO ALTO, SANTA CLARA CO., CAL.—Residence, 2 story and base, frame, \$10,000. Architect, Thomas M. Edwards, Bank Bldg., Burlingame. Owner, Mrs. Joseph Torber. Location, Palo Alto. Will contain twelve rooms, two baths and sleeping porches. Separate garage. Plans complete and figures being taken.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owners, Conn Bros., 6th and Macdonald avenue, Richmond. Location, Chanslor avenue between 12th and 14th. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residence, 1 story and base, frame, \$1,500. Architect, none. Owner, G. Taylor, 76 Pearl street, Oakland. Location, west 62nd avenue north Fortune. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, Cost not stated. Architects, Wood & Simpson, 116 Sutter street, S. F. Owner, Mrs. Clough. Location, Arlington avenue. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans complete and figures being taken.

ALBANY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, Mytie L.

Palmer, 311 Maybelle avenue, Oakland. Location, west Inyo north Marin. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, \$2,000. Architect, none. Owner, W. B. Phillips, 4919 Cypress avenue, Sacramento. Location, Boyle Tract. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

Contract Awarded.

VISALIA, TULARE CO., CAL.—Residence, 2 story and base, frame, \$14,000. Architect's name not given. Owner, Dr. T. O. McSwain. Contractor, W. J. Helwig, Forterville. Contract price, \$14,000.

SCHOOLS.

ENTERPRISE, ORE.—School, 2 story and base, brick, \$80,000. Architects, Tourtellotte & Hummel, Rothchild Bldg., Portland. Owners, City of Enterprise. Will contain 24 class rooms, a large auditorium and separate building to house the heating system. Plans are being prepared.

SEWERS, STREET WORK & WATER SYSTEMS.

MODESTO, STANISLAUS CO., CAL.—Street paving. Cost not stated. Engineer, City Engineer, Modesto. Owners, City of Modesto. At the last meeting of the Modesto City Council, City Engineer Freitas was instructed to prepare plans and specifications for the paving of Tenth street, between L and M streets, and L street, between Ninth and Tenth. Bids will be called for on completion of the plans.

HANFORD, KINGS CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Hanford. Owners, City of Hanford. By a vote of four to one the City Trustees overruled the protests of property owners and ordered bids received upto 5 p. m. January 3rd for the paving of more than 60 blocks of streets. The paving will be of the bitulithic type on concrete, according to plans prepared by Engineer Edward Lynch of Glendale. The Trustees agreed that Douty and Irwin streets should be paved from 8th street, where the paving now ends, to the county road, Harris and Reddington streets are to be paved from Sixth to Florida street. Seventh, Ninth and Tenth streets are to be paved to the Santa Fe Railroad.

BAKERSFIELD, KERN CO., CAL.—Highway construction. Cost not stated. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Plans and specifications of the Kern County highway have been accepted by the Board of Supervisors and bids will be received until January 9th. One road is Division 9, Section 5, on the Bakersfield-Glennville road; the other, Division 1 of the Delano-County Line highway. Plans may be had from the County Clerk.

OROVILLE, BUTTE CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Oroville. Owners, Butte County. Bids will be opened on January 5th at 2 p. m. for road work on the Oroville and Bangor road in Road District No. 2 in Butte County.

COLUSA, COLUSA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Colusa. Owners, City of Colusa. Bids will be opened on January 2nd for street improvement authorized under the following resolution: That portions of Oak street and Parkhill be graded to the official grade and graveled.

REDWOOD CITY, SAN MATEO CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. The Board of Supervisors of San Mateo County received a number of bids on December 18th for road improvement, but the bids were not opened. The reason given is that the bids were received at 5 o'clock and that the Board was not in session at that time. The bids will not be returned, but will be held until the next session of the Board on January 2nd, and then opened.

SANTA ROSA, SONOMA CO., CAL.—Road construction. Cost not stated. Engineer, County Surveyor, Santa Rosa. Owners, Sonoma County. Bids will be opened on December 30th for the construction of a road between Cazadero and the mouth of Austin Creek, in Austin Permanent Road Division, in Sonoma County.

PORTLAND, ORE.—Sewer construction, \$309,312.15. Engineer, City Engineer, Portland. Owners, City of Portland. The bid of Gebisch & Joplin of Portland for the reconstruction and repair of the Tanner Creek sewer has been rejected by the City Council and new bids have been ordered called to close January 3rd. Their bid for the work was \$29,312.15. Only one other bid was submitted.

BERKELEY, ALAMEDA CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Berkeley. Owners, City of Berkeley. Bids will be opened on January 2nd at 10 a. m. for street improvements authorized under the following resolution: That the northern half of Snyder avenue, from a line parallel to the western line of 7th street, and distant 101 feet westerly therefrom westerly 139 feet, be graded; that a concrete curb with a combined 3-foot gutter be constructed along the curb line adjacent to the roadway thereof; that the remainder of the roadway be macadamized and surfaced with oil and rock screenings.

SAN RAFAEL, MARIN CO., CAL.—Road improvement. Cost not stated. Engineer, County Surveyor, San Rafael. Owners, Marin County. Bids will be opened on January 9th at 2 p. m. for locking, blasting off outcrops, ditching and clearing that portion of the county road known as the Fairfax and Bolinas road, from the bridge at "Alpine" to the southwest boundary line of Road District No. 3, a distance of three miles, all in Road District No. 9.

SANTA ROSA, SONOMA CO., CAL.—Road scarifier. Cost not stated. Engineer, none. Owners, City of Santa Rosa. Bids will be opened on January 2nd for furnishing a scarifier. Plans can be secured from City Clerk H. B. Snyder.

Contracts Awarded.

WETMORE, Acting Supervising Architect. (*)

LAND CORPORATION FORMED.

MARTINEZ, Cal.—Six Contra Costa land companies, most of which are located at Richmond, have been merged into a \$1,000,000 land corporation by Benjamin Schapiro of Richmond. They include the Martinez Land Company, East Richmond Land Company, Downer Land Company, Schapiro Land Company, Queen Land Company and San Pablo Land Company.

Officers of the new concern are B. Schapiro, R. R. Veale, J. E. Bouquet, F. E. Cascioni, H. A. Johnston, E. M. Downer and E. B. Armstrong.

The concern will have its principal place of business at Richmond.

CORPORATION NEWS.

Commissioner of Corporations H. L. Carnahan has granted a permit to the Imperial Cotton Machinery Company authorizing it to issue \$150,000 par value of its common stock to Thomas R. Gabel and Hall H. Holdaway in exchange for an invention relating to a cotton picking machine operated by a gasoline engine and United States letters patent thereon, for which an application is now pending in the United States Patent Office, and \$49,995 par value of its preferred shares for cash, or in installments. The permit has full recitals relating to the company's pending application for letters patent and requires that all shares issued to Gabel and Holdaway shall be deposited in escrow until the further order of the Commissioner.

Newport Glass Company has been permitted by Commissioner Carnahan to issue \$20,000 par value of its common shares to C. E. Norton in exchange for all the property and assets formerly owned by the Branigan Glass Manufacturing Co., now bankrupt, to sell \$10,000 par value of its common shares to C. E. Norton at \$5 per share, for cash, and thereafter to sell \$20,000 par value of its preferred shares at \$8.50 per share. All shares issued in exchange for the assets of the Branigan Company are required to be deposited in escrow until the further order of the Commissioner.

United Grizzly Ridge Mining Company has been permitted to issue \$75,000 of its shares at the par value of 25c per share, for cash. The mining property of this company is located in the Columbia Hill Mining District of Nevada County and consists of a group of nine unpatented quartz mining claims.

Lichtenberger-Ferguson Company, Los Angeles, is permitted to sell and issue 2495 shares to Los Angeles Sundry & Finding Company in exchange for its property and assets.

ENGINEER SEEKS GREATER POWER

Annual Report Makes Suggestions Concerning Dam Construction.

SACRAMENTO, Cal.—Changes in the law to extend the state's power and give it broader supervision for the protection of the public, over the construction of power and irrigation dams, are included in recommendations made by the state department of engineering in its biennial report. The suggestion is made that the power of the state engineer be increased so that his decision will be binding with regard to plans for the formation of irrigation districts.

State Engineer W. S. McClure also recommends in the report that the act creating the Sierra State road in Sierra county be repealed because the road construction and upkeep there, owing to their impracticability, are liabilities and not assets to the state. With regard to dam construction, the report says:

It should be made unlawful to erect a dam unless the plans therefor be approved by the department of engineering, or to maintain a dam that is found defective or dangerous, until measures satisfactory to the department have been taken to make it safe.

Authority to keep representatives of the department doing construction or repairs affecting safety is asked. Whether a project be submitted to a state reclamation board, flood control commission or other body, all engineering service required by the state in connection with it should be done by the department of engineering, according to McClure.

Other recommendations are a law permitting consolidation of irrigation districts and an appropriation of \$10,000 to enable the department to make measurements and studies of snow storage.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO.

RESIDENCE—2 story and base, frame, \$11,000. San Francisco. Architect, H. H. Gutterson, 278 Post street, S. F. Owners, St. Francis Home Building Co. Location, east Santa Clara north San Anselmo. Will contain ten rooms, three baths and separate garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$8,000. San Francisco. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owner, J. J. Guill. Location, Kensington Drive, Claremont Court. Will contain eight rooms, two baths and separate garage. Plans complete and figures being taken.

RESIDENCE—2 story and base, frame, \$5,000. San Francisco. Architect, Ernest Hildebrand, Crocker Bldg., S. F. Owner, Ernest Hildebrand. Location, 25th avenue and Geary. Will contain seven rooms, bath and basement garage. Plans being prepared and work to be done by Day Labor.

RESIDENCES—2, 2 story and base, frame, \$2,500 each. San Francisco. Architect, none. Owner, F. Nelson, 2701 Lincoln Way, S. F. Location, west 27th avenue south Lincoln Way. Each dwelling will contain six rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$7,000. San Francisco. Architect, Ernest Hildebrand, Crocker Bldg., S. F. Owner, Ernest Hildebrand. Location, 25th avenue near Geary. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCES—2, 2 story and base, frame, \$2,000 each. San Francisco. Architect, none. Owner, C. H. Harger, 672 Madrid street, S. F. Location, west Madrid south France. Each house will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCES—3, 2 story and base, frame, \$3,000 each. San Francisco. Architect, none. Owners, Jacques Construction Co., 127 Montgomery street, S. F. Location, north Cabrillo west 21st avenue. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, \$4,000. San Francisco. Architect, C. O. Clausen, Hearst Bldg., S. F. Owner, E. V. Lacey. Location, east Pluto south Masonic. Will contain seven rooms bath and basement garage. Plans complete and figures being taken.

RESIDENCE—2 story and base, frame, \$3,000. San Francisco. Architect, none. Owner, James Welsh, 543 18th avenue, S. F. Location, east 18th avenue north Balboa. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

APARTMENT HOUSE—6 story and base, steel and brick, \$100,000. San

Francisco. Architects, Rousson & Rousson, 110 Sutter street, S. F. Owner's name withheld. Location, north west Eddy and Hyde, covering an area of 75 by 57½ feet. Will contain garage on the first floor and 30 rooms arranged in suites of one, two and three rooms. Plans complete and figures to be called for shortly.

Are Two Wheels of Your Truck Loafing?

If the front wheels of your truck are merely carrying part of the load, they're loafing.

They should be pulling. Because when the rear wheels do all the work they wear out tires faster than they should. They strain the truck and shorten its life. They consume too much gasoline and oil. They don't start and stop quickly.

That's why in keenest competition in the European war zone, and with our U. S. troops in Mexico, and again among the big trucking fleets of our largest corporations—**THE CLINTONVILLE.**

F W D

is showing big savings from regularity and dependability of service; from untiring endurance that other trucks can't have—because they're not FOUR WHEEL DRIVE.

On the F-W-D Truck every wheel is a Driving Wheel. The strains and stresses are divided and distributed. Road blows and resistance can't hit hard at any one point. **So the F-W-D lasts years longer.** The F-W-D eliminates minor and major breakdowns that lose time and minimize your profits. The F-W-D keeps ON the road and OUT of the repair shop.

The F-W-D saves 20 to 25 per cent of gasoline and oil money. It reduces first cost of tires one-third. It doubles tire mileage. It starts quickly—stops quickly. Breaks on four wheels as well as drives on four wheels. It saves time and avoids accidents. Phone for demonstrations.

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA.

STREET PAVING—Cost not stated. Modesto, Stanislaus Co., Cal. Engineer, City Engineer, Modesto. Owners, City of Modesto. At the last meeting of the Modesto City Council, City Engineer Freitas was instructed to prepare plans and specifications for the paving of Tenth street, between L and M streets, and L street, between Ninth and Tenth. Bids will be called for on completion of plans.

STREET IMPROVEMENTS—Cost not stated. Hanford, Kings Co., Cal. Engineer, City Engineer, Hanford. Owners, City of Hanford. By a vote of four to one the City Trustees overruled the protests of property owners and ordered bids received up to 5 p. m., January 2nd, for the paving of more than 60 blocks of streets. The paving will be of the bituminous type on concrete, according to plans prepared by Engineer Edward Lynch of Glendale. The Trustees agreed that Douy and Irwin streets should be paved from 8th St., where the paving now ends, to the county road. Harris and Reddington streets are to be paved from Sixth to Florida street. Seventh, Ninth and Tenth streets are to be paved to the Santa Fe Railroad.

HIGHWAY CONSTRUCTION—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Plans and specifications of the Kern County highway have been accepted by the Board of Supervisors and bids will be received until January 9th. One road is Division 3, Section 5, on the Bakersfield-Glenview road, the other, Division 1 of the Delano-County Line highway. Plans may be had from the County Clerk.

IRRIGATION PROJECT—Cost as follows. Fresno, Fresno Co., Cal. Engineer, Louis C. Hill, Fresno. Owners, Associated Irrigation Districts. Plans prepared by Louis C. Hill, United States Consulting Engineer, have been approved by a committee of 20 land owners, representing eight associated districts in the central part of San Joaquin Valley. The plans provide for a conservation dam at Pine Flat on the Kings River in Fresno County. A meeting will be held on January 3rd, when a report will be submitted on the cost of buying out the existing canal systems, with a view to consolidating all the territory depending on the Kings River. The proposed dam will cost \$9,000,000 and will give capacity to irrigate 100,000 more acres.

APARTMENT HOUSE—10 story and base. Class A construction, \$100,000. Fresno, Fresno Co., Cal. Architect, Eugene A. Mathewson, Cory Bldg., Fresno. Owner, S. N. Griffith, Location, M and Mariposa streets, covering an area of 120 by 56 feet. Will contain a total of 71 apartments of two and three rooms. Plans are being prepared.

BRIDGE—Reinforced concrete and steel. Cost not stated. Fresno, Fresno Co., Cal. Engineer, County Surveyor, Fresno. Owners, Fresno County. Bids will be opened on January 10th at 2 p. m. for the reconstruction of Centerville bridge, across Kings River, according to plans and specifications therof.

FACTORY—1 story and base, brick, \$16,000. Lemoore, Kings Co., Cal. Architects, Swartz & Swartz, Rowell Bldg., Fresno. Owners, Kings County Creamery. Will contain office, shipping room and factory. Plans are being prepared.

SANITARIUM—5 story and base, reinforced concrete. Cost not stated. Fresno, Fresno Co., Cal. Architects, B. J. Kraft & Sons, Phelps Bldg., S. F., associated with Architect R. F. Feldlin, Rowell Bldg., Fresno. Owners, Barnett Sanitarium Co. Will contain a number of private rooms, office, sun rooms and operating room. Plans complete and in the hands of Architect Feldlin, who is now taking figures.

POST OFFICE—2 story, brick and steel. Bakersfield, Kern Co., Cal. Architect, Supervising Architect, Washington, D. C. Owners, United States Government. Bids, which were to have been opened on December 21st for this work, have been postponed until January 15th.

Contract Awarded.

RESIDENCE—2 story and base, frame, \$11,000. Visalia, Tulare Co., Cal. Architect's name not given. Owner, Dr. T. O. McSwain. Contractor W. J. Helwig, Porterville. Contract price, \$11,000.

IRRIGATION PROJECT—Cost as follows. Waterford, Stanislaus Co., Cal. Engineer, Chief Engineer, Waterford.

Owner, Waterford Irrigation District. Contracts for the construction of the last segment of the upper main canal of the Waterford Irrigation District, a section 2½ miles long and including a 2,200 foot tunnel 8 feet in diameter, has been awarded by the Waterford Board of Directors to James Willison of Redding, at a total bid of \$39,429. The two Waterford contracts were considered separately, the canal portion proper calling for 15,000 cubic yards of open excavation, and the tunnel work including 9,800 cubic yards of portal excavation. Willison's bid on the open excavations was \$15,800, on the tunnel, \$23,510. Hoskins & Bagley of Tullock submitted a bid of \$29,955 on the tunnel. Tiesla Bros. of San Francisco asked \$23,490 for the open excavation alone. A. B. Cowden of San Francisco presented figures of \$35,220 for the tunnel and \$16,170 for the open excavation. The Tibbetts-Pacific Company of San Francisco bid \$26,560 on the tunnel and \$18,660 on the canal portion. C. H. and A. J. Gorrill of San Francisco bid only on the tunnel work—\$23,270. The other parts of the main canal construction of the Waterford District were let November 15th to W. C. Price & Co., San Francisco, who started the work this week.

BRIDGE CONSTRUCTION, ETC.—Cost as follows. Hanford, Kings Co., Cal. Engineer, County Surveyor, Hanford. Owners, Kings County. The following bids were received by the County Supervisors at their last meeting for the construction of a reinforced concrete bridge over the canal of the Lemoore Canal and Irrigation Co.: S. G. Smartt item 1, A-class concrete, 12.84 cents per cubic yard; item 2, B-class concrete, 12.44 cents per cubic yard; item 3, reinforcing steel, 5¼ cents per pound; item 4, piling under footings, 80 cents per linear foot. H. Erwin Walker: Item 1, A-class concrete, 15.28 cents per cubic yard; item 2, B-class concrete, 15.25 cents per cubic yard; item 3, reinforcing steel, 5 cents per pound; item 4, piling under footings, \$1.50 per linear foot. Contract awarded to S. G. Smartt of Bakersfield.

BRIDGE—Reinforced concrete, \$1,700. Merced, Merced Co., Cal. Engineer, County Surveyor, Merced. Owners, Merced County. Contractors, Halverson & Gordo, Merced. Contract price, \$1,700.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA.

ROAD CONSTRUCTION—Cost not stated. Oroville, Butte Co., Cal. Engineer, County Surveyor, Oroville. Owners, Butte County. Bids will be opened on January 5th at 2 p. m. for road work on the Oroville and Bangor road in Road District No. 3 in Butte County.

STREET IMPROVEMENTS—Cost not stated. Colusa, Colusa Co., Cal. Engineer, City Engineer, Colusa. Owners, City of Colusa. Bids will be opened on January 2nd for street improvement authorized under the following resolution: That portions of Oak street and Parkhill be graded to the official grade and gravelled.

STREET IMPROVEMENTS—Cost as follows. Yuba City, Sutter Co., Cal. Engineer, City Engineer, Yuba City. Owners, Yuba City. Bids received by the Town Trustees at their last meeting for constructing curbing and gut-

ters on Plumas street, from Bridge to B street, and the contract awarded to I. N. Rodefer of Yuba City. His bid was the lowest at 31 cents per linear foot. There is approximately 2,411 linear feet of curbs and gutters. There were two other bids. G. M. Baumgardner of Yuba City bid 29 cents per linear foot, and Periano & Curry of Marysville 45 cents per linear foot. The three bids submitted were on the agreement that the city would furnish the sand and gravel and the contractor the cement.

RESIDENCE—1 story and base, frame, \$2,000. Sacramento, Cal. Architect, none. Owner, W. B. Phillips, 4019 Cypress avenue, Sacramento. Location, Boyle Tract. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FACTORY GROUP—1 and 2 story, hollow tile, \$150,000. Galt, Sacramento Co., Cal. Architect, E. C. Hemmings, Sacramento. Owners, Utah Condensed Milk Co., Richfield, Utah. The main building will be a two-story hollow tile structure facing the Southern Pacific tracks. There will also be two hollow tile cottages, each one story; a one story hollow tile garage, a steel water tower with a tank of 25,000 gallons capacity and a large concrete septic tank for the disposal of all refuse. Bids will be called for shortly after the first of the new year.

FACTORY—1 story, hollow tile. Cost not stated. Sacramento, Cal. Architect, E. C. Hemmings, Sacramento. Owners, Essex Lumber Co. Location, North Sacramento. Building has been designed for a pencil factory. Plans complete and figures to be called for at once.

GARAGE—4 story and base, reinforced concrete, \$50,000. Seattle, Wash. Architect, V. W. Voorhees, Eitel Bldg., Seattle. Owner, Frank W. Palmer. Location, 11th avenue and Pike, covering an area of 60 by 120 feet. Designed for a commercial garage with offices and sales rooms. Plans complete and figures being taken.

Contract Awarded.

IRRIGATION PROJECT—\$6,000,000. Kittitas, Wash. Engineer's name not given. Owners, Kittitas Irrigation District. Contractors, Twoby Bros., Portland and San Francisco. Contract price not stated.

CHIMNEY 567 FEET HIGH BEING BUILT.

TOKIO, Japan—Japan will have the tallest chimney in the world. Down on the east coast of Kyushu in the little village of Saginasaki, 15 miles from Beppu, the great stack which when completed will be twelve feet higher than the Washington monument, is gradually being built under the superintendence of American engineers, and when finished will reach 567 feet up in the sky.

MILK DEPOT IN CHICO.

CHICO, Cal.—The Milk Company, recently organized by E. P. Truxell, W. W. Deter and W. J. Condon, are planning to erect a \$10,000 milk depot in Chico to handle their trade here and to house a \$2500 pasteurizing plant.

Other dairymen are looking forward to more modern methods of handling the milk supply for the consumers and W. S. Murdoch and P. R. Forrester, proprietors of the Rose Dairy, have left for Davis Farm School, where they will inspect the modern equipment with a view to purchasing similar machinery for their plant.

POSTPONE BIDS FOR BAKERSFIELD P. O.

January 15th is New Date for Opening Bids for Post Office at Bakersfield, California.

(By Special Wire)

WASHINGTON, D. C., December 21st, 1916.—An official notification was authorized this afternoon by the Treasury Department postponing opening of bids for the construction of the Bakersfield, Cal., federal building until January 15th at 3 P. M. These figures were to have been opened December 21st.

FOREST NOTES.

The Forest Service has completed a report on American woods available for export. This report has been furnished to American consuls abroad and prospective foreign purchasers of American lumber. It contains a list of approximately 700 firms which supplied the Forest Service with information about the kind of woods available for export and the form in which the product is exported including dimensions of stock and the port from which shipment may be made.

The wood-waste exchange established by the Forest Service for the purpose of aiding wood-using establishments in the closer utilization of wood waste has developed rapidly this year. The co-operators now number over five hundred, many of whom reported successful purchases or sales of wood waste through the medium of the exchange.

Forest Service investigations show that \$750,000 to a million dollars worth of dye from osage-orange wood is manufactured in the United States annually, and practically all from material which was formerly wasted.

About twelve per cent of the volume of the ordinary tree is bark, and little use has therefore been made of bark except as a source of tanning extract. Recent investigations by the Forest Service resulted in the development of a process by which spent tanbark can be profitably used in the manufacture of asphalt shingles, thereby increasing the value of this bark from 60 cents to \$2.50 per ton.

GEOLOGICAL SURVEY HAS WIDE SCOPE OF ACTIVITIES.

One of the results of the work of the Geological Survey, Department of the Interior, that is prominently before the public is seen in the topographical maps issued by the Survey. Large areas of the country have been mapped, including some entire States and aggregating nearly half of the United States exclusive of Alaska, much of which has also been surveyed, and the Geological Survey has now published over 2,500 separate topographic maps. These maps are being much more generally used than formerly, as their value for many purposes is coming to be recognized. For instance, the automobilists, who are purchasing thousands of maps annually, find them valuable in tracing road routes, and now aviators who are making long-distance flights are using them. During the last fiscal year, according to the Thirty-Seventh Annual Report of the Director of the Geological Survey, there was an increase in the sales of these maps amounting to 17 per cent. The distribution during five months of the present fiscal year indicates that this percentage of increase will be much exceeded, the demand for topographic maps by citizens of all classes being far greater than ever before.

The topographic surveys made during the year covered 22,716 square miles, more than the total area of Massachusetts, Connecticut, and New Hampshire. In addition, areas amounting to 10,412 square miles were topographically surveyed in Alaska.

The Geological Survey also made geologic surveys, both detailed and reconnaissance, covering 42,662 square miles in 17 States, the Canal Zone, and the West Indies, and an additional 10,900 square miles in Alaska.

The investigation of water resources is one of the important activities of the Geological Survey. The volume of streams was measured during the year by hydraulic engineers at 1,677 stations in 39 States, Alaska, and Hawaii.

The Geological Survey classified during the year 43,000 acres of public land as to its mineral character and 158,900 acres as to its value for power sites or public water reserves—springs or water holes. It also classified 27,354,442 acres in the Western States as non-irrigable and subject for designation under the enlarged-homestead laws.

The scientific and economic reports of the Geological Survey for the year aggregated nearly 20,000 printed pages and over 603,000 copies of these and other reports were distributed, besides

HARDWOODS — VENEERS

No matter what kind of Hardwoods Flooring or Panels you may require, nor what quantity of each you may need for immediate delivery, you can depend upon WHITE BROTHERS to supply you promptly.

We carry the largest stock of HARDWOODS and WYBRO PANELS in the West.

Ask for our stock lists—free on request.

For over forty-four years we have featured service and promptness coupled with fair prices as our standard. We have the quantity and the variety on hand for immediate delivery.

If you do not deal with us, we both lose.

SACRAMENTO OFFICE
ROSS E PIERCE - Manager
905 SIXTH STREET

620,000 copies of geologic folios and topographic maps.

The Geological Survey is coming to be recognized more and more as a clearing house of information on the mineral resources of the United States. During the year correspondence was carried on with 92,000 mineral producers, including some in every State, and thousands of letters were written to the general public, covering every conceivable question concerning minerals and mineral products.

SHIPBUILDING DOUBLED.

Merchant shipbuilding in the United States in the first 11 months of this year more than doubled in tonnage the whole of last year's output. The Bureau of Navigation announced that 1,115 vessels have been turned out with a gross tonnage of 521,711. All but 49 were for the American flag.

Domestic wooden vessels numbered 936 with a tonnage of 127,276 and steel 120, with a tonnage of 361,170.

The Atlantic and Gulf trade took 546 vessels, the Pacific trade 262, Great Lakes 114, Western rivers 143.

There are now building or are under contract to build, vessels which aggregate tonnage of 1,200,000, the largest total ever recorded in the history of the United States.

NEW SUGAR WAREHOUSE.

OXNARD, Cal.—The American Beet Sugar Company will build a new sugar warehouse at the Oxnard factory. The building will be of brick and steel with concrete roof and will cost \$60,000.
